Void Pirates

by Diversions Software

This demo requires VBRUN300.DLL, and is not distributed with it due to file size, and the fact that many people already have this file on their system, and don't need to download (and pay for it) again.

VBRUN300.DLL is available from most online services and bulletin boards.

Thank you for taking a look at the Void Pirates Demo, we hope you enjoy it.

This Demo is but a small sample of things to come this summer. Video was not included with the demo due to file size, and system configurations.

2135 AD Lundy Outpost : Europa Colony

Recently unemployed, you accept a cargo run into the asteroid belt... The pay is good, a little too good... But you need the money.

The job goes wrong... a simple pickup turns into 24 innocent dead... Who set you up? Why? Hours later, there is a bounty on your head and your crew's. Thrust into a career you never thought of... Nowhere to turn, but into the Void...

VOID PIRATES

by Diversions Software

Hair raising strafing runs on hapless frieghters! Disable them, and pillage them with remote piloted drones...

Steal credits and equipment to sell and trade to finance your exploits, enabling you to discover the secret of your former employer.

Fend off the authorities from the gun turrets... Can you keep them at bay until the jump drives come online?

Can you discover the secret to the cargo shipments to the outer planets?

Void Pirates includes:

» An hour of live action digital video. Interact with the crew of your ship.

- » Over 400 MB of animations and richly detailed environments.
- » Original music score.
- » More action than an "interactive movie".

Strategy, Simulation, Mystery, Action and Intrigue all rolled into the hottest CD available this year!

Coming this Summer
