Perfect

MAKE ALL YOUR CREATIONS PICTURE PERFECT!
From Wood River Gallery

Congratulations! You have purchased the finest quality importable images available anywhere. All were designed and illustrated by professional artists working in a variety of artistic media, including oil paints, pen and ink, water color, acrylic and more. Originally collected at the specific request of professional designers, graphic artists and advertising executives, these timeless images are now available to you, royalty-free, to use in all your creative projects.

As you browse through the 100 timeless illustrations provided on this disc, you may recognize some striking images you've seen on best-selling greeting cards, calendars, posters and publications. It's no coincidence. Wood River Gallery's long list of prestigious clients includes Hallmark Cards, Gibson Greetings, Landmark Calendars, Portal Publications and Walden Books.

Making your own picture perfect creations is easy.

Now you can add these classic Pictures NOW!™ illustrations to your fax cover page, create your own four-color letterhead, add graphics to your favorite calendar program, design your own personalized greeting cards, make attention-getting posters, name tags, banners, newsletters, calendars, brochures and much more. All you need is one Pictures NOW! disc (or several), your PC or Macintosh, an application that can import pictures, and a printer.

Just follow the simple instructions on the next few pages to browse through the images on your Pictures NOW! disc, using the Kudo® image browser included on the disc. Select the pictures you like, and import them into your favorite application. Once placed in your document the way you like it, just print as you would normally.

All pictures are available in two formats (PICT and TIFF) for easy inclusion with many of the applications you use now. Both file types are stored in the folder named CONTENT. Windows™ users will find TIFF files. Macintosh® users will find both PICT and TIFF files. PICT files are inside the folder with the full subject name, e.g. Animals. TIFF files are inside the folder with the abbreviated subject name, e.g. ANIMLS.

INSTRUCTIONS FOR WINDOWS USERS

Start Up.

1. Insert the CD-ROM disc into your ROM drive (using a disc caddy if appropriate).
2. Select RUN from the File Menu.
3. Type the following into the Command Line: "d:winstall" if "d" is the designation of your CD-ROM drive. Type "e:winstall" if "e" is the designation of your CD-ROM drive. Kudo will install itself on your hard disk, usually c drive.
4. Restart your computer when prompted to do so.

As part of the installation process, Kudo creates a new group and an icon which will start Kudo and allow you to view the different pictures from your CD ROM as "thumbnails" (small versions) of the actual picture.

Browsing with Kudo.

To search Pictures NOW! for the images you want to use, double-click the Pictures NOW! icon. You will see a catalog window with thumbnail images on your monitor.

Use the three "View" buttons at the top left of the catalog window to select the view you prefer.

Small Gallery View, the left-hand view button, shows many images at once at 1/4 their normal size, but with no file details. Click the "Info" button at the top of the screen for more information on any selected thumbnail.

The Gallery View, the center view button, uses a grid-style layout showing several thumbnails and their file type. Click the "Info" button for more information.

List View, the right-hand view button, uses a vertical layout with fewer thumbnails in the window, but offers more information about each file.

You can scroll through the images grouped by subject on the disc, or search for specific images.

To find groups or sets of images by type or subject, use the "Find" button, top left of the catalog window. Select "Keywords" from the first pull-down menu in the Find dialog box. Type the subject or word you wish to search for in the right-

hand text field, then click "Find." The thumbnail images containing your keyword will appear in the window. If no matches are found, try another keyword.

You may also sort images using the other search options offered in the pull-down menus. A printed Picture Index is included in each package to make your image selection easier.

To preview any image click once on its thumbnail, then choose "Preview" from the Image pull-down menu. Kudo will find the actual image and display it in a full-sized window. Check the "Better Colors" box to view a more detailed image on 256 color monitors. Click the "Close Window" box in the upper left corner of the window to exit the preview utility.

Importing Pictures NOW!™ images into your favorite programs.

The following procedure will work with most Windows applications which are OLE 2.0 compliant. If the import procedures described here do not work with your application, skip ahead for application-specific instructions.

1. Start Kudo by double-clicking the appropriate icon in the Kudo Image Catalog group.
2. Choose the thumbnail that you wish to copy into another application.
3. From the Kudo Image Catalog pull-down menus, select "Edit."
4. Select "Copy Thumbnail."
5. Start or select the application you wish to copy the picture into, and position the insertion point at the place you wish to have the picture appear.
6. Select "Edit." Select "Paste." A full-size copy of the picture will appear in the desired location.

Windows Applications - Specific Import Procedures.

If the application you are using is not listed here, check the index of your application documentation for "importing" and/or "pictures" and follow the instructions in the manual provided with the software .

Calendar Creator Plus™-Softkey International, Inc.®

To include a picture in your calendar use Power Album:
Select "Picture," then select "Add to Album."

Select your CD-ROM drive (usually D: or E:).
Choose the picture(s) you want to include.
Click OK.

Select the category in which you wish to file your pictures. These will become part of your Power Album Gallery and will be accessible through Calendar Creator.

Microsoft Scenes™-Microsoft Corporation®

Select "Scenes Wizard."

Select "Create a Collection Wizard."

Type in a name and click "Next" and the "Add a Scene" dialogue box appears.

Select your CD ROM drive (usually D: or E:).

Open the CONTENT Folder. Open Folder with subject name (e.g. ANIMLS).

Choose the desired image(s) from filename list.

Select either "ADD" or "ADD ALL." The picture(s) will be imported in the same order as they were selected.

You may check the Preview to see a preview of the picture.

When finished selecting pictures, select "Done" and then select "CLOSE."

Pictures NOW! images are now available as WALLPAPER or SCREEN SAVER illustrations.

WOOD RIVER GALLERY

Wood River Gallery is a leading publisher of digitized illustration and artwork. The collection was begun in 1991 to provide the professional market with a wide variety of top-quality illustrative imagery, and grew quickly from a few hundred original images to nearly one million. These remarkably contemporary and beautifully colored images from popular media and fine art were produced by more than 50,000 artists.

Known in professional design circles for producing clean, reproducible and visually appealing illustrations, Wood River's client/licensees include Hallmark Cards, Gibson Greetings, Landmark Calendars and hundreds more. If you would like to use a professional, high-resolution reproduction of any Pictures NOW!™ image in a commercial project, please call us for pricing and a selection of additional images in your subject area.
