Like what you see?  Great!  Be sure to try our other programs for GT Power
v15.00 through v16.00:

DoorWorks - DoorWorks is the only tool a sysop  needs to get started with a
     wide variety  of doors on  a GT Power  BBS system. Supporting  versions
     15.00 through  16.00 of GT  Power, DoorWorks is  truly a self-contained
     system that  guarantees easy setup  and use  and  is a must  for any GT
     Power BBS that runs (or wants to run) door programs. The ability to run
     Wildcat, PCBoard, QuickBBS, DOORWAY,  RBBS, GAP and others doors is all
     contained in one program -- DoorWorks.

PowerNews - The ultimate in news file management.  Built in full screen
            editor with mouse support.  Allows colorization of ASCII
            files.  Has built in viewer and is a first rate production
            with a great user interface.  Colors are fully configurable.
            Make GTBULLET, BULLET files (security specific) and more!
            (PNEWSxxx.ZIP)  v2.50 is the latest.

GTAccess  - Questionnaire manager that allows personalized messages to
            be sent to the user, along with informative messages sent to
            you, the sysop.  Lots of other goodies are included!
            (GTACSxxx.ZIP)  v1.22 is the latest.

Tracker   - Great logon utility that tracks callers, users, and mail.
            Gives caller logging for the current day and day before with
            weekly reports on board usage.
            (TRACxxx.ZIP)  v1.53 is the latest.

InfoMaster- Utility that graphically shows you a users statistics.
            Great for seeing who is on during download!  (IMASTxxx.ZIP)
            v1.41 is the latest.

DropUser  - Utility that drops users from the board and picks up the
            phone until the BBS is ready for the next caller.  Great for
            any BBS system.  GT BBS's can run it in the GTLOGOFF.BAT file(s).
            v1.01 is the latest.

LDTotals - Utility that analyzes your GTNET.LOG file to estimate long
           distance costs -- GT.LOG too!  v1.20 is the latest.

(xxx) denotes a varying version number.

Call our support BBS (The Rising Connection) at 615-531-8789.  We have
9600 baud capabilities with a HAYES ULTRA 9600/V.32 online 24 hrs a day!

Send $5.00 to the address below to receive a disk full of the latest
releases.  Please specify either 5.25- or 3.5-inch disk size.
