

# CallOut 1.21a Upgrade Information for Registered Users

Version 1.21a of CallOut is available free of charge to registered users of earlier versions. Licenses already granted are transferred automatically to version 1.21a *provided you discontinue use of any earlier version*. The personal registration details already provided to you can be used with version 1.21a without change.

The new facilities offered by version 1.21a are summarised in the accompanying file HISTORY.TXT and covered comprehensively by the online help. Should you wish, however, to obtain an update of the user manual and a diskette of this version please complete the Upgrade Order Form below. There is a charge of £ 5.00 pounds sterling to cover diskette and manual production and handling costs.

Fill in the details on the order form and forward it to CoCo Systems Ltd. by one of the following means:
