

## **Control**

### **Control Keys** (for keyboard use)

To change the keys to be used, click on the appropriate key then press the desired replacement.

### **Control Method**

Select Keyboard or Joystick.

### **Animation Control**

Choose which animation sequences are to be played. You can also choose to play animations full screen or in a window. On some systems the latter choice gives better performance.

Click on Back to return to the main Control Screen.
