

You can change the appearance of the **Color Palette** in a number of ways.

1. Click the Color Palette tab in the Customize dialog box, then do one of the following:
 - ◆ Enable the Use 3D Wells check box to display color swatches in three-dimensions; disable the check box to display two-dimensional color swatches.
 - ◆ Enable the Large Swatches check box to display large color swatches; disable the

check box to display small
color swatches.
