Using the Customize dialog box, you can customize the keyboard, menus, Color Palette, toolbars, Status Bar, and Roll-Ups.

Customizing CorelDRAW is done using the Customize dialog box, which is accessed by doing the following:

Click Tools menu, Customize, or click here.

Throughout this Tutor, you will be working in the Customize dialog box. If you want to apply the changes that you have

made click OK; if you want to cancel any changes that you have made, click Cancel.
