

The Interactive Fill tool applies fountain fills using the mouse.

1. Select the object with the **Pick tool**.
2. Click the **Interactive Fill tool**, choose Fountain Fill from the list box on the Property Bar, then click the button for the type of fountain fill you want to apply.

You can choose **linear, radial, conical, or square.**

3. Click where you want the fill to start, then drag to where you want the fill to end.
