

The Remove Face option allows you to show a lens only where it covers other objects. This option is only available for lenses that change the colors of objects behind them (like Color Limit lenses). To try this option, you'll need a lens to use.

[Click here](#) to create a sample Color Limit lens.

1. Select the lens with the **Pick tool**.

2. In the Lens Roll-Up, enable the Remove Face check box.
3. Click the Apply button.
