

You can re-link a linked frame to suit your needs. To change a link:

1. With the Pick tool, click the text flow tab at the bottom of the frame with the link you want to change.
2. Select the new frame into which you want to continue the **text flow** with the Pick tool.

To identify the direction of text flow, select one of the linked frames with the Text tool. A blue arrow appears between the two frames.
