You can choose a full-color pattern from a variety of pregenerated patterns. Unlike two-color and bitmap patterns, there is no limit to the number of colors that can be included in a full-color pattern.

Click here to add an object automatically.

1. Select the object you want to fill with the Pick tool.

2. Open the Fill tool flyout, and click Pattern Fill.

3. Enable the Full Color button, and click the Pattern picker, and choose a pattern.
