PLAYER MENU HELP

Only **Enter name**, **Help** and **Main menu** are available if a player has not been selected. Select a player by either clicking on a name in the list of **Players** or use the **Enter name** option.

Once a player is selected, **Remove player** and **Change password** become available. **View results** and **View certificate** will only be available if the selected player has completed a test, while **View challenge** will only be available if a challenge has been completed.

Enter name

Click on **Enter name** to display the **Enter name menu**. This allows a new name to be entered.

Remove player

Click on **Remove player** to remove the currently selected player. This will also delete the player's test and tutorial files.

View results

Click on **View results** to display the current player's results chart. The player's most recently completed test is used to create the chart. This option is only available if a test has been completed.

View certificate

Click on **View certificate** to display your certificate. Your most recently completed test is used to create the certificate. This option is only available if you have completed a test.

View challenge

Click on **View challenge** to display the high score table. Only your best score is placed in the table. This option is only available if you have completed a challenge.

Change password

Each player can have a password to protect against other players using or changing their test results. Click on *Change password* to display the *Password menu.*

Help

Click on *Help* to display this help file.

Main menu

Click on *Main menu* to display the previous menu.
