

Your Complete Guide to the Information Service You Won't Outgrow

At CompuServe, we are constantly expanding our services by adding new information and updating existing services. Use this Directory as your guide, and you'll find that CompuServe is the service you won't outgrow. If you read about a service you're interested in accessing, click on the blue Go Now service name in the upper right corner of the service description.

Member Services

The Member Services section helps newcomers find their way around the CompuServe Information Service and helps novices and experts alike find detailed information about their account. These services provide general and particular information about such topics as billing, logging on, ordering, and service agreement terms. They also enable parents to protect their children from innocent exposure to objectionable material. Support services and Forum areas contain libraries of answers to frequently asked questions, and also enable members to post their own questions or compare notes with other members. Connect time spent using these services on CompuServe is not counted against your monthly five hours or added to your billing time, so feel FREE to explore. (If there are network communications charges, however, they still apply.) To access the main menu for CompuServe's Member Services, choose GO from the Services pull-down menu and enter HELP.

Account/Billing Administration

[Go Now: BILLING](#)

View your charges or look up current rates in this service area. (Charges take 24 to 48 hours to process.) You will find explanations of the available billing options and your personal billing information, including the amount owed, for the last several weeks. You can also change your billing option or your billing address. A section explains the various billing options available to CompuServe members including VISA, MasterCard, American Express/Optima, Discover, Diner s Club, Direct Debit and Business Account. This section enables you to add or remove your name from various mailing lists associated with the CompuServe Information Service, including the CompuServe Magazine member list, CompuServe special mailings list and a list made available to vendors. You can add your name to the online membership directory, change your password or billing option, and notify CompuServe of your change of address or if you must cancel your membership.

Ask Customer Service

[Go Now: QUESTIONS](#)

Customer Service makes it easy to get the help you need whenever you need it. When a question comes up while you're online, visit Ask Customer Service. The menu offers four ways of getting customer service information: The Customer Service Help Database, Customer Service Forum areas, [Feedback](#) and [Calling/Writing Customer Service](#). [Customer Service Help Database](#) is an online searchable database of information, including answers to frequently asked questions. Customer Service Forums areas (GO CSHELP) list basic service help forum areas. Feedback enables you to send questions, comments or suggestions to CompuServe. If you have a question or problem that requires immediate attention, a Customer Service Representative in the US can help you. Representatives in the U.S. are available from 8 a.m. to 1 a.m., Monday through Friday and from 10 a.m. to 10 p.m. on weekends, Eastern Time. Representatives in other countries are available during local business hours. Holiday hours vary. The chart below lists phone numbers for various countries. Recorded support is available around the clock in the US through the Customer Service phone system. Using a touch tone phone you can find assistance with file transfers, CompuServe Mail, phone numbers, rates and more.

Change Your Billing Address

[Go Now:ADDRESS](#)

Use this choice to change your billing address and phone number.

Change Your Billing Method

[Go Now:BILOPT](#)

You can change your billing option from Direct Debit to credit card, from credit card to Direct Debit or from one credit card to another. Direct Debit members can change their checking account information. If your card has been recently renewed and you need to enter the new expiration date, you can use this option to do so. You can also find information about converting your account to a business account.

Change Your Password

[Go Now: **PASSWORD**](#)

This option enables you to change your password. Once your password has been changed on the host, you will also need to change your password in the Session Settings of WinCIM or MacCIM.

CIM for OS/2 Support Forum

[Go Now: OCIMSUP](#)

If you use or are considering using the CompuServe Information Manager for OS/2 -- CIM for OS/2 -- join the CIM for OS/2 Support Forum. Operated by CompuServe Incorporated, this forum provides information about CIM for OS/2's powerful interface that allows you to use all of CompuServe's online features such as forums, CB, news and reference products, financial databases and quotes, and CompuServe Mail. Find answers to your questions about installation, required hardware, terminal emulation and general use of CIM for OS/2. Visit the [DOSCIM Support Forum](#) for information about DOSCIM, the [MacCIM Support Forum](#) for information about MacCIM, or the [WinCIM Support Forum](#) for information about WinCIM.

CompuServe Applications Forum

[Go Now: CSAPPS](#)

Members will find support for CompuServe Software products such as the CIS Mail Driver, CSMail, PowerTalk, FCCopy Utility and CompuServe for GEOS in the CompuServe Applications Forum. The forum is administered by CompuServe Customer Service.

CompuServeCD Support Forum

[Go Now: CCDSUPPORT](#)

CompuServeCD is a multimedia extension of the CompuServe Information Service. It combines CompuServe's online services with CD ROM-based information, sound, graphics and full-motion video in an interplay that makes the best use of each medium's strengths. This forum links you to CompuServeCD subscribers and the team of CCD developers. Tell us what you like; tell us what you don't like, and offer suggestions for the future of CompuServeCD. Join in! Help change the world of Online multimedia computing.

CompuServe Help Forum

[Go Now: HELPFORUM](#)

Learn how to use CompuServe and to interact with its various products without incurring unnecessary expenses. Access the CompuServe Help Forum for assistance in using CompuServe's reference, news and financial services, as well as games and CompuServe Mail. Also, get answers to your questions about pricing and online symbols.

**CompuServe Information
Services Software**

[Go Now: CISSOFT](#)

CompuServe offers its members information and support for CompuServe's communication programs such as CompuServe Information Manager (DOS, Mac, OS/2 and Windows versions) and CompuServe Navigator (Mac and Windows versions) communications programs, which simplify the user interface to CompuServe and other computer systems. Here you can download the latest versions or upgrades to CIM and Nav and learn about each product's special features, equipment requirements and upgrade information. Receive prompt answers to your questions through forums that are available for each product.

CompuServe Navigator

[Go Now: NAVSOFT](#)

Error! Reference source not found.[MacNav Support Forum](#), for issues related to MacNav.

CompuServe Store

[Go Now: ORDER](#)

Access CompuServe's online ordering service and explore the wide variety of quality products at reasonable prices, including the newest book titles, users guides, exclusive CompuServe merchandise, CompuServe software and more. The CompuServe Store is an easy and convenient way to order gifts for your CompuServe member. And remember, this area is free of connect charges, so feel free to take a look at everything!

CS Nav-Win Support Forum

[Go Now: CSNAVSUP](#)

Prospective and current users of CompuServe's Windows Navigator, a communications software package that uses the Microsoft Windows environment, can find the latest information on the program in this forum. Find answers to your questions about installation, session parameters, hardware required, Navigator interfaces and Navigator patches.

Customer Service Help Database

[Go Now: CSHELP](#)

Through the Customer Service Help Database you can access the same information that CompuServe's Customer Service Representatives use to answer questions. The online searchable database provides three quick ways to find the information you need. You can search by keyword(s) in a document title, keyword(s) in a document or document number. If your question is not answered through the database, you can contact Customer Service directly through the write to customer service menu option.

DOSCIM Support Forum

[Go Now: DCIMSUP](#)

If you use or are considering using the CompuServe Information Manager™ for DOS -- DOSCIM -- join the DOSCIM Support Forum. Operated by CompuServe Incorporated, this forum provides information about CIM's powerful interface that allows you to use all of CompuServe's online features such as forums, CB, news and reference products, financial databases and quotes and CompuServe Mail. Find answers to your questions about installation, required hardware, terminal emulation and general use of CIM. Access the [CIM For OS/2 Support Forum](#) for information about CIM for OS/2, [WinCIM Support Forum](#) for information about CIM for Windows, or the [MacCIM Support Forum](#) for information about CIM for the Macintosh.

Explore CompuServe

[Go Now: **EXPLORE**](#)

The Explore CompuServe menu provides access to the CompuServe services, such as Whats New and Specials and Offers, which enable you to discover the ever-growing and changing CompuServe Information Service. EXPLORE also provides access to CompuServe's many search products such as Find a File, Find a Topic, Membership Directory and Support Directory.

Feedback to CompuServe

[Go Now: FEEDBACK](#)

Feedback enables you to send your question, comment or suggestion to CompuServe. A Customer Service Representative will respond via CompuServe Mail as quickly as possible.

Find a Topic

[Go Now: INDEX](#)

In INDEX, if you enter a topic such as food or sports, you are given a menu list of CompuServe products and their Quick Reference Words or page numbers. Use the GO command with the Quick Reference Word or page number to quickly access the product. You can also get an alphabetical listing of all CompuServe products and their Quick Reference Words.

French Support Forum

[Go Now: FRSUPPORT](#)

Access the French CompuServe Support Forum for assistance in using the French CIM version of CIM or any other CompuServe software. In this forum you can communicate with CompuServe associates electronically. You will also find answers to questions about your account, billing, password, and general use of CIM.

German Support Forum

[Go Now: CISHILFE](#)

Access the German CompuServe Support Forum for assistance in using the German versions of CIM or any other CompuServe software. Special references on German services and many other topics for German members are available. Come to the German Support Forum and communicate with CompuServe associates electronically. Find answers to questions about installation, required hardware, and general operation of CIM.

MacCIM Support Forum

[Go Now: MCIMSUP](#)

If you use or are considering using CompuServe Information Manager(™) for the Macintosh -- MacCIM -- join the MacCIM Support Forum. Operated by CompuServe Incorporated, this forum provides information about CIM's powerful interface for the Macintosh that allows you to use all of CompuServe's online features such as forums, CB, news and reference products, financial databases and quotes and CompuServe Mail. Find answers to your questions about installation, required hardware, terminal emulation and general use of CIM. See the [DOS CIM Support Forum](#) for information about CIM for the PC, the [CIM for OS/2 Support Forum](#) for information about CIM for OS/2, or the [WinCIM Support Forum](#) for information about CIM for Windows. The MacCIM Support Forum will be accessed in the language specified in your preferences. However, if you would like to access the forum in another language, GO EMCIMSUP for English, GO FMCIMSUP for French or GO DMCIMSUP for German.

MacNav Support Forum

[Go Now: MNAVSUP](#)

Prospective and current users of CompuServe Navigator for the Macintosh, a software program for the Mac that helps members make the most of their online connect time, can find the latest information on the program in the MacNav Support Forum. Find answers to your questions about installation, session parameters, required hardware, MacNav interfaces and MacNav patches.

Member Recommendation Program

[Go Now: FRIEND](#)

The Member Recommendation Program enables you to give your family and friends access to their own personal communications center, reference library, shopping mall, investment tool, travel agent, and movie critic - CompuServe. You can have the special Recommendation membership kit sent right to your friend's door or have the special Recommendation membership kit sent directly to you so that you can give it to your friend personally. The special membership kit includes: a Quick Install Card which explains how to get started, CompuServe Information Manager software which makes it easy to go online and move about, a FREE monthly subscription to *Compuserve Magazine*. Visit the Member Recommendation Program area for more details.

Mexico Help and Support Forum

[Go Now: MEXHEL](#)

This Forum area provides Mexican members of CompuServe with the basic tools to get the best results from CompuServe and its CIM communications software. Forum members can exchange ideas and information with CompuServe Customer Service representatives and with other CompuServe members. The message sections and libraries cover all aspects of CompuServe usage, from finding the best phone numbers to tweaking the software to obtain optimum performance. And there are many conferences dealing with the specific problems and opportunities faced by CompuServe members in Mexico.

NetLauncher Support Forum

[Go Now: NLSUPPORT](#)

CompuServe Customer Service provides the NetLauncher Support Forum area to assist you with issues related to the variety of Internet Services available on CompuServe and the CompuServe software used to access them. These services include FTP, USENET, Outbound and Inbound Telnet with our CompuServe Information Manager software, the CompuServe Internet Dialer, the CompuServe Edition of Spry Mosaic and the HomePage Wizard.

New Member Forum

[Go Now: **NEWMEMBER**](#)

New Member Forum is open to all CompuServe members for assistance with or discussion of the CompuServe Information Service. Members can post messages about CompuServe and its use. The forum is designed to help members learn how to use the CompuServe Information Service. Sections on CompuServe Mail, Online Etiquette, Ask Customer Service, CompuServe Pricing and more are available.

New Member Welcome Center

[Go Now: WELCOME](#)

Just joined CompuServe and eager to know all that you can? Visit the New Member Welcome Center. This area includes tips for new members, CompuServe Service Highlights, 101 Great Things to Do on CompuServe, New Member Help Desk, New Member Forum and a trivia quiz where members can win usage credits and more.

Online Issues Forum

[Go Now: OLISSUES](#)

Online Issues Forum area facilitates discussion and contacts with individuals interested in the world of online communications. This Forum area is designed for you to talk about being online and to share your interests and experiences.

Parental Controls Center

[Go Now: **CONTROLS**](#)

To help parents keep their children safe in cyberspace, CompuServe offers Cyber Patrol, software that enables members to selectively disable access to objectionable areas on CompuServe and the Internet. Cyber Patrol software is FREE to CompuServe members, and automatically identifies databases, forums, and Internet sites according to any of several levels of restriction. The Parental Controls Center also offers several sources of information about online child safety as well as information about CompuServe and Internet content, plus direct access to the Parental Controls Forum (GO PARCON).

Practice Forum

[Go Now: PRACTICE](#)

Gain confidence and skill in the use of forums through the Practice Forum. This forum will help you learn the ins and outs of forum rules. The message section includes topics such as Composing/Replying, How to Conference, Forum Etiquette and Using the Libraries. Be sure to visit the Practice Forum before you make your online forum debut.

Reviewing Your Charges/Usage

[Go Now: CHARGES](#)

Review your billing history, or review your usage activities from the past 12 weeks. See for yourself when your payment is posted, which services you used that generated a surcharge, credits applied and your account balance. You can find an explanation of the billing process for each payment method. A hard copy of your usage details can be mailed to you for a fee.

Rules of Operation/Copyright

[Go Now: RULES](#)

These documents offer a complete description of the CompuServe service agreement terms. They are designed to protect the data and communications offered by CompuServe information providers and members and make online usage a positive experience for everyone. The operating Rules cover copyright policy including commonly asked questions about copyright and ownership of material, particularly as they relate to public domain information and shareware programs.

Specials/Contests

[Go Now: SPECIALS](#)

Something new is always happening at CompuServe. Here you can learn where you can win prizes, who is offering free connect time or discounts, and what extra-special events are being held.

Support Directory

[Go Now: SUPPORT](#)

Need help quickly but don't know where to find it? Over 1000 vendors and organizations offer product support on CompuServe, and knowing where to turn can be overwhelming. The Support Directory enables you to quickly search for forums or services which support the product or type of product you need information about. Members can enter search criteria such as company name, company type, product name, product category, operating system or language to find the product. So if you are thinking about purchasing a new product or need help with one you are already using, consult the Support Directory to speed your search.

Telephone Access Numbers

[Go Now: PHONES](#)

This section gives information related to accessing CompuServe including telephone access numbers, node abbreviations and communication surcharge information. Specific instructions are also available for logging on using the CompuServe, TYMNET, Sprintnet (Telenet), Datapac, LATA and LATA Internet communications networks and more. You can also get a local access number by dialing 1-800-FIND-CIS (1-800-346-3247) via modem and typing PHONES at the HOST NAME: prompt.

UK Help Forum

[Go Now: UKHF](#)

CompuServe members in the UK can find assistance in using CompuServe services and products in this Forum area. Members can communicate directly with CompuServe to get their questions answered, download information files from the Forum libraries, and participate in or simply observe real-time online conferences covering many aspects of CompuServe usage. The News Flash also carries notices of other help-related happenings online and events affecting network communications.

UK Member Information Centre

[Go Now: UKHELP](#)

The UK Member Information Centre is the one-stop shop for all the CompuServe services designed to help make life online easier for CompuServe members in the UK. UKHELP offers direct access to Feedback, the PC Support Directory, the various File Finders, the Practice Forum, the UK Help Forum, the CompuServe Store, What's New, the Parental Controls Center, phone numbers for dialing up CompuServe, and information about rules, pricing, and billing. In addition, UKHELP includes regularly updated descriptions of the hottest new online products, which offers direct access to any product that you want to start using right away.

What's New Archives

[Go Now: WNA](#)

Want to know what was new on CompuServe while you were away on vacation? The What's New Archives is a searchable database containing the What's New articles from weeks past. The database maintains two years worth of articles and all official CompuServe News Releases. Each article is searchable by topic of interest, date and type of article.

What's New[Go Now: **NEW**](#)

What's New is a weekly column that announces new products on CompuServe and describes new and updated services on CompuServe. It includes news from The Electronic Mall and forum conference schedules.

WinCIM Support Forum

[Go Now: WCIMSUP](#)

If you use or are considering using CompuServe Information Manager for Windows -- WinCIM -- join the WinCIM Support Forum. Operated by CompuServe Incorporated, this forum provides information about WinCIM's powerful interface that allows you to use all of CompuServe's online features such as forums, CB, news and reference products, financial databases and quotes, and CompuServe Mail. Find answers to your questions about installation, required hardware, terminal emulation and general use of WinCIM. See the [DOSCIM Support Forum](#) for information about CIM for the PC, the [CIM for OS/2 Support Forum](#) for information about CIM for OS/2, or the [MacCIM Support Forum](#) for information about CIM for the Macintosh.

Computing

CompuServe provides you with unparalleled electronic support for your computing needs. Nowhere else can you obtain direct support from over 1000 software and hardware companies in one place. Have a question? Leave a message and receive an answer typically within 24 hours, if not sooner. Support includes direct links to software and hardware companies, libraries of online information and forums where other knowledgeable individuals are willing to help you solve your problems.

CompuServe's computing services include not only software and hardware Forum areas, but also information databases and the online editions of many computer-related magazines and newsletters. Throughout the computing services, you'll find software patches, enhancement programs, shareware programs, and tips and techniques which will expand your capabilities and productivity.

Access Forum

[Go Now: MSACCESS](#)

This Forum area, maintained by Stream International, supports Microsoft's Access database management software. You can receive technical and non-technical advice on a variety of topics including database design, macros, networks, and reports. Questions that arise when programming with Access can be answered by Stream's technical support specialists.

ACI US Forum

[Go Now: ACIUS](#)

The ACI US Forum supports all ACI US products. This includes 4th Dimension, File Force, and 4D Modules. Libraries contain time-saving programs, including externals and sample databases.

ActiveX/OLE Forum

[Go Now: OLESOLNS](#)

Members can exchange information, tips and techniques concerning OLE solutions in the Microsoft OLE Solutions Forum. Sections on OLE activities for the following industries are available: Real Time Market Data, Life Insurance, Retail, Healthcare and Retail Banking.

Adaptec Forum

[Go Now: ADAPTEC](#)

Adaptec offers product and service support in the Adaptec Forum. Sections within the forum include DOS/Windows, OS/2, Unix, Novell Netware and Hardware.

Adobe Applications Forum

[Go Now: ADOBE](#)

Operated by Adobe technical support staff, the Adobe Applications Forum offers discussions and files for Adobe's application software including the former Aldus products like PageMaker, Persuasion and PhotoStyler, as well as Adobe's Photoshop, ATM (Type Manager), Fonts, Premiere, Dimension and Illustrator. The forum provides an area where users, dealers, service bureaus, third party developers and other interested parties can communicate directly with Adobe, its technical support staff and other forum members. Data libraries include utilities, technical support notes, PostScript files and text files of information about Adobe and non-Adobe products.

Adobe GmbH Forum

[Go Now: ADOBEG](#)

If you speak German and you use products from Adobe (including the former Aldus), this Forum area is a great place to exchange information and experiences. It's also a great place for general discussions of desktop publishing, design, print preparation, and graphics processing. The Forum libraries contain technical info, press releases, product-specific files, and sometimes the latest product filters.

Adobe Systems Forum

[Go Now: ADOBESYS](#)

Discussions and files for Adobe Magazine (formerly Aldus Magazine), Adobe Consumer Products (formerly Aldus Consumer Division), and various developer's issues (Acrobat, PostScript, TIFF, etc.) can be found in the Adobe Systems Forum. Members interested in Adobe educational programs, developer assistance and user groups are encouraged to visit the forum.

AI Expert Forum

[Go Now: AIEXPERT](#)

AI Expert Forum has been created for the Artificial Intelligence (AI) community as an information exchange and a supplemental resource to *AI Expert* magazine. In this Forum area, you can query industry and academic leaders in the AI field as well as exchange AI information with other members. *AI Expert* articles and supporting program listings are available here for downloading to your machine, as are public domain expert systems and software. *AI Expert* editor Larry O'Brien and many of the *AI Expert* columnists and authors are available to chat with you.

AirData Forum

[Go Now: AIRDATA](#)

AirData Forum provides members with information and online product support for AirData's cellular digital packet data (CDPD) products and services.

Alpha Software Forum

[Go Now: ALPHAFOR](#)

Get answers to your questions about Alpha Four, Alpha Five, and other Alpha Software products. Tech support staff are on hand to help, and there are many useful files in the libraries. Alpha welcomes feedback from its users.

ALPS Support+ Forum

[Go Now: ALPS](#)

The ALPS Support+ Forum area provides support for any ALPS product as well as news on the latest products ALPS has to offer. Members can read and post messages, help us electrocute the engineer and mangle the manager in the ALPSpeak conference room, and contribute to the development of the latest input device technology.

Amiga Arts Forum

[Go Now: **AMIGA**](#)

The Amiga Arts Forum is for anyone with an interest in the creative aspects of the Amiga personal computer. Members can access conference rooms, libraries and message boards, which are broken down by topic. Forum libraries contain hundreds of programs, text files, help info, product reviews, and transcripts of previous conferences held in the Forum area. Members range from beginners to advanced professionals who share skills, knowledge, or just curiosity.

Amiga File Finder

[Go Now: AMIGAFF](#)

The Amiga File Finder provides a quick and easy reference to some of the best programs and files available in the various Forum areas dedicated to Amiga. In this comprehensive database, you can quickly find the files you want using such search criteria as a keyword, file submission date, Forum name, file type, file extension, file name or submitter's User ID number. When you enter the selection criteria, the Amiga File Finder lists all the matching files, displaying each files description, filename, and Forum library location .

Amiga Tech Forum

[Go Now: AMIGATECH](#)

If you're interested in the technical aspects of the Amiga personal computer, try the Amiga Tech Forum. Members have access to various sections of the message board, the online conferencing feature, and extended libraries containing hundreds of public domain programs for the Amiga, help files, product reviews, and archived reference texts -- all free and available for downloading. Forum members include Amiga enthusiasts of all levels.

Amiga User Forum

[Go Now: AMIGAUSER](#)

The Amiga User Forum is dedicated to the everyday business and personal use of Amiga computers. Experienced and new users are encouraged to frequent the message boards where topics such as Amiga news and rumors, hardware, word processing, personal applications, business applications, amateur radio, and communications are thoroughly examined. A classified section is available for members who want to sell or purchase second-hand Amiga products.

Amiga Vendor Forum

[Go Now: AMIGAVENDOR](#)

Talk about Amiga products with other Amiga enthusiasts and technical support staff in the Amiga Vendor Forum. You'll find messages and files related to all the vendors and products listed below. To find all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

AutoPilot	scripting program for CompuServe access
Black Belt Systems	WinImages animation software, ApAssist computerized documentation system, and Imagemaster R/t image manipulation software
DKB Software	expansion peripherals, including Avt Master tranceiver, MegAChip 2000/500, DKB 2632, MultiStart, The BattDisk, The SecureKey, The Insider II, and the KwikStart II
Eagle Tree Software	Helm multimedia authoring system
GVP	controllers, ioExtender multiport cards, and PhonePak software
Impulse, Inc	Digimax, Imagine, and Envision
INOVAtronics	CanDo, CanDo Debugger, CanDo DeckBrowser, and Directory Opus
Intelligent Designs, Inc	Ami-Back and TapeWorm FS file recovery programs
NewTek Inc	LightWave, the Video Toaster, Flyer cards, and FlyerHD Tools.
Nova Design, Inc	ImageFX image manipulation system
PreVue Technologies	control panels, software, etc, including VueFinder, VariVue, SyncTrap, Sync Strainer, BG-100 Background Generator, SMPTE time code reader, Toast Timer, and BreadBoard
Silent Paw Productions, Inc	PAWS (portable Amiga workstations)
Soft-Logik Publishing	PageStream desktop publishing software, Type Smith font editor and converter, Personal Paint paint program, Organizer personal information manager, Digita Datastore personal non-relational database manager, and Digita Wordworth word processor
Softwood, Inc	FinalCalc spreadsheet
Syndesis	InterChange format conversion system for 3-D files
Utilities Unlimited	Emplant video drivers

Animation A Vendor Forum

[Go Now: ANVENA](#)

The Animation A Vendor Forum offers support from a wide selection of computer animation vendors. You can ask questions of vendor support staff, exchange ideas with professional animators and other interested parties, and download updates, patches, application programs, and information files. Besides the vendors and products listed below, this Forum area serves as a staging area for other animation software and for new animation product vendors. To find all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Andover Advanced Technologies (with North Coast Software)	Video Craft special effects software for Windows 95, ARENA Design software for 3D modeling, rendering, and animation; and PhotoMorph and PhotoMorph2 morphing software for Windows
AniCom, Inc	3D Choreographer custom animation software for Windows environments
Black Belt Systems	image manipulation software, such as WinImages:Morph and WinImages:F/x
Byte by Byte	3D design and visualization software for Mac and DOS platforms; products include Sculpt and Envisage 3D
CrystalGraphics	software for on-screen presentation, video graphics, simulation, and multimedia; products include Crystal Flying Fonts! and Crystal Desktop Animation
Elastic Reality	film and video special effects software for Silicon Graphics and DOS/Windows platforms
G-media (publishing division of IMS Communications)	GLpro multimedia language development system
Hash, Inc	Animation Master and Martin Hash's 3D Animation
Impulse, Inc	Imagine software for 3D modeling and animation and Digimax digitizer for 3-D objects
IMS Communications	see G-media
North Coast Software	see Andover Advanced Technologies
Positron Publishing	graphics software, including MeshPaint 3D and Dynamic Motion Module; also textbooks
Visionary Media	children's interactive multimedia literature and the software for producing it
Visual Software	Simply 3D software for photorealistic rendering and animation, Simply Scenes CDs, and the Visual Reality suite of 3D modeling, rendering,

animation, and imaging applications for
Windows and UNIX platforms

Apogee/3D Realms Forum

[Go Now: REALMS](#)

Apogee/3D Realms Forum members can download Duke Nukem graphics and the latest and hottest shareware games from Apogee and 3D Realms, as well as custom user-created files for registered games. Members can also leave messages to the Apogee staff for game support and hints, or chat with other Forum members.

Apple II Programmers' Forum

[Go Now: APPROG](#)

Learn how to create your own applications programs for your Apple II computers. Sections within this forum are devoted to programming using languages from BASIC, Pascal and machine to the more advanced graphic interface of the HyperStudio program. Members exchange programming tips and application ideas to help solve problems and increase productivity.

Apple II Users Forum

[Go Now: APPUSER](#)

The Apple II Users Forum is for those who use the Apple II personal computer and want to learn more about the available programs for business, school or home applications. Members browse through the message sections and libraries for help in choosing and using hardware and software programs such as AppleWorks and various other Apple II utility programs. Many members are experts in using the Apple II and can offer sound advice in purchasing and using the various products.

Apple II Vendor Forum

[Go Now: APIIVEN](#)

Have a question about an Apple II product? Join the Apple II Vendor Forum for expert advice and support from MAUG sysops, other Forum members, and vendor representatives. Download program updates, useful "Apple-lets," and information files from the libraries. Listed below are the companies with their own Forum sections, and the main products supported by each company. To find all the CompuServe services related to a specific company or product, visit the [Support Directory](#).

ProTERM telecommunications application

ON THREE, Inc

GoBack and other utilities for Sider hard disk drives, The Desktop Manager desk accessories, GS ON-BOARD memory expansion card, and GS Memory Test utility; also, more than 100 software and hardware items for the Apple III

Seven Hills Software

software for the GS, including The Manager multifinder, GraphicWriter III, SuperConvert graphics converter, Spectrum external commands (XCMDs), Express sprint spooler, printer drivers and fonts, and Disk Access desk accessory

Apple Feedback

[Go Now: APLFBK](#)

Apple Computer offers CompuServe members the opportunity to provide feedback on Apple's support policies and methods. Representatives from Apple will log requests and enhance their support services based on the feedback they receive.

Apple Online

[Go Now: APE](#)

Apple Online is Apple Computer Inc's central location on CompuServe. Here, you can review FAQs compiled by the tech support specialists who staff Apple's 800 support number and subscribe to a number of mailing lists that Apple provides to keep users informed about various kinds of products. Apple Online also offers click-'n'-easy access to all of Apple's other services on CompuServe, such as the Apple Support Forum and the Apple Tech Info Library. There is even a special collection of articles, reports, etc, about Apple's Newton MessagePad personal communicator.

Apple Support Forum

[Go Now: APLSUP](#)

The Apple Support Forum provides several libraries of downloadable files including software updates, utility programs, patches, and fixes. With these files, members can solve problems and enhance their use of Apple products, 24 hours a day, seven days a week.

Apple Technical Information Library

[Go Now: APLTIL](#)

The Apple Technical Information Library provides a searchable database of more than 4,700 articles, a subset of the database used by Apple support engineers. The library focuses on answers to frequently asked questions and product specifications.

Apple Most Popular Files

[Go Now: APLNEW](#)

This database contains downloadable files with the latest software releases and updates for Apple's most popular products.

Apple WW Software Forum

[Go Now: APLWW](#)

The Apple WW (Worldwide) Software Forum offers the latest Worldwide Apple system software updates in many of the world's languages. This Forum area contains libraries only.

Archive Classics Forum

[Go Now: ARCCLASS](#)

The Archive Classics Forum contains photos and films of adult material selected from the historical image library of Archive Photos and the historical stock film footage of Archive Films. This Forum area is a treasure trove of professionally presented photographic and cinematic sensuality.

Archive Films Forum

[Go Now: ARCFILM](#)

One of the world's largest sources of historical stock film footage, Archive Films, offers downloadable film clips in the Archive Films Forum. The Forum libraries contain over 14,000 hours of footage, including newsreels, feature films, silent films, classic comedies, documentaries, vintage educational and industrial films, and more. Archive Films also represents special film collections such as The March of Time and the RKO/Pathé Library, as well as large collections of music and interview footage.

Archive Photos Forum

[Go Now: ARCHIVE](#)

View nostalgic images of historical engravings, drawings and photographs in the Archive Photos Forum. Enter the world of landmarks, historical milestones, Civil War and sports through its libraries. All photos are protected by copyright and intended for non-commercial home use only. The images found in the forum come from Archive's collection of over 20 million images. For more information on graphics, GO GRAPHICS.

Artisoft Forum

[Go Now: ARTISOFT](#)

Users of Artisoft's complete line of LANtastic products, Ethernet products and NetMedia products will want to join this Forum area for full technical support. Artisoft representatives are available online to provide you with complete and accurate answers to your questions. The message sections host discussions for each Artisoft product and include special sections for programmers and new users.

ASCII Developer Forum

[Go Now: ASCIIDEV](#)

ASCII Developer Forum is for developers, publishers and users of telecommunication software programs that are designed to work with CompuServe through the ASCII (text-based) Information Service interface. The forum is the clearinghouse for technical information relating to CompuServe and a resource for supporting and testing telecommunication applications/scripts. Information is available on CompuServe documentation, third-party software testing, support of third-party applications and scripts that function with the CompuServe Information Service.

Ashmount Research Forum

[Go Now: **ASHMOUNT**](#)

The Ashmount Research Forum supports Virtual Access, Ashmounts Windows-based offline navigation software for CompuServe and the Internet, as well as other Ashmount products. The Forum libraries contain Virtual Access program files, updates and amendments, manual files, addons, tools, scripts, and tips.

ASP CD-ROM Forum

[Go Now: ASPCD](#)

The ASP CD-ROM Forum offers a comprehensive online resource to the Association of ShareWare Professionals CD-ROM library of ASP member shareware. The forum consists of three areas: a message section for messages directly relating to the libraries, libraries containing ASP member programs, and a conference area for conferences. This Forum area is a member of the PCNet family.

ASP/Shareware Forum

[Go Now: ASPFORUM](#)

The Association of Shareware Professionals' Forum caters to computer users who want to try software before buying it. The General Info library contains ASP program files you can download to your computer. By joining this Forum area, you can communicate directly with members of the ASP or other Forum members who are knowledgeable about shareware and its advantages.

AST Research Forum

[Go Now: ASTFORUM](#)

The AST Research Forum provides technical support and a place for CompuServe members to openly discuss AST's diverse product line. General as well as technical issues can be discussed in the message area. Files are posted in the library by other Forum members as well as Forum sysops.

AT&T/NCR Forum

[Go Now: ATTNCR](#)

The AT&T/NCR Forum, supported by NCR Customer Support, provides end user support services and downloadable files for NCR's desktop computers, portable computers, servers, and Windows products. You can also find support files for Teradata software.

Atari Computing Forum

[Go Now: ATARICOMPUTING](#)

The Atari Computing Forum provides support for Atari computers, software and peripherals. This Forum area connects you with people who share an interest in exchanging Atari programs and information about the use of Atari computing products by businesses, telecommunications, programming and the arts.

Atari Gaming Forum

[Go Now: ATARIGAMES](#)

The Atari Gaming Forum provides unique opportunities to obtain support and to exchange information and tips pertaining to the entertainment side of Atari platforms such as Jaguar, Lynx, ST and the Atari 8-Bit line of computers. Talk with other users about tips and tricks or browse the library for advice and information. This Forum area is an independent organization and has no affiliation with Atari Corp.

Atari Vendor Forum

[Go Now: ATARIVEN](#)

The Atari Vendor Forum provides access to many vendors of software and hardware used with Atari computers. In this Forum area, you can exchange messages with vendor support staff and with other users of the various vendors' products. You can also download programs, patches, updates, and information files contributed by vendors and others. Listed below are the vendors currently supported in this Forum area, along with the main products of each vendor. To find all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

CodeHead Software	utility and productivity software for the Atari ST
DMC Publishing	VIP, DynaCadd, and Calamus
Double Click Software	Data Diet
Gribnif Software	X- Boot, STalker 3, Crazy Dots, CardFile 3, and Arabesque Professional
ICD	products for the Atari 8 bit computer: US Doubler, P:R: Connection, ACTION!, MAC/65, BASIC XL, BASIC XE, SpartaDOS Construction Set, Printer Connection, RAMBP XL, Multi I/O, FlashBack!, R-Time 8, and hard disk drives; also products for the Atari ST: Personal PASCAL, BBS Express! ST, ICD ST Host Adapter, ICD Host/Controller Kits, and FAST hard drives
INTERSECT Software	Interlink ST and Deluxe Piano
Lexicor Software	animation products
MacDonald Associates	Universal Item Selector, Universal Network software, and La Redacteur word processor; also, information about <i>ST Informer</i> magazine
Maxwell CPU	Megstender, GoGo-ST, and Fractal Fantasy
Michtron	Protext word processor and Fleet Street Publisher
Missionware Software	Printer Initializer, Lottodds, and Flash II
Oregon Research Associates	programming, database, and graphics programs
Soft-Logik Publishing	PageStream desktop publishing program

Attachmate SupportWeb!

[Go Now: ATTACHMATE](#)

Attachmate Corp provides technical support for its entire product line at its SupportWeb! site on the Internet, which gives you the self-help tools and resources you need for the EXTRA! series of Internet networking software, the OpenMind series of collaborative client/server development products, the RLN (Remote LAN Node) series of enterprise computer system management software, and other products. The site is monitored daily (normal business days) and responses will be issued within 48 hours.

Autodesk AutoCAD Forum

[Go Now: ACAD](#)

If you use or are considering using computer-aided design, join the Autodesk AutoCAD Forum for hints and techniques in using such Autodesk products as AutoCAD, AME and AutoShade. Inside the forum, members discuss CAD applications software, hardware, operating systems, languages, management and productivity. Forum messages are monitored by Autodesk training, quality assurance, customer service, software development, marketing and administration personnel, who give you quick, accurate answers to your questions.

Autodesk Kinetix Forum

[Go Now: KINETIX](#)

This Forum area offers direct support from Autodesk, Inc, to users of the company's 3D Studio MAX product. Forum members can exchange ideas and information with each other , as well as have their questions answered by Autodesk staff. The Forum libraries contain many MAX images created by Forum members, as well as information files provided by Autodesk.

Autodesk Multimedia Forum

[Go Now: ASOFT](#)

Autodesk provides this forum to support users of its multimedia and Science Series products and those who are interested in generating computer graphics. Products such as Animator, 3D Studio, CA Lab and Chaos are discussed in detail to help you understand the products and to improve your techniques. Also, Autodesk maintains a wish list to encourage you to make suggestions on ways to improve the products and policies.

Autodesk Retail Forum

[Go Now: ARETAIL](#)

In the Autodesk Retail Forum, Autodesk offers discussion sections and libraries for many of its retail products. Products supported include AutoCAD LT, AutoSketch, AutoVision, the HOME Series, Generic 3D and other software and topics of interest to users of Autodesk products.

Autodesk Showcase Forum

[Go Now: ASHOWCASE](#)

The Autodesk Showcase Forum provides users of Autodesk products with a place to show off their best works and to preview new work for peer review. Autodesk will also host special projects of interest to Autodesk product users. Product demos are available in the library.

Banyan Forum

[Go Now: BANFORUM](#)

The Banyan Forum provides direct access to Banyan Systems Inc. support personnel. Messages cover Banyan network products and more. Libraries contain patchware and shareware for improving the efficiency of your network.

Basic Languages Forum

[Go Now: MSBASIC](#)

The Basic Languages Forum provides members with direct access to technical support about the Basic, QuickBasic and Visual Basic programming languages. Members ask questions about various aspects of using these languages and discuss development issues with other members. This Forum area is operated by WUGNET.

BASIS International Forum

[Go Now: BASIS](#)

Primarily of interest to business application engineers, the BASIS International Forum provides product support for software products authored and distributed by BASIS. Join the Forum area and attend regularly-scheduled online conferences. Download public domain software and review the company's application catalog.

Bay Networks Forum

[Go Now: BAYNETWORKS](#)

Bay Networks, a merger of SynOptics and Wellfleet, supports its intelligent LAN hubs and LAN management software products in the Bay Networks Forum. Bay Networks products operate with a variety of networking solutions ranging from small workgroups to enterprise-wide networks. Sections within the forum include Optivity DOS/Novell, Optivity UNIX, Ethernet/Token Ring/FDDI, Internetworking and ATM.

Benchmark & STDS Forum

[Go Now: **BENCHM**](#)

The Benchmark & Standards Forum addresses PC performance measurements and standards. Participants include computer designers, manufacturers, engineers, MIS professionals, consultants, VARs/Systems Integrators and end-users, as well as manufacturers of performance analysis software and benchmarking tools. Individuals and companies can discuss aspects of PC performance, measurement technology and productivity. Members are encouraged to enter this learning environment and share their expertise and technical knowledge. Questions and opinions are always welcome.

Berkeley Systems Forum

[Go Now: BERKFOR](#)

Want to try out You Don't Know Jack or download the latest After Dark screen saver? Then join the Berkeley Systems Forum, where you'll find enthusiastic discussions of these products, along with Triazzle, Espresso, Launch Pad, and other toasters, screen savers, and games for the Windows and Mac platforms. From the libraries you can download AD displays, product updaters, demos, FAQs, and news. This Forum area is also the place to get your questions answered by Berkeley tech support reps, and to learn all about Web.Max, Berkeley's suite of powerful, time-saving Internet utilities such as Web search capabilities, communications tools, and a news retrieval feature.

Berkeley Systems Online

[Go Now: **BERKELEY**](#)

Berkeley Systems provides this service to keep you up to date on its games, screen savers, and toasters. You'll find news and product information about You Don't Know Jack, Totally Twisted and other After Dark screen savers, the Web.Max suite of powerful time-saving Internet utilities, etc. In addition, you can download lots of free Berkeley stuff, and visit Berkeley's Forum area and its toasted Web site.

Blyth Software Forum

[Go Now: BLYTH](#)

The Blyth Software Forum is for those who are interested in OMNIS, Blyth's client/server database application development tool. OMNIS, a cross-platform development tool, is available for Macintosh, Power Macintosh, Windows, Windows NT, Windows 95, and OS/2. The Blyth Software Forum enables OMNIS developers to interact and share their knowledge and experiences. The Forum area also offers technical support for OMNIS developers covered under Blyth's support contracts. Members are encouraged to share files through the various library sections contained in this Forum area.

Borland Application Forum

[Go Now: BORAPP](#)

Join a community of people who use application software from Borland International. You'll find a separate message section and library (sometimes even more than one, if there are multiple versions) for each of Borland's major products: Reflex, Framework, Sprint, etc. In addition to exchanging tips and techniques with Borland experts worldwide, you can get technical assistance direct from Team Borland.

Borland C++ Tools Forum

[Go Now: BCPP](#)

This Forum area, operated by Borland Internationals Technical Support Department, supports Borlands development tools for C/C++. The Forum area has sections dealing with IDE, resource editors, CodeGuard, command-line tools, Turbo debuggers, and BC++ as well as sections for general-purpose discussion of developing application programs in the Assembly, C, and C++ languages. The Forum area also includes comprehensive libraries designed to provide developers with programming solutions.

Borland Connections Forum

[Go Now: BORCONN](#)

Keep up with news about Borland International and communicate with people all over the world who use Borland products. Sysops answer questions and facilitate discussions about Borland software, and the libraries are stockpiles of information and end-user support for Paradox, dBASE, and the C and C++ languages.

Borland dBASE/DOS Forum

[Go Now: DBASE](#)

Whether you use dBase as a database program or as a development tool, join the Borland dBASE/DOS Forum to obtain support for all versions of dBASE II, III, IV and V. Besides getting help with using dBASE's features, you can learn about how to use dBASE with various third-party utilities and how to create runtime programs. Also find out how to join a dBASE user group in your area.

Borland Delphi Forum

[Go Now: DELPHI](#)

The Borland Delphi Forum supports users of the Pascal programmer language and related software. Sections in the Forum area include Delphi IDE, Delphi VCL, Delphi Database, Object Pascal, VBX Controls, Debugger/Tools and TurboVision.

Borland Development Tools Forum

[Go Now: BDEVTOOLS](#)

Operated by Borland's Technical Support Department, this Forum area supports Borland development tools such as Paradox Engine for C++ and Pascal, Brief and Interbase. All kinds of developers participate in this forum to learn about using these Borland products and how to improve their individual applications. The libraries are stuffed with files aimed at helping developers solve problems and improve productivity.

Borland International

[Go Now: BORLAND](#)

In this area users of Borland software can obtain information about Borland International. Included are a what's new section containing Borland press announcements and other news, company and product information, and employment opportunities. Borland International also offers access to an R&D suggestion box and to Borlands many Forum areas.

Borland Paradox DOS Forum

[Go Now: PDOXDOS](#)

The Borland Paradox DOS Forum is for users of Borland's Paradox database program in the DOS environment. Discuss topics such as installation, networking, updates, programming tips, and troubleshooting with Borland's Technical Support Department. Libraries contain enhancement programs, FAQs, and technical information documents.

Borland Paradox Windows Forum

[Go Now: PDOXWIN](#)

The Borland Paradox Windows Forum is for users of Borland's Paradox database program in the Windows environment. Support can also be obtained for Borland's ObjectPAL. Members can discuss topics such as installation, networking, updates, programming tips, and troubleshooting with Borland's Technical Support Department. Libraries contain enhancement programs, FAQs, and technical information documents.

Borland Visual dBASE Forum

[Go Now: VDBASE](#)

The Visual dBASE Forum is for developers and users of Visual dBASE, the Rapid Application Development (RAD) database from Borland International. Discussion topics include installation, object oriented programming, the compiler, customer service and general news. The libraries contain product patches, utilities, FAQs, and technical information documents.

Btrieve Technologies Forum

[Go Now: **BTRIEVE**](#)

Discuss Btrieve's product line in the Btrieve Technologies Forum. Members chat with other members in regularly scheduled live conferences about the world of database development. Product information, press releases, current upgrades, technical reference information and utilities are available in the library.

CA Application Development Forum

[Go Now: CADEV](#)

Computer Associates sponsors this Forum area primarily for users of CA application development solutions. CA products discussed in the message section include CA-dBFast, a Windows database program, and CA-Realia mainframe-compatible products. Find out how others are using the software and how you can apply their experiences to your own developmental needs. Representatives from CA are online to answer technical questions about specific applications or problems.

CA Clipper Forum

[Go Now: CLIPPER](#)

If you use Clipper to develop your own database applications, be sure to join the CA-Clipper Forum to learn more about Clipper and to offer tips on Clipper usage to other users. This forum supports many topics of discussion about Clipper, including the program itself and its use with utilities and LAN products. Learn how other members are using Clipper and get expert advice from CA representatives to fine-tune your own projects.

CA-Clipper Germany Forum

[Go Now: CLIPGER](#)

The CA-Clipper Germany Forum supports German-speaking Clipper users in Germany, Switzerland and Austria. Members can directly communicate in German with CA's technical and marketing staff or browse the Forum areas libraries for German programs and support.

CA 4Home "Simply" Forum

[Go Now: CASIMPLY](#)

Computer Associates provides support for its line of 4Home Productions line of "Simply" products, mainly money management software for individuals and small businesses, such as Simply Money, Simply Tax, and Simply Accounting.

CA Germany Forum

[Go Now: CAGER](#)

The CA Germany Forum provides technical support for German-speaking users of Computer Associates products like C++/CommonView, the CA-Cricket Family, dBFast, Realizer, Superproject, Textor and UpToDate. The libraries contain drivers, upgrades and utilities. For information on programming with CLIPPER, visit the [CA-Clipper Germany Forum](#).

CA Productivity Solutions Forum

[Go Now: CAIPRO](#)

The CA Productivity Solutions Forum, sponsored by Computer Associates, provides support to users of various CA programs such as CA-SuperCalc spreadsheet, CA-SuperProject project management and the CA-Cricket Family graphics package. Get technical help from CA representatives and other members for your current applications, or learn more about other CA products that work with your current system.

CA Visual Objects Forum

[Go Now: VOFORUM](#)

In this Forum area, Computer Associates supports CA-Visual Objects, a unique application development tool for Windows. CA-Visual Objects is an object-oriented development system for creating both applications and dynamic link libraries that run on a variety of platforms. Although this forum was developed for CA-Visual Objects users, anyone interested in developing database applications will find it useful. Members can discuss programming tips and techniques with fellow developers and routines and applications are available in the library to save members valuable development time.

Cabletron Systems, Inc.

[Go Now: CTRON](#)

Cabletron Systems, Inc. provides networking solutions for Ethernet, Token Ring, FDDI, and ATM networks, applying a strategic framework known as Synthesis, which allows you to build and manage a global, distributed network of interconnected LANs that work together regardless of which media type or network standard is used. Here you can learn all about Cabletron, including where its sales offices are and how to contact the company. You can also find out about Cabletron training, maintenance, and service programs.

Cabletron Systems Forum

[Go Now: CTRONF](#)

Join the Cabletron Systems Forum to communicate directly with Cabletron tech support staff about the company's networking solutions for Ethernet, Token Ring, FDDI, and ATM networks. In addition to the message sections, you'll find libraries with FAQs and many other helpful files.

CADD/CAM/CAE A Vendor Forum

[Go Now: CADDAVEN](#)

CompuServe CADD/CAM/CAE A Vendor Forum provides members with support for computer-aided design, manufacturing and engineering software and hardware. Members can post messages to the vendors or access help files, programs or patches for the vendors products. Libraries contain files devoted to specific software releases, news releases from vendors, and other useful information. Listed below are the vendors represented in this Forum area, along with the main products supported by each vendor. To locate a vendor by product or company name, visit the [Support Directory](#).

Archibus, Inc	computer-integrated facility management (CIFM) and computer-aided facility management (CAFM) software
ASBC (American Small Business Computers)	DesignCAD and DesignCAD for Windows
Ashlar Incorporated	Ashlar Vellum software for mechanical engineers, designers, and drafters
CAD/3X	CAD/3X Drafter and CAD/3X Modeler
CADKEY, Inc	CADKEY integrated 2-D/3-D design system and DataCAD architectural 3-D CAD system
CADlink Technology Corp	SignLab sign-making software for Windows
Digitarch, USA	FLASH! CAD self-teaching 2-D, 3-D animation, shading software for the PC AT
Ditek Intrenational	DynaDesigner, DynaCADD, Font Editor, PhotoWorks, and Interactive Development System (IDS)
ESRI, Inc	geographic information systems (GIS), including ARC/INFO, PC ARC/INFO, ArcView, and ArcCAD
Evolution Computing	EasyCAD and FastCAD software for DOS
F.I.T.	CADVANCE architectural engineering, facilities management, and communications management (AE/FM/CM) software
Graphic Data Systems Corporation	GDS geographic information system (GIS)
Graphsoft	MiniCad architectural/building software for the Mac
IMSI	TurboCAD
Intusoft	ICAP/4 analog and mixed signal circuit simulation systems and Magnetic Designer transformer and inductor design software
KY Pipe/Flownet Systems	KYPIPE hydraulic system analysis software, KYFIRE sprinkler system layout and analysis

	software, and SURGE software for animated depiction of hydraulic events
Robert McNeel & Associates	autoCAD productivity software, including AccuRender, AccuFile, IconTool, Allegro, and The McNeel Plot Pack
Numera Software	Visual Cadd, a 2-D CADD package for Windows
Protel, Inc	Advanced PCB, Advanced SB Route, and Advanced Schematic electronic design automation software for Windows
Sigma Design	Arris architectural CAD software
Universal Technical Systems, Inc	TK Solver Plus numeric problem-solving software
TommySoftware	CAD/DRAW 2.0 for Windows shareware (English and German)

CADD/CAM/CAE B Vendor Forum

[Go Now: CADDIVEN](#)

CompuServe CADD/CAM/CAE B Vendor Forum provides members with support for computer-aided design, manufacturing, and engineering software and hardware. Members can post messages to the vendors or access help files, programs or patches for the vendors products. Libraries contain files devoted to specific software releases, news releases from vendors, and other useful information. Listed below are the vendors represented here, along with the major products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

3D Technology, Inc	VISI-CAD and VISI-CAM manufacturing productivity tools for Windows
Altera Corp	MAX+PLUS II and EPLDs
Amiable Technologies	Flexi family of design software; also CutManager
The CAD Society	CAD industry association for users, vendors, consultants, etc
ComputerEasy International	Floorplan Plus, 3D Design Plus, Captain Comic game, and Ante Up at the Friday Night Poker Club game
Cyco International	AM-WorkFlow document management software and AM-View viewing utility
ENERCALC Engineering Software	ENERCALC printing software
HART Communication Foundation	(independent non-profit corporation) HART(R) Field Communications Protocol for digitally enhanced 4-20mA communications with intelligent field instruments

MathSoft Inc	Mathcad series of technical calculation software tools
MicroCode Engineering	CircuitMaker integrated schematic capture and analog/digital/mixed mode simulation program and TraxMaker printed circuit board layout program
Richlin Machinery Corp	OmniTurn
Saltire Software Inc	Analytix mechanism design and simulation software and SketchRight measured, scaling design software
ScanVec Inc	software for sign making, routing, engraving, nesting, color imaging, and desktop publishing; products include CASmate, EnRoute, ScanVec Tracer, and FiNest

CADENCE Forum

[Go Now: CADENCE](#)

The CADENCE Forum, brought to you by Miller Freeman Publishing, is a supplement to *CADENCE Magazine* and provides support for Autodesk's AutoCAD application. Download source code from the magazine as well as updates, upgrades and helpful hints from the forum's libraries. Also, you can address questions and comments directly to *CADENCE Magazine's* editors.

Canon Support Forum

[Go Now: CANON](#)

Visit the Canon Support Forum to receive technical support directly from Canon's Help Desk staff. This Forum area provides support for Canon products such as laser printers, bubble jet printers, personal computers, and scanners. Become a member to communicate with other users of Canon peripherals to share information and ideas and exchange helpful hints.

Canopus Cyberspace Forum

[Go Now: CYBERZONE](#)

Want to know what Cyberspace is all about? Join the Canopus Cyberspace Forum, where members discuss the wide range of issues concerning the new realm of online digital communications.

Canopus Research Forum

[Go Now: CANOPUS](#)

The Canopus Research Forum provides a place for computer users to come together to discuss industry trends, technologies and products. Find out which products are deemed hot by computer users around the world and which are not. Read the latest issues of the *Canopus Report*, written by Canopus Research President Wil Zachmann, and *The Chiefet Letter*, a newsletter produced by the *Computer Chronicles* television show. This Forum area also features honored guests from all areas of the computer industry.

CASE - DCI Forum

[Go Now: CASEFORUM](#)

The CASE - DCI Forum, sponsored by Digital Consulting, Inc., is available for software developers using CASE tools. From novices to more experienced users, members share information and helpful tips on using CASE tools anywhere in the development process. Through this Forum area, users keep informed about educational events sponsored by Digital Consulting and about CASE-NET, an international CASE user group.

CBM Applications Forum

[Go Now: CBMAPP](#)

The CBM Applications Forum disseminates information and support to users of Commodore Business Machines 8-bit computers, including terminal and bulletin board software, word processing, speech synthesis and education. Programming and technical information on the C-128, C-64 and various public domain programs are also available.

CBM Service Forum

[Go Now: CBMSERVICE](#)

The CBM Service Forum is staffed and maintained by ex-employees of Commodore Business Machines, Inc. and offers support for all Commodore computer models. There are no data libraries, but message and conferencing facilities are provided.

CD-ROM A Vendor Forum

[Go Now: CDVENA](#)

Vendors provide members with support for CD-ROM products in the CompuServe CD-ROM Vendor Forums. Members can post messages to the vendors or access help files, programs or patches for the vendors' products. Libraries contain files devoted to specific software releases, news releases from vendors, and other useful information. Listed below are the individual vendors represented in the CD-ROM A Vendor Forum, along with the major products supported by each vendor. Individual vendor descriptions can be found in this section. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

7th Level	entertainment titles, such as the Great Word Adventure Online and Battle Beast
A.D.A.M. Software, Inc	A.D.A.M. (Animated Dissection of Anatomy for Medicine) Scholar series and other medical and health-related titles, including A.D.A.M. The Inside Story for the consumer market
Bowker (Reed) Electronic Publishing	reference databases, including titles for library, bookseller, legal, scientific and corporate markets
Bureau of Electronic Publishing	reference materials for students and others, including Monarch Notes, Multimedia World Fact Book, Between Heaven and Hell, Countries Encyclopedia, Best Of The Bureau, and many history and literature titles
CD Light	USA UNZIPPED Interactive and other certified (by the U.S. Postal Service) zip code and address databases and related software products used to maintain mailing lists and obtain postal discounts
Compton's NewMedia	educational software, such as Compton's MultiMedia Encyclopedia, Compton's Interactive Encyclopedia, Algebra Made Easy, and the Berenstain Bears Early Learning Series
Creative Multimedia Corp (CMC)	games such as Who Killed Sam Rupert, reference works such as Audobon's Birds, and professional medical journals
Digital Directory Assistance, Inc	the PhoneDisc line of telephone directory products (Residential, Business, and PowerFinder)
Future Systems, Inc	Multimedia Monitor and VideoDisc Monitor newsletters with catalogs of related publications
Future Vision Multimedia, Inc.	entertainment and educational titles (Windows and Mac) for home use, such as Beethoven's 5th: The Multimedia Symphony, Infopedia,

	1000 of the World's Greatest Sound Effects, and Leonardo, The Inventor
HyperBole Studios	VirtualCinema™, a proprietary multimedia software engine that makes the viewer the main character in an interactive movie; also, interactive multimedia titles such as The Madness of Roland, Quantum Gate, and The Vortex: Quantum Gate II
IVI Publishing, Inc	The Mayo Clinic Family Health Book and other health and medical titles for consumers, educators and medical professionals
Maris Multimedia	Red Shift and other educational titles covering science, nature, and technology
Metatec	Nautilus CD, a monthly magazine-type information service (Windows and Mac)
ProTech International Ltd	New Zealand-related titles; also, MPEG video encoding services
Zane Publishing (ZCI, Inc)	PowerCD operating environment; also, such educational and reference titles as Webster's New World Dictionary with the American Concise Encyclopedia, the History through Art series, the Art and Music Series, and the Encyclopedia of U.S. Endangered Species

CD-ROM B Vendor Forum

[Go Now: CDVENB](#)

Vendors provide members with support for CD-ROM products in the CompuServe CD-ROM Vendor Forums. Members can post messages to the vendors or access help files, programs or patches for the vendors' products. Libraries contain files devoted to specific software releases, news releases from vendors, and other useful information. Listed below are the individual vendors represented in the CD-ROM B Vendor Forum, along with the major products supported by each vendor. Individual vendor descriptions can be found in this section. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Adaptec	Easy-CD series of CD creation software packages
Automated Sysytems Methodologies, Inc (ASM)	Gator line of drives for various environments
Best Photo Labs	scanning and recording services for photographers using Kodak's Photo-CD technology
Betacorp International	educational, reference, and entertainment titles, electronic product catalogues, and consultation services for CD-ROM development
CBIS, Inc	CD Connection and CD Connection Server networking software for information retrieval and management
CeQuadrat	WinOnCD and other recording software
DESTIN Inc	(English and French) text and data management languages, including ADAPT, a general data conversion language, and SECONDE, a 4GL for text, data and image management applications
Disc Manufacturing, Inc. (DMI)	disc mastering and manufacturing
Elektroson	GEAR CD-Recordable and cross-platform CD mastering software
incatsystems	see Adaptec
Lion Optics Corp	drives for a wide range of platforms and environments
Meridian Data Inc	client/server software for CD network servers, including CD Net and CD Netlink; also, CD NetROM subsystems
Nimbus CD International, Inc	disk manufacture and services
One-Off CD Shops, Inc	premastering and related services

Ornetix	CD-Commander, CD-Vision, and SerView
QuickScan	data conversion (re-keying and scanning) services for digital publishers
Reed Technical Information Services (RTIS)	networking products such as OPTI-NET, data retrieval software, and other utilities
Ricoh Corporation	CD-Recordable and related digital publishing products
Smart and Friendly	drives, recorders, jukeboxes, network towers, and MPEG and Video CD development stations

CD-ROM Forum

[Go Now: CDROM](#)

For information about CD-ROM technology, reviews of seminars and conference sessions, a calendar of upcoming CD-ROM events, comparisons of CD-ROM applications and product announcements, try the CD-ROM Forum.

Cheyenne Software Forum

[Go Now: CHEYENNE](#)

Cheyenne Software supports all its products in the Cheyenne Software Forum. You can get technical support directly from Cheyenne and interact with others who use Cheyenne products. In addition, the libraries contain product literature and other information that you can download.

CHIP Magazin Forum

[Go Now: CHIP](#)

Readers of the German *CHIP* magazine can download shareware programs and selected highlights, and receive information about tools, drivers and trends in the CHIP Magazin Forum. Members will find an overview of all utilities and shareware for DOS, Windows and OS/2 that has been presented in previous *CHIP* editions.

Citrix Systems Forum

[Go Now: CITRIX](#)

Citrix provides technical support and product information for their products, including WinView, CMU, and NAS. Press releases, literature, files, and drivers are available to download from the libraries.

Clarion Software Forum

[Go Now: CLARION](#)

Clarion Software provides technical support and discussion areas for its family of database development products and compilers in the Clarion Forum. Find support for Clarion Database Developer, Clarion Professional Developer, Personal Manager (Personal Developer), Report Writer, and the TopSpeed Compilers (C, C++, Modula 2 and Pascal).

Claris France Forum

[Go Now: CLARFR](#)

French-speaking CompuServe members can access both technical and marketing information for Claris products in the Claris France Forum. The Forum area contains a section for each Claris product, plus a private section for Claris developers called "Bibliotheque CSA."

Claris Information Center - Worldwide

[Go Now: CLARIS](#)

Use this service to access all the Forum areas for Claris software products, and to find out about the various kinds of support Claris offers and how to contact Claris support staff.

Claris Macintosh Forum

[Go Now: **MACCLARIS**](#)

The Claris Macintosh Forum provides support for its products such as FileMaker Pro, ClarisWorks, ClarisImpact, ClarisDraw, Claris Organizer, The Claris Clear Choice line, and MacWrite. In the Forum libraries, members can access press releases, the latest product versions, updates, demos and answers to commonly asked questions. In the product message areas, members can get answers to product questions from technical personnel and experienced users.

Claris TechInfo Database

[Go Now: CLATECH](#)

The Claris TechInfo Database is a searchable database with over 3,000 articles and technotes about Claris products and services. Members can search for files by such criteria as product name, operating environment and problem/subject title. The TechInfo Database offers fact sheets, technical information and task-specific solutions for all Claris products.

Claris Windows Forum

[Go Now: WINCLARIS](#)

The Claris Windows Forum supports products such as FileMakerPro, ClarisWorks, ClarisImpact and more. In the product libraries, members can access press releases, latest product version information, product demos, printer and video drivers, answers to commonly asked questions, and more. In the product message area, members can get product solutions from technical personnel and experienced users.

Cognos Forum

[Go Now: COGNOS](#)

Users and potential users of Cognos products such as PowerHouse, PowerPlay, Impromptu and Axiant are invited to join the Cognos Forum. The Forum area has separate sections for Cognos' main product lines as well as several general interest sections. Files are continually being added to the libraries and members are encouraged to contribute their own files. An active message board and online conferences are also available.

Color Computer Forum

[Go Now: COCO](#)

The TRS-80 CoCo Users Group provides independent support for owners and operators of the TRS-80 Color Computer and related peripherals. Technical information, programming examples, and a place where CoCo owners can meet and discuss problems and desires are also included.

Commence Forum

[Go Now: **COMMENCE**](#)

The Commence Corporation provides customer support for its Commence product, a personal information manager developed for the Windows environment, in the Commence Forum. Files are continually being added to the libraries, and members are encouraged to contribute their own files. An active and helpful message board is also available. updates, and user group information.

Communications Vendor Forum

[Go Now: COMMVEN](#)

Vendors of PC communications software use this Forum area to provide support for users and potential users of their products. Forum members can post messages to the vendors or access help files, programs, or patches for the vendors' products. Libraries contain files devoted to specific software releases, news releases from vendors, and other useful information. Listed below are the vendors currently represented, along with the major products that each vendor supports. To find all the services that support an individual vendor or product online, visit the [Support Directory](#).

deltaComm	Telix for DOS and Telix for Windows modem communications shareware
Hilgraeve	HyperACCESS/5 communications package for Windows, DOS, and OS/2; KopyKat remote control software; and HyperTerminal Private Edition
Mustang Software	Qmodem communications programs and WILDCAT! online bulletin board software
Norton-Lambert Corp	Close-Up remote control software for Windows and DOS
Quercus Systems	REXXTERM asynchronous communications package and Personal REXX implementation of REXX for PCs
Rhintek, Inc	RhinoCom Standard Edition and RhinoCom Home Edition object-oriented modem communications software for OS/2
SerWiz Communications	Terminate/TerMail 4 data communications terminal software
TRIUS, Inc	AS-EASY-AS spreadsheet software and DRAFT Choice shareware for CAD (various platforms)

Compaq Connection

[Go Now: COMPAQ](#)

The Compaq Connection provides access to support and information about Compaq products. The Connection contains two information sections: a Product Support Services section where you can find information about available support services for Compaq products and an Authorized Training Information section which contains product training information for users and resellers.

Compaq Forum

[Go Now: CPQFORUM](#)

For technical support for your Compaq hardware components, join the Compaq Forum, an integral part of the Compaq Connection. Compaq, which manufactures PC systems and desktop, portable, laptop, and notebook personal computers, sponsors this Forum area enabling you to ask questions and receive answers from Compaq representatives and other expert users. Besides message sections for each type of component that Compaq manufactures, a Customer Service section is also available for your non-technical questions.

Compaq UK Forum

[Go Now: CPQUK](#)

This Forum area is the meeting place for Compaq owners living in or near the UK. Here you can get technical support from Compaq reps and expert users, and get answers to your non-technical questions from Compaq Customer Service. The Compaq UK Forum has a message section and a library for each type of component manufactured by Compaq.

CompuAdd Forum

[Go Now: **COMPUADD**](#)

The CompuAdd Forum offers complete support for CompuAdd systems from CompuAdd's technical support and engineering staffs. You will find information in the message section about all CompuAdd systems including desktops, laptops, notebooks, and Sparc-compatible CPUs. Check out the library section to find support for the collection of diagnostics and setup utilities that are shipped with each CompuAdd system, as well as press releases about the products and vendor locations.

CompuServe Companion Forum

[Go Now: MORECIM](#)

The CompuServe Companion Forum area helps you make your CIM software even more powerful. The Forum area has all of the latest information about add-on enhancements and programs like spell checkers, mail managers and file cabinet utilities. The message sections are full of helpful tips, tricks and advice from fellow CIM users. You will find something new every time you visit, so make MORECIM one of your regular stops!

CompuServe Shareware Services

[Go Now: SHAREWARE](#)

Discover CompuServe's Shareware Services where you can register almost any of the thousands of shareware programs available for downloading in CompuServe's Forum areas. The registration fee will be charged to your CompuServe account, saving you the time and inconvenience of mailing a payment to a shareware author. CompuServe's Shareware Registration provides shareware authors with a convenient, effective mechanism for collecting program registration fees.

CompuServe WinSupport

[Go Now: WINSUPPORT](#)

CompuServe WinSupport provides a centralized home for all Windows-related support services on CompuServe. CompuServe has more than 500 Forum areas and other services relating to Windows computing that involve everything from maintaining a business, helping with homework, and debugging a Windows 95 programming error, to writing a family history. WINSUPPORT offers graphical menu access to all Windows support services and searching tools that allow you to find a specific service or let you browse through all our services.

Computer Animation Forum

[Go Now: COMANIM](#)

The Computer Animation Forum contains many of the animation files created and distributed by online developers. Members correspond with each other, share tips, and disseminate samples of their animation work.

Computer Art Forum

[Go Now: COMART](#)

The Computer Art Forum covers images generated by or created on a computer using a paint or drawing program. Special workgroups for popular programs such as Tempra and Painter are quite active, a Graphic Novels team is creating online story art, and the Beginner's Studio helps people learning to draw and paint. Special GIF images, such as 3D and multi-image GIFs, can be found here as well.

Computer Buyers Guide

[Go Now: **COMPBG**](#)

Computer Buyers Guide is an online database of current product specifications for virtually every computer product sold in North America. The Guide also includes pricing and ordering information on over 10,000 items available through direct mail vendors. The Buyer's Guide has a QuickSearch facility that provides a guided search that you begin by simply entering a word or phrase. It also offers PowerSearch, which allows experts to use various search methods. ZD Net members get a monthly transaction allowance toward the use of Computer Buyer s Guide. Part of ZD Net.

Computer Club Forum

[Go Now: CLUB](#)

The Computer Club Forum is the home for users of computers no longer supported by the manufacturers, or which have no specific Forum area dedicated to their hardware on CompuServe. Computers supported in CLUB include Actrix, Adam, Amstrad, Apricot, Eagle, Kaypro, Ohio Scientific, Panasonic, Sanyo, all Timex/Sinclair hardware and the Victor 9000, although users of other computer systems are always welcome.

Computer Database Plus

[Go Now: COMPDB](#)

The computer industry changes daily and no one can keep up with all the new changes, right? Wrong. Computer Database Plus is a comprehensive collection, updated weekly, of computer-related abstracts and/or full text from leading computer industry publications covering hardware, software, electronics, engineering, communications and technology applications. Computer Database Plus includes over 230 magazine, newspaper and journal titles including *PC Magazine*, *Byte*, *Digital News & Review*, *MacUser*, *PC Week*, *PC World* and *Communications of the ACM*. Coverage for most titles starts with 1987. Search the more than 470,000 articles by subject, company name, product name, featured people, publication name and publication date. Computer Database Plus features a QuickSearch facility that provides a guided search that you begin by simply entering a word or phrase. It also offers PowerSearch, which allows experts to use various search methods.

Computer Life Online

[Go Now: ZNT:LIFE](#)

Computer Life Online, from *Computer Life Magazine*, is for people who use computers for everything from home finances to e-mail communication. Here you can give immediate feedback to *Computer Life* editors about new stories, features, reviews, and columns in the magazine, join special online events conducted by the editors, download quality software, and chat with people involved in every facet of personal computing. Part of [ZD Net](#).

Computer Life UK Forum

[Go Now: CLIFEUK](#)

Computer Life is the UK's first computer lifestyle magazine for people who use their PCs at home for pleasure and personal business, alone or with the rest of the family. In the Computer Life UK Forum members can browse through the expanding libraries of shareware and demo programs, take part in online discussions, or even pose questions to the *Computer Life* team.

Computer Resellers News Forum

[Go Now: CRN](#)

Read and discuss the latest happenings in the computer industry with computer-industry reporters, editors and the news makers themselves in the Computer Resellers News Forum. *Computer Resellers News*, a weekly newspaper giving an inside view of the computer industry, is known for its thorough coverage of marketing and distribution, company finances, and reviews of new products.

Computer Shopper

[Go Now: ZNT:CSHOPPER](#)

Computer Shopper is where shoppers go for information about buying computer products. This Forum area includes buying advice sections for systems, peripherals and software; sections about technology trends; and sections where you can get advice from *Computer Shopper* editors and columnists. Download related threads, buying guides and lists of buying tips. Part of [ZD Net](#).

Computers On Television Forum

[Go Now: PCTV](#)

Computers On Television is an online community of individuals that gather some of their computer knowledge from watching television. Members can ask questions about the shows, exchange messages with the hosts and producers, and find answers to questions that the guests may not have answered. The exchange of information in this Forum area will affect what is on future shows. Some of the programs currently included are Computer Chronicles, MacTV and Computer Classics. Stay tuned -- more shows will be added!

Connectix Forum

[Go Now: **CONNECTIX**](#)

The Connectix Forum includes information about Agent95, Connectix real-time performance diagnostics for Windows PCs and Macintoshes, and Connectix' other PC enhancement software, including QuickCard, RAM Doubler, Speed Doubler, QuickCam and VideoPhone. Download the latest updates and post messages directly to technical support and customer service departments. Press releases, new product announcements, and other current information can also be accessed in this Forum area.

Corel Applications 1 Forum

[Go Now: COREL1](#)

The Corel Applications 1 Forum is for users of the CorelDRAW suites, CorelPhotoPaint and CorelXARA. Members can get answers to technical questions from Corel's Technical Support Specialists or from other members. Corel's Technical Support Specialists monitor the Forum area Monday to Friday, 8:30am to 5:00pm, excluding holidays. File libraries contain useful technical information as well as program patches and utilities.

Corel Applications 2 Forum

[Go Now: COREL2](#)

The Corel Applications 2 Forum is for users of Corel VENTURA, Corel Print House, Corel CD Office Companion, Corel CD HOME, Corel Gallery, Corel FLOW, Corel CD Creator, Corel SCSI, and other Corel products. Here members can get answers to technical questions from Corel's Technical Support Specialists, or from other members. Corel's Technical Support Specialists monitor the Forum area Monday to Friday, 8:30am to 5:00pm, excluding holidays. File libraries contain useful technical information as well as program patches and utilities.

Corel Corporate Forum

[Go Now: CORELCORP](#)

Post questions and comments about customer service, product information and corporate policy in the Corel Corporate Forum. The Customer Service section processes order inquiries, and provides product and service information. Views and Opinions is devoted to commentary about products, service, and policies. This Forum area is not monitored by Technical Support.

Corel Office Forum

[Go Now: PEROFF](#)

The Corel Office Forum provides information and answers to questions relating specifically to the integration of the PerfectOffice products. This integration includes OLE, DDE, PerfectScript, QuickTasks, and others. Questions on the installation of PerfectOffice are also addressed in the Forum area.

Corel Office Library Forum

[Go Now: COFILES](#)

The Corel Office Library Forum is a libraries only Forum with a collection of support files for the various versions of WordPerfect, QuattroPro, PerfectOffice, Presentations, and DataPerfect.

Corel Presentations Forum

[Go Now: WPPR](#)

The Corel Presentations Forum provides information and answers to questions relating to Corel Presentations, previously known as WordPerfect Presentations. Individual sections are devoted to installation, networking, printing, charts, creating slide shows, and other features.

Corel Quattro Pro Forum

[Go Now: QUATTROPRO](#)

If you use Quattro, Quattro Pro or Quattro Pro for Windows spreadsheet programs, join this Forum area for online product information, news and technical support. Corel technical support representatives are online to answer your questions about printing, writing macros, networking, and using Quattro Pro in general. Members experienced in using Quattro Pro can also answer your questions and help you solve application problems.

Corel WP DOS Forum

[Go Now: WPDOS](#)

The Corel WP DOS Forum provides information and answers to questions relating to WordPerfect for DOS. Individual sections are devoted to installation, printing, macros/merge, networking, tables, and other features of WordPerfect.

Corel WP Mac Forum

[Go Now: WPMAC](#)

The Corel WP Mac Forum provides information and answers to questions relating to WordPerfect for the Mac. Individual sections are devoted to macros/merge, conversion, graphics, and other features of WordPerfect.

Corel WP Windows Forum

[Go Now: WPWIN](#)

The Corel WP Windows Forum provides information and answers to questions relating to WordPerfect for Windows. Individual sections are devoted to installation, printing, macros/merge, networking, and other features of WordPerfect.

CPIC Multimedia Viewer

[Go Now: CPIC](#)

CompuPic/CPIC for Windows, produced by Photodex, Inc., is a viewer, multimedia file manager, and editor for graphic, video, and sound files in all major formats. The CPIC Multimedia Viewer service is where you can learn more about this multipurpose product and about Photodex, view sample CPIC graphics, purchase the software, or download an evaluation copy.

The CP/M Forum

[Go Now: CPMFORUM](#)

The CP/M Forum is dedicated to users of the CP/M 8-bit and 16-bit computer operating systems. Members exchange information and discuss problems with other CP/M users. In addition to discussing CP/M itself, Forum members discuss programs that run on CP/M computers such as word processors and database programs.

Creative Labs Forum

[Go Now: **BLASTER**](#)

Creative Labs makes the Sound Blaster line of sound cards for personal computers, as well as the complete Sound Blaster Performance 8x and Sound Blaster Discovery CD 8x multimedia kits. Creative Labs also makes CD-ROM drives and Video Spigot and Video Blaster Capture Cards. This Forum area gives direct access to company representatives who can assist you with problems, answer questions and listen to recommendations for product improvements. Additionally, you can download the latest updates and fixes to common problems.

Crosstalk Forum

[Go Now: XTALK](#)

Software products developed and marketed by DCA/Crosstalk Communications are featured in this Forum area, which also offers libraries of data files for use with the products, a conferencing facility, bulletins, and a message board section for each product.

Crystal Support Forum

[Go Now: **REPORTS**](#)

Crystal, a subsidiary of Seagate Technology Inc, provides the Crystal Support Forum area for the exchange of information about Crystal Reports and Crystal Info software for developers and information technology departments creating reports and data-centric documentation.

CTOS/Pathway Forum

[Go Now: CTOS](#)

Unisys provides support for its family of workstations and its client/server technology in the CTOS/Pathway Forum. Discuss the latest product information, events, training, marketing news and shareware with CTOS' technical staff and other users. The libraries contain press releases, application tips, schedules of CTOS events, training schedules, and documentation listings.

Customer Support Technology Vendor A Forum

[Go Now: CSVENA](#)

This Forum area offers direct support to help desk professionals from vendors of some of the most popular customer support technology software. Members can post messages to vendors' technical support staff, share tips with other help desk professionals, and find programs, patches, and information files. The list below identifies the vendors currently represented in this Forum area and their products. To find all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Clientele Software, Inc	Clientele for Windows customer information database management system
DigiSoft Computers, Inc	Telescript call center automation software
InterApps, Inc	DOMINION family of Windows-based business information applications, including Help Desk, Problem Management, Asset Management, Change Management, Customer Account Management, Network Phonebook, and QuikNotes
Mushroom Software	Right-Tracker problem management system
ONYX Software Corp	ONYX Customer Center client/server customer asset management software designed exclusively for Microsoft BackOffice
Opis Corp	SupportExpress multi-user customer support and help desk software and HelpLink client-based trouble ticketing system, both for Windows environments
Teubner & Associates	help desk and support software solutions, including A-Net, FAXGate, and ESP - The Expert Support Program
Vycor Corp	DP Umbrella, a client/server help desk and asset management application, and Expertise Viewer, a problem solving application

Cyber Forum

[Go Now: CYBERFORUM](#)

Are you excited or just curious about the outlook of computing? Do you have opinions about the direction it is heading? Then enter CyberForum and discuss the future of various topics ranging from virtual reality to "nano-technology." Chat about how computers will affect fields such as science, the arts, literature and society. Join one of the workgroups to share your ideas about interfaces, programs or concepts that could be implemented today or in the near future.

Data Access Corporation Forum

[Go Now: DACCESS](#)

Join the Data Access Corporation Forum and investigate software products like DataFlex and OfficeWorks. Here you will find technical support, a library of programs and informative discussions with users of Data Access products. Technical bulletins, programming techniques and training are available when you join the Data Access Corporation Forum.

Data Based Advisor Forum

[Go Now: DBADVISOR](#)

Database troubles? Join the Data Based Advisor Forum, sponsored by *Data Based Advisor* magazine, to hear the latest in database topics, trends, bugs, and fixes. Writers, developers, and consultants offer advice, help information, and valuable insights. More than 50 vendors participate in offering free and timely product support. In the message sections, members discuss current industry news, database products and development, third party add-ons, and consulting issues. Libraries contain source code, demos, and product information.

Data Processing Newsletters

[Go Now: DPNEWS](#)

Finding reliable information about dp-related topics is easy when you search this database of leading newsletters covering the computer, electronics, and telecommunications industries. You can search by subject or publication date and retrieve the full text of newsletter articles that supply facts, figures, analyses, and current information on changing market and company conditions, company activities, new products and technologies, and government policies and trade agreements. The newsletters are selected from PTS Newsletter Database, which is published by Predicasts, Inc, and made available through Dialog Information Services, Inc and Telebase Systems, Inc.

DataEase International Forum

[Go Now: DATAEASE](#)

Relational databases are easy to build using DataEase's line of products. Even if you have no programming experience, you can learn to use DataEase for DOS, OS/2 or Windows. Access the DataEase Forum to find out more about DataEase's rapid application development software for PC database applications.

**Datastorm Technologies
Support Forum**

[Go Now: **DATASTORM**](#)

The Datastorm Technologies Support Forum offers support for users of the PROCOMM communications software packages such as PROCOMM, PROCOMM PLUS and PROCOMM PLUS for Windows. Libraries offer communications utilities and help with modem configuration.

DaVinci Forum

[Go Now: DAVINCI](#)

DaVinci provides support for DaVinci eMail, an electronic mail handling software product written for a number of platforms, in the DaVinci Forum.

Day-Timer Forum

[Go Now: DAYTIMER](#)

Day-Timer Technologies, maker of Day-Timer Organizer and Day-Timer AddressBook, offers sales information, free trials of software and technical information in this Forum area. Members can also post pre-sales and technical questions for Day-Timers staff to answer.

DBMS Forum

[Go Now: DBMSFORUM](#)

Communicate directly with the authors and editors of *DBMS by Miller Freeman Publishing*, a monthly magazine with 60,000 readers. *DBMS* provides information about client/server databases, application development tools and middleware. Exchange messages and download files to learn more about specific database management products such as SQL Server, Oracle, Informix, Xbase, Access, Paradox, PowerBuilder and SQL Windows.

DEC Network Integration Software Developers and Business Partner Developers Forum [Go](#)
Now: [DECNIDEV](#)

The Digital's Business Partner Forum is Digital Equipment's liaison service for Network Integration Software developers. The Forum area helps software developers with technical development or business questions for products that run on Digital's network integration software including the PATHWORKS Family (including middleware) and ManageWORKS. The forum is maintained by Digital's support group.

DEC PC Forum

[Go Now: DECPC](#)

The DEC PC Forum is intended for users of Digital Equipment Corporation (DEC) personal computers. Members exchange information, ideas, public domain programs and problems concerning DEC PCs with other members.

DEC PC Integration Forum

[Go Now: DECPCI](#)

Sponsored by Digital Equipment Corp's Personal Computing Systems Group (PCSG), this Forum area provides support for DEC's PC integration software and hardware such as PATHWORKS for DOS, Macintosh, VMS, Ultrix and OS/2. It also provides support for the DECpc family of personal computers and peripherals and the EtherWORKS family of network connectivity products. In this forum, find answers to your questions or just chat with others about PATHWORKS applications.

DEC Windows NT Support Forum

[Go Now: DEC4WNT](#)

Supported by Digital Equipment Corps Multi-Vendor Customer Services Group, the DEC Windows NT Support Forum enables members to post questions and download files to optimize their use of Windows NT on a variety of platforms such as DEC's Alpha AXP platform.

Dell Forum

[Go Now: DELL](#)

Users of Dell computers should join this Forum area to learn more about Dell systems such as the Performace EISA, Performance ISA, Dim/Pre Portable and Dim/Pre Tower. A Flash Bios Upgrades section contains the latest bios upgrade for systems that support the Flash Bios function. While you're here, make suggestions directly to Dell about its computer systems or about the Forum area.

Desktop Forum

[Go Now: MSDESKTOP](#)

The Desktop Forum provides an online community whose members exchange information, tips, and techniques concerning the Microsoft Desktop product family.

Desktop Publishing Forum

[Go Now: DTPFORUM](#)

The Desktop Publishing Forum provides information and tools for anyone who uses, plays with, or makes their living via electronic publishing, design, advertising, non-fiction writing, and/or printing. Forum messages cover hardware, layout, design and printing. A classified ads section is available. The libraries contain utilities, fonts, demos, reviews and "publication quality" desktop publishing templates, photos, and line and clip art.

Desktop Publishing Vendor A Forum

[Go Now: DTPAVEN](#)

CompuServe members can find support from vendors and independent user organizations in the Desktop Publishing Vendor Forums. Members can post messages to the vendors or access help files, programs or patches for the vendors' products. Libraries contain files devoted to specific software releases, news releases from vendors, and other useful information. Listed below are the vendors represented in the Desktop Publishing Vendor A Forum, along with the main products supported. To find all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Bitstream	fonts and other typographic products, including MakeUp, Type Essentials, and Facelift
ColorAge Inc (CAI)	ColorQ series of digital color print servers and Freedom of Press software-based PostScript interpreter
Electronics For Imaging (EFI)	color management system products, such as Cachet Color Editor and EfiColor
Graphic Communication Association	volunteer non-profit professional association
GST (Timeworks)	desktop publishing software, such as Publish It! and multi-directional translation software for DOS and Windows, such as Translate It! and Word Translator
Hyphen	raster image processors
Indigo Customer Exchange (ICE)	independent user group supporting Indigo digital color offset printing presses
Lino-Hell Users	independent users group supporting Linotype-Hell imagesetting equipment
Monotype Typography	fonts and related psoftware
QMS	non-impact printers
Sigma Designs (SDIS)	color, grayscale, and monochrome displays and controller boards for DOS and Mac computers
Timeworks	see GST

Desktop Publishing Vendor B Forum

[Go Now: DTPBVEN](#)

CompuServe members can find support from vendors and independent user organizations in the Desktop Publishing Vendor Forums. Members can post messages to the vendors or access help files, programs or patches for the vendors' products. Libraries contain files devoted to specific software releases, news releases from vendors, and other useful information. Listed below are the vendors represented in the Desktop Publishing Vendor B Forum, along with the main products supported. To find all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Agfa	Chromapress digital color printing systems and software, scanners, and scanner drivers
Dataproducts Corp	printers (especially Typhoon laser printers), printer supplies, PostScript type. software RIPs
Elfring Soft Fonts	soft fonts in various formats and clip art for IBM compatibles
Light Source, Inc	Ofoto scanner-to-printer software and Colortron digital color sensor
Pantone, Inc	products for color specification and reproduction, including PANTONE MATCHING SYSTEM, PANTONE PROCESS Color System, and PANTONE Hexachrome
Serif, Inc	PagePlus and DrawPlus
SoftLogik Publishing	Pagestream publishing software for various platforms
Step By Step Graphics	how-to newsletter for electronic graphic designers and illustrators
TechPool Software	(Macintosh and Windows) Transverter Pro software PostScript interpreter, plus professional-level medical clip art, including Super Anatomy, Emergency, Health Care, and Dental collections
Teletypesetting	T-Script software PostScript interpreter; also, Digital Gourmet cooking software
TRUMATCH, Inc	color reproduction software for printers, copiers, and printing presses
Typestream	(U.K.) Windows PostScript typesetting and reproduction services

Desktop Video Forum

[Go Now: DTVFORUM](#)

The Desktop Video Forum supports those who use software and hardware tools to create products whose ultimate media is videotape or some other non-computer format. The Forum area supports everyone from the Hollywood special effects computer professional to the local wedding and special events videographer.

Deutschen Windows 95 Fun Forum

[Go Now: DEUSPASS](#)

German-speaking users of Windows 95 can join this Forum area to find a plethora of games, sounds, screen savers, icons, and other graphics. It's also a good place to find out how others are pursuing pleasurable activities with Windows 95. In addition, there are a message section and library that cover learning tools for children.

Deutsches CA-VO Forum

[Go Now: **VOGER**](#)

Deutsches CA-VO Forum offers general information in German on CA-Visual Objects and VO programming. Libraries contain Visual Objects Editor files, GUI and Visual Objects server classifications files, VO-terminal emulation and DLL files and much more. Announcements of demo programs, information about distribution lists and user groups, and many shareware, public domain and freeware files are available.

Deutsches Computer Forum

[Go Now: GERNET](#)

The Deutsches Computer Forum is the German-language meeting place for discussion of such computer and technical issues as ISDN and mobile phones, Datex-J/Btx, Internet, Video/Multimedia, Macintosh, and programming. The libraries contain software, utilities and CompuServe tips.

Deutsches Corel Forum/Corel German

[Go Now: CORELGER](#)

If you speak German and you use any Corel products, you'll want to join the Deutsches Corel Forum/Corel German, a community where you can share your experiences, ideas, and opinions. Along with your fellow users, you'll find Corel technical support staff who are able and willing to help answer your questions, resolve your problems, and compare notes about Corel software such as WordPerfect, CorelDRAW!, SCS/CD Creator, as well as Corel's Ventura lines of graphics and desktop publishing applications and its 3D/CAD products. And you can download upgrades, enhancements, press releases, etc, from the Forum libraries.

Deutsches Entwickler Forum

[Go Now: GERSOF](#)

German-speaking software developers and programmers meet in the Deutsches Entwickler Forum to exchange information and opinions about developments in their professional arena.

Discussions in the message section cover all kinds of software applications running on all kinds of platforms, and files in the libraries contain a great deal of valuable information, sample programs, etc, submitted by professional experts.

Deutsches PC DIREKT Forum

[Go Now: PCDIREKT](#)

The Ziff PC Direkt Forum from Germany offers product and price indexes and overviews of the German computer market. Tables from *PC Direkt* can be downloaded as data files. The Forum offers lots of support and discussion from the *PC Direkt* editors as well as benchmarks and tools.

Deutsches PCpro-Forum

[Go Now: PCPRO](#)

The Ziff PCpro Forum is the direct link to the editorial staff of *PC Professionell*, the German-language equivalent of *PC Magazine*. Here you get to know which product is the best for your job -- and how you get the most out of it. Talk to the editors, PC experts and insiders in the message section of the Ziff PCpro Forum. Discuss software, hardware, the PC industry and the contents of *PC Professionell*. You'll also find the latest versions of ZD Lab's benchmarks, an extensive driver software service, the latest news on the trends, the hottest products of the PC industry, shareware, macros and listings mentioned in *PC Professionell*. The Ziff PCpro forum is sponsored by the German publishing company Ziff Verlag GmbH.

Developer Relations Forum

[Go Now: MSDR](#)

If you use Microsoft products to develop your own applications, join the Developer Relations Forum for information and tips for using Microsoft systems products. WUGNET sysops and experienced developers are online and participate in the message sections to answer your technical and non-technical questions about the products and their usage.

DiagSoft Forum

[Go Now: **DIAGSOFT**](#)

DiagSoft offers PC and Macintosh quality-assurance and diagnostic software products that can help you solve hardware and software problems and assist you in getting optimum performance from your system. Service and support technicians, system integrators, VARs and other users can discuss existing system problems or problems that may occur when installing new components or software.

Diamond Multimedia Forum

[Go Now: DIAMOND](#)

This Forum area offers 24-carat support for Diamond Multimedia Systems products. You'll find message sections and libraries covering the Stealth series of graphics and video accelerators, SpeedStar video cards, the Fire GL 3000 graphics accelerator, Viper display drivers, and many others. You can get answers to your questions from Diamond staff, share ideas and experiences with expert users, and download a wide variety of drivers, updates, etc.

DMV Verlag Forum

[Go Now: DMVGER](#)

DMV Verlag Forum offers useful information and program files in the German language. The libraries contain shareware, drivers, games, utilities, macros, and tips and tricks on programming in Pascal, C++, C and other programming languages.

DOS Forum

[Go Now: **MSDOS**](#)

Stream International supports users of MS-DOS through the DOS Forum. In the message section and conference area, members share information about all aspects of MS-DOS, including setup and installation, hardware, conversions and command usage. Stream's technical support specialists participate in this Forum area to make sure that MS-DOS users get the most current information available.

Dr. Dobb's Journal

[Go Now: DDJ](#)

In the electronic edition of *Dr. Dobb's Journal*, you can gather information about computer languages, tools, utilities, algorithms and programming techniques. In addition, this Forum area offers reviews of commercial software development tools and libraries for professional microcomputer programmer. You may also submit and/or discuss with DDJ editors your article ideas for use in future publications.

Dr. Neuhaus Forum

[Go Now: NEUHAUS](#)

German-speaking members should join this Forum area for technical support and information about Dr. Neuhaus communications products. Learn more about how to use Dr. Neuhaus products such as FURY modems, NICCY ISDN modems, FAXY fax boards and CONNY X.25 and POWERLan products. Support is also available for the remote communications software program, Carbon Copy, which is distributed by Dr. Neuhaus. Answers to many common questions are included in the libraries.

DTP Online

[Go Now: DTPONLINE](#)

Desktop publishers will want to look at DTP Online for fonts, clip art and utilities. DTP Online offers a wide variety of fonts and clip art from major vendors. You can view the font or graphic in GIF form before purchasing so you always know exactly what you are getting. DTP Online eliminates the guesswork and ships your selections directly to your home or office.

Dvorak Development Forum

[Go Now: DVORAK](#)

Access the Dvorak Development Forum to obtain technical support and product information for Dvorak Development's NavCIS programs.

Eastman Kodak Company

[Go Now: KODAK](#)

Looking for photo CD services? The Eastman Kodak Company will help you find the nearest provider. You can also shape the future of imaging by participating in a Kodak survey, and find out about the Kodak Picture Exchange, a service that gives subscribers online access to a truly global image collection.

EDI Forum

[Go Now: EDIFORUM](#)

Discuss the conduct of electronic data interchange (EDI) in the EDI Forum. The message sections and libraries contain useful information about commerce using EDI, where to find it, how to participate in it and more.

EEnet

[Go Now: EETNET](#)

The *Electronic Engineering Times* newspaper provides headline news from the newspaper to brief you on what is happening in the world of electronics, as well as current job opportunities for electronic engineers. From here, you can also access Forum areas for electronic engineers to exchange information and ideas with other engineers and companies.

EETnet's Engineer's Forum

[Go Now: EETENG](#)

Brought to you by the *Electronic Engineering Times*, this Forum area is a community of electronic engineers discussing technical issues, design and development problems, and related topics. You'll find message sections and libraries for tools and software, computer systems and communications networks, signal processing, medical devices, unencoded graphics, emerging technologies, etc, plus many stimulating conversations in the conference rooms.

EEnet's International / Engineering Professional's Forum [Go Now: EETINT](#)

Brought to you by the *Electronic Engineering Times*, this Forum area is actually a number of regionally based communities.. Each region of the world has its own message section, library, and conference room, where Forum members share information about careers, ethics, the profession at large, and other topics that concern electronic engineers everywhere in the world.

EETnet's Standards Forum

[Go Now: EETSTD](#)

Professional electronic engineers get together in this Forum area to discuss standards for all kinds of electronic technologies and for professional competence. Brought to you by the *Electronic Engineering Times*, this Forum area includes message sections and libraries where Forum members share information and ideas about standards for fiber optics, parallel ports, etc. In addition, there are special message sections and libraries for topics related to ISO 9000 and total quality management (TQM).

Eicon Forum

[Go Now: EICON](#)

The Eicon Forum discusses Eicon products such as Access for Windows and Access for DOS emulation programs, OSI Gateway, toolkits and routers for many types of communication systems. Members receive technical support for Eicon products from company representatives and other experienced users. A PR/Announcements section publishes product-release information before it hits the newsstand. Downloadable product reviews and help files are available in the Forum libraries.

ELSA GmbH Forum

[Go Now: ELSA](#)

If you are seeking information or technical support for ELSA products, visit the ELSA GmbH Forum. Here you can learn more about ELSA modems and ELSA graphic cards. In the message areas, ask technical experts about these products. In the libraries, download the latest utilities and drivers.

Engineering Automation Productivity Forum

[Go Now: LEAP](#)

The Engineering Automation Productivity Forum, sponsored by the League for Engineering Automation Productivity (LEAP), hosts discussions about CADD/CAM and other programs that are used by engineers, architects and other professionals for computer-aided design. Members help one another find the right software programs for specific applications and draw from their own expertise to offer tips and techniques on using the programs. The libraries are also full of articles about engineering technology and software applications.

Enterprise Information Link

[Go Now: LTN](#)

CompuServes Enterprise Information Link is the global information hub for users of Lotus Notes. CompuServes Enterprise Services offer global electronic mail connectivity, public information and replication services for users of Lotus Notes. Supported by CompuServes worldwide network, this service lets Lotus Notes users communicate and share information with others in over 100 countries. Access current news, recent periodicals, CompuServes world-renowned Forum areas and much more.

Epson America Forum

[Go Now: EPSON](#)

Sponsored by Epson America, Inc. and operated by Epson's product support staff, the Epson America Forum provides members with information and support for Epson products such as printers, scanners, and desktop and notebook computers. The libraries contain setup software, drivers, switch settings, product bulletins, technical notes, press releases, news and other helpful and interesting information.

Excel Forum

[Go Now: EXCEL](#)

The Excel Forum provides technical support for all versions of Microsoft Excel. Templates and spreadsheets are available for downloading. Specialists from Stream International are on hand to respond to your questions and dispense helpful advice, and expert Excel users freely share their knowledge and experience.

Executives Online Forum

[Go Now: ZNT:EXEC](#)

The Executives Online Forum gives you direct access to industry leaders who visit to discuss new products, company strategies and industry news. Past guests have included Borland's Philippe Kahn, Dell's Michael Dell, Microsoft's Mike Maples and IBM's OS/2 2.0 team led by Lee Reiswig. Part of ZD Net.

Familie & Computer Forum

[Go Now: FAMCOM](#)

Access information for German-speaking computer novices of all ages in the Familie & Computer Forum. The Forum area complements *Familie & Computer* magazine, published by Ziff-Davis Verlag GmbH. The Familie & Computer Forum provides information to help make using your computer easy. There are introductory articles on computers and databases, shopping guides, and educational software and games demos ready to be downloaded. Message sections and libraries cover topics such as computer help and assistance, what to buy, parents online, home and environment, profession and career, holidays and leisure, kids online, school and PCs, fun and games, and creative computing.

FAST Multimedia AG Forum

[Go Now: FAST](#)

Get German language support from FAST Electronic, the developer of multimedia software. Product updates and various info-files can be downloaded from the library in the forum.

**Federation of International
Distributers (FID) Forum**

[Go Now: FEDERATION](#)

The Federation of International Distributors, an association of international Macintosh, OS/2, Windows, NeXT, UNIX and MS-DOS distributors and republishers, provides this Forum area for its members to discuss industry concerns and establish international business protocol standards with members of the International Managers' Club (IMC). Upcoming Federation events are posted in the message section. This Forum area also serves as a resource for developers and manufacturers seeking qualified international distributors for marketing their products.

Find A File

[Go Now: FILEFINDER](#)

Find A File lists CompuServes File Finder products in one easy to find location.

The FocConnection

[Go Now: FOCUS](#)

The FocConnection, sponsored by Information Builders, Inc, is an online information service that links IBI and users of the FOCUS programming language. Various support services are available in the FocConnection, such as technical databases, monthly updates about coming features and software development, educational course schedules, and Forum areas that provide technical support.

FocServices Forum

[Go Now: FOCSERVICES](#)

Operated by Information Builders, Inc, the FocServices Forum provides educational course schedules, marketing information, and published articles about the FOCUS programming language and Level5. The message and library sections are divided by United States regions such as Northeast, Northwest and Western, and include sections for Canada and International so you can easily find educational seminar and course schedules taking place in your area. Another section, Systems Journals, contains downloadable codes enabling you to read back issues of *Focus Flash*.

FocWizards Forum

[Go Now: FOCWIZARDS](#)

If you cannot find the answer to your question about using the FOCUS programming language, ask one of the FOCUS gurus in the FocWizards Forum. The message sections include topics such as using FOCUS for report preparation, database design, file maintenance and Level5. Ask your question in the appropriate message section and a sysop or other FocWizard will reply with the answer.

Forth Forum/Creative Solutions

[Go Now: FORTH](#)

This Forum area is sponsored by Creative Solutions, Inc, to support its Forth products and to answer all general Forth questions. Forth is a powerful but compact programming language well-loved by programmers.

Forum Francais de Corel/Corel French

[Go Now: CORELFR](#)

Forum Francais de Corel, the Corel French Forum, is the main source of information for French-speaking users of WordPerfect, Corel's many graphics applications and other Corel products. This Forum area is a community where you can exchange ideas and information with experts and novices alike. Corel technical staff check messages regularly, and routinely add printer drivers, upgrades, and other valuable files to the Forum libraries.

Foundation Classes Forum

[Go Now: MSMFC](#)

This Forum area, managed by WUGNET, is designed as an area for developers to exchange information, tips, and techniques concerning Microsoft Foundation Classes.

The Fox Software Forum

[Go Now: FOXFORUM](#)

The Microsoft Fox Software Forum, managed by Stream International, provides support for Fox database management and graphics software. Software supported includes FoxPro, FoxBASE+, and FoxBASE+/Mac. Support is also provided for third-party software, hardware, applications development, operating systems, and consultants. The libraries contain templates, technical notes, and programs for use with Fox software.

Fox User Forum

[Go Now: FOXUSER](#)

Members can exchange information, tips and techniques concerning Microsoft's Fox software in the Fox User Forum. Members can find answers online as well as help and seek assistance from other Forum members. Technical support specialists from Stream International monitor and participate in this forum.

Frame Relay Forum

[Go Now: FRAME](#)

The Frame Relay Forum addresses hot topics in networking, such as LAN/WAN integration, client/server development, and multivendor networking. Members can get information on how Frame Relay provides solutions to these challenges and get feedback from people who have used Frame Relay. Press releases, newsletters, technical information, marketing information, user experiences, and vendor services and products are available.

**FUJI Photo Film USA
Imaging Forum**

[Go Now: FUJI](#)

Discuss and share information on subjects ranging from conventional photography to the latest in digital imaging in the FUJI Photo Film USA Imaging Forum. Sections on negative film, reversal film, FUJI cameras, electronic imaging and other topics are available.

FUSE Forum

[Go Now: FUSE](#)

The FOCUS Users Group (FUSE) Forum is primarily for discussions among FOCUS users about FOCUS and related topics. In the message sections, members can ask one another questions about programming techniques using the FOCUS language and share trouble-shooting and problem-solving tips. A Fuseviews section is available for members to share opinions about FOCUS Users Group topics of interest.

Gateway 2000

[Go Now: GATEWAY](#)

Gateway 2000 representatives support Gateway's full line of IBM compatible microcomputers including 286/16, 386SX-16, 386SX-20 cache, 386-25, 386-33 cache, 486-25 cache and 486-33 cache systems within the Gateway 2000 Forum.

General Computing Forum

[Go Now: GENCOM](#)

The General Computing Forum supports members and prospective members of professional computing associations and related organizations. Each one has its own message section and library, where members can communicate with each other and learn about the organization's aims and accomplishments, and also keep up with current and coming events. Several vendors are also represented, with message sections and libraries supporting their products. The organizations and vendors are listed below. To find all the CompuServe services related to a specific organization, vendor, or vendor product, visit the [Support Directory](#).

American Computer Scientists Association (ACSA)	professional association for research, education, and philanthropy
Applied Systems Technologies, Inc (ASTEC)	Cornerstone family of Windows-based instrument maintenance management software
Center of Software Development	see Software Entrepreneurs Forum
Computer Associates, Inc (CAI)	see Dependable Software Solutions, Inc
Computer Software Industry Association	see Software Entrepreneurs Forum
Data Administration Management Association (DAMA)	professional association for managing information and data as key enterprise assets
Data General	Business BASIC language and its derivatives, such as B32, UBB, and Bluebird support for Computer Associates, Inc (CAI) products, especially CA-Culprit and CA-IDMS: also, consulting services
Dependable Software Solutions, Inc	
Humagement Inc	me2 self-discovery program for matching career/life choices to personality and talents
Institute for Behavioral Health Care (IBHC)	behavioral health care industry education and leadership development (non-profit)
Institute for Certification of Computer Professionals (ICCP)	professional standards organization for the information processing industry; certification/recertification programs include Associate Computer Professional (ACP) and Certified Computing Professional (CCP)
It's Your Money, Inc (IYM)	Uninstall for Windows
Progress Software Corp	PROGRESS E-Mail special interest group
Software Entrepreneurs Forum (SEFNET)	professional association of software developers and entrepreneurs; includes support groups for the Computer Software Industry Association and the Center of Software Development
Software Manufacturing Association	association for software professionals involved in manufacturing, purchasing, and fulfillment

Versit

vendor alliance promoting cross-platform interoperability between computer and communication industries; for example, the vCard specification for electronic business cards

Wave Technologies

training classes and courseware for network engineering and management

X.400 API Association (XAPIA)

association of vendors and user organizations of application programming interfaces (APIs) for e-mail systems and mail-enabled applications

General Magic Forum

[Go Now: MAGIC](#)

This Forum area provides support for users of personal digital assistants (PDAs) with the Magic Cap operating system from General Magic, Inc. Vendor support sections for General Magic licensees and developers are also available. Members can post messages to support staff from General Magic or the other vendors, and download games and other applications that run on Magic Cap PDAs, as well as help files, news releases, and other information files. Listed below are the other companies represented in the General Magic Forum, along with the main products supported by each company. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

River Run Software Group

Magic Connection and other wireless and wireline communications software for mobile computing platforms, including CompuServe Companion, an intelligent agent for CompuServe members

Sony New Technologies Inc (Sony NTI)

games, OAG Flightline, and other software for the Magic Cap operating system

Sony Personal Information Co (Sony PICO)

Magic Link PIC-1000 and Magic Link PIC-2000 personal digital assistants (PDAs)

German MACup Verlag Forum

[Go Now: **MACUP**](#)

The German MACup Verlag Forum is the hotline between readers of *MACup* magazine and its editors. The forum offers the latest news about Apple Macintosh plus new software and game files. Interact with other readers, editors and VIPs from the industry's leading companies. All documents in the library are in Adobe Acrobat 2.0 format (PDF) but can also be read by Acrobat 1.0 readers.

Glamour Graphics Forum

[Go Now: GLAMOUR](#)

Visit the Glamour Graphics Forum to view fashion glamour photos from stock photography agencies. Join the scheduled weekly conference to learn more about graphics.

Gold Disk Forum

[Go Now: GOLDDISK](#)

Access technical support and discussion areas for Astound multimedia presentation software and other Gold Disk products in the Gold Disk Forum. The Gold Disk technical support staff monitors and participates in the Forum area regularly. You will find FAQs, press releases, and other Gold Disk related information. The libraries contain updated drivers and patches for Gold Disk software products. Members are encouraged to upload and share their screen savers and other resources created with Gold Disk applications.

Golden Commpass Forum

[Go Now: GCPSUPPORT](#)

Creative Systems Programming provides support for Golden Commpass, its CompuServe interface developed for OS/2, in the Golden Commpass Forum. This Forum area is also a great online place to keep up with the misadventures of Kevin and Kell.

GoldMine Forum

[Go Now: **GOLDMINE**](#)

GoldMine and GoldSync users meet and share ideas, techniques and experiences in the GoldMine Forum. Members can access software updates and exchange ideas regarding GoldMine and other ELAN Software products, associated services, and service providers. Regularly scheduled conferences are held, but members are welcome to arrange their own conferences and are encouraged to arrange a variety of exchanges and swaps.

Graphics A Vendor Forum

[Go Now: GRVENA](#)

CompuServe Graphics Vendor Forums provide members with support from vendors of graphics hardware, software, and services. Members can post messages to the vendors or access help files, programs, or patches for the vendors' products. Libraries contain files devoted to specific software releases, news releases from vendors, and other useful information. Listed below are the individual vendors represented in Graphics A Vendor Forum, along with the main products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

ATI Technologies Inc.	color video systems and adapters
Cirrus Logic	desktop/laptop graphics driver sets and chipsets
CPI Inc	see Hi Image
Digital Vision	ComputerEyes digitizers
Genus Microprogramming	graphics programming toolkits
Graphics Software, Inc	Big D ray trace rendering software
Hi Image	Image-In-Color and Image-In-Color Professional image processing toolkits
Iterated Systems	Fractal Transform Technology software
Jovian Logic Corp	SuperVIA video digitizer, Gloria high fidelity digital stereo sound board, and GENIE scan converter
Metagraphics, Inc	MEDIA!LAB multimedia programming toolkit, MetaWINDOW series of cross-platform graphics programming toolkits, and other professional graphics development tools, such as MetACCEL and MethICOLOR
Paul Mace Software	GRASP presentation/animation program
Presidio Software (Pacific Motion)	3D Workshop animation program for DOS, and PC ANIMATE PLUS professional-quality art, video, music, and painting package
Rix Softworks	paint programs, including ColoRix for DOS and WinRix for Windows
STB Systems	PC-compatible hardware boards, such as PowerGraph, PowerView, PowerMeg, 4-on-the-floor, and VGA 800/16
TEGL Systems	graphical interface programming toolkits for Turbo Pascal, Quick Pascal, and C languages
Virtual Reality Laboratories, Inc (VRLI)	immersion systems, such as data gloves and

stereoptic goggles, and software for landscape generation, ray tracing of objects, digitalization of planetariums, audio synthesis, etc

Graphics B Vendor Forum

[Go Now: GRVENB](#)

CompuServe Graphics Vendor Forums provide members with support from vendors of graphics hardware, software, and services. Members can post messages to the vendors or access help files, programs or patches for the vendors' products. Libraries contain files devoted to specific software releases, news releases from vendors, and other useful information. Listed below are the individual vendors represented in Graphics B Vendor Forum, along with the main products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Animated Software	Russel's Animation Machine (formerly P-11 Editor) animation toolkit, Engine of Life training demo, and Labeler
Appian /ETMA	Renegade graphics boards and video drivers
DesignWare, Inc	design software for DOS, such as My House and 3D Office
Genoa Systems	graphics and video boards
HSC Software Corp	see MetaTools, Inc
LEAD Technologies	imaging toolkits and image conversion and compression utilities
Matrox	graphics accelerators and video processing solutions, including MGA Millenium, MGA Ultima, MGA Impression, Matrox Studio, Illuminator Pro, Matrox Automation Express, and Marvel
MetaTools, Inc. (formerly HSC Software Corp)	PC and Mac software for desktop publishing, graphic design, game design, World Wide Web site design, multimedia development, film and video production, digital photography, etc
Solana Software	SHOWOFF!! image viewer
StereoGraphics, Inc	3D simulation hardware and software, such as the CrystalEyes system
Sun Country Software	graphics software, professional imaging tools for PCs and utilities for adding raster-based images and animation to text-mode applications
Tseng Labs	video and graphics chips and boards

Graphics C Vendor Forum

[Go Now: GRVENC](#)

CompuServe Graphics Vendor Forums provide members with support from vendors of graphics hardware, software, and services. Members can post messages to the vendors or access help files, programs or patches for the vendors' products. Libraries contain files devoted to specific software releases, news releases from vendors, and other useful information. Listed below are the individual vendors represented in the Graphics C Vendor Forum, along with the main products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

AccuSoft	cross-platform and -language imaging software, including the Accusoft Image Format Library, the Accusoft Professional Imaging Toolkit, and the Accusoft Redlining Toolkit
Artist Graphics	high-speed graphics controllers for PCs, including Xj1000 (for CAD) and WinSprint1000i (for Windows)
Caligari Corp	desktop 3D graphics software for professionals: Caligari Broadcast and Caligari24 for Amiga users, and Caligari trueSpace for Windows users
Clear Software	software tools to automate flowcharting: allCLEAR for DOS or Windows, and CLEAR for C or dBase
Envisions	scanning and digitizing equipment
Handmade Software (with Image Alchemy)	Image Alchemy PS graphic file format conversion utility that renders PostScript and Encapsulated PostScript
Krolman	Krolman Presentations on the Go products, including goPresent 2.0 for TV-to-computer conversion and the pcPanel notebook with a built-in LCD overhead adapter
MicroFrontier, Inc.	(for the Mac) Color It! program for 32-bit image editing and painting, Enhance program for professional grayscale image processing, Paint It! program for novices; also (for Mac and Windows) Pattern Workshop (a plug-in for Photoshop) and Pattern Libraries
Number Nine Visual Technology Corp	wide range of mainstream and high-performance graphics accelerators; also, HawkEye for Windows software, which is licensed to OEMs
Pegasus Imaging Corp	IMPAC series of lossy/lossless image compression utilities,; also, PICView, PICPress, the Photo/ID Picture Identification System, and the PICBase database for cataloging images

Pixel Management	V-BASE and VBW (V-Base for Windows) image management toolkits, EPIC image processing software, and DRAMA image analysis software
Ray Dream, Inc	device- and platform-independent drawing tools for professional graphic designers and business professionals: Ray Dream Designer, addDepth, and JAG
Scientific Endeavors	GraphiC platform-independent C-callable graphing routines used to create publication-quality scientific graphics
Sentfactor, Ltd	high performance multimedia Windows software: Sentfactor Photo-CD Access, Multimedia Tools (and the runtime version), Animator, Paint, and Morph
Soft-tek International, Inc	GRAFSMAN cross-platform tools for building graphics into applications
Ulead Systems	writing, painting, and composition tools for Windows, including MediaStudio and MediaStudio Pro, PhotoStyler, ImagePals, and MorphStudio; also, software bundled with multimedia PCs and graphics devices, including iPhoto Plus, Video Studio, HQ-9000, and ArtWall

Graphics Corner Forum

[Go Now: CORNER](#)

Find photo-quality scanned images in the Graphics Corner Forum. These images show off the quality of GIF to its fullest. Images in the library include people and portraits; domestic and wild animals; nature scenes such as mountains, seas, flowers and trees; cars, boats, planes; landmarks; space and astronomy, and much more. The message boards are active with discussions of the images' backgrounds.

Graphics Developers Forum

[Go Now: GRAPHDEV](#)

Find images created by special computer programs (and the programs themselves) in the Graphics Developers Forum. Fractals, raytracing (including POV-ray), morphing, animation, and virtual reality workgroups hold active discussions and conferences on the state of the art and the future of computer graphics.

Graphics File Finder

[Go Now: **GRAPHFF**](#)

Browsing through the Graphics Forums files has never been easier. The Graphics File Finder is a comprehensive keyword-searchable database of files found in all of CompuServe's graphics-related Forum areas. The Graphics File Finder enables you to search for files by topic, file submission date, Forum name, file type, file extension, file name or submitter's User ID number.

Graphics Gallery Forum

[Go Now: GALLERY](#)

The Graphics Gallery Forum features online image collections from such renowned sources as the Smithsonian Institute, the National Aeronautics and Space Administration, the United States Department of Agriculture, and tourism agencies throughout North America.

Graphics Plus Forum

[Go Now: GRAPHPLUS](#)

If you are interested in truecolor images, stored in popular formats such as JPEG, TIFF, Targa and Windows BMP, you can find them in the Graphics Plus Forum. With over 16 million colors per image, the photos, hand-drawn and computer-generated graphics in this Forum area are truly works of art.

Graphics Showcase Forum

[Go Now: GRFSHOW](#)

The Graphics Showcase Forum features the collections of some of the best individual contributors of graphics on CompuServe. Collections change on a monthly or quarterly basis to focus on GIF and JPEG image files from a wide variety of image providers. New images are supplied daily by many contributors.

Graphics Support Forum

[Go Now: GRAPHSUPPORT](#)

The Graphics Support Forum is the primary source for programs that work with GIF images. Here you can find GIF viewers, format converters, paint programs, and GIF analysis tools. The official GIF specification, released by CompuServe, is in this Forum area. This Forum area is where many questions on graphics can be answered, and there is also a workgroup on copyright issues and artists' rights.

Graphics Users Group Forum

[Go Now: GUGRPA](#)

Graphics Users Group A Forum is for individuals who use programs such as Imagine, Matisse, MicroFrontier, Painter, Tempra, and trueSpace to distribute files they create and to share their expertise.

Graphics Visual Index

[Go Now: GRFINDEX](#)

Graphics Visual Index enables you to quickly and efficiently preview GIF and JPEG image collections in Graphics Forums prior to downloading full-size pictures. Each library represents one of the Graphics Forums and contains GIF files. Each Visual Index GIF image file contains 24 thumbnail previews of the actual graphics, and is tagged by Forum name, GO word, and library name and number to make locating files as easy as possible.

Graphics Welcome Center

[Go Now: GRFWELCOME](#)

The Graphics Welcome Center helps members learn how to find graphics on CompuServe how to work with graphics files. The Center helps members learn how to perform basic graphics operations on CompuServe such as transferring files, performing searches, viewing graphic images such as GIF and JPEG files, videos, and animations, and accomplishing many other graphics-related tasks.

Gupta Forum

[Go Now: GUPTA](#)

Users of Gupta Corporation's client/server software meet in this Forum area to exchange ideas and information about Gupta's application development and deployment products. These products include SQLWindows (a quick and powerful client/server development system), SQLBase (a high-performance database for PC client/server applications), SQLNetwork connectivity products, and Quest data management products.

Hardware Forums

[Go Now: **HARDWARE**](#)

CompuServe has many Forum areas that offer support for various types of computer hardware. These Forum areas enable members to exchange ideas, experiences, and information about the hardware they use. Also, many hardware-related Forums areas provide interaction with manufacturers and include extensive libraries which contain software programs. GO HARDWARE to access a comprehensive menu of all the hardware-related Forum areas on CompuServe.

Hayes Online

[Go Now: HAYES](#)

You'll find the latest information on Hayes and its hardware and software products in Hayes Online. Learn first-hand about Hayes product introductions, upgrades and pricing. You'll find Full product descriptions, special support programs, and the [Hayes Support Forum](#).

Hayes Support Forum

[Go Now: HAYFORUM](#)

In the Hayes Support Forum, members receive online technical support for Hayes products such as Smartcom, Smartmodems, ULTRA/OPTIMA, ACCURA, personal modems, and JT Fax. Members share their knowledge and experiences with Hayes products and trade hints on installing, configuring, programming, and using the communications hardware and software.

Helix Software Forum

[Go Now: **HELIX**](#)

Helix Software, a leading provider of innovative utility software for the Windows and DOS platforms, supports its products in the Helix Software Forum. Helix Software provides quick answers to pre-sales questions and prompt assistance on technical issues regarding its products including Hurricane, Netroom, Multimedia Cloaking, and the Cloaking Developers Toolkit.

HP Deskjet User-Moderated Forum

[Go Now: HPDESKJET](#)

This Forum area is an online community of users of Hewlett-Packard's families of inkjet printers: Deskjet, DeskWriter, FaxJet, and OfficeJet. User moderation means user participation; here you it's not just the sysops who answer questions, but experts and others who have had similar experiences -- even you yourself! In the Forum libraries you'll find doco, press releases, tips, shareware and public domain software, patches, conference transcripts, and more.

HP Deutsch Forum

[Go Now: HPDEUTSCH](#)

For German-language information and advice about Hewlett-Packard products, join the HP Deutsch Forum. Here you can share experiences with fellow users, exchange ideas and opinions, and find help resolving any problems. In the Forum libraries you'll find files with printer drivers, tips and techniques, press releases, and much more.

HP Handhelds Forum

[Go Now: HPHAND](#)

Covering all the HP calculators and handheld computers, including the 95LX and 100LX Palmtop PCs, the HP Handhelds forum offers lively discussion on all aspects of these powerful portable systems for everyone from new users to experts. The Forum libraries contain a wide variety of shareware to help you get the most from your palmtop computer.

HP OmniGo Showcase

[Go Now: OMNIGO](#)

HP OmniGo Showcase covers product information relating to the HP OmniGo 100 organizer, including product literature, photos and press releases. Information on purchasing add-on products for the OmniGo is also available.

HP Systems Forum

[Go Now: HPSYSTEMS](#)

Interested in HP computers, mass storage devices, EtherTwist LAN hardware, OpenView LAN software, NewWave or DashBoard? Then access the HP Systems Forum to discuss these and other products.

HP User-Moderated Forums

[Go Now: HP](#)

This is the main staging area for journeys of discovery about Hewlett-Packard PCs, the OmniBook, the OmniGo and other handheld computers, printers, disk drives, tape drives, and all related hardware and software. From here you can proceed directly to any of the other HP Forum areas for English- or German-speaking CompuServe members, find out about the latest HP products and current and coming promotional events, and even view pictures of HP hardware. In addition, there's a gateway to HP's site on the World Wide Web.

Hypertext Technologies Forum

[Go Now: WINSDK](#)

WUGNET's Hypertext Technologies Forum is a gathering place for people interested in WinHelp, HTML, Media View, Viewer, and related areas. You can get advice and information about all kinds of Windows authoring tools, and find many valuable files in the Forum libraries.

IBM APPC Forum

[Go Now: APPCFORUM](#)

IBM offers this Forum area for the discussion of all topics related to the design and implementation of applications that use Advanced Program-to-Program Communications (APPC). The conference and message sections host discussions about CPI-C (Common Programming Interface Communications) and configuring networks to support APPC applications such as IBMs Advanced Peer-to-Peer Networking (APPN). Communicate directly with IBM and post suggestions for future product development.

IBM C++ Forum

[Go Now: VACPP](#)

Join the IBM C++ Forum to exchange information and ideas about the C Set++ and Visual Age for C++ families of products that IBM makes available for OS/2, Windows, AIX, Sun Solaris, AS/400, and MVS. There are message sections and libraries not only for the products themselves, but also for the tools that come with the products, such as the debugger, the C++ class browser, and the Visual Builder, which automatically generates code to implement the complex interactions among all the visual and non-visual components of an application. This Forum area also covers OpenClass, IBM's portable C++ class library for building graphical user interfaces that can be moved quickly from environment to environment.

IBM CAD/CAM Forum

[Go Now: **IBMENG**](#)

Obtain support for Catia and Cadam, IBM's CAD/CAM application products, in the IBM CAD/CAM Forum. The message areas enable you to talk directly with technical experts and the libraries enable you to download information on these applications.

IBM CICS Forum

[Go Now: CICS](#)

This Forum area is a place to discuss the CICS family of products by IBM. The IBM CICS Forum is sponsored by IBM Solution Development Operations (SDO) and managed by IBM Solution Developer Technical Support Center (SDTSC).

IBM COS Network Solutions Forum

[Go Now: **IBMCOS**](#)

The IBM COS Network Solutions Forum provides services, software, hardware, and support solutions for your networking needs. COS (Customized Operational Services) is a division of IBM that provides customized solutions to networking problems. COS addresses network needs from cable design to data center design and building. There are message sections and libraries for general information, Cable Data Manager, UtiliCam and equipment services.

IBM DB2 Family Forum

[Go Now: IBMDB2](#)

The IBM DB2 Family Forum supports IBM's relational database family, including DB2/2, Db2/6000 and Db2/VSE and VM. Obtain answers to product-related questions and locate information on fixes, help files, and presentations.

IBM Desktop Software Forum

[Go Now: IBMDESK](#)

The IBM Desktop Software Forum is for users of IBM PRGS applications. This Forum area provides a calendar of events as well as support for the following products: AdStar, Current-OV, DisplayWrite, Personal AS/2, and Time and Place/2 Calendar.

IBM ImagePlus Forum

[Go Now: IBMIMAGE](#)

ImagePlus, IBM's image processing system, is fully supporting in the IBM ImagePlus Forum. Obtain support for IP/2 (ImagePlus for OS/2), IP/AS400 (ImagePlus for AS400), and IP/MVS (ImagePlus for MVS) in the message areas and libraries.

IBM Interactive Forum

[Go Now: INTERACTIVE](#)

The IBM Interactive Forum supports users and potential users of IBM Interactive Software. IBM's Interactive Software family includes titles focusing on learning, games, and overall fun. Members are encouraged to ask questions about the products, make comments or suggestions about the present product line, and make recommendations for future products.

IBM Languages Forum

[Go Now: IBM APL](#)

The IBM Languages Forum is the place for questions, answers and discussion regarding IBM languages, including APL and APL2. The libraries contain product descriptions, product demos, service diskettes, member files, and more.

IBM LMU/2 Forum

[Go Now: LMU2FORUM](#)

Through this Forum area, IBM supplies you with a direct communication route to the IBM LAN Management Utilities/2 (LMU/2) development team. IBM representatives provide support for LMU/2 functions such as operations, configuration, performance and fault management. Converse with other users who are experienced in using LMU/2 and who have written their own applications to supplement those supplied by IBM. Additionally, the LMU/2 development team welcomes suggestions on enhancing the current LMU/2 functions. Detailed information about this product can be viewed or downloaded from the Forum libraries.

IBM MQ Series Forum

[Go Now: MQSERIES](#)

This Forum area provides a place to discuss the IBM MQ Series family of products. The area is sponsored by IBM Solution Development Operations (SDO) and managed by the IBM Solution Developer Technical Support Center (SDTSC).

IBM NetView Family Forum

[Go Now: **NETVIEW**](#)

If you are interested in systems and network management, then join the IBM NetView Family Forum. Members discuss systems and network management for various environments and the IBM NetView family of products. In addition to the message area, you'll find periodic conferences featuring developers and expert users of the IBM NetView family of systems and network management products. Demos of several IBM systems and network management products are available in the library.

IBM OS/2 A Vendor Forum

[Go Now: OS2AVEN](#)

Vendors whose products use IBM OS/2 offer user support in the IBM OS/2 Vendor Forums. Members can post messages to the vendors or access help files, programs, or patches for the vendors' products, and exchange information about marketing OS/2 applications. Libraries, including several especially created for shareware, contain files with specific software releases, news releases from vendors, and other useful information. Listed below are the vendors who have separate sections in the IBM OS/2 A Vendor Forum, along with the main products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Apical Software	Gpf, GpfREXX, and related software products
Arcadia Technologies	Arcadia Workplace Companion (WPC)
BocaSoft	WipeOut screen saver and System Sounds audio program; also, custom software applications
Development Technologies	DeskMan workplace shell manager
HockWare	VisPro/REXX visual programming software
JBA	Guidelines rapid application development (RAD) tool for graphical user interfaces (GUI)
One UP Software	SourceLink programming development tool; also, Window Washer and Open Shutter
OS/2 Magazine	magazine
Proportional Software	DCF/2 disk compression facility
Soft & GUI	OS/2 Error Manager and Command Line development tools
Softronics	Softerm communications/terminal emulation program
Spitfire Software	In Charge! personal and small business financial system, Personal Finances 2 (for DOS) and Data Stamp Copy bi-directional copying software
Sundial Systems	Relish calendaring and time management products

IBM OS/2 B Vendor Forum

[Go Now: OS2BVEN](#)

Vendors whose products use IBM OS/2 offer user support in the IBM OS/2 Vendor Forums. Members can post messages to the vendors or access help files, programs, or patches for the vendors' products, and exchange information about marketing OS/2 applications. Libraries, including several especially created for shareware, contain files with specific software releases, news releases from vendors, and other useful information. Listed below are the vendors who have separate sections in the IBM OS/2 B Vendor Forum, along with the main products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Cirrus Technology	document imaging and storage management software
Cyranex	see PRO Engineering
International Software Solutions (ISS)	PolyPM/2 full PM remote control utility
MSR Development	BackMaster for OS/2 backup and disaster recovery system
PCX	OS/2 BackupWiz (with bundled tape hardware available), and other backup software for OS/2 and DOS
PRO Engineering	disk management products, including EZRAID for OS/2, a software-based RAID solution, and EZRAID Lite, the personal version of EZRAID for OS/2
Software Corporation of America (SCA)	TalkThru communications software and (U.S. and Canada) PolyPM/2 full PM remote control utility
The Software Division	SIO asynchronous communication drivers and development tools
SofTouch Systems	GammaTech Utilities, Power Pack, File Secure, REXX SuperSet/2, and Unimaint
tPrint	Virtual Pascal for OS/2 development environment

IBM OS/2 Developer 1 Forum

[Go Now: OS2DF1](#)

If you are interested in developing software for IBM-compatible computers using the OS/2 environment, join this Forum area to gain technical support. One of two developer support Forum areas, OS2DF1 hosts discussions about topics such as development tools, debugging techniques and specific OS/2 development products. Sections are also available for you to make product suggestions directly to IBM and download IBM files.

IBM OS/2 Developer 2 Forum

[Go Now: OS2DF2](#)

The IBM OS/2 Developer 2 Forum is one of two Forum areas for developers of IBM software for the OS/2 environment to obtain technical support. In this Forum area, developers ask IBM representatives and other members questions about developing programs for specific applications such as a LAN server, CD-ROM, or database.

IBM OS/2 Forums

[Go Now:IBMOS2](#)

From this location you can identify and access any of the Forum areas related to IBM's OS/2, including those maintained by third-party vendors of related hardware and software. You can also search a database of documents about OS/2 and even download and purchase OS/2 Warp.

IBM OS/2 Help Database

[Go Now: OS2HELP](#)

The IBM OS/2 Help Database offers a way to find answers to many of your OS/2 questions. The database provides a structured search based on criteria such as the operating system, product version, operating-system components, and keywords. The database collects all of the documents it can find based on your search parameters. To fine-tune your search, specify several criteria at once.

IBM OS/2 Support Forum

[Go Now: OS2SUPPORT](#)

The IBM OS/2 Support Forum enables you to obtain support directly from IBM, as well as from other members, for your OS/2 applications. Find information about installation, hardware requirements, and converting DOS and Windows applications to OS/2.

IBM OS/2 User Forum

[Go Now: OS2USER](#)

The IBM OS/2 User Forum enables users of the OS/2 operating system to discuss such topics as hardware requirements and applications. New users are welcome to draw on the knowledge of more experienced users. Also a Fun & Games section is full of games that can be downloaded to your computer.

IBM PC Assistant Database

[Go Now: PCASSIST](#)

IBM PC Assistant Database is a self-help searchable database containing marketing and technical information about IBM PC-related products. Members will find Q&As arranged into product groupings and categories, tip documents and compatibility tables, telephone numbers for IBM and OEM technical support, part number/price lists, and much more.

IBM PC Server Forum

[Go Now: **IBMSVR**](#)

Members of the IBM PC Server Forum gather to exchange information, talk about experiences, and ask questions concerning IBM PC server hardware and software. IBM technicians and a network of knowledgeable people are available to provide accurate information and technical advice. The message and library sections cover PC servers, 3270 hardware, 5250 hardware, network hardware, and telecommunications hardware and software.

IBM PS/1 and Aptiva Forum

[Go Now: IBMPS1](#)

In the IBM PS/1 and Aptiva Forum, members can exchange information, talk about experiences, and ask questions concerning IBM PS/1 and Aptiva hardware and software. IBM technicians and a network of knowledgeable people are available to provide accurate information and technical advice.

IBM PS/2 Forum

[Go Now: IBMPS2](#)

IBM PS/2 users, expert and novices alike, exchange information, experiences, and opinions in the IBM PS/2 Forum. PS/2 is IBM's brand of Microchannel Architecture Desktop PC products. The Forum area's technical support is provided by IBM.

IBM PSM Deutschland Forum

[Go Now: OS2UGER](#)

This Forum area is provided by the German IBM PSP division. Members get support and information on all OS/2 related subjects.

IBM PSP OS/2 Beta Forum

[Go Now: OS2BETA](#)

Where is IBM going with OS/2? If you develop OS/2 applications or use IBM's Personal Software Products extensively, you'll want to keep up with the news about the latest beta versions. In this Forum area's message boards, you can participate in ongoing discussions about all kinds of OS/2 betas and related topics. The libraries contain program files, as well as general interest files from IBM and Forum members.

IBM PSP A Products Forum

[Go Now: PCDOS](#)

The IBM PSP A Products Forum covers a variety of products from several different IBM Software Development Solutions. The message area is an open bulletin board for asking and answering questions and participating in ongoing discussions. The libraries offer program and text files for members to download and use.

IBM PSP Products

[Go Now: IBM PSP](#)

Visit the IBM Personal Software Products (PSP) Store to find the latest software demos and information about the OS/2 operating system. In this area you'll find press releases, upcoming events, OS/2 ordering information, and sources for technical support.

IBM Software Solutions Forum

[Go Now: SOFSOL](#)

The IBM Software Solutions Forum is for people interested in IBM's application development tools, business administration software, and library management software. Some of the products supported here are Workstation Interactive Test Tool (WITT), the Software Installer for Windows, ReDiscovery, The Integrated Reasoning Shell (TIRS), VisualGen, and VRPG Client/2.

IBM SOMobjects Forum

[Go Now: IBMSOM](#)

IBM SOMobjects Forum provides service and support for IBM SOMobject products, such as SOMobjects Developer Toolkit, SOMobjects Workstations Enabler, and SOMobjects Workgroup Enabler. This is an open Forum area for discussing the above products. Message sections, libraries, and a conference room are available to members.

IBM Storage Systems Forum

[Go Now: IBMSTORAGE](#)

IBM Storage Systems provides this Forum area to support ADSTAR, its distributed storage manager. ADSTAR provides storage management and data access services to customers in multimedia environments. You can also discuss ADMS, the special program beta test, in the message sections.

IBM Technical Service and Support

[Go Now: IBMFOR](#)

This is the starting place for exploring the many CompuServe services that offer both technical and non-technical support to users of IBM Corp's hardware and software products. From here you can access menus of all the different Forum areas that support each major product type, as well as the Forum areas that support related third-party products. You can also access databases of information about PC products and find the phone numbers for obtaining answers to your questions directly from IBM tech support staff.

IBM ThinkPad Forum

[Go Now: **THINKPAD**](#)

The IBM ThinkPad Forum enables you to speak directly with IBM personnel or to share information with other members about notebook computers, including multimedia models. Message sections and libraries feature hardware topics such as the pen, hardware availability, and ThinkPad experiences, plus software topics such as PenCentral programs and IBM Handwriting, a handwriting recognition program for easier translation.

IBM ValuePoint Forum

[Go Now: **VALUEPOINT**](#)

The IBM ValuePoint Forum offers users of the IBM ValuePoint and PC Desktop series an opportunity to exchange information, experiences, and opinions. Technical support for IBM's industry standard architecture desktop PC products is also available.

IBM VoiceType Forum

[Go Now: VOICETYPE](#)

The IBM VoiceType Forum provides support for European, African, and Mid-Eastern speech recognition and speech-aware applications based on IBM VoiceType. You'll find the latest information on VoiceType for OS/2 and Windows, plus development assistance for creating your own speech enabled applications.

IBM WRAD Support Forum

[Go Now: WRAD](#)

IBM Workstation Rapid Application Development (WRAD) Forum members discuss VisualAge and IBM Smalltalk as well as products created by members of the Object Connection Program. Discussion topics include the AS/400 feature, database, communications, and language (C and COBOL) features, installation and startup, and how-to questions. The library contains a variety of files for downloading, including updates to VisualAge, announcements and VisualAge parts.

Imaging A Vendor Forum

[Go Now: IMVENA](#)

The Imaging A Vendor Forum offers support for vendors of imaging and digital image acquisition equipment. Imaging vendor company representatives are available online to answer questions on the installation and use of their products and to offer tips to help you get the most out of your investment. Vendors with their own sections, and the main products supported in each section, are listed below. To find out about other vendors, take a look at the New Vendors section and the Other Vendors section. To find all the CompuServe services that support a specific vendor or product, visit the [Support Directory](#).

Compulink Management Center, Inc

LaserFiche document imaging software

Nikon Electronic Imaging

film scanners and printers, including Coolscan and SuperCoolscan, Scantouch, and Coolprint

Polaroid Corporation

film scanners, recorders, projectors, and panels; products include ProPalette, Polaview LCD, and SprintScan

Ricoh Peripheral Products Group

printers, scanners, and laser scanners

Informatica Italia Forum

[Go Now: ITALNET](#)

Italian-speaking members of CompuServe can use the Informatica Italia Forum to exchange ideas and information about their computer hardware and software. Novices and experts alike can profit from this Forum area, which has message sections and file libraries for all the major operating systems, the Internet and the World Wide Web, LANs and other communications topics, multimedia, programming, and virus prevention and treatment.

Information Management Forum

[Go Now: DPMA](#)

The Information Management Forum merges discussions on information-processing management from numerous other Forum areas. Forum members have the opportunity to concentrate on emerging information-processing management issues. Members can participate in activities such as educational programs, certification programs, and regional and national conferences for the data processing industry.

Informatique France Forum

[Go Now: INFOFR](#)

The Informatique France Forum is a French vendors' forum, providing assistance in French (and sometimes English) to Forum members at work and at play. It offers message sections and libraries that deal with telecommunications software, the Internet, utilities, and personal software for games, graphics, cooking, and many other applications, as well as separate message sections and libraries for the vendors listed below. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

ARN	utilities, scripts and modem drivers
l'association des developpeurs 4D	professional association
Le Bihan & Cie	PSN6 project planning software and PROCESS flux simulation program
Cogisoft	LINGUA translation software
CXR	modems, fax/modems, and ISDN TA products
Matrox	graphics accelerators and video processing solutions, including MGA Millenium, MGA Ultima, MGA Impression, Matrox Studio, Illuminator Pro, Matrox Automation Express, and Marvel
Quo Vadis	Agenda Planing personal information manager
US Robotics France	modems, fax/modems, and related products

INTERSOLV Forum

[Go Now: INTERSOLV](#)

INTERSOLV provides online support for its software products in the INTERSOLV Forum. Interact directly with an INTERSOLV representative to get help with Excelerator, PVCS Version Manager, PVCS Configuration Builder and Q&E databases or to find out about INTERSOLV's Support Plus hotline. Use the message board to discuss issues relating to INTERSOLV and its products or scan the libraries and download files and other information.

Intuit Forum

[Go Now: INTUIT](#)

If you use Quicken, QuickBooks, Quicken Companion, or any other Intuit product, visit the Intuit Forum. Intuit technical support and a group of volunteers help users track their finances, both business and personal. Join discussions with other Forum members, download files from the libraries, and keep informed on the latest news about Intuit.

InVircible Forum

[Go Now: **INVIRCIBLE**](#)

Users of InVircible anti-virus software can meet here to discuss viruses at large and the best ways to prevent the latest threats of infection. InVircible staff respond directly to questions or comments, and the Forum libraries contain many helpful files. You'll also see messages and files related to disaster recovery, encryption, data analysis, and other related topics.

IRI Software Forum

[Go Now: IRIFORUM](#)

This Forum area provides support for users of the Express family of client/server Online Analytical Processing (OLAP) products developed by Information Resources Inc and now owned by Oracle Corp. Express software includes server technology, client tools, and applications used in sales, marketing, management, and finance.

IRIS AntiVirus Software

[Go Now: IRISAV](#)

Anyone who owns IRIS's AntiVirus Plus can use this service to download the latest upgrade or the IRIS Quickstart Guide, or to complete an NCSA registration. This is also the best place to start for anyone interested in learning about IRIS.

ISDN Forum

[Go Now: **ISDN**](#)

Integrated Services Digital Network (ISDN) is ideally suited for use by telecommuters, small businesses and others requiring high-speed remote access to online services, corporate host computers, and the Internet. The ISDN Forum provides support to users, suppliers and service providers of ISDN. This Forum area covers all aspects of ISDN, including information on what ISDN is, how it works, how to get ISDN services, and more.

Java Users Support Forum

[Go Now: JAVAUSER](#)

Discuss Java, the programming language developed by Sun Microcomputer for the Internet, in the Java Users Support Forum. This Forum area covers all aspects of Java -- including the latest news from the Java community, new Java-based products, developer information, and more.

Jerrys World

[Go Now: JERRY](#)

Need a line drawing of a bunny? EPS art of a famous company logo? 1987 photos of canoeists? Farsi typefaces? Skilled announcers for voice-overs and narration? Jerrys World offers typefaces, clip art, photographs, film footage, sound effects, production music, and more. Search for products and services by keyword. Download the inventory catalog or purchase and download many of the products. You can sign up to receive special offerings.

Jerry's World Forum

[Go Now: JWORLD](#)

If you're interested in using new media tools and techniques to build your expertise and business as a communicator, then you can find a community of colleagues in the Jerry's World Forum. Message sections cover multimedia, video and film, illustrations and visuals, and many other communications topics, plus legal issues and client concerns. The Jerry's World Forum libraries contain textual and visual catalogs of typefaces, clip art, photos, music, sound effects, etc, available from Jerry's World Electronic Superstore.

Kodak CD Forum

[Go Now: EKODAK](#)

The Kodak CD Forum provides libraries of information on Kodak CD products, technology, and closely related products. Information in the library is posted and maintained by Kodak. The message section is an open discussion area for Forum members to talk about Kodak CD Imaging technology and products.

LAN Magazine Forum

[Go Now: LANMAG](#)

The LAN Magazine Forum, brought to you by Miller Freeman, Inc, is a vendor-independent networking Forum area. It enables network managers, installers, and users to discuss products and exchange information. You can get live reports from the staff of *LAN Magazine* at networking shows and vendor meetings to keep up-to-date on the latest happenings in the industry. Come by to visit with special industry guests or get a book from the LANMAG Book Bonanza Program, where the only cost is a book review. Check the Forum area for details.

LAN A Vendor Forum

[Go Now: LANVEN](#)

CompuServe's two LAN Vendor Forums provide members with support from vendors of local area network products. Members can post messages to the vendors or access help files, programs, or patches for the vendors' products. Libraries contain files with specific software releases, news releases from vendors, and other useful information. Listed below are the vendors represented in the LAN A Vendor Forum, and the main products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Advanced Micro Devices (AMD)	PCnet family of controllers and applications for Ethernet and high-speed networking
AG Group, Inc	management tools for Mac-based networks: EtherPeek, LocalPeek, Net Watchman, Silver Cloud, and Skyline; also, training videos for network troubleshooting
Aleph Tekoma Systems	see On Demand Software
Alloy	see Clovis, Inc
CACI	Comnet III simulation software for modeling multiplatform LANs and WANs
Castelle, Inc	FaxPress and LANpress/JetPress families of fax servers
Century Software	TERM computer-to-computer communications software and TinyTERM Plus PC-to-Unix integration software for DOS and Windows
Clovis, Inc	universal (cross-platform) intelligent storage management subsystems; also (from the Alloy division) networking solutions including MultiWare, MultiPeer, and MultiServer
Compatible Systems	routers for Ethernet and LocalTalk networks, including the RISCRouter 3000E and the MicroRouter 1000R
DE Applications	DE/Cartes groupware for user control of documents and information flow
Horizons Technology, Inc (HTI)	network management software, including LANauditor, LANshadow, LANtrail, and LANtrack; also, Sure!MAPS desktop mapping software
LANSOURCE Technologies	network fax and data communications products: WINport, WINport for Workgroups, WINport for LANtastic for Windows, and the LANSOURCE Fax & Communications Suite for Networks
Momentum Software Corp	XIPC toolset for developing multitasking and

	distributed applications and Message Express (MX) toolset for developing distributed applications in multiprotocol and multiplatform WANs
Olicom	token-ring products, such as adapters, bridges, and wiring components, that are compatible with IBM token-ring
On Demand Software (previously Aleph Tekoma Systems)	Wininstall software distribution system for Windows applications and LanPrint network print queue selection utility (under Windows)
Photonics Corp	wireless networking products (PC and Apple platforms) utilizing diffused infrared technology
Robertson-Carusso & Assoc	PC-MOS multitasking multiuser operating system for DOS applications; LANLink Professional multiplatform LAN software, and related software, such as Emulink and PC-MOS Gateway
Schneider & Koch & Co Datesysteme GmbH	see SysKonnnect
SilCom Technology, Inc	LAN interfaces for workstations, bridges, routers, and test equipment
SysKonnnect (unit of Schneider & Koch & Co Datensysteme GmbH)	client/server connectivity products based on international, organizational, and industry standards; products include Ethernet/FDDI switches and network interface cards for FDDI, ATM, 10 Mbps, and token-ring networks
Triticom	networking utilities, such as the LanVision series, the LanDecoder series, BRouteIT!, BridgeIT!, DecoderPLUS, Argus/n, and RMONster

LAN B Vendor Forum

[Go Now: LANBVEN](#)

CompuServe's two LAN Vendor Forums provide members with support from vendors of local area network products. Members can post messages to the vendors or access help files, programs, or patches for the vendors' products. Libraries contain files with specific software releases, news releases from vendors, and other useful information. Listed below are the vendors represented in the LAN B Vendor Forum, and the main products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Asante Technologies	complete line of client access and network system products for Fast Ethernet and Ethernet LANs
Emerald Systems	hardware and software backup solutions for network storage, including DAT and DLT drives
Extended Systems	Advantage Database Server providing client/server database management system functionality
IGC, Inc	VM/386 and Alloy 386/Multiware multiuser, multitasking DOS/Windows operating systems; also, NetPak Plus virtual network connectivity add-on to VM/386
Lanworks Technologies	BootWare ROMs and BootWarePLUS SmartROMs for booting PCs from LAN servers; also, BootWare Manager, a Windows-based file management console for NetWare
SBE, Inc	netXpand remote access software
St Bernard Software	Open File Manager for backing up open files with popular NetWare backup programs
Sutton Designs, Inc	power protection equipment for individual workstations and networks: NETSAVERS, NETSAVERS AIINET, MM-SERIES, MM-SERIES AIINET, and other Uninterruptible Power Supplies (UPS); ZX-5000 extended range surge suppression devices; line conditioners; and voltage regulators
Ztech Systems	The Network Interface for VB

Laptop Vendor Forum

[Go Now: LAPTOP](#)

The Laptop Vendor Forum offers support from laptop, notebook, and sub-notebook manufacturers and third party hardware and software vendors. Members can post messages to the vendors or access help files, programs, and other useful information for the vendors' products. Listed below are the vendors represented in the Forum area, and the main products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

AMS Inc	notebook computers
New Media Corp	PCMCIA products, including modems and RAM cards
Sharp Electronics Corp (U.S. subsidiary of Sharp Corp)	notebook computers
Traveling Software, Inc	software for connecting palmtop and notebook computers to desktop PCs
Twinhead Corp	notebook computers
Winbook (unaffiliated)	Winbook XP and Winbook SLC

Lexmark Support Forum

[Go Now: LEXMARK](#)

This Forum area provides support for Lexmark's wide variety of printers and its Lexbook notebook computers. Message sections are managed by experts, one for each major type of printer. Libraries contain printer utilities, drivers, and fonts.

Logitech Forum

[Go Now: LOGITECH](#)

This Forum area provides technical support from the Logitech Support Group for products such as the CatchWord word processing program, Finesse desktop publishing program, ScanMan scanners, and Logitech's mouse products. Check the libraries and the News Flash for updates on product development and software available for downloading. For additional technical support, you can download Q&A help sheets used by Logitech technicians.

Logo Forum

[Go Now: LOGOFORUM](#)

Logo turtles of all ages and proficiency levels can find support for Logo and similar languages, such as Lisp, Scheme, and ProLog in the Logo Forum. This Forum area is geared toward both education and fun, with a liberal sprinkling of games, art, math, tangrams, and robotics. You'll even find a downloadable version of *The Turtle Discovery Book* that kids of all ages can peruse, and a message section and library for German-speaking Logo users. Also present are vendors of Logo-related languages and products, as listed below. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Harvard Associates	PC Logo (for DOS and Windows)
Logo Computer Systems, Inc (LCSI)	Microworlds, Math Links, Turtle Math, and My Make Believe Castle
Paradigm Software	Object Logo (for the Mac)
Schemers Inc	Scheme list manipulation language, and EdScheme and 3DScheme interpreters
Terrapin, Inc	Logo PLUS and Terrapin Logo (for Apple II and the Mac)

Lotus cc:Mail Forum

[Go Now: LOTUSM](#)

The Lotus cc:Mail Forum provides product support from the knowledgeable volunteers in the L-Team, and a meeting place for the exchange of ideas and information among cc:Mail users from novice to expert.

Lotus Communications Forum

[Go Now: LOTUSC](#)

Lotus Notes and cc:Mail users can exchange ideas and information about these and other related products in the Lotus Communications Forum. Members can download and upload software from the library and participate in online conferences.

Lotus GmbH Forum

[Go Now: LOTGER](#)

The Lotus GmbH Forum provides technical support for Lotus' German-speaking customer base. German users of Lotus products for DOS, OS/2, UNIX and Windows, such as 1-2-3, Ami Pro, cc:Mail and Notes can obtain support from the Lotus staff in Munich. The libraries contain downloadable software such as Notes applications, drivers, upgrades and utilities.

**Lotus Graphics & Information
Management Forum**

[Go Now: LOTUSB](#)

Users of Lotus Magellan, Freelance, Freelance Plus, Graphwriter, Lotus Metro, Lotus Express, Lotus Agenda and other non-spreadsheet Lotus products can exchange ideas in the Lotus Graphics & Information Management Forum. Members discuss graphics business communication such as charts, diagrams, word charts, freehand drawings, symbols, and maps.

Lotus Press Release Forum

[Go Now: LOTUSN](#)

The Lotus Press Release Forum provides Lotus users with one central location for all press releases relating to Lotus products.

Lotus Spreadsheet Forum

[Go Now: LOTUSA](#)

The Lotus Spreadsheet Forum provides users of Lotus 1-2-3, Lotus Symphony, HAL and Jazz with information and product support. Here you can communicate with other Lotus users and download models, command-language programs or templates for use with these Lotus products. You can also communicate with experts and consultants who have had similar experiences.

Lotus Word Processing Forum

[Go Now: LOTUSWP](#)

The L-Team, a group of knowledgeable volunteers, brings you the Lotus Word Processing Forum to provide thorough product support for users of Ami Pro, Ami, Lotus Manuscript, Samna Word IV and SmarText word processing programs. By interacting through the message boards and conferences, members can build on one another's ideas and experiences to better understand the programs and learn how to get better results for different applications.

Lotus WordPro Forum

[Go Now: WORDPRO](#)

The Lotus WordPro Forum provides technical support for users of Lotus WordPro. Members can build on one another's ideas and experiences.

Mac A Vendor Forum

[Go Now: MACAVEN](#)

Vendors of Macintosh products provide support in CompuServe's Mac Vendor Forums. Members can post messages to the vendors or access help files, programs, or patches for the vendors' products. Libraries contain files with specific software releases, news releases from vendors, and other useful information. Listed below are the vendors represented in the Mac A Vendor Forum, along with the main products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Articulate Systems	voice communication products, including Voice Link, VoiceWaves, and VoiceWaves/Plus
ASD Software	utilities such as FileGuard and DiskGuard
Attain	IN CONTROL personal planner and organizer, IN CONTROL For Workgroups, and the IN CONTROL Reminder control panel
CE Software	QuickKeys, DiskTop, MacBILLBOARD, MockPackage +, Mass Copier, and CalendarMaker
Daystar Digital	system enhancement products for the Mac II, including the PowerCard cpu accelerator, PowerCache lici, and LT200 for connecting PCs to an AppleTalk network
DeltaPoint	MindWrite, FreezeFrame, Animated Desktop, and DeltaGraph
Ex Machina Inc	Advise!, Notify!, QM-Notify!, ReachMe!, and WristMac!
Mainstay Inc	business and personal productivity, telecommunications, and programming software, including Think'n Time, MacFlow, MacSchedule, Telescape and Visual Interactive Programming (V.I.P.)
MicroMat	diagnostic software and hardware such as MacEKG, Aanalogue RetroKits for board repair; and component repair and replacement services
Nisus Software	Nisus Writer word processor; also MailKeeper
Portfolio Software	Dynodex, Day-to-Day Contacts, Day-to-Day Assist, and Day-to-Day Calendar
QKS	SmalltalkAgents (STA) and the STA Application Delivery Toolkit (ADT)
Survivor Software	MacMoney, Invoiclt, and Sticky Notes+

SYNEX

bar code products, including Label Press, Bar Code Pro, and MacEnvelope

Mac B Vendor Forum

[Go Now: MACBVEN](#)

Vendors of Macintosh products provide support in CompuServe's Mac Vendor Forums. Members can post messages to the vendors or access help files, programs, or patches for the vendors' products. Libraries contain files with specific software releases, news releases from vendors, and other useful information. Listed below are the vendors represented in the Mac B Vendor Forum, along with the main products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Berkeley Systems	After Dark, ScreenKeys, Stepping Out II, outSPOKEN, inLARGE, and inTOUCH
Component Software	HyperPress Publication products, such as X-Bundle, SuperPalette, and Icon Gallery
Deneba Software	Canvas, UltraPaint, Spelling Coach Professional, Big Thesaurus, and Comment
GCC Technologies	hard disk drives, plus QuickEnvelope, QuickSpool II, and Headliners
ikon systems	modeling, rendering, and animation services, such as Form*Z, Plottergeist, Electric Image, PowerCAD, and Studio Pro
Jasik Designs	MacNosy and The Debugger
Microbeam	ASAP! file transfer software
Microseeds Publishing	Redux, Rival, Initpicker, Screen Gems, and Astrix
Olduvai Corporation	Read-It! optical character recognition (OCR) software, FontShare, ArtFonts, ArtClips, MultiClip, and ClipShare
Opcode Systems	MIDI products, including CUE-The Film Music System, EZ Vision, Galaxy, Max, Music Shop, OMS, Studio 5/4/3, Studio Vision, Track Chart, and Vision
Playmaker, Inc	Playmaker Football and other games and game accessories
Radius	video monitors, such as the Pivot, and SuperMac graphics cards and other digital video products
Software Ventures	Microphone, Microphone II, and Microphone 4.0
STF Technologies	FaxSTF, which supports over 150 different brands of modems
T/Maker Inc	ClickArt series of graphic image portfolios and

accessories; also, WriteNow for Macintosh
word processor

Quickletter, Findswell, Lookup, and Spellswell

Mac C Vendor Forum

[Go Now: MACCVEN](#)

Vendors of Macintosh products provide support in CompuServe's Mac Vendor Forums. Members can post messages to the vendors or access help files, programs, or patches for the vendors' products. Libraries contain files with specific software releases, news releases from vendors, and other useful information. Listed below are the vendors represented in the Mac C Vendor Forum, along with the main products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Aladdin Systems, Inc	Shortcut, StuffIt, and StuffIt Deluxe
Alysis Software	Alysis Resource Compressor, More Disk Space, Quadra Compatibility INIT (V.3.0), and SuperDisk
Avatar Corp	networking products, such as Avatar 4/16Mb token-ring card and token-ring gateway
Baseline Publishing	The Talking Moose, INIT Manager, One Shot, and Thunder 7; also, all Preferred Publishers products, including Database, Vantage, DoubleTalk, Screenshot, and Exposure Pro
Beale Street Group, Inc	Mac and Windows tools, including ScreenShot, ExposurePro, and The GameCheater
Casady & Greene	Fluent Fonts font manager
CoStar Corp	small specialty printers, such as LabelWriter and AddressWriter, and software for labels and envelopes
Farallon	PhoneNet System of products to connect Macs and PCs over Ethernet and LocalTalk LANs and WANs, and other networking hardware and software
Inline Software	Darwin's Dilemma and Tesseract (color puzzle games), Cliff Johnson's 3 in Three, and Swamp Gas Visits the United States of America
Mirror Technologies	storage devices, video display systems, and a 24-bit color scanner
Preferred Publishers	see Baseline Publishing
Virtus Corporation	Virtus WalkThrough, a 3D drawing and spatial design tool that creates environments for real-time exploration

Mac Communications Forum

[Go Now: **MACCOMM**](#)

Information on Macs communicating with other Macs and with other personal computers is available in the Macintosh Communications Forum. It covers CompuServe Navigator, other terminal programs, facsimiles (FAX), scripts and tools, hardware, local area networks, connecting Macs to PCs, and private bulletin board systems. Libraries contain upgrades, patches, press releases on modems, reviews, documentation, demos, and more.

Mac Community Clubhouse Forum

[Go Now: **MACCLUB**](#)

This Forum is the main area where Macintosh users go to get to know one another. Meet members of the Mac community by attending special conferences or parties where members introduce new products and discuss the latest Mac rumors.

Mac D Vendor Forum

[Go Now: MACDVEN](#)

Vendors of Macintosh products provide support in CompuServe's Mac Vendor Forums. Members can post messages to the vendors or access help files, programs, or patches for the vendors' products. Libraries contain files with specific software releases, news releases from vendors, and other useful information. Listed below are the vendors represented in the Mac D Vendor Forum, along with the main products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Advanced Gravis Computer Technology Ltd	analog joysticks, switch joysticks, programmable/optical joysticks, programmable/multi-button mice, high speed game cards, security software, and portable hard disk drives
Advanced Software	see Prairie Group
Ambrosia Software, Inc	games, such as Escape Velocity, Barrack, Chiral, Apeiron, and Maelstrom; also, desk accessories, such as ToDo!, Easy Envelopes, Snapz, Eclipse, and Flashwrite][
Atticus Corp	Super 7 Utilities and other Atticus products
Charles River Analytics	Open Sesame!, which observes your actions from the background and offers to automate any repetitive sequence
DataDesk	IBM-style keyboards for Macintosh users; also, trackballs, computer telephony devices, and other accessories that optimize comfort and productivity
Digital Eclipse	sound and microphone products, including OTA and Zounds
Focus Enhancements	graphics cards, monitors and accelerator cards
Helix Technologies	networking products such as Helix Express
Insignia Solutions	emulation solutions products, such as SoftPC, to run Microsoft Windows and MS-DOS on UNIX-based workstations and Macs
InTrec Software	ProTERM Mac and ProTERM A2 telecommunications programs
Leader Technologies	PowerMerge synchronization package
MacTech	magazine
Prairie Group	DiskTop disk and file management utility, InTouch contact manager, InTouch Network Server client/server system for database searches over AppleTalk networks, DataView

personal calendar, and In/Out resource tracking
pegboard for AppleTalk networks

TidBITS Magazine

magazine

Mac Developers/Programmers Forum

[Go Now: **MACDEV**](#)

The Mac Developers/Programmers Forum provides programming information for commercial Mac programmers, Mac developers, people who program for their own use, and new programmers. You can contact expert programmers and discuss BASIC, C, Pascal, assembly language and object oriented programming. Tools, debuggers, shareware, utilities and source code samples are also available. The system software which Apple licenses for electronic distribution is made available in the Forum area, including the latest versions of System and Finder through 7.0.1 and the latest versions of Macsbug and Resource Editor. Members of the MacApp Developer's Association meet to share information on the latest developments in object oriented programming tools in the APDA section.

Mac File Finder

[Go Now: MACFF](#)

Browsing through Forum files has never been easier. Mac File Finder is an online comprehensive keyword-searchable database of file descriptions from all of CompuServe's Macintosh-related Forum areas.

Macintosh Applications Forum

[Go Now: MACAP](#)

Join the Macintosh Applications Forum to get the most from your Macintosh application programs. This Forum area hosts discussions about Macintosh applications for word processing, databases, graphics and spreadsheets. Learn more about the programs you use or about other Mac programs that can help you get the job done, with special areas for Mac-equipped engineers, lawyers, and scientists.

Macintosh Fun & Games Forum

[Go Now: MACFUN](#)

This Forum area helps people discover fun and creative new ways to use the Macintosh. MACFUN also places each member in touch with like-minded Macintosh enthusiasts from all over the world. There are sections on games from adventure to arcade, music, sound files, and more.

Macintosh Hardware Forum

[Go Now: MACHW](#)

In the Macintosh Hardware Forum, you can discuss Macintosh hardware components, from hard disks to monitors, printers, scanners and other peripherals. Members also discuss various models of Macs, including Classics and Modular (Mac IIs), PowerBooks, DuoBooks, Performas, and the new PDAs. Check the libraries for model-specific files, screensavers, and backup programs.

Macintosh Multimedia Forum

[Go Now: **MACMULT**](#)

The Macintosh Multimedia Forum features tools, ideas, and applications to create multimedia presentations on the Mac. In this Forum area, you can learn new multimedia techniques, including the use of sound, art files, graphics files, and HyperCard. From the libraries, you can download Quicktime multimedia movies.

Macintosh New Users and Help Forum

[Go Now: MACNEW](#)

Are you a new Mac user suffering from confusion and overload? Then join the Macintosh New Users and Help Forum where experts are available to answer your questions and help you gradually work through your system. Feel free to consult the experts as often as necessary until you feel comfortable with your Mac. Members can download hundreds of programs reviewed in the book *Mac Shareware Emporium*. MACNEW is also a great place to find out what's been recently uploaded in the other Mac-related Forum areas.

Macintosh Op System Forum

[Go Now: **MACOS**](#)

Visit the Macintosh Op System Forum to learn about the various features and aspects of Apple's Macintosh system software, and also about such hardware as printers, disks, and monitors. Here you can ask questions about installing INITs or other extensions, finding the right control panel, or using F keys and desk accessories. The libraries contain files with information about both Systems 6.0 and the latest System 7.10. QuickTime databases and QuickTime movies are supported here.

Macintosh Scripting Forum

[Go Now: MACHYPER](#)

The Macintosh Scripting Forum provides information on Hypertext, which is used to develop databases that use words, sounds, and pictures. Discussions cover Hypercard, Hypertalk language, stack ideas, and external resource programs. Support is also provided for programs of developers who work outside of Apple, including SuperCard and Plus+. The libraries contain press releases, demos, shareware, utilities, games, educational tools, music and sounds, source code, and personal databases.

Macintosh User's Group

[Go Now: MAUG](#)

Whether you use the Mac for business applications, academic pursuits, or pure play, the Macintosh User's Group has a lot to offer. MAUG operates Forum areas galore, with hundreds of libraries overflowing with shareware, freeware, and public domain software, and hundreds of message sections where world-renowned experts are on hand to help you with anything from beating a level in a new game to devising a backup strategy for your multi-gigabyte hard disk. MAUG's launch point offers access to all these Forum areas, plus the latest news and Mac development info, a database of help and tips, downloadable featured files, and even the MAUG Emporium of buyable goodies.

MacPlanet

[Go Now: MACPLANET](#)

MacPlanet is the town square for the Macintosh community online. From here it's just a few steps to any of the Forum areas offering Mac community, Mac support, or support from third-party vendors of Mac-related products. Whether you use the Mac for business, study, or pleasure, MacPlanet can help you get the most out of your Mac and share your interests and experiences with other members of the Mac community. You'll find news, press releases, and other information. You'll also find Mac merchants, Mac developers, and information and instructions that can help you connect your Mac to the Internet and the World Wide Web. You'll even find downloadable Web browsers built especially for the Mac. MacPlanet is truly the center of the Mac universe!

Macromedia Forum

[Go Now: **MACROMEDIA**](#)

Macromedia, a leader in multimedia and digital arts software tools, offers a full range of products for the Windows and Macintosh platforms. The Macromedia Forum provides up-to-date product and company information as well as professional technical support for users of Macromedia products. The Forum area is staffed by Macromedias technical support team. In addition, members are encouraged to learn from and assist each other. Members can find the latest product updates and support files in the libraries. Additional areas are available for user-to-user discussions of multimedia development and design techniques.

MacUser Forum

[Go Now: ZMC:MACUSER](#)

The *MacUser* Forum, part of ZD Net/Mac, gives you an opportunity to interact with the editors, writers, columnists and other readers of the magazine. You'll have instant access to downloadable utilities evaluated and tested in *MacUser's* labs and to exclusive System 7.0 utilities designed by *MacUser*. The complete indexes of *MacUser* (and *MacWEEK*) are available online, so you can quickly and easily find information.

MacWEEK News

[Go Now: ZMC:MACNEWS](#)

Get the top *MacWEEK* news stories FREE on ZD Net/Mac the Friday evening before the magazine goes to print! Part of [ZD Net/Mac](#).

MagnaMedia Forum

[Go Now: MAGNA](#)

MagnaMedia is a leading publisher of German computer magazines, which include *Pcgo!*, *PowerPlay*, *Design & Elektronik*, and *PC Magazin* (German issue). These publications are targeted to the business and private user of personal computers. This Forum area enables the readers of MagnaMedia's publications to communicate with each other and with the editors of the magazines. The libraries contain programming code and samples, which are published in MagnaMedia's magazines. The messages and the library files in this Forum area are in German.

Maug Newsletter

[Go Now: MAUGNEWS](#)

The Maug Newsletter is a monthly publication serving the online Mac community. The newsletter features monthly columns including "The Macintosh Community" and "Attitudes" written by such Mac-knowledgeable columnists as Neil Shapiro and Steve Bobker. Visit the libraries to download new files specifically recommended by the sysops. The newsletter also offers columns from users, product reviews and interesting communications from newsletter readers.

McAfee Virus Forum

[Go Now: MCAFEE](#)

This Forum area offers support not only for VirusScan and WebScan, but for all the software products offered by McAfee Associates. McAfee offers many products for enterprise distribution management, such as McAfee Sabre Tools, SiteMeter, SiteExpress, LAN Inventory, BrightWorks, and NetTools, plus data storage products and services, such as ServerStor and WebStor. Members can post messages to each other or to McAfee support staff, and download help files, product updates, patches, and updates for McAfee's many products.

MCP Endeavor

[Go Now: MCFILES](#)

Offered by VFX Technologies, MCP Endeavor is an innovative self-assessment tool that can help anyone who plans to obtain Microsoft certification. MCP Endeavor features free evaluations, with hundreds of questions covering the most popular examinations, such as Windows 95, Windows NT, SQL, Microsoft Word, MS-Mail, and TCP/IP.

MECA Software Forum

[Go Now: MECA](#)

The MECA Software Forum provides support and customer service for users of the Managing Your Money software program. Members can communicate directly with MECA Technical Support and Customer Sales & Service staff, as well as other users of the software. Answers to frequently asked questions, program updates and helpful shareware programs contributed by members are available in the library.

Media Vision Forum

[Go Now: MEDIAVISION](#)

Media Vision makes several popular lines of multimedia boards for PCs, including ProAudio, ProGraphics, ProMovie, Pro 3D and Premium 3D. This Forum area gives direct access to company representatives who can assist members with problems, answer questions, and listen to recommendations for product improvements. Additionally, members can download bitmaps, manual installations, drivers, FAQs, and even sound clips..

Micro Focus Forum

[Go Now: MICROFOCUS](#)

Micro Focus provides an easily accessible Forum area for information about the Micro Focus set of COBOL compiler and development systems for the development and maintenance of PC, mainframe, UNIX, GUI, and client/server COBOL-oriented applications. In addition, this Forum area provides information about Micro Focus, a meeting place for users of Micro Focus products, product updates, useful techniques, and examples, and an alternate support vehicle for Micro Focus products.

Micrografx Forum

[Go Now: MICROGRAFX](#)

Micrografx provides support for both professional graphic and At-Home consumer products in the Micrografx Forum. Micrografx products such as ABC Flowcharter, Charisma, Designer, Graphics Works, Picture Publisher, SnapGrafx and Windows Draw, as well as At-Home products including Crayola Amazing Art Adventure and Crayola Art Studio are supported directly in this Forum area.

MicroHelp Support Forum

[Go Now: MICROHELP](#) The MicroHelp Support Forum provides technical support and customer service to users of Uninstaller for Win, the Uninstaller for Win95, and the PowerDesk series of desktop enhancement utilities.

Microrim Forum

[Go Now: MICRORIM](#)

The Microrim Forum provides support and information for Microrim products, especially the R:BASE cross-platform relational database management system for PCs. The message sections and libraries cover such topics as network installation, forms, reports and ILabels, programming/EEPS, and R&D suggestions.

Microsoft Connection

[Go Now: MICROSOFT](#)

The Microsoft Connection provides you with company and product information and access to the many Forum areas maintained by independent support groups for Microsoft software. The Microsoft Connection includes technical product information, sales and training information, information about product support services, and the Microsoft Software Library with files for downloading. Access is also provided to the Microsoft Press online bookstore, Windows news clips, and the [Microsoft KnowledgeBase](#), which enables you to access more than 13,000 technical information files used by Microsoft product support engineers, s.

Microsoft Education and Certification Forum

[Go Now: MECFORUM](#)

The Microsoft Education and Certification Forum provides information regarding Microsofts Certified Professional program and Microsofts educational offerings such as Microsoft Official Curriculum courses.

Microsoft File Finder

[Go Now: MSFF](#)

The Microsoft File Finder is a comprehensive, keyword-searchable database of file descriptions from all the Microsoft-related Forum areas on CompuServe. The Microsoft File Finder provides you with common search criteria for quickly finding the location of a desired file or files. You can search by topic, file submission date, Forum name, file type, file extension, file name or submitters User ID. File description, Forum name, and library location are displayed for each file that matches the search criteria, giving instant information on where to find the file.

The Microsoft Knowledge Base

[Go Now: MSKB](#)

The Microsoft Knowledge Base is a reference resource of information provided and used by Microsoft support engineers. You can use it to quickly find complete answers to your Microsoft software questions. You can search by product name, version, or category, and specify publication dates. With full-text searching of more than 13,000 documents, the Microsoft Knowledge Base can retrieve all the information you need. Many documents also include references to related files in the Microsoft Software Library.

Microsoft Networks Forum

[Go Now: MSNETWORKS](#)

The Microsoft Networks Forum provides in-depth information about Client Server. Information is also available about the Microsoft LAN Manager network operating system and the SQL Server database. Network specialists at Stream International monitor this Forum area to ensure that correct information is presented.

Microsoft Press

[Go Now: MSP](#)

If you want the most technically accurate books available about Windows 95, Windows NT, and Microsoft applications, the Microsoft Press online bookstore is the place to shop. Browse around or check out the latest books in the HOT OFF THE PRESS section. You can order a free catalog, or purchase books that range from streamlined tutorials for novices to technical reference works for professional programmers. Books are straight from the horse's mouth because their authors work closely with Microsoft's software designers.

Microsoft Software Library

[Go Now: MSL](#)

The Microsoft Software Library is a collection of uploaded binary files, samples, technical notes and utilities about various Microsoft programs. The entire library is keyword-searchable and the files can easily be downloaded to your computer.

MicroStation Forum

[Go Now: MSTATION](#)

Bentley Systems, Inc, which is partly owned by Intergraph Corp, provides support for the MicroStation line of CAD workstation software in the MicroStation Forum. Message sections and libraries cover input devices, printers and plotters, video cards, monitors, and databases. You can find drivers, updates, and programs and sample source code in the MicroStation Development Language (MDL).

Microtest Inc Forum

[Go Now: MICROTEST](#)

Members can exchange information about Microtest's CD-ROM networking products in the Microtest Inc Forum. Microtest technical personnel monitor and participate in the forum to ensure complete and accurate information flow and to provide general technical assistance. Products supported include Quick TOPIX, Disc-to-Disc, PentaScanner, DiscPort, CD-NOW!, and COMPAS.

MIDI A Vendor Forum

[Go Now: MIDI AVEN](#)

The MIDI Vendor Forums provide members with support from a wide range of MIDI music product vendors. Members can post messages to the vendors or access help files, programs or patches for the vendors' products. Libraries contain files devoted to specific software releases, news releases from vendors, and other useful information. Listed below are the individual vendors represented in the MIDI A Vendor Forum, along with the products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Animation Development	MCS Stereo, MCS CDMaster, MCS SoundTrak, MCS SoundRevue, MCS MusicRack, and MCS SoundSaver
Barefoot Software, Inc	see Binary Sounds
Binary Sounds	Atari computer MIDI/music products originally developed by Hybrid Arts and formerly distributed by Barefoot Software, such as the MidiTrack ST series, MidiMaze, EZ-Track, AudioTrack, EZ-Score Plus, and GenEdit
Cakewalk Music Software	Cakewalk Professional, Cakewalk Pro Audio, and MIDI music accessories
E-Mu Systems	sampling keyboards, such as the Emulator III, EIII, and Emax; also ROM-based sampler products, such as the Proteus and UltraProteus series, Morpheus, Procussion, and Proformance
Eventide	harmonizer enabling vocalists to create harmony parts in performance
Hybrid Arts	see Binary Sounds
JLCooper Electronics	MIDI accessories, including switching boxes, data mergers, and automated MIDI mixing equipment
Kurzweil Music Systems (Young Chang)	synthesis, sample playback, and sampling instruments; products include the 1000, 1200 and 2000 professional products, as well as the Ensemble Grand and Mark series home products
Magnetic Music	Prism and Texture MIDI Sequencers
Music Quest	MIDI interfaces for PC and Mac
Opcode Systems	Galaxy, Galaxy+, and Studio Vision
PG Music	Band-in-a-Box and PowerTracks Pro for Windows
Turtle Beach Systems	IBM graphic MIDI sample editing and digital

music software, including SampleVision (graphic sample editor), Oview (synth voice editor), and 56K/SoundStage (direct to disk recording/editing systems)

notation utilities

MIDI D Vendor Forum

[Go Now: MIDIDVEN](#)

The MIDI Vendor Forums provide members with support from a wide range of MIDI music product vendors. Members can post messages to the vendors or access help files, programs or patches for the vendors' products. Libraries contain files devoted to specific software releases, news releases from vendors, and other useful information. Listed below are the individual vendors represented in the MIDI D Vendor Forum, along with the products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Artic Software	Windows MIDI music software and component-based development tools, such as Midi CoolTools and The Kalendar
BeBop Systems	music applications for PCs, such as the LimeLight sequencer and MiniMelodies music player for young children
Digidesign, Inc	systems for professional music, film, broadcast, multimedia and home recording; products include Pro Tools, Sound Designer II, DINR, and PostView
ENSONIQ Corp	Soundscape line of PC sound cards and musical instruments
Fostex Corporation of America	audio recording gear for musicians and audio engineers;also products for post production and film production audio processes
Full Compass Systems	selection and service for more than 350 lines of audio, video, and lighting equipment
GeneralMusic Corp	sound reinforcement equipment, pro synthesizers, home organs, acoustic pianos, etc; products include S Series Synths, SX Series Multimedia Keyboard Workstations, WX Series Home Keyboards, Jewel Series Home Organs, and the WS Series (Bachmann)
Invisible Touch Music Software	song MIDI files
Key Electronics, Inc	MIDIator family of parallel and serial interfaces for multimedia applications on various computer platforms
Mediatrix Peripherals, Inc	PC multimedia sound-adapter boards, including the Audiatrix Pro and three expansion daughterboards
Musicware Inc	piano teaching software for Windows
Peavey Electronics	keyboard and MIDI products, including DPM 3/4/488, DPM SI, DPM C8/C8p, Midinaster II, SP, SXII, Cyberbass, and PC1600

SEK'D/Soundspiration Systems	Samplitude Studios hard disk recording and sampling software (German and English)
Sonic Foundry	Forge and Sound Forge sound editing applications for Windows and Windows NT
Sound Quest Inc	editor/librarian software for various platforms; products include Midi Quest, Solo Quest, and Midi Quest Jr
Soundscape Digital Technology	SSHDR1 Hard Disk Recording System, an eight-track PC-based digital recording system
Take Note Software	musical ear/sight training program for Windows, Atari, and Amiga
TechStar Services	custom rack systems and consulting to recording artists and studios; also, custom electronic products and repair services for recording equipment
Tran Tracks, Inc	MIDI sequences
Voyetra Technologies	sequencers for Windows and DOS, CD-ROM learning and development software for Windows, MIDI interfaces, keyboards, and cables
Waves	Q6, Q10, C1 and L1 professional audio signal processing equipment, including equalizers, maximizers, compressors, and dynamic audio enhancers

MIDI/Music Forum

[Go Now: MIDIFORUM](#)

If you enjoy making music, join the MIDI/Music Forum. This Forum area provides support for Musical Instrument Digital Interface, synthesizers, MIDI sound modules and sound cards. Discuss topics ranging from equipment reviews to composing and recording. The synth/sampler libraries contain files to load into your equipment. The song libraries contain hundreds of musical compositions to play at your leisure.

Model 100 Forum

[Go Now: M100SIG](#)

The Model 100 Forum is intended for the users of the TRS-80 Model 100. Members can share knowledge, experiences, programs and product information with other members. There are 17 message board topics and databases which contain 1,000+ files of interest to Model 100 users. The library and message board also support Tandy models 200 and 600 and WP-2.

Modem Vendor Forum

[Go Now: MODEMVENDOR](#)

If you use a modem or are considering purchasing one, join this Forum area where selected vendors provide advice and technical support for their customers and potential customers. Besides direct support from vendors, you will also find Forum members who can share their experiences with different brands of modems. In addition to the messages exchanged with company representatives, you will find help files, programs, patches, and example files in the libraries. Listed below are the vendors represented in the Modem Vendor Forum, along with the main products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Best Data	Smart One fax/modems
Boca Research	modems, fax/modems, memory expansion boards, video boards, and other interface products
Computer Peripherals, Inc	ViVa modems, ViVa Multimedia video and sound cards, and JetWare memory cards
Global Village Communications	PowerPort and TelePort families of Mac modems and other products
Megahertz	laptop enhancement products, including PCMCIA modems, LAN adapter cards for both Ethernet and token ring LANs, 3270/5250 remote terminal emulation cards, and memory upgrades
Multi-Tech Systems, Inc	modems, such as MultiArray and MultiMax; voice over data modems such as MultiModem PCS and MultiExpress PCS; multiplexers; and communications software
Prometheus Products, Inc	(Mac and PC) fax/data modems, voice/fax/data modems, and MaxFax fax and voice software
Telebit Corp	modems, such as the FastBlazer, TeleBlazer, and WordBlazer series; the ViewBlazer network management system; dial-up routers; and the Telebit ACS (asynchronous communications server)
The Complete PC	PC-based fax, voice mail, and high speed modems, such as Complete Answering Machine, Complete Communicator, Complete Modem, and TurboModem; also, scanners with desktop imaging and optical character recognition (OCR) software
US Robotics	modems, especially the Courier series and Sportster series, and related products
Zoom Telephonics	modems and fax/modems for PCs and Macs
ZyXEL	high speed modems with fax, voice, and

cellular capabilities

Modem/ISDN/Handy Forum

[Go Now: GERMOD](#)

German speakers with an interest in data communications will find their own special information center in the Modem/ISDN/Handy Forum. Its message sections and libraries offer the latest news about developments in the field and the opportunity to exchange information and ideas with expert professionals, plus direct support from vendors of telecommunications equipment and software.

Multimedia

[Go Now: MULTIMEDIA](#)

This enhanced menu offers you access to the Forum areas on CompuServe that are specifically dedicated to multimedia products. It also serves as a centralized depository of the latest info about all these Forum areas, where you can find out about the hottest new files available for downloading, meet the newest vendors represented on CompuServe, and read news about all the multimedia-related Forum areas and the multimedia industry at large.

Multimedia Forum

[Go Now: MMFORUM](#)

The Multimedia Forum is for people who are interested in the emerging technology of multimedia, the use of audiovisual enhancements with computers. The use of computer enhancements such as audio, video, animation and music, along with platform-specific topics, are common areas of discussion in this Forum area. Members can learn from one another's experiences and knowledge and find application ideas through the conference area and message boards.

Multimedia A Vendor Forum

[Go Now: MULTIVEN](#)

CompuServe's Multimedia Vendor Forums provide members with support from multimedia vendors. When you are ready to add video, sound, animation or music capabilities to your computer, join these Forum areas to find answers to your questions about many of the leading multimedia hardware and software products. Members can post messages to the vendors or access help files, programs or patches for the vendors' products. Libraries contain files devoted to specific software releases, news releases from vendors, and other useful information. Listed below are the vendors represented in the Multimedia A Vendor Forum, along with the specific products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Aimtech Corp	IconAuthor, a Windows-based interactive authoring system, and CBT Express, a computer-based training (CBT) course development system
Asymetrix Corp	ToolBook and Multimedia ToolBook visual programming systems for Windows application development, and InfoModeler, a visual database design tool
BCD Associates	video tape and video disc computer control interfaces
Cognetics	Hyperties, an industrial-strength hypertext and multimedia product for the IBM PC
Dynaware, USA	DynaPerspective, MacWORD, Jigsaw-It!, and Kirei!
Lenel Systems International	MediaDeveloper multimedia database development software, MpcOrganizer multimedia database, mediaRecorder video capture and editing software, Multimedia Works multimedia player, server, and show builder, and Lenel Gallery
nTergaid	HyperWriter hypermedia authoring software and HyperReader hypermedia reading software.
Specular International	Infini-D (V.1.1) for modeling, rendering and animation in 32-bit color
SSEYO	Koan series of music generators for the PC
The Voyager Company	interactive multimedia CD-ROMs and expanded books
Truevision	TARGA, TrueVista, Horizon, and Video VGA add-in videographics boards
Turtle Beach Systems	sound cards, and the Quad Studio professional 4-track digital recording system for Windows multimedia

VideoLogic

GrafixStar and GrafixStar SmartTools,
MPEGStar and MPEG Player, Captivator
Pro/TV, PCI Music, and Mediator XLCa

Multimedia B Vendor Forum

[Go Now: MULTIBVEN](#)

CompuServe's Multimedia Vendor Forums provide members with support from multimedia vendors. When you are ready to add video, sound, animation or music capabilities to your computer, join these Forum areas to find answers to your questions about many of the leading multimedia hardware and software products. Members can post messages to the vendors or access help files, programs or patches for the vendors' products. Libraries contain files devoted to specific software releases, news releases from vendors, and other useful information. Listed below are the vendors represented in the Multimedia B Vendor Forum, along with the specific products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Adda Technologies Inc

AVer line of DTV products for the PC, including
VideoEditor, VideoCommander, and
VideoDirector

Advanced Digital Systems

PC Primetime, Radio Rockit, VGA to TV Elite

Applied Optical Media

multimedia CD-ROM titles for The Mac

Avid Technology, Inc

AudioVision and AudioStation digital audio
workstations, MediaComposer and
FilmComposer digital non-linear editing and
finishing systems, and MCXpress (Windows
and Mac) PCI-based digital non-linear video
editing software

Cambium

Cambium Sound Choice clip music

Digital Audio Labs

sound recording and editing hardware and
software for the PC; products include The I/O
CardD, The CardD Plus, and Fast Eddie

FAST Electronics

Screen Machine, Video Machine, and Movie
Line

Image North Technologies, Inc

see FAST Electronics

InFocus Systems

presentation/projection systems for the PC and
the Mac, including PanelBook projection
panels, Liteshow, and Litepro

Knowledge Adventure

educational CD-ROM titles for the Mac

Orchid Technology

sound and video boards, including SoundWave
32, GameWave 32, SoundDrive 16 and
SoundDrive EZ, Kelvin64 and KelvinEZ, and
Fahrenheit Video 3D

QSound Labs

Qsound virtual audio process and the
QSystemII professional digital audio

workstation

Scala, Inc, USA

software for creating multimedia presentations, including Scala MultiMedia, Scala MultiMedia Publisher, and Info Channel

Verbex

Listen series of speech command systems

Videomedia, Inc

V-LAN protocol and V-LAN HUB, broadcast line of editing controllers, including StudioHeart and OZ-NLL, and VLX-i transmitter/receiver modules; also, the Strassner Editing Systems editor

Multimedia C Vendor Forum

[Go Now: MULTICVEN](#)

CompuServe's Multimedia Vendor Forums provide members with support from multimedia vendors. When you are ready to add video, sound, animation or music capabilities to your computer, join these Forum areas to find answers to your questions about many of the leading multimedia hardware and software products. Members can post messages to the vendors or access help files, programs or patches for the vendors' products. Libraries contain files devoted to specific software releases, news releases from vendors, and other useful information. Listed below are the vendors represented in the Multimedia C Vendor Forum, along with the specific products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

ClassAct	ClassAct player software for Windows
DSP Solutions	audio solutions for the PC in the corporate, education and entertainment markets, including PORT*ABLE Sound Plus
ENSONIQ Corp	Soundscape operating system, Soundscape ELITE special effects toolkits, and the Soundscape DB daughter board
FutureVideo	V-STATION series of personal videotape post-production systems, EditLink series of videotape edit control systems, and VTR Driver Kits
MediaWorks	MediaWorks
Quickshot	mouses, soundcards, game interface cards, and Skymaster and Squadron Commander joysticks
Sigma Designs	REALmagic series of color, grayscale, and monochrome displays and controller boards for the PC and the Mac
Trident Software	ArtScreens multimedia screen saver software for PCs and Macs
Visionetics International	MPEG Master and MPEG Master Pro playback cards; VIGA+, VIGA VGA+, VIGA Window, and VIGA Genlock+ videographics adapters; and PortaShow and PortaShow+ VGA-to-video converters
Xing Technology	Xing MPEG Player

National Computer Security Association[Go Now: NCSA](#)

The National Computer Security Association (NCSA) provides expertise on a range of computer and information security issues. NCSA's online area covers topics such as computer ethics and privacy, viruses, encryption, PC & LAN security, UNIX and Internet security, disaster recovery, and EDI security. You can also join several Forum areas related to various aspects of the NCSA and its activities.

NCSA Anti-Virus Vendor Forum

[Go Now: NCSAVIRUS](#)

The NCSA Anti-Virus Vendor Forum enables users of anti-virus software and related products communicate directly with the product vendors and with other expert users. The NCSA Anti-Virus Vendor Forum provides product support and information for the vendors and products listed below. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

AVP	AntiViral Toolkit Pro and AVPLITE
Carmel Software Engineering	Carmel Anti-Virus for various platforms
Cheyenne Software	InocuLAN series of LAN protection solutions
Command Software Systems	F-PROT Professional and NET-PROT virus identification and protection software
CPC Ltd (USA agent of NetZ Computing Ltd)	InVircible antivirus software and ResQdisk antivirus and disaster recovery utility
DialogueScience, Inc	(English and German) DialogueScience's Anti-Virus (DSAV) kit and its components: Virus Hunter scanner, DoctorWeb scanner and cleaner with heuristics, ADinf data integrity checker, ADinf Cure Module virus killer, and Sheriff integrated hardware/software data protection system
EliaShim Microcomputers, Inc	VirusSafe series for PCs and networks
EMD Enterprises	EMD Armor 95, ROMArmor antivirus firmware, and Trakker Lite help desk management system
ESaSS BV	see TCT ThunderBYTE
IBM Corp	IBM AntiVirus software for the PC
Intel	LANDesk V Protect software
McAfee Associates	VirusScan and McAfee VShield
NetZ Computing Ltd	see CPC Ltd
Norman Data Defense Systems	Norman Virus Control family of software for PCs; products include Armour, FireBreak, Norman Network Utilities, and V-BASE antivirus scanner
S&S International PLC	Dr. Solomon's Anti-Virus Toolkits for various platforms
Safetynet, Inc	security, anti-virus and network management tools for PCs in networks; products include VirusNet, ProfileNet, StopLight, LANSD, and Drive-In

Stiller Research

Integrity Master antivirus/data integrity system

Symantec

Norton Anti-Virus (NAV), Microsoft Anti-Virus (MSAV), and Central Point Anti-Virus (CPAV)

TCT ThunderBYTE (and ESaSS BV -
ThunderBYTE International)

ThunderBYTE Antivirus (TBAV) and TBAV
Utilities

Thompson Network Software

antivirus software for PCs and networks; also
monthly issues of *Virus Watch*

Virus Pattern Book and Trend TSRSCAN

NCSA InfoSecurity Forum

[Go Now: NCSAFOR](#)

Operated by the National Computer Security Association, the NCSA InfoSecurity Forum is the place to go to stay up to date on computer security issues, events, and trends. You'll learn all about upcoming conventions and other events. The message sections have many continuing discussions about viruses and other threats, encryption, hackers, etc. Libraries contain the NCSA's own files, anti-virus tools, and even Pretty Good Privacy (PGP) software. And there are lots of online seminars about such topics as security laws and attacking computer crime.

NCSA Security Vendor Forum

[Go Now: NCSAVEN](#)

The NCSA Security Vendor Forum is a meeting place for users and vendors of security products associated with the National Computer Security Association (NCSA). The NCSA Security Vendor Forum provides product support and information for the vendors and products listed below. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Absolute Software	CompuTrace TRS software for tracing computers
Attest Systems, Inc	Gasp program for determining whether hardware and software is being used efficiently and legally
Avanti Associates	STOP system for asset protection, tracking, management, and recovery
e.g. Software, Inc	network security solutions, including SmartPass password security and analysis system for Novell NetWare servers, AuditTrack network access, security and performance auditing program, and AlertTrack enterprise wide alert system and fault detector
EMD Enterprises	EMD Armor 95
Marathon Computer Press (MCP) Software	PC-based commercial and shareware software providing security and network solutions
Ontrack Data Recovery, Inc	services for recapture of data lost from networks, hard disks, diskettes, and tapes
Security Microsystems	LOCKIT security shells for limiting access to data and programs and DesMaster file encryption software
Trend Micro Devices	StationLock hardware/firmware for security and virus protection for single users and networks
ViaCrypt (division of LemCom Systems)	encryption and digital signature products, such as ViaCrypt PGP, for work stations and servers

Nederlands Corel Forum/Corel Netherlands

[Go Now: CORELNL](#)

To participate in a Dutch-speaking community of Corel users, join the Nederlands Corel Forum/Corel Netherlands. Here you can give and get help resolving problems not only with Corel's many graphics software applications, but also with WordPerfect and other applications. Corel technical staff is on hand to answer your questions and respond to your suggestions and comments. In the Forum libraries you'll find software enhancements, tip sheets, press releases about new and forthcoming software releases, and many other helpful files.

Netherlands Computing Forum

[Go Now: **NLCOMP**](#)

Error! Reference source not found.

NetManage ECCO Forum

[Go Now: ECCO](#)

The NetManage ECCO Forum provides support for ECCO's personal information managers, ECCO Pro and ECCO Simplicity. You can get direct support from product specialists and expert users, and discuss time management, contact management, and personal improvement. In the libraries you'll find full-featured demos, new ECCO templates, and technical notes.

Netscape Users Forum

[Go Now: NSUSER](#)

Discuss Netscape and its Internet browser products in the Netscape Users Forum area. Members can discuss all aspects of Netscape -- including the latest news from the Netscape community, new Netscape and Netscape-based products, developer information, and more.

NetWare Solutions Forum

[Go Now: NWSFORUM](#)

NetWare Solutions, the magazine for NetWare system managers, offers tips, tricks, and articles on networking technology. Back issues of the magazine, messages of interest to network managers on a variety of topics, downloadable utilities, and other information that makes a network manager's job easier are available in the NetWare Solutions Forum. Columnists and writers monitor the Forum area to answer questions.

Network VAR Forum

[Go Now: NETVAR](#)

The Network VAR Forum, the electronic edition of *Network VAR* monthly magazine, provides network VARs and vendors with an online home. Here you can exchange ideas, develop design and implementation plans, find out about network hardware and software, etc. The Forum libraries contain product demos, classified ads, information about training programs, and many other files.

Newsbytes News Network

[Go Now: ZNT:NEWSBYTES](#)

The Newsbytes News Network is an award-winning, global, daily newswire focused primarily on computer industry news. Newsbytes is part of ZD Net.

NEWS/400 Forum

[Go Now: NEWS3X](#)

The NEWS/400 Forum is the online extension of *News/400* magazine, published by Duke Communications, Inc. Here editors, readers, and other interested parties can discuss any topic related to the IBM AS/400 industry, including software, hardware, technical issues, connectivity, and client/server. The library includes source codes from NEWS 3X/400, AS/400, S/3X, OS/2, and PC source and object codes from utilities posted from other sources.

Newton Developer's Forum

[Go Now: NEWTDEV](#)

Discuss various uses of Newton Technology and how to design software and hardware for licensable Apple Technology in the Newton Developer's Forum. Meet with other Newton developers and exchange information, tips ,and solutions to problems.

Newton Forum

[Go Now: **NEWTON**](#)

The Newton Forum provides the latest advancements and enhancements for the Newton MessagePad and other personal information organizers from Personal Interactive Electronics (PIE), a division of Apple, Inc. Topics covered include development and connectivity issues related to IBM PCs and Macintosh platforms.

Newton Vendor Forum

[Go Now: NEWTVEN](#)

Third party vendors that develop products for the Newton personal digital assistant (PDA) offer support in the Newton Vendor Forum. See the individual vendor listings below for more information. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Atomic Software	NotePak list manager, AlarmPak alarm function augments, and RemoveIt! cleanup utility
Avalon Engineering, Inc	PresenterPad, RoundTable, and RoundTable Scheduler
Black Labs, Inc	CIS Retriever client for CompuServe and FirstClass Retriever client for FirstClass
Creative Digital Publishing Inc	tools for PDA developers, including debuggers, toolkits, books, language systems and electronic references; products include ViewFrame, ScriptLink, NewtRTFM, GizmoBeams, MicroWave, and Ragout; also, <i>PDA Developers</i> magazine
Ex Machina, Inc	PocketCall intelligent communications assistants for various PDAs and PocketPacks add-in modules for online e-mail and information services such as CompuServe
iambic Software	iambic TimeReporter time and expense tracking software and iambic Action Names contact manager
Innovative Computer Solutions (ICS)	NewtCase, NewtInfo, Newt21, GestureLaunch, SleepAid, BackDrop, SoupKitchen, GraffitiPatch, PrefsPatch, HeapIt, and ICSFixer
LandWare, Inc	FreeStyle handwriting recognition engine and Quicknames Pro software for accessing names in the Name File
Nomadic Technologies	Accountable personal account manager
PelicanWare, Inc	QuickFigure Pro spreadsheet with communications and graphing capabilities
SilverWARE	MoreInfo contact manager, PowerHouse navigational tool for the Name File, and the Isaac game

NeXT Users Forum

[Go Now: **NEXTFOR**](#)

The NeXT Users Forum provides technical support for users of the NeXT computers and other products. Through the message sections and libraries, you can learn more about such NeXT products as Interface Builder, Edit, Webster, and other NeXT application software from third-party vendors.

Novell Applications Technical Solutions

[Go Now: APPTID](#)

The Novell Applications Technical Solutions Database is a searchable database with more than 50,000 technical information documents, patches, fixes, and other files. Documents provide information on GroupWise, InForms, and many other Novell business products.

Novell Buyer's Guide

[Go Now: **NOVBG**](#)

The Novell Buyer's Guide is a database of all of Novell's products. The products are categorized into operating systems, network services, communications, inter-networking, Unix connectivity, and network management products. The database also includes NetWare application and UnixWare developer tools.

Novell Client Forum

[Go Now: NOVCLIENT](#)

Get answers to your questions about such Novell client products as ODI, NetX, VLM, ODINSUP/NDIS, NetBios, and various Windows-related products. The Novell Client Forum. has message sections and a conference room.

Novell Connect. Forum

[Go Now: **NCONNECT**](#)

Connectivity issues related to host connectivity and printing, NetWare Connect, NACS, WANs, NetWare IP, Portable NetWare, E-Mail, MHS, and fax are discussed in the Novell Connect. Forum. In addition, the message sections contain information on connections to various environments such as Macintosh, VMS, and TCP/IP.

Novell Developer Product Information

[Go Now: NDEVINFO](#)

Share information about Novell's software developer kits, client/server telephony, and other developer tools. This Forum area has message sections and a conference room.

Novell Developer Support Forum

[Go Now: **NDEVSUPP**](#)

Obtain technical support for Novell's developer tools, including the NASI and SAA LAN protocols, software developer kits (SDKs), and Appware directory for client/server. This Forum area includes file libraries as well as message sections and a conference room.

Novell DSG Forum

[Go Now: NDESKTOP](#)

The Novell DSG Forum is a professional Forum area for end users of Novell's Desktop Systems Group (DSG) software and for third-party software developers. This Forum area offers message sections and a conference room for discussion of topics related to Novell's operating systems, NetWare DOS and DRDOS, and the company's Personal NetWare products.

Novell Electronic Publishing Tools Forum

[Go Now: ELECPUB](#)

The Novell Electronic Publishing Tools Forum provides information and answers to questions relating to Envoy and Market Messenger. There are separate message sections for these products, and a conference room for ad hoc discussions.

Novell File Finder

[Go Now: NOVFF](#)

The Novell File Finder provides an online comprehensive keyword searchable database of file descriptions from Novell- related Forum areas and technical information databases. You can search by topic, file submission date, Forum or database name, file type, file extension, file name, or submitter's User ID. File description and Forum/database name are displayed for each matching file, giving instant information on where to find a most wanted file.

Novell GroupWare Files Forum

[Go Now: NGWFILES](#)

The Novell GroupWare Files Forum, a library-only Forum area, covers Novells GroupWare products.

Novell GroupWise Forum

[Go Now: GROUPWISE](#)

The Novell GroupWise Forum provides information and answers to questions relating to Novell GroupWise. Sections within the Forum area cover installation, gateways, connectivity, administration, message servers, clients for various platforms, and other features of GroupWise.

Novell Information Forum

[Go Now: **NGENERAL**](#)

General information about Novell's certification and partnering programs can be found in the Novell Information Forum. Programs discussed include Certified NetWare Engineers (CNE), CNE Professional Association (CNEPA), NetWare Users International (NUI), and NetWare Authorized Service Center (NASC). The message sections also contain information and discussion regarding NetWare Application Notes and the Network Support Encyclopedia (NSEPro).

Novell InForms Forum

[Go Now: NINFORMS](#)

The Novell InForms Forum provides information and answers to questions relating to InForms. Sections within the Forum area cover filling, design, security, calculations, databases, and other features of InForms.

Novell Labs

[Go Now: **NOVLABS**](#)

Developers can obtain compatibility certification from Novell for their third-party products by submitting the products to Novell Labs for testing and configuration. There are three different certification testing programs: the Standard Testing Program, the Novell Certification Alliance (NCA), and the Strategic Engineering Support (SES) program.

Novell NetWare General Files Forum

[Go Now: NWGENFILES](#)

The Novell NetWare General Files Forum, a library-only Forum area, provides information for network connectivity products.

Novell NetWare 2.X Forum

[Go Now: **NETW2X**](#)

The Novell NetWare 2.X Forum provides information and answers to questions relating specifically to NetWare version 2.X. Individual sections are devoted to printing, utilities, disk drivers, and controllers.

Novell NetWare 3.X Forum

[Go Now: **NETW3X**](#)

The Novell NetWare 3.X Forum provides information and answers to questions relating specifically to NetWare version 3.X. Individual sections are devoted to printing, utilities, disk drivers, and controllers.

Novell NetWare 4.X Forum

[Go Now: NETW4X](#)

The Novell NetWare 4.X Forum provides information and answers to questions relating specifically to NetWare version 4.X. Individual sections are devoted to printing, utilities, disk drivers, and controllers.

Novell NetWare OS Files Forum

[Go Now: NWOSFILES](#)

Novell NetWare OS Files Forum, a library-only Forum area, covers NetWare Operating Systems products.

Novell NetWire

[Go Now: NETWIRE](#)

Novell NetWire is the central location for Novell-related Forum areas and other services that provide 24-hour information and direct technical support for those who maintain, sell, develop, support, and use Novell products. NetWires online resources include direct product support for all Novell products as well as access to the latest files, patches, and drivers.

Novell Network Management Forum

[Go Now: **NOVMAN**](#)

The Novell Network Management Forum provides information on several network system management products: ManageWise, Navigator, and Lanalyzer for Windows.

Novell OS/2 Forum

[Go Now: **NOVOS2**](#)

Your networking questions about NetWare for OS/2 can be answered in the Novell OS/2 Forum. The message areas cover the following topics: OS/2 printing, client/server issues, OS/2 Requestor, NSM (OS/2), NetWare 4.X for OS/2, GUI tools, and WINOS2/DOS.

Novell PerfectHome Forum

[Go Now: PERFHOME](#)

The Novell PerfectHome Forum, previously known as WordPerfect Main Street, provides information and answers to questions relating to the Novell Home line of products. Individual sections are devoted to WPWorks and PerfectWorks, as well as clip art packages and other Novell products for home and family use.

Novell Press Release Database

[Go Now: NPRESS](#)

Error! Reference source not found.

Novell SoftSolutions Forum

[Go Now: SOFTSOL](#)

The Novell SoftSolutions Forum provides information and answers to questions relating to SoftSolutions. Individual message sections are devoted to integrations, ODMA, SEM, DSS, indexes, conversions, and other features of SoftSolutions.

Novell Technical Services[Go Now: NOVTECH](#)

Novell Technical Services offers a doorway to all of the online technical support services for Novell products. Here you can quickly find out what's available, access all the Forum areas maintained by Novell and also those maintained by independent information providers and third-party vendors, and link directly to the Novell Support Connection on the World Wide Web.

Novell Technical Solutions Database

[Go Now: NTID](#)

All of the technical information documents, patches, and drivers for Novell System Products and Novell GroupWare Products have been collected and placed into an online searchable database called the Novell Technical Solutions Database. This database is designed to address different user scenarios.

Novell User Library Forum

[Go Now: NOVUSER](#)

Download third party public domain and shareware software for NetWare environments from the Novell User Library Forum. If you have developed a NetWare software program, upload it into one of the Forum libraries. The libraries also contain patches for disk drivers, LAN drivers, and communications drivers; along with printer utilities; management tools; job postings, and classifieds.

Novell Vendor A Forum

[Go Now: NVENA](#)

Vendors of NetWare-related products provide support in the Novell Vendor Forums. Members can post messages to the vendors or access help files, programs or patches for the vendors' products. Libraries contain files with specific software and hardware releases, news releases from vendors, and other useful information. Listed below are the vendors represented in the Novell Vendor A Forum, along with the specific products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Best Power Technology, Inc	power supply monitors
Blue Lance	LT Auditor enterprise-wide network security package, LT HelpDesk support management tool, and LT Stat network auditing and documentation tool
Computer Tyme Software Development Lab	MarxMenu language and Network Survival Kit
Dell Computer Corporation	servers running Novell NetWare
Folio Corporation	infobase building software, such as Folio VIEWS, Folio Infobase Web Server, and Codewright; also, consulting services
Infinite Technologies	e-mil and e-mail/MHS utilities and printing solutions
Intelligent Micro Software Ltd (IMS)	Multiuser DOS operating system
Intrusion Detection	Kane Security Analyst (KSA) network security assessment tool
Knozall Systems, Inc (division of Tangram Enterprise Solutions, Inc)	FileWizard and Corporate File Wizard space analysis and management utilities, NLMAuto and NLMAuto Professional software for automated loading/unloading of NLMs, NLMerlin distributed process server, FileAuditor file access tracking tool, and FileDistributor automated software installer and distributor
The LAN Support Group, Inc (LSG)	BindView network management and reporting utility
Network Integrity, Inc	LANtegrity for NetWare server recovery software
Network Specialists, Inc	Double-Take cross-platform data backup and migration tool
ON Technology Corporation	Network e-mail software, SofTrack software metering software, and The Co-ordinator for Windows workflow management software
Podell Systems	Console Manager for NetWare, Print Manager for NetWare

RoseWare

Tricord Systems, Inc

UnixWare Technology Group (UTG)

Network Support Library (CD-ROM)

PowerFrame servers and disk drivers

global trade association

Novell Vendor B Forum

[Go Now: NVENB](#)

Vendors of NetWare-related products provide support in the Novell Vendor Forums. Members can post messages to the vendors or access help files, programs or patches for the vendors' products. Libraries contain files with specific software and hardware releases, news releases from vendors, and other useful information. Listed below are the vendors represented in the Novell Vendor B Forum, along with the specific products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Alexander LAN, Inc	Alexander Server Protection Kit (SPK) automated server crash handler
Avanti Technology	TaskMaster, NConsole, and NodelInfo
Denmac Systems	AlertPage alarm notification application
Ethosoft	NeighborhoodWatch screen saver and GroupEase for Windows workgroup suite
Extensions Software Corp	applications and utilities, such as x_FONE4, x- OUT4, x-NEWS4, x-FORUM4, and x-WARE4
Firefox	NOV*IX connectivity software
HiTecSoft	ManageWare, a 4GL similar to structured BASIC for developing NLMs and network utilities
InterConnections	NetWare-DEC connectivity products, such as Leverage Gateway Services, Leverage Host Services, and Print Select
Microdyne	IrmaTrac and RaceTrac adapters
Mountain Network Solutions, Inc (PSI)	communication utilities
MetMagic Systems, Inc (NSI)	NetMagic, StressMagic, NetMagic-Pro HelpDesk, DialMagic, and GraphMagic
NetWorth, Inc	intelligent networking hubs, switches, switching and routing software, and related products
Ontrack Data Recovery	data recovery services and data recovery tools
Preferred Systems Inc	directory services management products, including DS Standard NDS management software, AuditWare bindery reporting tool (Windows-based), and Origen server binding management tool
Safetynet, Inc	Spotlight security software, VirusNet/Pro and Drive-In AntiVirus, ProfileNet hardware/software inventory system, Drive-In menu system, and LAN Scheduler and Distribution (LANSD)

Simware

REXXWARE NLM, an implementation of the REXX procedure language

Vinca Corporation

network reliability enhancement products, such as StandbyServer Mirroring System, Remote StandbyServer Mirroring System, MSL cards for NetWare SFT III systems, and SafetyLines Mirror Access System

Network Professional Association

[Go Now: NPA](#) The Network Professional Association (NPA) is a self-regulating, non-profit association that provides the opportunity for computer networking professionals to interact with each other and set standards of professionalism and technical expertise. At the NPA's online area on CompuServe, you can find out more about the organization, learn how to become a member and where to find the chapter nearest you, and access a Forum area reserved exclusively for NPA members.

NPA Member Forum

[Go Now: **NPAMEMBER**](#)

This Forum area serves the ongoing business and membership communication needs of the Network Professional Association (NPA). Only NPA members can join.

Objects, Inc. Support Forum

[Go Now: OBJECTS](#)

Objects, Inc, supports its Layout graphical user interface development software in the Objects, Inc. Support Forum. You can get tech support from Objects, Inc, staff and expert users in the message sections. The libraries contain sample programs, drivers, etc, for all versions of Layout, plus several years' back issues of *ObjectNotes*, the company's monthly newsletter.

Office Forum

[Go Now: MSOFORUM](#)

Exchange information, tips, and techniques on Microsoft Office products in the Office Forum. Technical specialists from Stream International monitor the Forum area to ensure complete and accurate information is exchanged and to provide general technical assistance.

Online Today

[Go Now: COMPUMAG](#)

Online Today provides daily updated computer industry news, product announcements, book reviews, and cover stories.

OpenDoc Technology Forum

[Go Now: OPENDOC](#)

Error! Reference source not found.

Options By IBM Forum

[Go Now: IBM OBI](#)

In the Options by IBM Forum, members can exchange information, experiences, and tips about the various options provided for IBM computers. Message sections and libraries cover such areas as patches, fixes, and utilities, storage, video and graphics, networking, fax/modems, and accessories. IBM technicians and a network of knowledgeable people provide accurate information and technical advice.

Oracle Education Forum

[Go Now: **ORAEDUC**](#)

The Oracle Education Forum is an online resource for Oracle Education students, Oracle customers, and anyone interested in training on Oracle products. Here you can get answers to your questions from Oracle instructors, and get ideas and opinions from Oracle Education students. The Forum libraries have information about Oracle Education products and services and many other Oracle-related topics, and there are scheduled conferences where you can converse in real time with instructors as well as other Forum members.

Oracle Forum

[Go Now: ORACLE](#)

The Oracle Forum provides support for Oracle users and links them directly to the International Oracle Users Group, Oracle developers, and other professionals who respond to technical questions. Scan the forum's technical libraries for tips and solutions to common questions about Oracle products, including SQL*Forms, SQL*Plus and Pro*C. Also become acquainted with the IOUG.

OS-9 Forum

[Go Now: OS9](#)

The OS-9 Operating System Forum is dedicated to users of the OS-9 operating system. The Forum area contains programs, utilities, data files, hints, tips, and discussions that pertain to OS-9.

OZCIS Support Forum

[Go Now: OZCIS](#)

OZCIS Support Forum members can participate in discussions and get support for Ozarks West Software's OzWin and OzCIS communications packages for CompuServe. Forum libraries contain scripts, macros, demos, information files, etc.

Pacific Vendor Forum

[Go Now: PACVEN](#)

In the Pacific Vendor Forum, you can obtain support from hardware manufacturers and software developers and distributors in Australia and New Zealand . You can ask questions of vendor support staff, exchange ideas with fellow customers and other interested parties, and download updates, patches, application programs, and information files. Listed below are the vendors and other organizations represented in this Forum area, along with the main products supported by each vendor. To find all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

ACTIVE Modems	fax/modems
AIMIA	association for multimedia professionals in Australia
Banksia	BIT Blitzer modems, Multitech modems, and related products
Boosey & Hawkes Pty Ltd	musical works on hire
Creative Technology Ltd	SoundBlaster sound cards, ShareVision video cards, and CD recorders
Cybersoft	CyberCom high-speed serial communications driver for Windows
FinancialALERT	magazine for the financial planning industry in New Zealand
Maestro	modems and related software
Manacomm	distributor for CD-ROM titles, games, and other software
New Zealand Software Exporters Association	trade association
PC Developer Magazine	programming journal specializing in information about languages
Platinum Software	Platinum CBA Accounts Software
Reckon Software	distributor for many software products
Software Excellence International Ltd	ExACT Dental 4.3
System Builder Corp	see Unidata, Inc
Unidata, Inc	client/server application development tools for business applications, including SystemBuilder SB+, Termulator, and SBOpen

Packard Bell Forum

[Go Now: **PACKARBELL**](#)

Packard Bell computer users should join this Forum area to communicate directly with representatives from Packard Bell and obtain technical support. Meet others who can offer advice and trouble-shooting tips for the products you use. The libraries contain files about many products designed for Packard Bell computers, such as mouse drivers, video card drivers, anti-virus software, shareware utilities, and multimedia enhancers.

Palmtop A Forum

[Go Now: PALMA](#)

CompuServe's two Palmtop Forum areas provide members with support for the smallest type of computers. Members discuss topics such as how to interface a palmtop with a desktop system and how to use a palmtop for telecommunications. Besides general discussions about palmtop computing, these Forum areas also offer members individual message sections and library files devoted to specific models and brands of palmtop computers. Listed below are the vendors represented in the Palmtop A Forum and the main products supported by each vendor. To find CompuServe services for a specific vendor or product, visit the [Support Directory](#).

Atari	Atari Portfolio hand-held computer
Casio Inc	Casio B.O.S.S. handheld electronic organizers
Databook Incorporated	support products for the interface cards (ICs) used in palmtops and notebooks
Poqet Computer Corp	Poqet Communicating Computers and Poqet PCs
Psion PLC	Series 3 and Series 3a handheld computers, SpyderX programming language, Psimail software, and eBooks electronic books
Sharp Electronics Corporation	Wizard electronic organizers and YO-300 and YO-600 series of business communicators
Smith Corona	personal digital assistant (PDA) products

Palmtop B Forum

ParcPlace-Digitalk Forum

[Go Now: PPDFORUM](#)

The ParcPlace-Digitalk Forum provides helpful information about the SmallTalk/V and VisualWorks programming languages and development environments directly from the staff at ParcPlace-Digitalk and from other users. Members discuss applications in the Macintosh, DOS, OS/2 and MS Windows environments. Visit the libraries for more tips and general information, periodic digests of the *SmallTalk/V Scoop* newsletter and user group listings.

Parsons Technology

[Go Now: **PARSONS**](#)

The Parsons Technology area offers technical support through a Forum area, the opportunity to purchase Parsons Technology products online, and direct e-mail contact with Parsons Technology customer service, who will respond quickly to your questions and problems. Parsons produces a wide variety of software for personal use, with application programs for golf, taxes, legal, home office, genealogy, bible study and church management, health and nutrition, reference and education, and finances.

Parsons Technology Forum

[Go Now: **PTFORUM**](#)

The Parsons Technology Forum offers technical support from Parsons Technology staff and other users of Parsons' many software products for Windows and DOS. Parsons software includes: Swing Maker for learning golf and the Golf Digest Scorecard; Family Lawyer; the Tax Edge series and Personal Tax Organizer; MoneyCounts; QuickVerse, the Holman Multimedia Bible Dictionary, and the New Bible Companion Collection for bible study; Membership Plus for church management; Medical Drug Reference and Diet Analyst; Everyday Home Repairs; Merriam Webster's Biographical Dictionary; Directory USA on CD-ROM; the Address Book for personal contact management; Daily Journal for time management; Family Origins for genealogy; Announcements for creating cards, banners, etc, and Power Publisher for creating newsletters and other professional documents.

PC Applications Forum

[Go Now: PCAPP](#)

The PC Applications Forum addresses core applications for the PC including word processing, database management, business and personal accounting, business graphics, desktop publishing and educational software. You'll find thousands of downloadable programs in the Forum libraries, and many industry experts participating in lively discussions in the Forum message sections.

PC Bulletin Board Forum

[Go Now: **PCBBS**](#)

The PC Bulletin Board Forum provides information about bulletin boards for IBM PCs and compatibles. Messages and libraries cover uploads, BBS programs, utilities, standards, doors, BBS management, hardware, user questions and answers ,and more. Libraries also contain listings of BBSs and BBS notices.

PC Communications Forum

[Go Now: PCCOM](#)

This forum is devoted to the topic of telecommunications on the PC. Public domain and commercial communications programs are supported.

PC Computing

[Go Now: ZNT:PCCOMPUTING](#)

Part of [ZD Net](#), this is a Forum area for discussions among *PC Computings* editors and readers. In addition to exchanging ideas or getting questions answered from your favorite writers, you can contact *PC Computing* about problems with vendors or talk to the Phantom Shopper to share your experiences with computer dealers around the country. Plus you can browse through the library and download productivity tips and tricks.

PC Direct France Forum

[Go Now: PCDIRF](#)

The PC Direct France Forum complements the French computing magazine, *PC Direct*. The last six issues' articles, the Ziff-Davis benchmarks, and various shareware programs are here.

PC Direct UK Forum

[Go Now: **PCDUK**](#)

PC Direct UK magazine mixes inside knowledge of the United Kingdom computer trade with specialist buyers guides while always keeping the consumer in mind. Visit this Forum area to obtain information and advice on the latest computer technology.

PC Expert Forum

[Go Now: PCEFORUM](#)

Readers of the French magazine *PC Expert* can communicate directly with the magazine's and other readers through the PC Expert Forum. The *PC Expert* magazine staff participate in discussions and answer questions on a regular basis. This French-language Forum area also provides technical support, solutions, tips, and tricks.

PC File Finder

[Go Now: PCFF](#)

The PC File Finder is an online, comprehensive, keyword-searchable database of file descriptions for the many, many Forum areas related to the IBM PC and compatible computers, including desktops, laptops, notebooks, etc. The PC File Finder also covers Forum areas related to DOS, OS/2, and other PC operating systems, along with networking and other aspects of PC operation.

PC Fun Forum

[Go Now: PCFUN](#)

Error! Reference source not found.

PC Hardware Forum

[Go Now: PCHW](#)

The major theme in the PC Hardware Forum is the discussion of equipment and peripherals available for the PC. The PC world changes rapidly, and keeping up to date on new developments and sharing experiences with products makes purchasing decisions easier. In the libraries are hardware-related programs and reviews of new and useful products.

PC Industrie Forum

[Go Now: PCINDF](#)

The PC Industrie Forum provides German-speaking members with support from manufacturers of PC products. Libraries contain help files, programs, and patches for the products. A multimedia section is also included. Members can receive advice on all sorts of PC-related topics and download soundfiles, screensavers, and video clips. Listed below are the vendors represented in this Forum area, along with the main products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

CPV Stollmann Datensysteme	modems
DMA	multimedia-related books, screensavers, and sound files
ENZ EDV-Beratung GmbH	toolboxes for Borland and Microsoft compilers, such as Win/Sys, SymFlex, and B-Tree
Expert-Software	LIFETIME line of games , including WEEBEE WORLDS, ON THE ROAD, and DEVILLAND
miro Computer Products AG	monitors, ISDN hardware, and such graphic cards as miroCrystal, miroMagic, and miroTiger
North American Software	askSam, HiJaak PRO, DRAFIX, and Pick-IT!
Quarterdeck	utilities such as QEMM
te-wi Verlag	multimedia books

PC Magazine

[Go Now: ZNT:PCMAGAZINE](#)

Part of [ZD Net](#), *PC Magazine*, this is the source for some of the finest utilities that meet the high standards of *PC Magazine*. Download utilities from the latest issues. Contact the staff at *PC Magazine* and ask for advice, tell the editors what you thought about their latest product reviews, debate the issues with the columnists, and get answers to your specific questions. Visit any or all of *PC Magazines* popular features including Utilities/Tips, Editorial, and Programming.

PC Magazine UK Forum

[Go Now: PCUKFORUM](#)

PC Magazine UK uses extensive laboratory testing and technical writers to produce its articles on PCs, peripherals and software. Contact *PC Magazine UK's* editorial department and PC Labs through this forum.

**PC MagNet Forums from
PC Magazine**

[Go Now: ZNT:PCMAGNET](#)

PC MagNet, part of ZD Net, is the source for some of the finest collections of utilities that meet the standards of *PC Magazine*. Download utilities from the latest issues. Contact the staff at *PC Magazine* and ask for advice, tell the editors what you thought about their latest product review, debate the issues with the columnists and get answers to your specific questions. Visit any or all of *PC Magazine's* popular forums, Utilities/Tips, Editorial, Programming and After Hours.

PCNet Online

[Go Now: PCNET](#)

This graphical menu is your gateway to online information and support for your PC. It provides immediate access to all the Forum areas maintained by PCNet on CompuServe, and many other related Forum areas. From here, you can also review PCNet's hottest products and utilities, visit the PCNet Welcome Center, register shareware, find any PC-related file, see the PCNetTop 25 list of downloaded files, and link to PCNet's home page on the World Wide Web for even more features.

PC New Users Forum

[Go Now: PCNEW](#)

If you are just getting started with your PC, either in the world of communications or using the Forum areas on CompuServe, the PC New Users Forum is for you. You will find lots of helpful hints from expert users and sysops, plus many programs to entertain yourself in your leisure hours.

PC-ONLINE Magazin Forum

[Go Now: PCONLINE](#)

Error! Reference source not found.

PC Plus Forum

[Go Now: PCPFOR](#)

The PC Plus Forum is the place for readers of the UK-published *PC Plus* magazine to communicate directly with the editors. Download programs included in the magazine's cover disks. These contain shareware programs such as word processors, DOS utilities, games, and packages from popular software vendors.

PC Programming Forum

[Go Now: PCPROG](#)

If you are interested in programming for the IBM PC or compatibles, the PC Programming Forum is for you. PCPROG contains assemblers, source does in a variety of languages and help from other programmers. Experts will find valuable information, and beginners will discover hints, tips and tutorials.

PC UK Online

[Go Now: PCUKONLINE](#)

PC UK Online provides information about three PC-related magazines published in the UK: *PC Direct UK*, *PC Magazine UK*, and *Computer Life UK*. Each magazine has its own Forum area, and you can reach them all from here. You can also peruse back issues of *PC Magazine UK*.

PC Utilities/Systems Forum

Unicorn Software

personal productivity and pleasure programs,
such as DayPlanner and OMNIDay for
Windows, VideoMaster and CDMaster,
SoundZ, and ScrollZ

Zinc Software

Zinc Application Framework 4.0 object-oriented
cross-platform internationalized class library
and visual development tool

PC Week

[Go Now: ZNT:PCWONLINE](#)

PC Week on [ZD Net](#) provides a platform for corporate buyers and the writers and editors of *PC Week* to exchange information and ideas on what products and services to buy, plus an opportunity to debate industry issues. *PC Week* news headlines and full text are available online the Friday before they are published to keep you up to date on the industry.

PC World Editor's Forum

[Go Now: PWOFORUM](#)

Error! Reference source not found.

PC World Entertainment Forum

[Go Now: **GAMING**](#)

PC World Entertainment Forum focuses on multimedia and 3-D games for PCs such as DOOM, Heretic, Descent, and Galactic Civilizations. The Forum area has a complete selection of shareware games, along with extensive help, solutions, and hint files. Online magazines devoted to various aspects of computer gaming are also available. The Forum area provides an expert staff to answer questions on setting up, installing and playing computer games, and using peripherals.

PC World Online

[Go Now: PCWORLD](#)

PC World Online brings you in-depth product reviews, Windows application tips, exclusive small- and home-office features, how-to articles, special reports on consumer issues, and the Top 20 products, as determined each month by *PC World* magazine. PC World Online offers a searchable database of two years back issues and the entire current month's issue. An Electronic Mall is available for online shopping and participation in promotional contests and surveys offering valuable prizes. Databases of tips, product reviews, daily news about the computer industry, and a wealth of other informative features are also accessible.

PC World Online Technical Forum

[Go Now: PCTECH](#)

Whether you're a novice or an expert with the PC, you're going to have questions. In this Forum area, you can get the answers from the staff at *PC World* magazine as well as from experienced Forum members. Message sections carry discussions of all topics of interest to PC users, want ads for used hardware and software, and announcements of significant industry events. Libraries also cover a wide range of subjects, with many FAQ files and valuable freeware and shareware.

PC World Simulation Games Forum

[Go Now: **SIMGAMES**](#)

Brought to you by *PC World* magazine, this Forum area covers computer simulations of every stripe and hue, from flight simulation to classic God Sim games. Here you can tell game authors about the pleasures and pains their products bring you, and get technical experts to help you with any problems. In the Forum libraries, you'll find shareware, demos, etc -- if you can't find the file you want, ask the sysops; they may be able to get it for you. With several conferences a week, SIMGAMES is the community center for simulation games players.

PC World SOHO Forum

[Go Now: SOHO](#)

PC World SOHO Forum is for those who work in the small office-home office environment. Whether you are an entrepreneur, owner, manager, or a part-time staffer, you are a part of a fast growing segment of American business. This Forum area provides the tools and information needed to accomplish your goals.

PC World Stardock Forum

[Go Now: **STARDOCK**](#)

Lock on to Stardock to get tech support from Stardock Systems staff for its OS/2 applications for the corporate and consumer market. You can trade experiences and ideas with other business users of OS/2 Essentials, with business and home users of Object Desktop, and with players of Galactic Civilizations, Avarice, Star Emperor, and Stardock's newest offerings, Entrepreneur and Master of the Empire. The Forum libraries contain updates, patches, hint files, FAQs, and helpful freeware/shareware utilities.

PC World 3D Gaming Forum

[Go Now: GAME3D](#)

PC World 3D Gaming Forum, a part of PC World Online, contains the latest files related to several of the hottest 3D games for the PC platform. Message sections and libraries cover operating systems, networking, modems, and WAD design.

The PDP-11 Forum

[Go Now: PDP11](#)

This Forum area encourages the exchange of software designed to run on Digital Equipment Corporation's PDP/LSI computer systems and facilitates communication among users of the PDP-11, LSI-11 and PDP-10 series of computers.

Peachtree Software Forum

[Go Now: PEACHTREE](#)

Peachtree Software supports its Peachtree Accounting software for Windows and DOS in the Peachtree Software Forum. Representatives from Peachtree provide assistance and the libraries contain many valuable files.

PEARL Forum

[Go Now: PEARL](#)

PEARL is one of the largest mail-order distributors of computers and computer peripherals in Germany. The PEARL Forum provides an extensive collection of shareware and technical support for hardware distributed by PEARL. Members can exchange tips and ideas for program enhancements and discuss shareware programs with their authors in the Forum message sections. Members can also communicate directly with the editorial staff of *DOS Trend* magazine. The libraries offer shareware for financial topics, hobbies, DTP, games, science, electronic data transmission, and more, with new shareware being uploaded constantly.

Pegasus Download Area

[Go Now: PEGASUS](#)

Pegasus Imaging Corp's PIC image format attracts multimedia developers because of its compressed image quality, fast decompression, and color handling. Here you can download and purchase Pegasus products, including its PICPress and PICPress for Photoshop software for compressing and viewing full-color and grayscale images, PICSaver end-user screen saver software, IMPACJ VBX toolkit for adding images to Visual Basic applications, and the current Hooters Calendar Girl Screen Saver, with additional old and new images available for ordering.

Pen Technology Forum

[Go Now: PENFORUM](#)

The Pen Technology Forum provides support for all aspects of pen-based computing. Pen systems range from small hand-held units to full-featured desktop systems with keyboards and writing tablets. This Forum area covers topics related to pen-based hardware and software, new communication systems including satellite and cellular links, medical applications, and the latest news and trade show reports. In addition, Vendor company representatives provide online technical support and product information. See below for a list of vendors and the products they support. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

aha! software corp	aha! InkWriter handwriting word processor for various platforms
ALPS (USA), Inc	see Kalidor, Inc
CIC	Handwriter Recognition System and PenDOS Operating Environment
EO/GO	PenPoint operating system and third-party software
FTG Data Systems	pointing device software, such as PenDirect, and EMU-TEK graphics terminal emulation software for Macs and PCs
GRiD Systems Corp	GRiDPad pen computers and the PenRight! graphical application development platform
IBM Corp Personal Software Products	PenDOS and Pen for OS/2 operating systems
Kalidor, Inc (subsidiary of ALPS (USA), Inc)	pen-based computers
Pen Computing Magazine	magazine
PenWorld	magazine
Slate Corp	PenApps Application Builder, PenPower, and Looseleaf NoteTaker
Volksware, Inc	Pen-Based Computing Journal
Wacom Technology Corp	digitizing tablets

Personal File Area

[Go Now: PER](#)

Every CompuServe member has free file storage on CompuServe. The Personal File Area enables you to catalog those files, edit them, rename them, change their protection level, or delete them. A hard-copy printout of your files can be mailed to you for the printing and mailing charges. You can also upload and download files from this area.

Photodex Graphics Forum

[Go Now: PHOTODEX](#)

Error! Reference source not found.

Pinter Consulting Forum

[Go Now: PINTER](#)

Download information from the Pinter FoxPro Letter and The Pinter Visual FoxPro Handbook in the Pinter Consulting Forum. The Forum area offers valuable tools, utilities, sample code, screen graphics and everything else that a professional FoxPro developer could want. In addition, the message board is available to help you solve your toughest bugs and FoxPro headaches.

Plug and Play Forum

[Go Now: **PLUGPLAY**](#)

Members of the Plug and Play Forum can discuss the hardware and software issues involved with implementing Plug and Play on PCs. Plug and Play is a protocol through which cards in an ISA computer are configured by the computer. Therefore, the user does not need to deal with configuration problems. The Forum area is operated by WUGNET.

Polaris Software Forum

[Go Now: POLARIS](#)

Polaris Software produces two personal information managers, PackRat for Windows and Advantage for DOS . The Polaris Software Forum supports both PIMs, offering direct access to Polaris support and libraries with technical notes, bulletins, FAQ files, and more.

Portable Programming Forum

[Go Now: CODEPORT](#)

The Portable Programming Forum supports programmers who use computer languages that are highly portable between different hardware platforms, such as Modula-2, C and C++, UCSD Pascal, and P-System. Here you can learn more about portable languages not supported by other Forum areas on CompuServe. Members often collaborate on joint online projects.

Power Computing Forum

[Go Now: POWER](#)

Power Computing Corp, the first licensee of the Macintosh Operating System, offers support to its customers and prospects in the Power Computing Forum. Members can exchange information with each other as well as with Power Computing technical staff, and find many helpful files in the Forum libraries.

PowerBuilder Forum

[Go Now: **PBFORUM**](#)

Developers who work with PowerBuilder Native or PowerBuilder ODBC can exchange ideas and information in the PowerBuilder Forum. Support in this Forum area is provided solely by members.

Powersoft Forum

[Go Now: PSFORUM](#)

The Powersoft Forum is a meeting place for application developers who use Powersoft Corp's software. Here you can exchange ideas and information and ideas with Powersoft employees and members of Team Powersoft, an elite group of proficient Powersoft users. Among the topics of discussion are InfoMaker, PowerViewer/PowerMaker, Powersoft S-Designor, and Powersoft Star Designer -- just about any Powersoft product except PowerBuilder. In the libraries you'll find Q&A files about Powersoft's C/S GUI development tools and other products.

Powersoft Support

[Go Now: **POWERSOFT**](#)

This graphical menu is your one-stop shop for information about Sybase, Powersoft, and all their products. Besides access to all the Forum areas maintained by the two companies on CompuServe, Powersoft Support also offers a hotlink to Powersoft's home page on the World Wide Web, information about Powersoft customer service and Team Powersoft, North American call tracking information, and information about training, marketing, and sales programs. You can even download an evaluation copy of Sybase's SQL Anywhere.

Powersoft/Sybase Forum

[Go Now: PSLANG](#)

This Forum area is especially for people who use SQL Anywhere and developers who work with the Powersoft Watcom family of languages: Powersoft Watcom C/C++, Powersoft Watcom Fortran 77, and Powersoft Watcom VX-REXX. However, you can also get answers to your questions about other products from Powersoft and Sybase as well. Not only the sysops, but also many Forum members are expert users of Sybase database systems and Powersoft languages.

Practical Forum

[Go Now: PPIFORUM](#)

The Practical Forum provides help, advice, and technical support for owners of Practical Peripherals products, including the Practical Internet Kit, and the Practical Class, ProClass, and MacClass lines of modems. Libraries contain utilities, shareware, information files and P/Net files.

Programming Applications Forum

[Go Now: **PROGMS**](#)

If you use WordBasic to program Microsoft application software, you should join this fForum. WUGNET sysops and other experienced users are online to offer technical support. Find answers to questions about WordBasic's capabilities and learn how to use it for your specific applications. A non-technical section is also available for questions about documentation and for general information about WordBasic.

Programming Languages Forum

[Go Now: PROGLA](#)

Users of Microsoft software and operating systems are invited to join the Programming Languages Forum, which is operated by WUGNET. Members have direct access to technical support for programming languages such as C, QuickC and QuickPascal MASM for Microsoft applications. Forum libraries feature more than 2,000 files containing macros, utilities and shareware.

Project and Cost Management Vendor Forum

[Go Now: TCMVEN](#)

This Forum area provides support from vendors of project and cost management products. Forum members share their experiences with each other as well as draw from the experience of the vendors represented. Members can post messages to vendors' technical support staff, share tips with other project management professionals, and find programs, patches, and information files. The list below identifies the vendors currently represented in this Forum area and their products. To find all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Angel Group	professional services, consulting, training, and Project Delivery Methodology Tools and other products
Applied Business Technology Corp (ABT)	Total Project Management System software for information systems; also, implementation assistance programs
Integrated Software Services, Inc (ISS)	Project Navigator project control software
MC2	Interactive Cost Estimating (ICE) System construction cost estimating system
Palisade Corp	RISK risk analysis add-in for Lotus 1-2-3, Microsoft Excel, and Microsoft Project (DOS and Mac); RISKview probability distribution add-in for RISK; and BESTFIT distribution optimizer for input data
Primavera Systems, Inc	PC-based project management software, including Primavera Project Planner (P3), SureTrak Project Manager for Windows, MonteCarlo, and Expedition
Quantitative Software Management, Inc (QSM)	tools and services to measure and improve software productivity, estimate project size, cost and schedule, and prevent "project runaway"
Richardson Engineering Services	material/manhour estimating information resources: Process Plant Estimating Standards, General Construction Estimating Standards, Richardson's International Construction Factors Location Cost Manual, Richardson RACE Spreadsheet Estimating System, and Richardson Line Item Databases
Smith, Dennis & Gaylord, Inc (SDG, Inc)	SDG Project Controller family of Windows client/server project accounting modules for building a business project by project
Technology Associates	consultancy and training services; and distribution of third-party products
U.S. Cost, Inc	SUCCESS Estimating & Cost Management System software for Windows; also, software

development and integration support services

Vertigraph, Inc

construction management software, including Bidworx Takeoff & Estimating System, Earthwork Digitizer Takeoff System, and Construction Accounting Management System

WinEstimator, Inc

Windows-based cost estimating and accounting programs for the construction industry

Quark Online Users Forum

[Go Now: QUARK](#)

Share information and ideas with other Quark Publishing System users. In the Forum libraries, you'll find software updates, new product announcements, free Xtensions, and more.

QDeck Internet Forum

[Go Now: QDINTR](#)

In this Forum area, Quarterdeck Corp offers support for its Internet metasearch tool, WebCompass Personal Edition, as well as its other Internet products, including WebAuthor and Quarterdeck WebServer for Windows. You can get answers to your questions from Quarterdeck technicians and find many useful files in the Forum libraries.

QDeck UtilitiesForum

[Go Now: QUARTERDECK](#)

For technical support for the QEMM memory manager, the CleanSweep uninstaller, and other utilities from Quarterdeck Corp, join the QDeck Utilities Forum. Quarterdeck representatives are available to supply complete and accurate information, and you can get helpful usage and troubleshooting tips from experienced users and by browsing through library files.

Resource Suite for Lotus Notes

[Go Now: LNV](#)

This service is a searchable catalog listing Lotus Notes consultants, developers, products, services, and trainers. You can search the catalog by company name, industry, type of product/service, platform, or geographic location.

The Reveal Forum

[Go Now: REVEAL](#)

The Reveal Forum provides technical support, contact with other Reveal users, customer service communications, etc, for Reveal's family of multimedia and non-multimedia products. Reveal makes multimedia kits, modems, tv cards, tape backups, zip drives, and other storage devices.

Revelation Software Forum

[Go Now: REVELATION](#)

To build on innovative ideas in database programming, visit with the members of the Revelation Tech Forum. Sponsored by Revelation Software, this Forum area is designed to support users of the companys relational database products, Advanced Revelation and OpenInsight. Members share their experiences in developing database applications.

Santa Cruz Operation Forum

[Go Now: SCOFORUM](#)

The Santa Cruz Operation Forum supports all SCO end-users, resellers, developers, and partners. Sponsored by Santa Cruz Operation, Inc., the Forum area provides a place for over five million SCO system users worldwide to meet, share information and exchange tips on using SCO's line of Open DeskTop and Open Server, etc, development systems, plus SCO Merge for running DOS applications on "virtual" Unix systems. SCO also uses this Forum area to provide product information, bug fixes, and advice.

SCO UnixWare Forum

[Go Now: UNIXWARE](#)

If you have questions, comments, or tips about UnixWare and other related products, join the SCO UnixWare Forum, maintained by the Santa Cruz Operation. In this Forum area, you can discuss topics ranging from X Windows to bug watchers. The libraries contain many information files, along with UnixWare development tools, network utilities, applications, device drivers and updates.

Seagate Technology Forum

[Go Now: SEAGATE](#)

Users of Seagate data storage products will find a complete online information source in the Seagate Technology Forum. Specifications and jumper settings for Seagate's entire historical product line, and utility software to assist in installing new disc drives are available. Members can also exchange messages with technical support engineers.

SearchWare

[Go Now: SRCHWARE](#)

Here is where you can purchase SmartSearch for Windows, software for searching Knowledge Index databases, from SearchWare, Inc, a developer of intelligent online database search and retrieval systems. SmartSearch helps users construct their searches offline and then carries out those searches quickly, easily, and automatically, using fuzzy logic. In this service, you can find out more about SearchWare and SmartSearch, including how to get technical support, and also about Knowledge Index, which covers more than 100 of the world's most comprehensive research databases.

Shareware Beta Forum

[Go Now: SWBETA](#)

The Shareware Beta Forum is for software developers who want to use CompuServe's Forum environment to aid in the software development process. The Forum area features private message sections, libraries, and conference rooms, which can be used upon request for limited time periods by participating developers who want to conduct product testing with specifically authorized individuals.

Shiva Corporation Support Area

[Go Now: SHIVA](#)

Shiva Corporation provides a wide range of network servers and other remote access products and services. Network administrators and end users alike can use the Shiva Corporation Support Area to find and exchange Shiva information online. Here you'll find a current schedule of worldwide training classes sponsored by Shiva Educational Services, a Tip of the Week for increasing productivity with Shiva products, and access to Shiva's Forum area.

Shiva Forum

[Go Now: SHIVASUP](#)

The Shiva Forum is the best place to learn all about Shiva Corp's leading-edge remote access client technology, with its solutions for remote and mobile computer users and its analog and digital remote access and communications servers. Check the libraries for company announcements and product reviews, technical information, software updates, modem strings, and CCLs. Discussions in the message sections cover the recent Dial Out for Windows 95, as well as the LanRover Access Switch for large-scale analog and ISDN remote access and other Shiva products.

Shoreline Software Forum

[Go Now: CISCOMM](#)

Access support for CISComm, an automated navigator for the CompuServe Information Service, in the Shoreline Software Forum.

Siemens Automation Forum

[Go Now: SIEAUT](#)

The Automation Group of Siemens AG offers up-to-date information on its products and the subject of automation. At the message board you receive interesting news in brief, and you can discuss Siemens automation products. The libraries contain useful files for those involved with automation, including up-to-date information on Siemens automation products and systems, demo programs, tips and tricks, and training offers. This Forum area contains information about the Siemens company, the Siemens Automation Group, their services and the right people to contact.

Sight and Sound Forum

[Go Now: SSFORUM](#)

Join the Sight and Sound Forum to discuss and learn about all aspects of computerized visual and audio equipment, from techniques for enhancing images with sound to combining graphics and sound files. Obtain sequences from the MIDI song library, wave files and the latest drivers from the sound card library, and help determine the future of GIF enhancements, including sound and music.

Skandinavisk Corel Forum/Corel Scandinavian[Go Now: CORELSCAN](#)

Corel software users in Denmark, Norway, and Sweden can find support in their own languages in the Skandinavisk Corel Forum/Corel Scandinavian. This Forum area comes in triplicate, with separate message sections and libraries in Danish, Norwegian, and Swedish, for WordPerfect, various Corel graphics applications, and other products. You can communicate in your own language not only with fellow users, but also with Corel tech support staff who stop by regularly to help you answer questions, resolve problems, etc. And the Forum libraries contain information files, upgrades and enhancements, and many other valuable files.

SmartCard Forum

[Go Now: SMARTCARD](#)

Discuss smart cards and payment and identification systems which are based on smart cards in the SmartCard Forum. Sections within the Forum area include smart card technology, applications, suppliers, payment cards, pre-paid cards, technical standards and more.

Smith Micro Forum

[Go Now: SMITHMICRO](#)

The Smith Micro Forum provides answers for technical and non-technical questions related to the full line of programs available from Smith Micro Software, Inc., developers of telecommunication and fax software. Questions posted in the message sections are answered within 24 hours on weekdays and 48 hours on weekends. Hotline Windows/DOS, Hotdisk, QLMC(Voice) and HotFax/QL DOS are among the topics covered in the library and message sections.

SoftKey Forum

[Go Now: **SOFTKEY**](#)

The SoftKey Forum is provided by SoftKey International to support its many software products. Here you can get help, information, and supplemental material for the Key family of business, graphics, and design software, the PFS: software series, WordStar, BodyWorks, the American Heritage Dictionary, and many other word processors, desktop publishing, and multimedia products. This Forum area also provides support for products from companies acquired by SoftKey: The Learning Company, Compton, and MECC.

Software Development Forum

[Go Now: SDFORUM](#)

The Software Development Magazine Forum contains source code, programs and articles mentioned in *Software Development* magazine along with additional information on computer languages. Languages and topics covered in the message sections and libraries include: 'C' language and tools; debugging techniques; object oriented programming; software engineering; shareware/freeware; Modula-2. The Forum area also includes discussions on ADA, the high order language designated by the Department of Defense as the official language for all future embedded computer applications programs. Computer aided software engineering (CASE) topics, including Toolworks, EasyCASE, Embedded Systems Programming; TesSeRact and other TSR applications, which can take advantage of 4-dimensional storage capabilities, are also discussed.

Software Forums

[Go Now: SOFTWARE](#)

CompuServe has many Forum areas that support all kinds of software for the PC, the Mac, and other computers. This is the gateway to all these Forum areas, where you'll find support for your computer software 24 hours a day, 365 days a year.

Software Publishers Association Forum

[Go Now: SPAFORUM](#)

The Software Publishers Association (SPA) sponsors this Forum area to keep members of SPA, developers and users of computer software aware of SPA activities and developments. Members of the SPA are available online to answer questions about publishing software, such as how to obtain a copyright for a newly developed program and how to audit multiple computers for pirated programs.

Software Publishing Corporation Forum

[Go Now: SPCFORUM](#)

Software Publishing Corporation offers technical support through this Forum area for the full range of SPC software products including Harvard Graphics, Superbase, OfficeWriter, Professional File, Professional Write, Harvard Draw, and Harvard GeoGraphics. Support covers versions of the products all over the world.

Speakeasy Forum

[Go Now: ZNT:SPEAKEASY](#)

This is the place where ZD Net members can speak out on a multitude of topics, whether it is to ask questions, provide some help or just speak with other members. Speakeasy is a friendly Forum area, where members can relax and enjoy themselves -- and maybe learn a thing or two about movies, politics, games or other topics. Part of ZD Net.

SQL Server Forum

[Go Now: MSSQL](#)

If you use the Microsoft SQL Server SDKs and products, be sure to stop by this Forum area for technical support and information from Stream International specialists and other experts. Learn more about development toolkits, front-ends (both Microsoft and non-Microsoft), and SQL connectivity. A non-technical support section is available for you to ask questions concerning documentation, order information, and release information.

Stac Electronics Forum

[Go Now: STACKER](#)

STACKER, a data compression utility that works in real-time on DOS, Windows, OS/2 and Macintosh, and ReachOut Remote Control, a file manager, are supported by Stac Electronics in this Forum area.

Standard Microsystem Forum

[Go Now: SMC](#)

Find information on the EtherEZ PC Card, the EtherEZ PC Card+Modem, and other products from Standard Microsystem Corp. SMC's products used with ARCnet, Ethernet, SMC EISA, NetWare and other network drivers are discussed and supported in this Forum area. Download programs such as pictorial network maps that can be used to troubleshoot networking problems and text files that relay important developments and/or technical tips concerning SMC's products.

Starfish Software Forum

[Go Now: SIMPLIFY](#)

If you want to get better organized using your personal computer, stop by the Starfish Software Forum to learn about its new software products for Windows 95: Sidekick 95 and Sidekick 95 Deluxe, Dashboard 95, and Earth Time. There are also message sections and libraries covering the original Sidekick and Dashboard software for earlier versions of Windows. Along with tech support from Starfish Software staff, you'll also have the opportunity to make development suggestions and discuss them with expert users. For advanced users, there are a message section and a library for the Dashboard SDK.

Storage Management Forum

[Go Now: STORAGE](#)

The Storage Management Forum provides support and product information for Sterling Software products. The Forum area contains industry and product information, and provides basic product support through the public libraries and message sections. The Forum area also provides maintenance customers with the ability to download specific software fixes and additional information.

SunSoft Forum

[Go Now: SUNSOFT](#)

SunSoft, the software subsidiary of Sun Microsystems, Inc, supplies solutions for Internet and PC enterprise networking. This Forum area is your source for information and support for Java, the Sun Operating System (SunOS), OpenWindows, and the PC-NFS family of software products. Forum libraries contain answers to frequently asked questions (FAQs), hardware compatibility guides, upgrading guidelines, help and utility files, data sheets, technical spec sheets, and installation patches, plus other informational files. Company representatives frequent the message sections to offer configuration technical support and product information.

Support On Site Online

[Go Now: ZNT:ONSITE](#)

Support On Site is a comprehensive database of technical support information on more than two dozen leading PC software applications from companies like Adobe, Borland, Lotus, Microsoft, Quarterdeck, Symantec, and Corel. SOS includes tech notes, proprietary information from the vendor support staffs, newsletters, and supplementary software. Part of ZD Net.

Support Technology Forum

[Go Now: CSTECH](#)

Help desk professionals, meet your peers in the Support Technology Forum. Discuss the profession and practice of customer technical support, and learn all about the latest developments in knowledgebase, text search and retrieval, document imaging, phone/fax, and diagnostic tools and techniques. Keep up with conventions, trade shows, and other events, and join the "virtual chapter" of the Association of Support Professionals.

Symantec Corporation

[Go Now: SYMANTEC](#)

If you're a regular user of any Symantec software product, you should make this one of your regular stops. Here's the place to find the latest patches for Symantec's hottest products, along with free software offers and info about recent releases. There are also links to Symantec's many Forum areas and its World Wide Web site.

Symantec Development Tools Forum

[Go Now: **SYMDEV**](#)

Users of Symantec development tools will find support in this Forum area. Products supported include Think C, Think Pascal, Think Reference, TCL & OOP, Power Mac, Zortech C++, Multiscope, Optilink, Symantec C++ and Mac/MPW. With the acquisition of Delrina, you can also now find support for Pro Var, API SDK, Developers Advantage, and Espresso. Members can converse with one another, or have their questions answered by Symantecs support staff. The libraries offer downloadable support materials. Each product has its own FAQ (Frequently Asked Questions) and in many cases this is all that is needed to solve a user's problem. Users can peruse the libraries for technical notes, press releases and member contributed files.

Symantec DOS & OS/2 Forum

[Go Now: SYMDOS](#)

Support for all of Symantec's DOS and OS/2 products can be found in this Forum area. Products supported here include Act! for Psion, Act! for Newton!!, Q&A 4.0 and 5.0, Disklock, Direct Access, Xtree, PC Tools, Norton Desktop, Norton Commander, and Norton Commander for OS/2. The backup products supported in this Forum area include Central Point Backup, Norton Backup, Fastback Plus and Fastback Plus for OS/2. Members can converse with one another, or have their questions answered by Symantec's support staff. The libraries offer downloadable support materials. Each product has its own FAQ (Frequently Asked Questions) documents and in many cases this is all that is needed to solve a user's problem.

Symantec Europe Forum

[Go Now: SYMEUR](#)

Due to its growing European customer base, Symantec offers non-English support in the Symantec Europe Forum. Whether you need to download an update or get the latest information about your favorite Symantec product, this is the place to come. Sections feature support for network products and antivirus products and for many of the DOS, Windows, and Macintosh products that are supported in the English-speaking Forum areas. Users have the opportunity to chat among themselves, discussing a wide diversity of problems and solutions, or to ask questions of the sysops. Files are available in the libraries.

Symantec Macintosh Forum

[Go Now: SYMMAC](#)

This Forum area provides support for Symantec Macintosh products. Products supported include Norton Utilities, Central Point Mactools, (SAM) Antivirus, Suitcase, Doubler Utilities, Fastback Plus, Greatworks, Fax for Mac, and Mac Screen Savers. Members can converse with one another, or have their questions answered by Symantecs support staff. The libraries offer downloadable support materials. Each product has its own FAQ (Frequently Asked Questions) and in many cases this is all that is needed to solve a problem.

Symantec Network Forum

[Go Now: **SYMNET**](#)

To help you keep up the rapid evolution in local and global networking, Symantec offers a network and enterprise support area, the Symantec Network Forum. Products supported include Norton Administrator, NAV/Netware, Utilities Administrator, Disklock (Network), Xtools for Netware, Enterprise Developer, and Norton Enterprise Backup. LANlord, Central Point Antivirus NLM, Desktop Administrator and Winfax Net finish out the network products supported in this Forum area. Customers and prospective customers are welcome to join the Forum area for product discussions and to peruse the libraries.

Symantec Win 95 & NT Forum

[Go Now: **SYMNEW**](#)

Access this Forum area to find support for Symantecs Windows 95 products. You can find help here for Norton Antivirus, Norton Utilities, and Norton Navigator for Win 95. Each product has its own section. Since Symantec's acquisition of Delrina, this Forum area also provides support for Winfax 4, Cyberjack, Talkworks, and Winfax Pro 7. pcAnywhere is also supported. Members can converse with one another, or have their questions answered by Symantecs support staff. The libraries offer downloadable support material. Each product has its own FAQ (Frequently Asked Questions) document and in many cases this is all that is needed to solve a problem.

Symantec Windows 3.X Forum

[Go Now: SYMWIN](#)

Support for all of Symantecs Windows 3.X products can be found in the Symantec Windows 3.X Forum. Both the Central Point and Norton Antivirus products are supported here. Products supported include Act!, Act! Mobilelink, Central Point Backup, Norton Backup and Fastback Plus. Other products which are supported in SYMWIN are Norton Desktop, PC Tools, Xtree Gold, PC-Anywhere, Q&A and Direct Access. With the acquisition of Delrina, support for Winfax Pro, Winscreen Savers and Wincomm Pro is also available. Members can converse with one another, or have their questions answered by Symantecs support staff. The libraries offer additional downloadable support materials. Each product has its own FAQ (Frequently Asked Questions) and in many cases this is all thats needed to solve a users problem.

Tandy Professional Forum

[Go Now: TRS80PRO](#)

The Tandy Professional Forum offers Tandy computer users an avenue for exchanging information with other members regarding the full line of Tandy computers. The libraries are full of software such as applications and utilities.

TAPCIS Forum

[Go Now: TAPCIS](#)

The TAPCIS Forum discusses the effective use of TAPCIS, the completely automated program for accessing CompuServe Forum message sections and libraries and CompuServe Mail with IBM-compatible PCs. International users and expatriates will want to check out the international section featuring details for using TAPCIS via an international network. Whether you already use TAPCIS, or are just looking for information about it, you are welcome in this Forum area. It's also a good place to keep up with the doings of Kevin and Kell.

Tektronix Forum

[Go Now: TEKTRONIX](#)

The Tektronix Forum offers updated driver information, printer description files, patches, helpful hints and tips documents to help Tektronix users.

Telecommunications Forum

[Go Now: TELECOM](#)

Stop by the Telecommunications Forum to learn the latest developments and share your ideas on telecommunications services and products. Members of this Forum area discuss every type and aspect of telecommunications, from satellite and ISDN to cellular and wireless. They also examine such issues as protecting First Amendment rights in electronic communications. In addition, the Telecommunications Forum has message sections and libraries supporting the vendors and products listed below. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Dialogic

telecommunications hardware, including voice, voice recognition/fax, network interface, and switching products

Norsat International Inc (NII)

Microsat 150 multimedia satellite receiver

This Week in History

[Go Now: WEEK](#)

This service offers three pictures per day, selected from the more than 20 million photographs, drawings, and engravings in the historical image library of Archive Photos. You can select any week in the current month, and see a list of the images of famous people, places, and events associated with the days in that week. You can view any of the images online and/or download them to your computer.

Thomas-Conrad[Go Now: TCCFOR](#)

Thomas-Conrad, manufacturer of adapters, hub concentrators and other communications products for ARCnet, Ethernet, Token Ring, and TCNS, sponsors this Forum area to offer technical support for its products. Representatives from Thomas-Conrad, as well as other experienced users, are online to answer your questions. Besides the message sections, be sure to check out the libraries for files that may provide additional help and information. You'll find the latest adapter drivers and diagnostic software for adapters and networks.

3Com Forum

[Go Now: NETFOR](#)

Operated by 3Com's customer support organization, the 3Com Forum covers a wide variety of global data networking subjects. Join 3Com support engineers and other members in discussions on internetworking hardware, protocols, standards, NetWare compatibility, network management, and 3Com adapters. Browse through new articles added monthly to the Technical Library by 3Com support engineers sharing solutions for common problems about every 3Com product.

3Com Information Service

[Go Now: **THRECOM**](#)

This is your one-stop shop for 3Com information and support. From here you can get the latest 3Com news and general information about the company and its data networking products, and find out how to contact 3Com staff directly. You can also visit 3Com's Forum area or its site on the World Wide Web.

The TI Forum

[Go Now: TIFORUM](#)

The TI Forum is for anyone interested in any model of Texas Instruments brand computers, especially the TI-99/4A and TI Professional. The TI Forum has an active message base and rapidly expanding data libraries. Weekly conferences are also scheduled. Experienced members and sysops will be happy to assist new members. The TI Forum is a major source of TI information across the country, supplementing a local users group network and bulletin board systems.

TIMESLIPS Corp. Forum

[Go Now: TIMESLIPS](#)

Receive support on any TIMESLIPS Corp product as well as the latest news on product developments in the TIMESLIPS Corp. Forum. The message areas focus on ideas for using TIMESLIPS' products, especially Timeslips Deluxe and Timesheet Professional for Windows. Users, certified consultants, and senior TIMESLIPS technicians, along with the Director of Technical Services and the President, frequent the Forum area. Help documentation from technical support, product feature lists and fact sheets, product demos, schedules of events, and more are available in the libraries. This Forum area also provides support for the Telemagic Professional for Windows contact manager.

Toshiba Forum

[Go Now: TOSHIBA](#)

If you're interested in portable personal computer laptops and notebooks, you'll enjoy the Toshiba Forum. You can get answers to your questions and accurate product information from other Forum members and from Toshiba America's Technical Support Group. Access the libraries for downloadable files relating to Toshiba products.

Toshiba GmbH Forum

[Go Now: TOSHGER](#)

The Toshiba GmbH Forum provides technical support for Toshiba's German-speaking customer base. Join this Forum area to communicate, in German, about Toshiba's products and to ask technical questions of Toshiba's technical staff at the German headquarters in Neuss. The libraries contain useful files and software products such as drivers, upgrades and utilities.

UK Computer Shopper Forum

[Go Now: UKSHOPPER](#)

The *UK Computer Shopper* magazine, separate from the US version, has its own Forum area online for its readers to discuss the magazine's contents and other UK computer-related issues. Members share opinions about the products and applications covered in the magazine and often debate issues such as Mac vs. PC. Magazine staff members are online and actively take part in many of the discussions, which often lead to new articles for the magazine.

UK Information Technology Forum

[Go Now: UKIT](#)

The UK Information Technology Forum covers the various aspects of information technology. Members in the UK and all countries find answers to questions on UK-specific matters relating to IT. Sections within the Forum area include the Internet, bulletin boards, modems, LANs, and Windows 95.

UK Shareware Forum

[Go Now: UKSHARE](#)

The UK Shareware Forum is where shareware enthusiasts can exchange information, download upgrades, examine reviews, and meet the authors of many of the most popular UK shareware programs for the PC. There are a number of sections within the UK Shareware Forum that are managed by leading UK shareware republishers including Shareware Publishing, Nildram Software, the Thompson Partnership, and Zephyr/SDA.

UK Vendor Forum

[Go Now: UKVENA](#)

UK software and telecommunications equipment vendors offer support and information for their products in the UK Vendor Forum. Members can post messages to the vendors or access help files, programs, and other useful information for the vendors' products. Listed below are the vendors represented in the Forum area, and the main products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

AlphaBlox Corp	software-scalable components for Windows 95, including the OfficeBlox office utilities, AlarmBlox electronic assistant, ThinkBlox outliner, and WorkBlox program organizer
Apex Data	ClipperCom and other card modems
Datasoft	Datatak 4 communications software, Remotely Possible line of remote control and file transfer software, Viewterm dedicated Viewdata terminal emulator, fax drivers, and other telecommunications products
Eden Group	Armstrad PenPad personal digital assistant (PDA)
Lasat	modems
Pace Modems	comprehensive line of modems for various platforms and environments
Psion Dacom	card modems and other data communications products
Secure Computing	Security News Digest and security bulletins
Traveling Software, Inc	software for connecting palmtop and notebook computers to desktop PCs
US Robotics (UK)	modems, especially the Courier series and Sportster series, and related products
Western Systems	device drivers

UNIX A Vendor Forum

[Go Now: UNIXAVEN](#)

The UNIX A Vendor Forum enables members to share information about UNIX software products, as well as communicate directly with technical support staff of the software vendors. Members can post messages to the vendors or access help files, programs, or patches for the vendors' products. Libraries contain files with specific software releases, news releases from vendors, and other useful information. Listed below are the vendors represented in this Forum area, along with the main products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Acucobol, Inc	COBOL development tools, including Acucobol-85, Acu4GL, Acuscreens, and LOUIS
G.T.R. DataInc	software for managing businesses and other organizations
Mark Williams Company (MWC)	Coherent system operating software for running various third-party applications; also, games and simulation software
Openware Technologies, Inc	XGEN programming language and a rapid application development (RAD) system for automatic generation of portable database applications, and associated software
Pick Systems	D3 and Advanced Pick multiuser, multitasking, multidimensional database management systems (DBMS)
Recital Corp	Recital/CM, Visual/Recital, and Recital/Server object-oriented open architecture database software for various platforms
Thoroughbred Software International, Inc	software for information management in Business Basic; products include Thoroughbred Basic, Thoroughbred OPENworkshop, Thoroughbred IDOL-IV, and Thoroughbred Solution-IV
W. Quinn Associates, Inc	software for managing systems and networks; products include Q*menu, Q*backup, Q*file, Q*press, Storage Advisor, and DQRIII

UNIX Forum

[Go Now: UNIXFORUM](#)

UNIX users can discuss UNIX-related issues and exchange UNIX-related code in the UNIX Forum. Members can discuss the technical merits of the UNIX operating system and how its tools can be used to increase user productivity.

UserLand Forum

[Go Now: USERLAND](#)

Macintosh users familiar with or interested in scripting should join this Forum area sponsored by UserLand Software, the developer and publisher of the Frontier scripting system. With Frontier, you can write scripts to automate, customize and simplify your use of the Macintosh. Meet other members with Frontier experienced, who can offer advice and help you learn to use scripting to your advantage. Software developers will also find this Forum area helpful in building Macintosh applications that can be scripted by Frontier.

VARBusiness Interactive Exchange

[Go Now: VIX](#)

In the VARBusiness Interactive Exchange, computer resellers, system integrators, consultants, and software developers share information on all aspects of the computer sales business. Forum features include articles from *VARBusiness* magazine, regular online seminars, and special events, discussions of issues vital to resellers, and the opportunity for resellers and consultants to meet and establish partnering relationships with vendors, distributors, and other resellers. Sections cover idea exchange, business sense, technical sense, product watch, business exchange, industry exchange, and special events.

VAX Forum

[Go Now: VAXFORUM](#)

The VAX Forum provides support for users of the VAX series of computer systems from Digital Equipment Corp. Sponsored by Professional Press, this Forum area enables its members through message boards and library files to better understand the VAX computer in terms of its usefulness, operating systems and programs available for use on the VAX.

Visual Basic Programmers Journal Forum

[Go Now: VBPFJO](#)

The Visual Basic Programmers Journal Forum is an extension of the *Visual Basic Programmers Journal (VBPJ)*, published by Fawcette Technical Publishing. VBPJ is a monthly how-to magazine for professional Visual Basic programmers. members can get answers to Visual Basic programming problems. There are message sections and libraries for user groups, localization, science/industry, and client server, plus a beginner's corner.

Visual FoxPro Forum

[Go Now: VFOX](#)

Exchange information, tips and techniques concerning Visual FoxPro products in the Visual FoxPro Forum, operated by Stream International. Microsoft Visual FoxPro, a high-end database development tool, has many helpful supporters and developers who participate in this Forum area.

Vobis AG Computer Forum

[Go Now: VOBIS](#)

Vobis Microcomputer AG is one of the largest computer retailers in Europe. The Vobis AG Computer Forum offers technical support for all Vobis products. The message sections cover product groups such as highscreen computers, modems, soundboards, scanners, and multimedia, and are maintained by experts at Vobis AG. The libraries are filled with shareware programs, utilities, updates, tips, tricks, and more, all waiting to be downloaded to your PC.

Voice E-Mail for WinCIM

[Go Now: VOICEMAIL](#)

Using digital audio and sound compression technology, Voice E-Mail 2.0 for WinCIM lets you send messages containing music, laughter and sound effects. Voice E-Mail does not require editing, spell-checking, punctuation, etc. You just record your thoughts as they enter your mind. You can mix speech with music, insert sound bites, and combine multiple sound files to play simultaneously. Explore the many options available to personalize your e-mail transmissions.

Wang Support Forum

[Go Now: WANGFORUM](#)

The Wang Support Forum provides support for users of Wang computer products. The Forum sysops are employees of Wang and have the technical knowledge and resources needed to answer your questions. The message area hosts discussions of Wang's new "Open" suite of products, including Open/Image, Open/Workflow, Open/Office, and Open/Query Builder, as well as areas for various Wang user groups, certified image consultants, and various types of Wang hardware. Many of the message sections are monitored by representatives of Wang R&D, who welcome direct contact with users and potential users.

What Personal Computer Forum

[Go Now: WHATPERSCOMP](#)

The What Personal Computer Forum is designed to help you get the most out of your PC. Along with a selection of the latest PC shareware, it offers text versions of some of the most popular articles from the magazine, including the most requested features from the How To section. There are also equipment reports from the EMAP Business Communications test labs and the opportunity for the technically-challenged to relieve their computing headaches.

WIN Magazin Forum

[Go Now: WINGER](#)

Looking for DTP, a graphic program or any database application in German? Find helpful drivers, macros, tips and tricks in the libraries of the WIN Magazin Forum. Demo versions of several programs and updates and patches are available in the libraries.

Windows Audio Visual Forum

[Go Now: WINAV](#)

The Microsoft Windows Audio Visual Forum contains Windows Shareware and Freeware graphic, sound, MIDI and multimedia/AVI files, utilities and applications.

Windows Business Applications Forum

[Go Now: WINBZA](#)

The Windows Business Applications Forum, operated by the Windows Users Group Network (WUGNET), provides complete support and information from vendors of Windows application software products. Members can ask questions, exchange tips and techniques, and download special support files.

Windows Business Software Forum

[Go Now: WINBIZ](#)

The Windows Business Software Forum provides a focused information resource and support area for Windows business software. Members can ask questions, exchange information, tips, and techniques, and find out about the latest shareware and communications.

Windows Components A Forum

[Go Now: COMPA](#)

CompuServe has three Forum areas for Windows component software, which provide electronic meeting places for the Windows development community. Programmers can get technical support from independent software vendors and share tips with their peers. More than 50 vendors participate; members can post messages to the vendors or access help files, programs, and patches for the vendors' products. Libraries contain files devoted to specific software releases, news releases from vendors, and other useful information. The vendors represented in the Windows Components A Forum are listed below, along with the main products currently supported by each vendor. To find all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

A&G Graphics	speech recognition products
Aardvark Software	Visual Basic debugging and productivity software, such as the Pretty Printer for Visual Basic
Apex Software	TrueGrid family of data bound grids for Visual Basic
Avanti Software	tools for developing applications in Visual Basic, C/C++, etc; products include PinPoint, VB/Rig Standard Edition, and VB/Rig Professional Edition
Bennet-Tec	custom controls and developer libraries (VBXs and DLLs)
Crescent Software	re-useable add-on components for Visual Basic development, such as QuickPak Professional for Windows, PDQComm for Windows, and GraphPak Professional
Desaware	Visual Basic component software and programmer's tools, such as StorageTools and VersionStamper
Foxhall Publishing (VBZ)	VBZ electronic journal for Visual Basic
ImageFX	multimedia development tools for Visual Basic
Mabry Software	programming tools and components
Media Architects, Inc.	multimedia development tools, such as MediaKnife, ImageKnife, and VideoPlay
Sax Software	communications components, such as Sax Phone and Sax Comm Objects
Semiotix Systems	productivity tools for Visual Basic development, such as VB AppFramework
Stylus Innovations	non-proprietary telephony, voice, and fax software toolkits, such as Visual Voice

VideoSoft

forms and printer tools, such as VSView and VSFlex

Visual Components

development tools, such as Formula One, First Impression, VT-Speller and ImageStream, for various Windows environments

Windows Components B Forum

[Go Now: COMPB](#)

CompuServe has three Forum areas for Windows component software, which provide electronic meeting places for the Windows development community. Programmers can get technical support from independent software vendors and share tips with their peers. More than 50 vendors participate; members can post messages to the vendors or access help files, programs, and patches for the vendors' products. Libraries contain files devoted to specific software releases, news releases from vendors, and other useful information. The vendors represented in the Windows Components B Forum are listed below, along with the main products currently supported by each vendor. To find all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Advanced Micro Technology, Inc	DEMOquick and CBIquick
Applications Developers Training Company (AppDev)	training for PC application development software such as Visual Basic, FoxPro for Windows, Access and dBASE for Windows
CenterView Software	Choreo for VisualBasic client/server development extension software
Jetstream Software	InstallWizard for MFC class library
London Software	LSPaper tool for creating/printing scrollable business forms in Visual Basic
NicheWare	VB Tips & Tricks newsletter and associated files for Visual Basic development
Opaque Software	custom controls and components for Visual Basic and Delphi
ProNexus	software tools for the creation of phone and fax applications, including VBVoice and VBFax (Visual Basic VBX toolkits for such applications as voice and fax mail, fax-on-demand, touch-tone database access, information hotlines and automated out-calling)
Simply Solutions	Visual DLL software for creating standard Windows DLLs with Visual Basic
Software FX, Inc	Chart FX and Report FX
SuccessWare International	database programming products, such as ROCKET and SIX Driver
Sylvan Ascent Inc	SylvanMaps\OCX software for adding Geographic Information System (GIS) functionality to custom Windows programs; also, CD\MAPS for translating GIS functionality to CD-ROM
Synergy Technologies	App-Link data exchange control software for Visual Basic forms

Teknowledge

M.4 programming software; also, M.4 VB for Visual Basic

ViewPoint Technologies

SourceWorks/VB version control software

The Young Software Works, Inc

VB ProjectWorks version control software for Visual Basic; CompareWorks, a visual comparison program; and VB ProjectArchiver, a compression program

Windows Components C Forum

[Go Now: COMPC](#)

CompuServe has three Forum areas for Windows component software, which provide electronic meeting places for the Windows development community. Programmers can get technical support from independent software vendors and share tips with their peers. More than 50 vendors participate; members can post messages to the vendors or access help files, programs, and patches for the vendors' products. Libraries contain files devoted to specific software releases, news releases from vendors, and other useful information. The vendors represented in the Windows Components C Forum are listed below, along with the main products currently supported by each vendor. To find all the CompuServe services related a specific vendor or product, visit the [Support Directory](#).

ABRISOFT, Inc	Form Aide and Form Aide Enhanced
Dart Communications	Power TCP toolkits for various protocol emulations
DBS GmbH	tools for including functionality for text processing, desktop publishing, and electronic publishing
DFL Software	Light Lib graphical menuing VCLs
European Software Connection (ESC)	various European software tool and component vendors supported by ESC in the Americas
GreenTree Technologies	VB Messenger, a suite of Visual Basic power-programmer VBX controls that provide subclassing, mouse hooks, and other functions
Griffin Technologies	TWAIN Integration Kits for integrating TWAIN-compliant scanner support into various Windows applications
Integra Technology International	VDB, Business Application Builder, WinBEEP, and other wireless- and telecom-oriented products and services
K&R Software	(English and German) ImageLib packages, Advanced Business Component professional VCL, FloppyIt for copying DiskIt disksets to floppy, XtraText, Xtra Design, and Xtra Xtra
KnowledgeSoft, Inc	SoftMate 3.0 Side Show extension software for MFC
MicroBasic GmbH	(German and English) programming component distribution
SoftHouse	custom controls for Visual Basic and other environments which support VBXs and OCXs for the home automation industry; also, books on Visual Basic
Software Integration	mentoring services, client/server and object-oriented software development

Vision Software Tools, Inc

Vision Storyboard documentation and specification tool for Visual Basic developers; also, VisionBuilder

Voysys

voice transaction products, including voice messaging systems and open architecture software development tool kits used to build Interactive Voice Response (IVR) systems.

Windows Connectivity Forum

[Go Now: WINCON](#)

The Windows Connectivity Forum is operated by WUGNET and sponsored by *Network World*™. This weekly newspaper is a leading source of information for professionals building and managing enterprise networks and the collaborative computing applications they support. The Windows Connectivity Forum column is written by the Windows Users Group Network. Members can access this column as well as provide tips or ideas, or communicate with the columnists via this Forum area.

Windows Extensions Forum

[Go Now: WINEXT](#)

The Windows Extension Forum is a repository of s shareware applications, where developers often stop by to converse with people using or testing their applications. The libraries contain a wide variety of shareware (and freeware), program updates, technical articles, programming tools, field reports, and other valuable resources. WINEXT is operated by the [Windows User Group Network](#).

Windows File Finder

[Go Now: WINFF](#)

The Windows File Finder is an online comprehensive keyword searchable database of file descriptions from Windows-related Forum areas. It is designed to provide quick and easy reference to some of the best programs and files available. File Finder provides you with seven common search criteria for quickly finding the location of a desired file or files. You can search by topic, file submission date, Forum name, file type, file extension, file name, or submitters User ID. File description, Forum name, and library location are displayed for each matching file, giving instant information on where to find a most wanted file.

Windows for Workgroups Forum

[Go Now: MSFWG](#)

Members of the Windows for Workgroups Forum can exchange information, tips, and techniques concerning Microsoft Windows for WorkGroups. Members can search libraries for answers to questions, as well as seek and offer help in the message area. This Forum area is maintained by Stream International.

Windows Forum

[Go Now: MSWIN](#)

The Windows Forum, operated by WUGNET, provides Microsoft Windows users with technical support and information. The message sections contain non-technical user information as well as information about setup, mouse operation, video display, and networking with Windows. The libraries contain video and printer drivers.

Windows Fun Forum

[Go Now: WINFUN](#)

The Windows Fun Forum, operated by PCNet Online, contains a plethora of games, sounds, screen savers, icons, and graphics. A library devoted to files for kids contains math and spelling learning tools, and there is even a library of sports-related software.

Windows Games Forum

[Go Now: WINGAME](#)

Exchange information and tips with Windows gaming fans and members of the Windows User Group Network (WUGNET) in the Windows Games Forum. This Forum area provides the latest in shareware or demo games, gaming tips and strategies, game support from vendors, and other resources that can help you get the most out of Microsoft Windows.

Windows Home Forum

[Go Now: WINHOME](#)

Operated by WUGNET, this Forum area provides members with a focused information and support resource for all Windows HOME products and related shareware. You can exchange messages with other members about Encarta, Works, Publisher, Automap, games, and many other products. Forum libraries contain program patches, technical articles, shareware and public domain software, programming tools, field reports, and many other valuable files.

**Windows International
Developers Forum**

[Go Now: WINTLDEV](#)

The Windows International Developers Forum, operated by WUGNET, provides a central location for Windows developers worldwide to obtain support for application development products. Files on Globalization, Far East SDK3.1, Mid East 3.1, and Win32 Unicode/NLS are available. Members can also exchange information, tips and techniques on Microsoft's international development products.

Windows Magazine Online

[Go Now: WINMAG](#)

Windows Magazine Online offers a gold mine of information about Microsoft Windows hardware and software and graphical computing. Members can download programs from the "Superior Shareware" library, interact with the magazine's editors, communicate with other readers, learn the latest news and explore the full text of each issue of *Windows Magazine*.

Windows Multimedia Forum

[Go Now: WINMM](#)

Support for Microsoft Windows multimedia products can be found in the Windows Multimedia Forum. WUGNET operates this Forum area, where you can obtain help and suggestions for products such as MDK, Video for Windows and Sound Volume.

Windows Networking Vendor A Forum

[Go Now: WINETA](#)

Windows Networking Vendor A Forum provides product information and technical support for featured third party Windows networking and communications technologies vendors. The vendors featured assist members with product-related questions or problems. This Forum area provides value added files, messaging, and resources, including many applications add-ons, tools, product information, utilities, and technical notes. Listed below are the vendors represented in this Forum area, along with the main products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

AVALAN Technologies, Inc	Remotely Possible remote control software
Beame & Whiteside	BW-Connect NFS and BW-MultiConnect
Ergo Computing, Inc	PowerBrick hardware and related software
Felsina Software	A-Talk telecommunications software for the PowerPC
HawkNet	NetTune software for monitoring, reporting and integrated network tuning
MMC Software	NetSync III, VB4 utilities, and Network Manager replacement for WinPopups
NetSoft	client/server software to connecting Windows to AS/400
Optus	FACSys fax server software, NS/Router, NS/Transfer and NS/Midrange Client Services
Parallel Technologies	Direct Parallel series of cables
PBBS Systems	PowerAccess, Power BBS, and other bulletin board system software
Systems and Synchronous, Inc (SSI)	LANSleuth network administrator tools for problem isolation and identification
Trax SoftWorks, Inc	TeamTalk group discussion application
Windows Users Group Network (WUGNET)	CD Sampler for Windows 95
Worldtalk	NetConnex software for connecting Microsoft Mail to SMTP/MIME

Windows News Clips

[Go Now: WINCLIPS](#)

Review the latest full-text news reports on issues relating to Windows. News items are extracted from major news sources such as AP and UPI.

Windows 95 Forum

[Go Now: MSWIN95](#)

Visit WUGNET's Windows 95 Forum to share your experiences with Windows 95. Learn how others have solved problems and taken advantage of Windows 95 features. Get help in solving any problem you may have encountered and keep up with the latest Windows 95 developments.

Windows 95 News Forum

[Go Now: WINNEWS](#)

The Windows 95 News Forum provides members with up-to-date information on Microsoft Windows 95. Maintained by WUGNET, this Forum area is a great place to discuss the present and future of Windows 95.

Windows 95 Setup Forum

[Go Now: SETUP95](#)

Exchange information, tips and techniques concerning Microsoft Windows 95 setup in the Windows 95 Setup Forum, operated by WUGNET. Members are encouraged to help themselves by searching the library files, as well as to help or get help from other Forum members.

Windows NT Forum

[Go Now: WINNT](#)

The Windows NT Forum, operated by WUGNET, is a clearinghouse for user information about Microsoft Windows NT. Forum members discuss all aspects of Windows NT in the message sections and find many valuable files in the libraries. WUGNET gurus and other experts are on hand to help with questions and problems.

Windows NT Server Forum

[Go Now: NTSERVER](#)

The Windows NT Server Forum, operated by the Windows Users Group Network (WUGNET) and sponsored by *Windows NT* magazine, provides Windows NT Server users with an information resource and support area for all aspects of Microsoft Windows NT Server. Members can share problems, post questions, and exchange tips and techniques with the online staff and other members. Members can also browse through messages and find out all about the very latest information and news on third party Windows NT Server technology and software (shareware, commercial, and public domain).

Windows NT Workstation Forum

[Go Now: NETWORK](#)

The Windows NT Workstation Forum, operated by the Windows Users Group Network (WUGNET) and sponsored by *Windows NT* magazine, provides Windows NT Workstation users with a focused information resource and support area. Members can share problems, post questions, browse through messages, and exchange tips and techniques with the online staff and other members. In this Forum area you will find the very latest information and news on third party Windows NT Workstation technology and software (shareware, commercial, and public domain).

Windows Objects Forum

[Go Now: WINOBJECTS](#)

Obtain support for Microsoft Windows object oriented products, such as OLE, in WUGNET's Windows Objects Forum. Windows users can talk directly with technical support on issues such as component object models and structured storage. A message section is devoted to non-technical support.

Windows Priority Support Request System[Go Now: PRIORITY](#)

Windows Priority Support Request System, a fee based service, allows you to quickly receive answers to your questions about any Windows-related topic from desktop applications to advanced products. You will receive a response to your support request within 24 hours and have a resolution in no longer than 5 business days. Stream International provides and manages the Windows Priority Support Request System in cooperation with CompuServe.

**Windows Productivity
Shareware Forum**

[Go Now: WINPRO](#)

WUGNET's Windows Productivity Shareware Forum offers productivity files and information related to business tools, personal and business finances, databases, CAD/Engineering/DRAW, calculators and unit conversions tools, and general reference and education.

Windows Shareware Forum

[Go Now: WINSHARE](#)

The Windows Shareware Forum, operated by WUGNET, is designed for the distribution and peer-to-peer discussion of Windows shareware/freeware. The libraries contain utilities, applications, program managers, and business/finance software.

Windows Sources Forum

[Go Now: ZNT:WSOURCES](#)

Windows Sources Forum, part of [ZD Net](#), gives you an opportunity to interact with the editors, columnists, writers, product reviewers and other readers of *Windows Sources* magazine. *Windows Sources* is the place to go for information on Windows products you can buy direct from the manufacturer, plus insight into the issues affecting the Windows industry.

Windows 3rd Party Applications A Forum

[Go Now: WINAPA](#)

CompuServe's Windows 3rd Party Applications Forums provide members with support for third party applications designed to work with Microsoft Windows. Members can post messages to the vendors or access help files, programs, or patches for the vendors' products. Libraries contain files with specific software releases, news releases from vendors, and other useful information. Listed below are the vendors represented in the Windows 3rd Party Applications A Forum, along with the products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

3-D Visions	Stanford Graphics technical graphics software
Access Softek	text and file utility products, including TakeNote and Prompt!
Asymetrix Corp	ToolBook application development package
Dragon Systems, Inc	Dragon Dictate voice command software (DDWIN and DDDOS) and the ACPA card
ForeFront	ForeHelp and TouchSend
Future Soft Engineering, Inc	multiplatform communications software, including DynaComm Asynchronous Edition and DynaComm Synchronous Edition for 3270
GeoGraphix	seismographic and geological analysis applications, including SeisMap
hDC Computer Corp	Express Meter network license management system, FirstApps essential tools for application development, and Icon Designer utility
HI-Q International	Mission Control terminal emulation and systems integration tool fand other utilities

MicroQuest	Inside Track investment tracking and analysis package for CompuServe
Nu-Mega Technologies	Soft-ICE and Bounds-Checker memory managers
Portable Software Corp	QuickXpense and other expense report management applications
Quyen Systems	netViz network diagramming and documenting software
Softbridge	Bridge batch-command languages and related products, including Auto Test Facility and Bridge Tool Kit
WindowCraft	Windowcraft application development package
Zenographics, Inc	printing and image handling applications, including SuperPrint, SuperQueue, and the PaintJet Super Driver family.

Windows 3rd Party Applications C Forum

[Go Now: WINAPC](#)

CompuServe's Windows 3rd Party Applications Forums provide members with support for third party applications designed to work with Microsoft Windows. Members can post messages to the vendors or access help files, programs, or patches for the vendors' products. Libraries contain files with specific software releases, news releases from vendors, and other useful information. Listed below are the vendors represented in the Windows 3rd Party Applications C Forum, along with the products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Abacus Software	utilities, including BeckerTools and Virus
Aristosoft	sound enhancement software products, such as Wired for Sound and Sound Effects
Baseline Data Systems, Inc	office automation software, such as Office Accelerator and Office Accelerator Plus
Berkeley Systems	After Dark for Windows screen saver
Campbell Services	OnTime for Windows personal information manager
GFA Software	GFA-BASIC development tool for BASIC
Gilbert & Associates	VIEWz professional productivity and document management software
Gold Hill	expert system development tools, including GoldWorks III, GoldWorks II, and GCLISP
JASC, Inc	desktop publishing and graphics software, such as Paint Shop Pro and ImageCommander

LabTech	real-time data acquisition software, such as NOTEBOOK, CONTROL and RealTime VISION
Metz Software	utilities, such as Metz File Manager F/X and Metz Shareware products
Mijenix Corp	WizUtilities Pak tools and WizManager and WizManager Pro enhancement software for the File Manager
Nestor, Inc	OmniTools forms and document processing software
PinPoint Publishing	On the Menu recipe management and meal planning software
Protoview	development tools, including ProtoView C, Pascal and C++.
Saros Corp	network file management facilities, including Mezzanine and Viewz
Stirling Technology, Inc	InstallShield and DemoShield
ThinX Software	visual data management software, including ThinX Viewer and ThinX Network Surveyor

Windows 3rd Party Applications D Forum

[Go Now: WINAPD](#)

CompuServe's Windows 3rd Party Applications Forums provide members with support for third party applications designed to work with Microsoft Windows. Members can post messages to the vendors or access help files, programs, or patches for the vendors' products. Libraries contain files with specific software releases, news releases from vendors, and other useful information. Listed below are the vendors represented in the Windows 3rd Party Applications D Forum, along with the products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

ABC Systems and Development	network administration software, such as LAN Admin
Baseline Publishing	screen and language utilities, including Personality, Vantage and Virtual Monitors
BocaSoft	screen savers such as WipeOut and Audubon Wild Birds
DeltaPoint	MindWrite, Trapeze, Express, DeltaGraph and Taste
Genesis Development	development tools, such as Actor and The Resource Assistant
Informative Graphics Corp	Myriad viewing software for integrated document management
Intelligent Objects	database access tools for various programming languages
Okna Corp	DeskTop Set organizing and scheduling software
ROAD SCHOLAR Software	CITY STREETS electronic street maps and other geographic software compatible with global positioning systems (GPS)
Sirius Press	CLASSic nuVO Class Library for CA-Visual Objects; also, related books by Steve Straley
SWFTE International	Typecase II font management utility; also, games
Team Software	Channels groupware for NetWare networks
WexTech	Quicture, Doc-To-Help, and Smooth Scaling

To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Ability Plus Software	Ability series of small office/home office (SOHO) business suites
Cheshire Engineering Corp	Neuralyst neural network products
EagleSoft, Inc	SELECT and Total Recall/The Money Finder dental practice management software; also, dental-related computer supplies
Fitnessoft, Inc	Life Form personal health software
Forvus Research, Inc	FORVUS and CUTTER lines of IBM 3270 emulators
GLBS	Wise Installation System
Henter-Joyce	JAWS series of screen readers, Form Mate interface for the blind, and Word Scholar audio reading teacher
Kurzweil Applied Intelligence, Inc	Kurzweil Clinical Reporter for Windows and Kurzweil Voice for Windows clinical reporting systems

Metasoft Systems, Inc	Image Maker Fax Developer's Toolkit
MicroQuill Software Publishing, Inc	SmartHeap memory management libraries and HeapAgent error detection and diagnosis tools
Mozart Systems Corp	Mozart client server GUI development toolkit for converting character-based host interfaces into graphical interfaces
NeuralWare, Inc	NeuralWorks Professional II/Plus, NeuralWorks Predict, and other neural network development software
Ositech Communications	Trumpcard series of multifunction PCMCIA cards: Jack of Diamonds, Queen of Diamonds, and King of Diamonds
PinPoint Software Corporation	ClickNet software for network diagramming, documentation, and reporting
Quiksoft	contact managers, personal information managers (PIMs), and other sales automation enhancement software
Simba Technologies	SimbaEngine and SimbaExpress open database connectivity (ODBC) products
South Wind Design, Inc	SupportAbility SDK software for ODBC database development; also, consulting and OEM product development services
Sybex Ltd and BBIcon	ProvideX development environment (based on Business Basic)
Total System Solutions, Inc	TSS Word Contact, Document Power Pro, and FileWare
Visigenic Software, Inc	Visigenic ODBC 2.0 SDK and database drivers based on Open Database Connectivity (ODBC)
Wilson Associates International	integrated office system, asset allocation software, and client management software

Windows 3rd Party Applications I Forum

[Go Now: WINAPI](#)

CompuServe's Windows 3rd Party Applications Forums provide members with support for third party applications designed to work with Microsoft Windows. Members can post messages to the vendors or access help files, programs, or patches for the vendors' products. Libraries contain files with specific software releases, news releases from vendors, and other useful information. Listed below are the vendors represented in the Windows 3rd Party Applications I Forum, along with the products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

ACNielsen	marketing and decision support solutions
Best, Inc	Win400 multilingual conversion software
Business Planning Systems	Image Reports multimedia presentation manager
Lamaura Development Ltd.	hypertext authoring tools, including SOS Help! Info-Author (SHIA) for Windows and SOS Help! for CA-Clipper
Pacific Software Publishing	KanjiWORD for Windows (Japanese word processor for English Windows), Kantaro Kanji and Kana-kun multimedia learning systems for Kanji and Kana, World Math Challenge (multimedia story problems), and OpenPost (networkable notepad)
PSG-HomeCraft Software	home and small business software for productivity, education, and games, especially software for cataloging collectibles; also, reference titles (CD-ROM and books)
Quick Software	software development training and related services
Woll2Woll Software	InfoPower database component library for Delphi, ezDOC documentation development tools for Paradox, and ezDialogs plug-in dialogs for Paradox

Windows 32SDK Forum

[Go Now: MSWIN32](#)

The Windows 32SDK Forum offers you a place to find information about the Application Programming Interface for 32-bit Windows. WUGNET wizards are online to provide you with general information on 32-bit computing and to monitor the forum to ensure that you receive complete and accurate information. You will also have access to information about future versions of Microsoft Windows that will support the Win32 API.

Windows Utility Forum

[Go Now: WINUTIL](#)

The Windows Utility Forum provides information and support for all Windows utility software. Members can ask questions, exchange tips and techniques with WUGNET sysops and other members, browse through messages, and find out all about the very latest Windows utility programs, including shareware, commercial software, and public domain software. Many of the developers of these utilities are available for questions or comments about their products. WINUTIL is also the online center for support of WinZip, the zip file compression utility for Windows.

Windows Utility Vendor A Forum

[Go Now: WINUTA](#)

Windows Utility Vendor A Forum features the technical support departments of some of the hottest Windows utility vendors. The participating vendors provide around-the-clock support resources for both the customers of their software and potential new customers wishing to learn more about their products. The participating vendors and the products currently supported here are listed below. To find all the CompuServe services related to a particular vendor or product, visit the [Support Directory](#).

Anchor Software, Inc	environment variable management utilities for DOS and Windows, including WinPath, EnSync, Pathman, WinSet, WinExec, VPath, and ChkPthW
CyberMedia	First Aid and PC911 automatic diagnostic and emergency recovery/repair software
Digital Artistry	ToolPAL and ToolPAL Professional tool-palette builders
Executive Software	Diskeeper, an online disk defragmenter for Windows NT, and File Alert, an online file corruption detector
Modular Software Systems	BOOTCON and OS2DOS software for switching operating system configurations
NEOCOM Microspecialists, Inc	WINformant and WINformantProfessional integrated utility suites
Oxford Software	personal and workgroup productivity software and utilities for Windows 3.1 and Windows 95
Plannet Crafters	PLUG-IN for Windows and Roger's Rapid Restart
QualiType Software	fonts and font-related utility software, including QualiType FontHandler
Shortcut Software	Shortcut Guides for Windows, WinCIM, the Internet, and many other computer milieus
SmartDesk, Inc	VirtualDESK desktop management software
Synchronys Softcorp	SoftRAM95 physical RAM enhancer for Windows applications

Windowshare France Forum

[Go Now: WSHARE](#)

Windowshare France Forum offers French, Italian and U.S. shareware for Windows in the French language. The Forum area includes sections on utilities, programming, graphics, multimedia, communications and more.

WinNT SNA Forum

[Go Now: MSSNA](#)

The WinNT SNA Forum, operated by Stream International, is designed as an area to exchange information, tips, and techniques concerning Microsoft's SNA Server for Windows NT. Here Stream specialists and other experts discuss every aspect of the product, from setup and configuration to adapters and connectivity. Forum libraries contain a wealth of information, fixes and updates, problem reports, shareware, and demos. Third-party vendors are also covered, and their tech support reps often stop by to answer questions.

Wireless Communications Forum

[Go Now: WIRELESS](#)

The Wireless Communications Forum is devoted to all forms of data communication over both public and private airwaves, including cellular, CDPD, paging, two-way radio, and IR. The Forum area contains both general information sections and specific vendor support sections. You can ask questions of vendor support staff, exchange ideas with fellow customers and other interested parties, and download updates, patches, application programs, and information files. Listed below are the vendors represented in this Forum area, along with the main products supported by each vendor. To find all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Air Communications	AirCommunicator cellular data fax phone
ARDIS	U.S. wireless network for interactive data communications between mobile professionals and computer systems
Desktop Paging Software, Inc	U-Page (English and Chinese) and U-Page Pro software for transmitting text messages to alphanumeric pagers, notebook computers, and Personal Digital Assistants (PDAs)
Ex Machina, Inc	ReachMe and Notify!
InfoRad, Inc	PIMformation wireless messaging and personal information management software
Omnitrend	PageMaster client/server paging solutions for various Windows platforms and WireTap phone equipment management modules
Personal Communications Industry Association	trade association
RAM Mobile Data	multiuser wireless data communications networks and services
Silverlake Software Co	EXEC PAGE series of wireless communications management systems for Windows; also, custom software design and referral services
Socket Communications	PageCard Wireless Messaging System, EA/EA+ Ethernet Adapters, Serial I/O, and Sockets GPS card
TelSoft Mobile Data, Inc	application software to automate field service operations; products include Tech-Net and S2000 Service Management System
TekNow, Inc	Mobile Express and SAMpage communications and connectivity software and PhenX and AlphaBox hardware

Wireless Vendors Forum

[Go Now: WVENDOR](#)

The Wireless Vendors Forum supports all forms of data communication over both public and private airwaves, including cellular, CDPD, paging, two-way radio and IR. The Forum area's message and library sections are sponsored by vendors offering wireless services. Listed below are the vendors currently represented, along with the main products supported by each vendor. To locate all the CompuServe services related to a specific vendor, visit the [Support Directory](#).

MobileComm	U.S. paging service
PageMart, Inc	U.S. digital wireless paging via direct broadcast transmission and associated services; narrowband personal communications services (N-PCS); and e-mail and Internet gateways
PageNet	U.S. wireless data network and communications for a variety of application segments, including mobile computing, telemetry, field sales and service, public safety, and transportation

Wonderware Forum

[Go Now: WONDER](#)

If you use InTrack, InSupport, InBatch, or any other Wonderware product, you can get technical support from Wonderware staff and users in the Wonderware Forum.

Word Forum

[Go Now: MSWORD](#)

If you use Microsoft Word for Windows, Macintosh, DOS, or OS/2 environments, join this Forum area for technical support and informative discussions about Word's components and features. In the Forum areas Support section, ask your technical questions. In the Discussions section, participate in conversations with other Forum members about Word in general. A Project Worktable section is available in which you can discuss your Word projects with other Forum members. Specialists from Stream International are on hand to make sure that all the information is accurate and up-to-date.

WordPerfect Magazines Forum

[Go Now: WPMAGFORUM](#)

Desire to learn more about using WordPerfect? Assistance in using WordPerfect, and electronic copies of *WordPerfect* magazines articles are available in the WordPerfect Magazines Forum. Sections include OnLine Access, WordPerfect Magazine, WordPerfect for Windows Magazine, International Magazines, Electronic Magazines and more. A searchable archive of past issues, and a Disk-of-the-Month download are also available.

WordPerfect Users Forum

[Go Now: WPUSERS](#)

Writers and editors can share their ideas, questions and solutions in the WordPerfect Users Forum, which provides support for products such as the WordPerfect word processor, DrawPerfect graphics package, and DataPerfect database. Whether you are puzzling with file transfers or looking for a good WP reference book, this Forum area is the place to find help. Other topics of discussion include printers, graphics, desktop publishing, merges, training methods, conversion files, networking, fonts, non-IBM hardware, third party utilities, and downloading from a database. The Forum libraries contain various macros and help files which will help you use your software more effectively. This Forum area is sponsored by Support Group, Inc.

WordStar Forum

[Go Now: **WORDSTAR**](#)

The WordStar Forum provides users of WordStar and ZSoft products with support from WordStar International Technical Consulting Group. Members can exchange information, ideas, and solutions with other WordStar users. Also available are sample programs, usage articles and press releases for WordStar products. Libraries contain printer drivers, templates and utilities.

Workgroups Apps Forum

[Go Now: MSWGA](#)

Members can exchange information, tips and techniques concerning Microsoft Workgroup applications in this Forum area. Members can search libraries to answer questions, as well as seek help and help other members in the message sections. Specialists from Stream International monitor and participate in this Forum area.

World of Graphics

[Go Now: QPICS](#)

The World of Graphics Forum features a wide selection of general-interest images from many contributors. You can find GIF and JPEG files featuring people, places, and things.

The World of Lotus

[Go Now: LOTUS](#)

The World of Lotus contains useful and up-to-the-minute information about Lotus products and services, access to electronic distribution of software and the opportunity to 'talk' with fellow Lotus users. The World of Lotus contains an introduction, a list of recent changes and additions in its data libraries, Lotus company and product news, descriptions of third party products that complement Lotus products, books and periodicals about Lotus products, technical notes, answers to commonly asked questions and lists of supported computers, printers and other hardware. Software developed by Lotus is available along with instructions for downloading it to your computer.

WRQ Reflection Forum

[Go Now: WRQFORUM](#)

Walker, Richer and Quinn (WRQ) produce the Reflection series of equipment for DOS, Windows, and Mac. In the WRQ Reflection Forum, discuss WRQ's terminal emulation, networking, office automation, and development software with other users and WRQ technical staff.

WUGNET (WINUSER) Forum

[Go Now: WUGNET](#)

The Window Users Group Network (WUGNET) provides technical information to users and developers of software for Windows. Included as part of the services is a bimonthly *WUGNET Journal*. Find support for WUGNET products in the WUGNET Forum.

WWW Browser Vendor Forum

[Go Now: WEBBRO](#)

The WWW Browser Vendor Forum, operated by the Windows Users Group Network (WUGNET), provides support and information from participating vendors of WWW Browser software products. Members can ask questions and exchange tips and techniques with the vendors in their specific support message sections and download special support files.

Xerox Office Solutions Forum

[Go Now: **XRXOFFICE**](#)

The Xerox Office Solutions Forum focuses on low-volume copiers and other Xerox office products, including Color Products, Printing Systems, XIS, K-Series, Scan Worx, Datacopy, Visually Impaired products, 42xx and 45xx printing families, and printer drivers for these product families. Technical and product information as well as troubleshooting tips and unique applications are available in this Forum area.

Xerox Production Printing Forum

[Go Now: **XRXP**PRINT](#)

The Xerox Production Printing Forum focuses on high-volume copiers and other Xerox production printing products. Access files, documentation, and technical information, or participate in discussions on Printing Systems, Docutech, Docuprint, Color/Highlight, XDOD, and printer drivers for the above product families.

Xerox Software Forum

[Go Now: **XRXS**](#)

Members of the Xerox Software Forum will find technical and product information as well as troubleshooting tips and unique applications for the following products: Elixir/XJDC, Host Software, XAPF, XIS products (Textbridge OCR), Visually Impaired and API and XSoft products (PC Software, Workstation Software and Network Software).

Xircom Support Forum

[Go Now: XIRCOM](#)

Travelers stop here to discuss Xircom's external LAN connectivity products for portable PCs. Xircom's product line includes Pocket LAN adapters, CreditCard products, Netwave products for maintaining wire-free connections to Ethernet networks, and the the Ethernet+Modem family, which combines LAN adapters and high speed data/fax modem capabilities. Here you'll find direct support from Xircom Support Engineers, software updates and product information, and fellow road warriors to share tips and experiences.

ZD Net

[Go Now: ZNT:ZDNET](#)

ZD Net is the online information service all about computing and the first place to turn for productivity-boosting software and advice to help you get the most from your PC. Log on to ZD Net and make more informed buying decisions, get instant access to shareware, utilities and technical tips and stay current on the news and events in the computer industry. With ZD Net you get timely access to expert information and advice from independent sources that include *PC Magazine*, *PC/Computing*, *PC Week*, *Computer Shopper*, *Computer Gaming World*, and *Windows Sources*.

ZD Net Software Center

[Go Now: ZNT:CENTER](#)

The Software Center is the place to visit on ZD Net for all kinds of high-quality downloadable software including ZD Net-exclusive utilities such as the popular "Bill Gates Does Windows" screensaver. The Software Center also includes file collections, shareware from everywhere, and searching tools like the ZD Net Forum File Finder. Part of [ZD Net](#).

ZD Net Special Offers Area

[Go Now: ZNT:ZOFFERS](#)

Access the ZD Net Special Offers Area for the latest offers exclusively for ZD Net members. Everything from fully functioning versions of your favorite software to demos of to-be-released packages is available first and exclusively in this area.

ZD Net Support Forum

[Go Now: ZNT:ZIFFHELP](#)

The ZD Net Support Forum offers information about ZD Net and ZD Net services, help using ZD Net, and support for Ziff-Davis database products such as Computer Database Plus, Magazine Database Plus and Ziff-Davis Press Books. Part of [ZD Net](#).

ZD Net University

[Go Now: ZNT:ZDUNIVERSITY](#)

ZD Net University, a new online teaching university, helps computer users and pros alike get the most out of today's leading-edge technologies. Courses offered include HTML programming, C++, Visual Basic, How to use a Benchmark Test, and many others. ZDU taps many of the resources available only on ZD Net, such as online books from ZD Press, libraries of software tools and other learning materials collected from ZD Net Software and ZD Nets magazine. The ZD University Hall Forum area (GO ZDUHALL) contains message sections dedicated to each class so members can discuss classwork, ask questions and trade tips. Join other computing minds in an online classroom where gurus, tech-wizards, and avid end-users come together to explore, discover, and share what they know.

ZD Net/Mac

[Go Now: ZMC:ZMAC](#)

ZD Net/Mac, also known as ZMac, is the information service and software resource dedicated to Macintosh users and their specific needs. With ZMac you get a full range of reference databases, an authoritative buyer's guide, instant access to technical tips and free downloadable utilities, hand-picked and tested in *MacUser* Labs. Plus you have access to the leading industry news and opinions from *MacUser* and *MacWEEK*.

**ZD Net/Mac Download
Software and Support Forum**

[Go Now: ZMC:DOWNTECH](#)

This Forum area contains the top Macintosh shareware and freeware picks by the editors of *MacWEEK* and *MacUser*. Members can upload Macintosh shareware files and programs that they want to submit to the attention of the editors. The Forum area has five message sections to help with downloading questions. Part of [ZD Net/Mac](#).

The ZD Store

[Go Now: ZNT:ZDSTORE](#)

The ZD Store, part of ZD Nets Software Center, enables members to purchase and download exciting commercial software, such as the Star Wars AudioClips and Terminator 2 Screen Saver collections from Sound Source, Unlimited, Inc, and ZD Nets Designer Templates Collection. New titles are always being added. Part of ZD Net.

Zenith Forum

[Go Now: ZENITHUSER](#)

The Zenith Forum is open to anyone interested in products from Zenith Data Systems and participating independent companies, including Fifth Generation, SoftKlone and Back & Forth. The Forum sysops can answer questions ranging from your Heath kit to the newest Zenith laptop. The libraries contain utilities from Zenith and the latest in shareware applications and games.

Ziff Windows Deutschland Forum

[Go Now: ZNT:GERWIN](#)

Readers of the German magazine *Windows* can communicate directly with the magazine's editors and other readers of the magazine. *Windows* provides Windows-related support, solutions, tips and tricks in the German language. The forum's libraries contain downloadable shareware programs and utilities, macros and demos. Part of [ZD Net](#).

Ziff-Davis Benchmark Operation Forum

[Go Now: ZNT:ZDBENCH](#)

Want to learn about Ziff-Davis Benchmarks or get answers to technical questions? Access the Ziff-Davis Benchmark Operation Forum for technical support, general information and networking opportunities related to Benchmarks. Also, download the latest versions of the Ziff-Davis core Benchmarks, which include MacBench, NetBench, PC Bench, Server Bench, WinBench and Winstone 94. These latest versions test and gauge your system's performance. Also, talk over problems or discuss benchmarks with SDBOP developers and research staff online. Part of [ZD Net](#).

ZMac Arts & Fun Forum

[Go Now: ZMC:ZMACARTS](#)

The ZMac Arts & Fun Forum contains the top Macintosh arts, home and game-related shareware and freeware picks of the editors of *MacWEEK* and *MacUser* and the sysops of ZD Net/Mac. Members can upload Macintosh shareware and freeware files to the attention of the editors. The Forum area s message sections help with downloading questions. Part of [ZD Net/Mac](#).

ZMac Tech & Business Forum

[Go Now: ZMC:ZMACTECH](#)

The ZMac Tech & Business Forum contains the top Macintosh technical and business-related shareware and freeware picks of the editors of *MacWEEK* and *MacUser* and the sysops of ZDNet/Mac. Members can upload Macintosh shareware and freeware files to the attention of the editors. The Forum area's message sections help with downloading and technical questions. Part of ZD Net/Mac.

Shopping

Shopping products are the CompuServe products that enable you to shop in the comfort of your own home, 24 hours a day, 365 days a year. The ElectronicMall enables you to order products from the top national retailers and catalogers without searching for a parking space or waiting in check-out lines. Using your personal computer, you can order products, use your credit card to pay for them and have them shipped to your home or offices. The Electronic Mall is open 24 hours a day, seven days a week, and there are no connect-time charges, yearly membership fees or surcharges.

The Electronic Mall on the Internet

Access the Electronic Mall on the Internet! Shop at <http://mall.compuserve.com> Many of the stores offer members the graphic and exciting benefits of the World Wide Web. From CompuServe's Mall Homepage you will be able to link to a variety of services. Members can link directly to the Mall on CompuServe if they are using the latest version of WinCIM with its current integrated browser. For the latest version, GO WINCIM. You can also access [The Electronic Mall](#) on CompuServe.

The Electronic Mall

[Go Now: MALL](#)

Merchants bring their best products and services to CompuServe members, often at substantial savings. Many offer free catalogs. This Week's Mall News (GO EMN) announces new merchants and special sales and promotions. You can contact many Mall merchants directly through their online stores or through CompuServe Mail for catalogs or more product information.

Since new merchants frequently appear in The Mall, be sure to check the online directories. GO MALLDIRECT will display the merchant directory alphabetically. GO INX will give you a product index list by category of merchandise found in The Mall. Should you ever have questions or problems with a specific merchant or suggestions on how to improve The Mall, you can leave a message through Electronic Mall Feedback (GO MALLMANAGER). A response will be sent to you via CompuServe Mail. Join The Electronic Mall Elite (GO ELITE), the preferred Mall shoppers club, and receive a connect-time usage credit, discounts from merchants and a newsletter from the Mall Manager featuring Mall special events.

Notes on Security

The Electronic Mall on the Internet is owned and operated by CompuServe. CompuServe members who shop here are protected within the service's proprietary network. this means **YOUR TRANSACTIONS ARE COMPLETELY SECURE.**

Customer Registration

No one can purchase goods under your name except you. Shopping is simplified! Enter your name and address information only once and all of your store orders will automatically be filled out for you. Your only need to register the first time you visit.

Amica Online

[Go Now: AMICA](#)

In Amica's online insurance store, you can learn about the Amica Companies' complete line of personal insurance products (including rates), and request brochures for any that interest you or contact an agent for the direct personalized service needed to make the final decisions regarding policies. If you are already an Amica policyholder, you can also use this service to request policy changes or initiate a claim.

CompuServe Classifieds

[Go Now: CLASSIFIEDS](#)

Want to sell your boat, car or old computer? Are you looking for a new job, condo or something special? Then browse through CompuServes Classified ads to find what you are seeking. Or post an ad to sell your unwanted treasures. CompuServes Classifieds is just like the classified section in most newspapers, only national in scope. There is a surcharge for posting an ad but not for browsing.

Directory of Catalogs

[Go Now: DTC](#)

All catalogs from Mall merchants are now available in one directory. Some catalogs can be downloaded and others can be sent to the address of your choice. Search using any of 12 categories to find the catalog you need.

Free Outlet

[Go Now: FREEOUT](#)

The Free Outlet is the online home of free products and services, from magazines to software that you can download right away. Check here regularly for limited-time offers of samples and other freebies. You can also use the Free Outlet to enter online contests, raffles, and other prize giveaway events.

Shoppers Advantage Online

[Go Now: SA](#)

Now you can join the thousands of other educated consumers who access America's largest online discount shopping service. Shop a home for more than 250,000 name-brand products -- with savings of up to 50 percent. Access Shoppers Advantage Online as a CompuServe member and browse through the electronic database for everything from air conditioners to computers to microwaves. Shoppers Advantage Online is your link to major manufacturers, wholesalers and suppliers. As a member you pay a yearly membership fee but much less on merchandise since costly retail price mark-ups, inventories and storefronts are eliminated. When you decide to buy, your low price includes delivery right to your door and a free two-year warranty. There are no hidden costs. Your purchase comes in a factory-sealed carton with all manufacturer's warranties and guarantees in full effect. Non-members too can shop through the club to enjoy 'round the clock' shopping. Visit Shoppers Advantage Online today, and you'll have a world of savings at your fingertips.

SOFTEX Software Catalog

[Go Now: SOFTEX](#)

CompuServe's SOFTEX is an electronic software catalog that enables you to purchase and receive commercial software through your personal computer without the inconvenience of driving to a computer store or waiting for mail delivery. SOFTEX's growing selection includes popular commercially available software as well as hard-to-find software from smaller vendors. Selections include programming utilities, tutorials, spreadsheets, accounting packages and games for most personal computers. Your machine requires terminal software that supports an error-checking file transfer protocol, such as XMODEM or CompuServe's B Protocol. Purchases are billed to your CompuServe account.

UK Shopping Centre

[Go Now: SHOPS](#)

CompuServes UK Shopping Centre provides a comprehensive UK online shopping service. A host of famous name shops and catalogues participate in this service. Visit the UK Shopping Centre frequently to check out the new merchants that are continually being added.

Australian/New Zealand Research Centre[Go Now: ANZCOLIB](#)

The Australian/New Zealand Research Centre contains selected directory and news information on more than 95,000 businesses, both public and private, in Australia and New Zealand. Information is available from leading business directories and databases such as D&B-Australian Dun's Market Identifiers, D&B-New Zealand Dun's Market Identifiers, Asia-Pacific and Reuter Textline. Directory information can be retrieved by entering company names, industry codes, city name, number of employees, or sales figures. Database information can be searched by company name, key words, country, region or publication date.

BDI German Industry

[Go Now: **BDIGERIND**](#)

BDI provides a detailed list of over 20,000 leading export companies in Germany and their products. Members can search for the most important companies in different branches, analyze competition or look for mailing lists.

Block Financial Forum

[Go Now: TAXCUT](#)

If you use Kiplinger TaxCut, Kiplingers Small Business Attorney, Kiplingers Home Legal Advisor or other products by Block Financial Software, then visit the Block Financial Forum area. Members can access technical support and a plethora of useful product information. The libraries contain news, updates and answers to commonly asked questions.

Block Financial Menu

[Go Now: **BLOCKFS**](#)

Sponsored by Block Financial, an H&R Block Company, this menu offers access to the world of Block Financials products on CompuServe. The menu offers links to information about Block Financial, its support Forum area and product download areas where you can purchase Blocks line of software products, including Kiplinger TaxCut, Kiplingers Small Business Attorney and Kiplingers Home Legal Advisor.

Business Dateline

[Go Now: BUSDATE](#)

Business Dateline is a searchable database containing the full text of articles from more than 115 regional business publications in the U.S. and Canada. The articles provide a regional outlook with information on local economic conditions, retailing, real estate, people and management, financial institutions, transportation and electronics from 1985 to the present.

Checkbook Balancer

[Go Now: CHECKBOOK](#)

Checkbook Balancer program aids you in balancing your checking accounts. Simply follow the online instructions to enter your account information and you are on your way to having your own online bookkeeper.

Commodity Markets

[Go Now: **COMMODITIES**](#)

CompuServe offers access to historical information on futures contracts and cash prices along with exclusive newsletters offering news, features and analysis. CompuServe's commodities database contains open, high, low, settling and cash prices along with volume and open interest for every trading day over the past 12 years. Futures prices are generally available by 7:00 p.m. Eastern Time (U.S.) (midnight GMT) with the cash price, volume and open interest available 24 hours later. The data are provided by MJK Associates, which uses multiple sources to ensure accuracy and guarantee timeliness. Data are available for all commodities on the U.S., Canadian and select global exchanges with significant trading volume. Data include financial and currency futures as well as metal, petroleum and agricultural commodity contracts. Composite prices from the Commodity Research Bureau are also available.

Commodity Symbol Lookup

[Go Now: CSYMBOL](#)

Commodity Group Listing displays available commodity groups including foods, grains, metals, financial, petroleum, fibers, currencies and indexes. Access symbols, active contracts, exchange, where traded and commodity description are shown for each commodity.

Company Analyzer

[Go Now: ANALYZER](#)

Company Analyzer provides one-stop shopping for financial information. Simply enter a company name, ticker symbol, or CUSIP number, and ANALYZER will search the various financial services to determine which ones contain data for the company you have entered. The service then builds a customized menu of the services offering information, which can include income statement, balance sheet, and ownership information from Disclosure, Standard & Poor's reports and estimates of future earnings from the Institutional Brokers Estimate System. Also available from the menu are price and volume graphs, pricing statistics, a detailed issue examination and any current news stories.

Company Screening

[Go Now: COSCREEN](#)

The Company Screening service allows you to quickly and easily search through the Disclosure database of nearly 11,000 publicly-traded U.S. companies based on selected criteria. Enter any combination of the available selection criteria to view a report displaying all the companies that have the requested characteristics. With Company Screening, an investor can easily and quickly create a short list of investment candidates, leaving more time to perform in-depth analyses of the selected companies. Business professionals interested in targeted selling or in marketing research can use Company Screening to find companies based on certain demographic criteria.

Company Snapshot

[Go Now: COSNAPSHOT](#)

The Company Snapshot report from Disclosure provides an overview of any of the more than 10,000 publicly-traded companies covered by Disclosure. Members can enter a ticker symbol or company name and receive a one-page report with the companys name, address, phone number, highest ranking corporate officers, number of employees, business description and more. Members should use this service for a synopsis of a company and the full [Disclosure](#) service for more detailed information.

Corporate Affiliations

[Go Now: AFFILIATIONS](#)

Corporate Affiliations offers profiles and reference information on most of the large U.S. public companies and their affiliates. This database includes companies whose shares are traded on the New York and American Stock Exchanges, plus any affiliate-operating companies with stocks traded over-the-counter. Information on a business can include its name, address, phone number, business description, the names of its executives, and the business's place in its corporate family hierarchy.

Creditreform Deutsche Datenbanken

[Go Now: CREFDEU](#)

Access the database Creditreform for detailed financial information on companies in Germany. The database comprises over 470,000 profiles of big or middle-sized companies.

Current Market SNAPSHOT

[Go Now: SNAPSHOT](#)

Current Market SNAPSHOT provides a picture of the current stock market by depicting key indicators in a concise one-page report of statistics. SNAPSHOT highlights current trading trends by presenting the highest, lowest and latest values for the Dow Jones 30, Standard and Poor's 500 and NASDAQ Composite. The strength of this trend is defined by summarizing New York Stock Exchange activity, including percent change and number of shares traded in the current session. The trend's breadth is described by reporting advancing and declining issues and separating up from down volume. SNAPSHOT also presents the value of the U.S. dollar in gold, yen, deutsche marks and pounds.

Current Quotes

[Go Now: CQUOTE](#)

CompuServe's Current Quotes service enables you to retrieve today's trading information about stocks, options, and market indexes. (Current Quotes is designed for ad hoc input; if you want to retrieve quotes for a predetermined list of stocks, try choosing Quotes from the CompuServe Information Manager's Services pull-down menu.) Quotes are delayed for at least 20 minutes, which is as soon as the stock exchanges allow them to be released without charging extra. Whenever you access the service, you see the latest available quote for the DJ 30 and the S&P500. You can type in the tickers for as many securities as you like, and get the following information for each one: issue description, volume, high/ask, low/bid, last, change, time of quote, and whether there is any recent news about the issuing company. (If there is news, you can read it in CompuServe's [Executive News Service](#).) If you don't know a ticker symbol, you can look it up without having to leave the service. Once you get the quotes you want, you can export (download) them in any of several spreadsheet-supported formats to a file at your computer.

D&B Duns Canadian Market Identifier[Go Now: DBCAN](#)

D&B Dun s Canadian Market Identifier provides a database of directory information on approximately 350,000 Canadian companies. Information available includes company name, address, telephone number, sales figures, number of employees and chief executive s name. Members can search the database by company name, geographic location, product/service, chief executive s name, number of employees or sales.

D&B Dun's Electronic Business Directory[Go Now: **DUNSEBD**](#)

Dun and Bradstreet's Electronic Business Directory is a directory of information on more than 8.5 million businesses in the U.S., both public and private and of all sizes and types. In addition to names, addresses and telephone numbers, the directory lists the type of business, its SIC code, number of employees, the industry to which it belongs, the population of each entry's city and information about parent companies.

D&B Duns International Market Identifier[Go Now: **DBINT**](#)

D&B Dun s International Market Identifier provides a database of directory information on approximately 2.1 million public, private, and government controlled companies in 120 countries. Information available includes company name, address, telephone number, cable or telex number, type of business, SIC code, size of business by employee numbers and sales, chief executive s name, Duns number and parent company information. Members can search the database by company name, geographic location, product/service, number of employees or sales.

Detailed Issue Examination

[Go Now: EXAMINE](#)

Detailed Issue Examination gives a detailed description of a single issue including trading status, recent price, dividends, risk measures and capitalization. For stocks, it shows the shares outstanding, 12-month earnings-per-share, beta factor, indicated annual dividend and the dividend yield. For bonds, the program includes the maturity date, bond rate, yield to maturity, interest payment history and amount outstanding. Options information includes shares per contract, open interest, expiration date and exercise price. The 52-week high and low price are included for all securities. Updated overnight.

DISCLOSURE

[Go Now: DISCLOSURE](#)

The DISCLOSURE database is compiled from the 10Ks and other reports that all publicly-owned companies file with the Securities and Exchange Commission. This information includes the 10K management discussions, detailed financial statements, business segment data, 5-year financial summaries, company name and address, president's letter, a list of SEC filings, a business description, officers and directors, footnotes to financial statements, a list of subsidiaries and lists of insider owners, institutional owners and owners of 5% or more of the company's stock. Updated every Sunday with market prices updated every night. Ownership information is updated quarterly.

Dividends, Splits, Bond Interest[Go Now: **DIVIDENDS**](#)

Dividends, Splits, Bond Interest gives dividend, split and bond interest information for an issue over a given period. Hard-to-obtain mutual fund distributions are also available. You may specify either the number of dividends you wish to view or a specific date range. The report includes the expiration date, record date, payment date, distribution type and the rate or amount of each distribution. Updated overnight.

Dun & Bradstreet Business Reports

[Go Now: DBCREDIT](#)

Dun & Bradstreet Business Reports database includes credit and business information on over 10 million businesses. The database offers three types of reports:

Business Information Report, which may include a company summary, the D&B Rating, company history, and operational performance; special events, payment patterns, and company changes; the firms recent financial history, including any public filings and lending experiences; and an overview of the companys history.

Payment Analysis, which analyzes a firms payments as reported to D&B to pinpoint trends and patterns.

Supplier Evaluation Report, which provides detailed financial and operational information on a suppliers business to help you assess the risk of doing business with a supplier.

Members can retrieve reports by entering either a company name and location, or the companys D-U-N-S Number. When searching by company name and location, if no company name exactly matches the one entered, the system will retrieve and display up to 25 companies with similar names.

Dun & Bradstreet Germany

[Go Now: DBDEUTSCH](#)

Dun & Bradstreet Germany database consists of company names, addresses, phone and fax numbers, the standard industry code and local branch code, number of employees, year of foundation, turnover and name of the company's president.

Dun & Bradstreet U.K.

[Go Now: DUNBUK](#)

Dun & Bradstreet U.K. database consists of company names, addresses, telecommunications US SIC and local classification codes for thousands of U.K. companies. Also included are line of business, number of employees, year founded, sales and profit figures, and senior management names.

Duns Financial Records Plus Summary

[Go Now: DBFIN](#)

Duns Financial Records Plus (FRP) Summary/Financial Report News database, updated quarterly, contains directory information on over 1.8 million U.S. establishments, both public and private. The information available for a company includes the name, address and telephone number, as well as company characteristics such as sales figures, number of employees, date and state of incorporation, corporate family relationships, corporate officer names and a brief company history. A financial summary including total assets, liabilities, net worth and key ratios is also provided.

Dun s FRP History/Operations

[Go Now: DBOPS](#)

Duns Financial Records Plus History and Operations database, updated quarterly, contains directory information on millions of U.S. establishments, both public and private. The information available for most companies includes the name, address and telephone number, as well as company characteristics such as sales figures, number of employees, date and state of incorporation, corporate family relationships, and chief executive name. A brief company history is also included. You can retrieve records by entering the company name, geographic location, Standard Industrial Classification (SIC) code, number of employees, sales or company status as your search criteria.

E*TRADE, America's Electronic Brokerage

[Go Now: ETRADE](#)

E*TRADE is a brokerage service which allows you to take complete control of your investments. E*TRADE offers its customers:

Around-the-clock availability

Black-Scholes option analysis using 20 minute delayed prices

Free checking account tied to your money market fund

Investment management -- quotes, news alerts, portfolio reports, limit orders

Commissions rates are subject to change, but E*Trades current rates are \$14.95 per trade for up to 5,000 shares of stock for the New York and American Stock Exchanges and \$19.95 for shares of stocks on other exchanges. For orders greater than 5,000 shares, the fee is \$.01/share for the entire order. E*TRADE will handle all types of accounts including individual, joint, investment club, margin, IRA, KEOGH and 401K.

European Company Research Centre

[Go Now: EUROLIB](#)

The European Company Research Centre contains directory and financial information on more than 2 million European companies. Information is available from leading business databases such as ABC Europe, D&B-European Dun's Market Identifiers, Financial Times, Hoppenstedt Austria, Hoppenstedt Benelux, Kompass Europe and Telefirm. Information can be retrieved by entering the company name, industry codes or specific geographic location.

[Go Now: MONEYNEWS](#)

The Money Newsline area combines all of the online news services that relate to investing, markets, taxes, business and professional interests. Business Headlines from Reuters lead the offering, and the Dow Jones, AP and UPI newswires are all offered either at-a-glance or as part of your Personalized News clipping service.

Money Personal Finance Center

[Go Now: MONEY](#)

The entry point to all of the financial services online, the Money Personal Finance Center is the most comprehensive and easy-to-use personal finance service available in the online world. The combination of information, editorial content from Money magazine, and links to tools and services helps you to make better, more-informed decisions about your personal finances.

Money Personal Finance Forum

[Go Now: MONEYFORUM](#)

Visit the Money Personal Finance Forum area to tap information about all aspects of your personal finances. Post your questions about mutual fund investing, retirement planning, taxes and more. The Money Personal Finance Forum also hosts weekly Financial Chalk Talks -- live conferences with financial experts who have the answers to your specific questions.

**MQDATA - Prices, Dividends,
Security Descriptions**

[Go Now: MQDATA](#)

MQDATA creates files for transfer to your microcomputer and allows access to CompuServes financial data. Members may select one or more issues for a range of days, weeks or months and create files formatted for use in spreadsheets, databases or BASIC programs. Members can also download dividends, earnings, yields and other descriptive and performance data. Updated overnight.

Multiple Issues - 1 Day[Go Now: QSHEET](#)

QSHEET gives volume, close/average, high/ask, low/bid and CUSIP numbers for several issues for a given day. You may enter a previously stored file of up to 500 ticker symbols for processing. Updated overnight.

Mutual Fund Info Center

[Go Now: FUNDCENTER](#)

The Mutual Fund Info Center provides you with information about mutual funds. You can also order prospectuses, investment kits and brochures directly from mutual fund companies.

**National Association of Investors
Corporation Forum**

[Go Now: NAIC](#)

The goal of the National Association of Investors Corporation Forum is to educate long-term investors in how to find quality companies and buy stocks at good prices. Well-managed companies are identified from reported financial data and in-depth analysis. Members can share information on portfolio management, software and favorite stocks.

News-A-Tron Market Reports

[Go Now: NAT](#)

Market Reports give analysis and cash market prices on selected commodities, market indexes, financial instruments and foreign exchange information.

Newsletter Information Center

[Go Now: INFOCTR](#)

Newsletter Information Center presents various newsletters covering financial and investment topics. You can also order introductory issues of some newsletters directly from the publisher.

Options Profile

[Go Now: OPRICE](#)

Options Profile lists all options currently trading on a given common stock or market index. Coverage includes put and call options trading on major U.S. exchanges. It lists the name, 15-minute delayed price or pricing date, ticker symbol and exchange code for the underlying company. The exercise price and closing price are displayed for each active option. Market prices updated continuously.

Price/Volume Graph

[Go Now: TREND](#)

Price/Volume charting provides graphic presentations of both the traded price and the trading volume for the requested days, weeks or months. Relevant information -- such as the current earnings, price, dividend and risk information for common stocks -- is displayed with the graph. Your personal computer and communications software must support GIF graphics to use this product. Updated overnight.

Pricing History -- 1 Issue

[Go Now: PRICES](#)

PRICES gives over 12 years of historical prices by day, week or month. It includes the CUSIP, exchange code, volume, high/ask, low/bid and close/average for a given security. You may designate the beginning and ending date or a number of time periods. Updated overnight.

Pricing Statistics

[Go Now: PRISTATS](#)

Pricing Statistics provides a snapshot of price and volume performance for a requested issue over a given period. It indicates such items as whether an issue is trading closer to recent high or low prices. The statistics include the current high/ask, low/bid and close average as well as the highest high, the highest close, the lowest low, the lowest close, the highest volume, the lowest volume and the average and standard deviation for high, low, close and volume. Also included are the total volume, the beta factor and the beta centile rank. Updated overnight.

Publications Online

[Go Now: PUBONL](#)

Publications Online is an online collection of publications, indexed for easy access. While most of the publications are available through hardcopy subscriptions, several have been custom designed for Publications Online. The publications are made available in Portable Document Format (PDF) which requires a copy of Adobes Acrobat Reader to view. (The Reader is available for downloading in this area.) The Acrobat Reader enables you to view pages as they appear in the print version. Publications are categorized by subject and indexed for easy location. Several of the publishers offer the opportunity to subscribe to their newsletters and have them delivered directly to your electronic mail box.

Quick Way

[Go Now: QWK](#)

Quick Way offers all the functions of a traditional stockbroker conveniently through your computer including market and limit orders and trading on margin. The service is provided by Quick & Reilly, one of the largest discount brokerage firms. Quick & Reilly offers its customers:

Discount commissions

Online quotes for stocks, options, market indexes, commodities and mutual funds

The ability to place buy and sell orders, review, change, and cancel orders, and receive confirmations when orders are executed

The ability to place buy or sell orders 24 hours per day

With Quick & Reilly you can open individual or joint accounts, as well as IRA, Keogh, pension, profit sharing, custodial, trust, estate, corporate, partnership, and investment club accounts. Portfolio evaluation services include value, income, unrealized gains and losses, and year-to-date realized gains and losses. For monthly exchange fees, you can get real-time quotes (otherwise quotes are delayed over 15 minutes).

Rategram Federally Insured CDs

[Go Now: RATEGRAM](#)

RateGram helps you find the highest-yielding federally insured savings instruments available nationwide. Information is available on liquid money market accounts, certificates of deposit, money market mutual funds, and tax free money market funds. A weekly yield summary is provided, along with a rate almanac listing information such as the prime lending rate, discount rate, federal funds rate, Fannie Mae home loan mortgage rates, and one year T-Bill and T-Note rates

Return Analysis

[Go Now: RETURN](#)

Return Analysis calculates the annualized returns for your securities. Because you enter the holding period, this product is useful for analyzing the historical performances of specific issues such as mutual funds in bull and bear markets. Updated overnight.

S&P Online[Go Now: S&P](#)

S&P Online from Standard & Poor's Corporation contains recent information on approximately 5,600 companies including business summaries, earnings outlooks, historical earnings and dividends and product line summaries. All information is dated to indicate when it was last reviewed. The S&P Master List presents buy recommendations for various investment objectives and S&P Investment Ideas present stocks which Standard & Poor's expects will outperform the market over the next 12 months. Updated every Tuesday night.

Save On

[Go Now: **SAVEON**](#)

Each month Money consumer editors post tips to make you a smarter consumer. View past editions to learn how to save on everything from heating oil to photographic film, or post your own smart-spending tip.

**Savings, Borrowing,
and Credit Card Rates**

[Go Now: **MONMONITOR**](#)

Looking for a new car loan? Wonder if your mortgage rate is the best available? The Money Monitor offers the best rates from around the U.S. on credit cards, mortgages, auto loans and savings accounts, as well as pertinent articles from Money magazine and calculators that let you personalize the figures.

Screen for Stocks

[Go Now: MOW14](#)

This service allows you to quickly search for companies that meet certain stock selection techniques. To help get you started, CompuServe has provided you with several search techniques that are popular among investors. For those of you who are comfortable in doing so, Screen for Stocks also allows you to fine-tune the criteria used in each search to better fit your needs.

**Search for Company Name,
Ticker Symbol or CUSIP**

[Go Now: LOOKUP](#)

LOOKUP will search by name, CUSIP number, ticker symbol, CNUM or SIC code and list all the issues for a company you select. The product displays the ticker symbol, CUSIP number, exchange code, SIC code, name and description for each issue. Use LOOKUP to find ticker symbols or CUSIP numbers for use in other investment services.

STREET

[Go Now: STREET](#)

CompuServe members who are also members of financial industry self-regulatory organizations (SROs) can use STREET, the financial industrys online library, to access the thousands of important operational, marketing, and regulatory documents created by SROs. Created by STREETSERVICE, INC, the STREET document management and delivery service provides a secure electronic library of all the documents needed by financial professionals.

Thomas Register Online

[Go Now: THOMAS](#)

Thomas Register Online contains company information on almost 150,000 U.S. and Canadian manufacturers and service providers. Updated annually, the information available in each record includes the company name, address, telephone number, and products or services provided. \$

Thomson MarketEdge

[Go Now: EDGE](#)

Thomson MarketEdge is a valuable research resource for the serious investor. It gives you inexpensive access to the same information used by the professional investment community to evaluate the performance of stocks and the companies that issue them, as well as the industries in which these companies compete. Thomson MarketEdge offers 6 distinct features:

4-page company reports with all the information essential to make the best investment decisions;

A stock screen that you can use to find the stocks that meet your personal investment criteria;

Extensive industry reports that provide analysts insights into the future of a wide variety of industries;

A market monitor that keeps you up to the minute on market-moving news;

Investment rankings by a variety of criteria;

A direct link to [Fundwatch Online by Money Magazine](#).

Created by Thomson Financial Services (TFS), whose products provide the ease in investment expertise, Thomson MarketEdge can help you become an investment expert too.

TRW Business Profiles

[Go Now: TRWREPORT](#)

TRW Business Profiles provide credit and business information on more than 13 million organizations. Use this database to find actual account information for over 70 million business account relationships as reported by participating corporations. Information in a report can include credit histories; financial information and ratios; key business facts such as size, ownership and products; UCC filings; tax liens; judgments and bankruptcies; and an executive summary.

UK Company Research Centre

[Go Now: UKLIB](#)

The UK Company Research Centre contains directory, credit and financial information on a wide selection of UK companies. Information is available from leading business databases such as D&B-European Dun's Market Identifiers, Extel Cards, Financial Times Analysis Reports, ICC British Company Directory, ICC British Company Financial Datasheets, Jordans Registered Companies, Kompass UK, and Infocheck UK Company Financial Datasheets. You can retrieve information by entering the company name, industry codes or specific geographic location.

Vestor Stock Recommendations

[Go Now: VESTOR](#)

This powerful market research and analysis tool helps you screen and evaluate securities, review past price performance and predict future movements. VESTOR provides three-page reports on more than 7,000 stocks, updated every week. Each report is based on a combination of 20 fundamental factors, including insider holdings and trades, plus a proprietary technical model. Every VESTOR stock report gives you a long-term buy/sell recommendation complete with a brief plain-English explanation, a short-term buy/sell recommendation, a chart of recent weekly fluctuations and a table relating the volatility of the stock to that of the market at large. VESTOR also enables you to screen all the stocks it reports to find the ones that match your personal criteria, and provides five new hot buy/sell recommendations every week. In addition, there is an advanced menu of special services for the sophisticated investor. Using VESTOR to complement your other research and analysis tools, you can do weeks of investment homework in a few minutes.

Wer gehört zu Wem?

[Go Now: WERZUWEM](#)

Wer gehört zu Wem?, the online edition of the Commerzbank publication, contains information about the property of 11,500 companies in Germany which have more than 1 million DM of capital.

Windows on WallStreet Quote Club[Go Now: WWO](#)

If you receive quotes using Windows on WallStreet, you can realize substantial savings over the regular quote rates by becoming a member of the Windows On WallStreet Quote Club. A monthly fee enables you to retrieve historical prices for stocks, options, bonds, indexes, mutual funds and commodities for one cent per security per period.

[Go Now: WETTER](#)

Access detailed information on today's, tomorrow's and this week's weather for Germany, Switzerland and Austria, updates on European capitals and satellite pictures of the regions through Kachelmann Wetter. You can also access the Kachelmann's Wetter Forum, send feedback to Kachelmann, or find some funny weather related news.

Kachelmanns Wetter Forum

[Go Now: KACHELMANN](#)

German armchair meteorologists will find lots of interesting information in the Kachelmanns Wetter Forum. Members discuss European weather and scientific weather basics, as well as exchange messages.

Neue Zuercher Zeitung

[Go Now: ZUERCHER](#)

The *Neue Zuercher Zeitung* newspaper offers news, analysis and background information about economic and political events from all over the world in the German language. The newspaper publishes both foreign and local news as well as reviews on art and literature. Members can search the database by date, title or author's name and retrieve full text articles. \$

News Source USA

[Go Now: NEWSUSA](#)

News Source USA is a comprehensive collection of major U.S. magazines, newspapers and special features designed to keep you informed. A scan feature enables you to quickly locate articles from several sources at the same time. Research assistance is available from a team of skilled Search Specialists (SOS). Newspaper articles appear 2 - 4 days after publication; magazine articles are online about one month after publication. Magazines and newspapers from outside the U.S. can be searched by a Search Specialist.

Newsbytes News Network

[Go Now: ZNT:NEWSBYTES](mailto:ZNT:NEWSBYTES)

The Newsbytes News Network is an award-winning, global, daily newswire focused primarily on computer industry news. Newsbytes is part of [ZD Net](#).

NewsGrid

[Go Now: NEWSGRID](#)

NewsGrid is a comprehensive news service compiled from several global news wire services. It covers business, U.S. and world news. You can access stories using Headline Menus, Market Updates or Keyword Search. Headline Menus change as new top stories become available throughout the day. Market Updates provide regularly scheduled financial reports on the economy and Wall Street. Keyword Search selects stories sent within the past seven days based on the keywords you enter.

Newspaper Archives

[Go Now: NEWSARCHIVES](#)

Curious about what made headlines in another city or want to trace an issue over the years? Newspaper Archives lets you access full-text articles from over 55 U.S. and UK newspapers. You may even be able to access the current day's edition. Members can find any news story in the Archives by entering keywords appearing in headlines or article text, a topic of interest or by a specific date range. Most of the newspaper databases range from the late 1980s to the present. Advertising and classified ads are not included in the database. You must use the following CIM versions or higher to access this product: WinCIM 1.2, DOSCIM 2.2.2 or MacCIM 2.3.1.

Northern Ireland News Clips

[Go Now: NIRELAND](#)

Northern Ireland News Clips offers extensive coverage of the rapidly-changing situation in Northern Ireland. News articles are available from the UK's two premier news providers, PA News and Reuters.

NWS Aviation Weather

[Go Now: **AWX**](#)

CompuServe Aviation Weather is instant weather for pilots. It uses the N.O.A.A. Service "A" weather wire. This is the same data used in International Flight Service stations. It includes hourly reports, terminal forecasts, NOTAMS, PIREPS, SIGMETS, AIRMETS, area forecasts and radar summaries. Updated continuously.

PA News Online[Go Now: PAO](#)

PA News Online provides real-time local UK and international news. Members can browse categories such as Financial News, Sports News and Results, Parliamentary News, Law News, Royal News and General News.

Photos to Go

[Go Now: **PHOTOSTOGO**](#)

Index Stock Photography, one of the world's largest stock photo agencies, provides carefully selected images from its collection of more than 500,000 photographs in Photos to Go. Photos to Go is designed to supply business communicators, marketers and individuals with images that are ideal for newsletters, multimedia presentations and personal publications. Photos to Go is organized by category and is keyword-searchable. Preview thumbnail images may be viewed online. Full-sized images in the popular GIF and JPEG formats may be viewed or downloaded for a transaction fee.

PR Newswire Today

[Go Now: PRNEWS](#)

PR Newswire, a widely used electronic distributor of corporate news to the media and financial communities, offers its daily content as a browseable news product. This newswire is continuously updated and provides approximately 400 articles per business day. PR Newswire remains available as a newswire in the Executive News Service, where members may clip from it to their personal folders or access its articles through News By Company Ticker.

Reuter News Pictures Forum

[Go Now: NEWSPIX](#)

In the Reuter News Pictures Forum you can view live, real-time news and sports photos, often within hours of an event's occurrence. The copyrighted photos, provided by the Reuters News Service, are categorized by subject: United States, World, Canada, Washington DC, Sports, and are available in both GIF and JPEG formats. GIF can be displayed on your CIM system, while JPEG can be both viewed online or downloaded for later viewing.

Reuters Canadian News Clips

[Go Now: RTCANADA](#)

Review the latest fulltext news articles on issues relating to Canada. This clipping folder contains stories from various Reuters newswires.

Reuters UK News Clips

[Go Now: UKREUTERS](#)

UK News Clips provides access to all the latest news from and about the United Kingdom. This HMI-compatible clippings folder contains stories from the Reuters World newswire.

Reuters/Variety Entertainment[Go Now: RTVARIETY](#)

Reuters/Variety Entertainment news is available as a browseable basic services news product and as a newswire in the Executive News Service. As a basic services product, Reuters/Variety Entertainment covers general-interest consumer entertainment news. This browseable product consists of approximately 50 articles per day. Stories are retained for two days. As a newswire in ENS, Reuters/Variety Entertainment includes generalinterest material as well as entertainment industry trade news. The wire provides approximately 100 articles per day. The articles are available within the Current News section of ENS. Members may add this newswire to their personal clipping folders, to automatically monitor for articles containing user-specified entertainer names, companies, or other words or phrases.

Soviet Crisis News Clips

[Go Now: SOVNEWS](#)

What is happening with the Soviet economy? How do Soviet leaders feel about Middle East affairs? What is happening in the numerous former Soviet republics? Learn about this and other subjects in the Soviet Crisis News Clips , where you can find full-text articles from Reuters and UPI news wires covering the latest-breaking news from the past 24 hours.

Sueddeutsche Zeitung

[Go Now: SUEDEUT](#)

The *Sueddeutsche Zeitung*, a leading German newspaper, features articles categorized into common news (allgemeine Nachrichten), culture (Kultur), economy (Wirtschaft) and sports (Sport) on a national and an international level. Members can look up original articles in the online database of the *Sueddeutsche Zeitung* to get information on news and events happening all over the world.

Syndicated Columns

[Go Now: COLUMNS](#)

If you want to know more than the headlines and sound bites can tell you, visit the Syndicated Columns area. Here you can read syndicated columns written by informed and insightful columnists. Several of the columns are written exclusively for CompuServe, so you get insider information not available to the general public. Read Marilyn Beck and Stacy Smith's Hollywood column, an exclusive that gets you up close and personal with the stars and movies you want to know about. If you're interested in current events, the Harris Poll reveals public opinion on timely issues in America and the rest of the world. Among others, the Gadget Guru reviews new products and gadgets to make life simpler, and Joyce Jillson's Horoscope can tell you what's in your future. Visit Syndicated Columns for these and other columns.

The Business Wire[Go Now: TBW](#)

The Business Wire makes available press releases, news articles and other information from the world of business. It is updated continuously throughout the day and brings information on hundreds of different companies.

The Weather Channel Forum

[Go Now: TWCFORUM](#)

The Weather Channel, television's only 24-hour weather cable network, operates The Weather Channel Forum. Members can discuss current weather events around the world, ask questions of on-camera meteorologists and participate in conferences on various weather-related topics. In addition to providing a place for general weather discussions, this Forum area also includes images of historical weather phenomena, safety tips, educational and fun weather facts, and the latest programming guide for The Weather Channel.

UK Newspaper Library

[Go Now: UKPAPERS](#)

The UK Newspaper Library contains articles from the leading United Kingdom newspapers including *The Daily Telegraph* and *Sunday Telegraph*, *The European*, *The Financial Times*, *The Guardian*, *The Times* and *Sunday Times*, *The Independent*, *The Independent on Sundays*, and *Today*. Articles are extracted from current issues of the newspapers, as well as from several years back. Retrieve full-text articles by searching for a name, word or phrase.

UK Weather

[Go Now: UKWEATHER](#)

UK Weather contains short-term weather reports approximately 30 cities within England, Scotland, Wales and Northern Ireland, as well as high- and low-resolution weather maps. Also available are reports and maps for sites in continental Europe, North America and the Pacific Rim.. Accu-Weather, Inc. provides all maps and weather reports.

Weather

[Go Now: WEATHER](#)

This choice contains various weather products. For U.S. locations, a wide variety of National Weather Service reports and Accu-Weather maps are provided. For locations outside the U.S., Accu-Weather maps and current condition and three-day forecast reports are available. Weather information is also available as part of some aviation products (GO AVIATION).

Weather Maps

[Go Now: MAPS](#)

Using CompuServe Information Manager or any GIF-compatible program, you can display 16-color or black-and-white maps of the United States, United Kingdom, Continental Europe, Pacific Rim and Australia/New Zealand. Each section offers a satellite map, current conditions and forecast maps. Radar depiction and regional wake-up maps are also available for the United States. Most maps are provided by Accu-Weather, Inc.

Weather Reports

[Go Now: WEA](#)

For U.S. locations, the National Weather Service features short term state, zone and local forecasts, extended state and national forecasts, severe weather alerts, precipitation probability, state summaries and daily climatological reports. For non-U.S. locations, current conditions and three-day forecast reports are provided by Accu-Weather, Inc.

AARP Online

[Go Now: AARP](#)

The AARP Online Forum, operated by the American Association of Retired Persons, offers information, publications, real-time conferencing and more for members of all ages. Communicate with others about issues and topics of common concern. Popular discussion topics are legislative issues, caregiving, travel and finance. AARP members will receive one free hour of AARP online access each month. To get your free hour, fill out the Join AARP Forum Club questionnaire on the main AARP menu. Hundreds of articles, fact sheets, brochures, and booklets are available for online reading and downloading on topics such as health, finance, home, family and work. The most current news from AARP, as well as a full listing of AARP membership benefits, are also available. New information is added on a weekly basis, and there's a new AARP Bulletin every month.

African-American Forum

[Go Now: AFRO](#)

This Forum area gives you the opportunity to experience the culture and art of African-Americans. You can discuss current events, cultural issues, politics and other pertinent matters pertaining to the African-American society. Visit the libraries where you can download graphic images of African-American art, excerpts from books by important African-American authors and articles from your favorite cultural journals. The Forum area is sponsored by *American Vision* magazine.

Agriculture Forum

[Go Now: AGFORUM](#)

The Agriculture Forum provides a meeting place and information resource for everyone concerned with modern agriculture and farm life. Farmers, ranchers and anyone interested in rural life are welcome. Sections within the Forum area include livestock, dairy operations, exotic plant and animals, fertilizers and chemicals, machinery and buildings and more.

AIDS Information

[Go Now: AIDS](#)

This is a menu of products that contain information pertaining to AIDS, the Acquired Immune Deficiency Syndrome.

AIDS News Clips

[Go Now: AIDSNEWS](#)

Review the latest full-text news reports about AIDS including international news and reports and the most recent AIDS research results.

Ample Living Forum

[Go Now: AMPLE](#)

Share information and feelings important to everyone who is, or loves, a person of size in the Ample Living Forum. Assistance and support for the larger people and those that love them are available. Topics discussed include transportation, fashion, children of size and fat admirers.

Animals Forum

[Go Now: ANIMALS](#)

Attention animal lovers! Discuss and share information on all facets of pets and animals in your life in the Animals Forum. Members are encouraged to participate in discussions and access the many interesting animal related files.

Appliance Forum

[Go Now: APPLIANCE](#)

The Appliance Forum covers all kinds of home appliances, including large kitchen appliances, small cooking appliances, washers and dryers, vacuum cleaners and other appliances for the carpet and floor, and personal care appliances. Here you'll find lots of GIF images of the latest models, plus news and many tips on purchasing, operation, and repair.

Aquaria Fish Forums

[Go Now: FISHFORUMS](#)

Aquarium professionals and hobbyists alike can find information and friends in FISHFORUMS. Join the Aquaria/Fish Forum (GO FISHNET) to talk 'fish'. Members of fish specialty groups can exchange information on products, fish diseases and news. Join a live conference and meet fellow fish fanciers across the country. Regular conferences are scheduled with some of the nation's best known aquarists. Questions to the Forum administrator (Sysop) will be answered within 24 hours, but if you can't wait, a voice line is available.

Architecture Forum

[Go Now: ARCH](#)

Architecture fanciers, as well as architects and members of allied professions, can find a well-designed home in the Architecture Forum. Forum message boards and libraries cover such topics as education, management, types of designs and buildings, the use of computer-aided design (CAD), codes and regulations, and the environment. If you're in the market for an architect, you can even find information that will help you select the best one for your project.

Artist Forum

[Go Now: ARTIST](#)

Artists of all experience levels and all medias meet in the Artist Forum. Whether youre a commercial illustrator, collector, gallery owner, cartoonist or amateur, you will find advice on everything from selecting supplies to completing projects. Sections on children's book, studio courses, contemporary art and more are available.

Astronomy Forum

[Go Now: ASTROFORUM](#)

Amateur or professional stargazers can join cosmic forces with fellow astronomers from around the world. Beginners with a universe of questions can learn about hardware or techniques. Professionals can take advantage of the Astronomy Forum to rapidly disseminate information among colleagues. Members of all levels can learn about national or international special events of interest. Archives contain public domain astronomy software, quality reference articles and many vivid GIF graphic images.

Automobile Forum

[Go Now: CARS](#)

Attention, car buffs! The Automobile Forum covers all facets of the automotive world from buying, selling and fixing cars to dreaming about what future cars will be like. You can find answers to your questions or demonstrate your own knowledge about car finance, insurance, safety and problems. Swap stories with other members about unforgettable experiences, classic cars or new developments in the car industry.

Automotive Information

[Go Now: **AUTO**](#)

This menu provides information on a variety of automotive products, including car showrooms, an auto racing Forum area and automotive equipment stores.

Autonet New Car Showroom[Go Now: NEWCAR](#)

Get the facts on nearly 300 different makes and models of passenger cars, vans, sport-utility, and pickup trucks in the AutoNet New Car Showroom. This easy-to-use, menu-driven database enables you to obtain detailed specifications, available options and retail and dealer prices. Most models include a high-quality photo that you can view or download free of charge. A nominal surcharge will be incurred for accessing the data sheet.

AutoNet Used Car Lot

[Go Now: USED CAR](#)

In the AutoNet Used Car Lot you can determine what a particular car or truck is worth today whether you are buying, selling privately or trading in. To get the most from AutoNets Value Sheets, you should know the vehicles: make, model, year of manufacture, trim level, major optional equipment, current odometer (mileage) reading and condition. The AutoNet Used Car Lot can then tell the wholesale and retail prices for all years, 1985 -1995, during which the model was manufactured. VMR International updates these values every month as the market for previously-owned vehicles fluctuates with availability, lease turn-ins, and the general economy.

Bacchus Wine Forum

[Go Now: WINEFORUM](#)

The Bacchus Wine Forum presents information on many wine-related and home beer brewing topics. You can share your thoughts about your favorite wines with other wine lovers. Issues of the *Informed Enophile*, a wine newsletter, are included, and online wine-tasting parties are held regularly.

Beck/Smith Exclusive

[Go Now: BECK](#)

Marilyn Beck and Stacy Jenel Smith offer their syndicated entertainment column to you. The column includes exclusive in-depth, behind-the-scenes reports on the stars and the TV, movie, recording and publishing businesses.

Better Homes Kitchen

[Go Now: KITCHEN](#)

Make yourself at home in the Better Homes Kitchen. The Better Homes Kitchen enhanced menu offers icons which lead you to the magazine s featured content. One of these features is the Prize Winning Recipes Cookbook, where youll find recipes tested in the Better Homes and Gardens Test Kitchen. The menu also provides you with access to the Better Homes Kitchen Forum. You can exchange messages with other Forum members or browse the libraries filled with articles, recipes and photographs.

Book Preview Forum

[Go Now: **PREVIEW**](#)

New books and authors are showcased in the Book Preview Forum. Publishers present promotions, ideas and titles to CompuServe members. Sections in the Forum area include current events, politics, humor, romance, music, journalism, mystery, science fiction, fantasy, horror, agents, and many more.

British Books in Print

[Go Now: BBIP](#)

Stay on top of Britain's literature scene with the British Books in Print searchable database. The database includes bibliographic references describing books currently in print, to be published in the next six months, or recently classified as out-of-print. The information available for a book includes the author, title, publisher, date of publication, edition, binding, list price in Pounds Sterling and subject; the reference for a given book may not include all of this information.

Camping Forum

[Go Now: **CAMPING**](#)

Pup tent or pop-up camper? Compare notes with camping and backpacking enthusiasts with a wide range of interests in the Camping Forum area. This Forum area is part of the Outdoors Network.

Cancer Forum

[Go Now: **CANCER**](#)

The Cancer Forum is an online hotline providing information about cancer and support for people with cancer, their friends and relatives. Topics covered include standard and supplemental methods of cancer treatment, research and cancer in children. Support is provided by Forum members and the Cancer Hotline in Kansas City. The Forum area does not provide medical opinions or diagnoses.

Catholic Online Forum

[Go Now: CATH](#)

The Catholic Online Forum area is one of the largest and most comprehensive Roman Catholic information services available. Thousands of files from individuals and religious libraries worldwide on topics such as church history, Pope John Paul II, the Bible, church documents, pro-life issues, religious education, religious graphics and much more are available. Forum members can read and post messages on a wide variety of subjects about the Catholic faith. Conferences feature discussions on important topics and issues that face the Catholic Church today.

Cats Forum

[Go Now: CATS](#)

Gather round the scratching post in the Cats Forum. Members discuss and share information on all facets of cat ownership and care. Sections include Your First Cat, Cat Care/Behavior, Young Cat Lovers, Cat Breeders' World, and more.

Christian City

[Go Now: CHRISTIAN](#)

Thomas Nelson, the Christian publishing giant, sponsors Christian City. It is run by Christians, but everyone is welcome in this city. Members will find spirited exchanges in this Forum area, where discussions about faith and values, and many other subjects take place. The Cafe Conference Room bustles each night with activity; and special guests visit from time to time. Members can access text and photos about the Christian music scene, sound files, excerpts from books, photos and bios. Other information is also available about authors, recording artists, and personalities, such as Dr. James Dobson, Franklin Graham, Amy Grant, Frank Peretti, Max Lucado, Brian Duncan, Point of Grace and Michael W. Smith.

Christian Fellowship Forum

[Go Now: FELLOWSHIP](#)

Christians of all branches communicate with other Christians in the Christian Fellowship Forum. Non-Christians who have a genuine desire to learn about the faith are welcome to ask questions here. The Forum area contains message sections, libraries and conference rooms for topics such as Bible Study, Stewardship, Christian Family, and Promise Keepers.

Christian Interactive Network

[Go Now: CIS1](#)

Christians worldwide can connect in the Christian Interactive Network, Inc. This nonprofit user-supported ministry provides a pathway for all Christian ministries, missions and churches. Here you'll find information, resources, education, support, and fellowship, as well as opportunities for furtherance of the Great Commission.

Chronic Hepatitis Forum

[Go Now: HEPA](#)

This Forum area is not only for those who suffer from chronic hepatitis, but also for those who suffer from liver diseases of all types. You'll find Forum libraries that contain the American Liver Foundation's information sheets, with information about blood testing, clinic trials, insurance, stress, and many other related areas. And you'll always find TLC, and often get valuable help and advice, from other Forum members in situations similar to yours.

Chronic Illness Forum

[Go Now: CIFORUM](#)

This Forum area covers lupus, Lyme Disease, and many other rare diseases and conditions. Forum message sections and libraries deal with such topics as cooking, nutrition, and pharmaceuticals, plus coping and survival, advocacy and public relations, and insurance and disability coverage. CIFORUM offers a unique opportunity to network with others having a wide range of interests beyond the specific reality of a particular diagnosis.

City and Lifestyle Forum

[Go Now: CITYLIFE](#)

Come to the German City and Lifestyle Forum, where members and exchange the hottest information on culture, politics, events, movies, lifestyles, and many other topics on a city-specific basis. Downtown information is grouped into libraries and sections by the German CIS node locations. Chatrooms allow a direct contact with others in your city.

Civil War Forum

[Go Now: CIVILWAR](#)

Whether you're a professional historian or a Civil War buff, this Forum area is the online place to share your passion for the dramatic, traumatic event in American history. Forum messages and libraries cover such areas of interest as battles and campaigns, the histories of military units, and even the individuals who participated.

Collectibles Forum

[Go Now: COLLECT](#)

Philatelists, numismatics and other collectors will enjoy the Collectibles Forum. Beginners and dealers will want to stop by regularly for pricing and trading information and to check out the Collectors' and Dealers' Network. Baseball cards and other collectibles are also covered.

Comic Publishers Forum

[Go Now: ARCHIE](#)

One of two CompuServe forums devoted to comic books, Comic Publishers Forum offers previews, news and answers to your questions about comic publications. Comics and Animation NewsWire (CAN) contains the latest news from the comics industry and is uploaded five days a week. Regular features, reports from conventions all over the world, and special graphics files are also included.

Comics/Animation Forum

[Go Now: COMICS](#)

The Comics/Animation Forum is one of two CompuServe forums for fans of comic books, comic strips, sequential art and animation. The Forum area features news, reviews and conferences with some of the greats of comic books and animation. Over 200 professional writers, artists, editors and publishers are online to answer questions and discuss their work.

COMPUTRACE

[Go Now: TRACE](#)

Use COMPUTRACE to find long lost friends and relatives or new business contacts throughout the U.S. COMPUTRACE contains approximately 200 million records about individuals, businesses, licensed professionals and more. Verify the name and city/state/zip for individuals nationwide with the Living Individuals File. Uncover a deceased's last known city/state/zip of residence, partial Social Security number, date of death and much more with the Deceased Individuals File. The Corporate/Limited Partnership File confirms business addresses and may reveal key contacts for more than 15 million U.S. corporations and limited partnerships. COMPUTRACE is updated regularly and is expanding rapidly.

Concord Coalition Forum

[Go Now: CONCORD](#)

Join in the online discussions with members of the Concord Coalition as they scrutinize the U.S. government's spending practices. Lead by former U.S. Senators Paul Tsongas and Warren Rudman, this national, grass roots movement focuses on eliminating the federal budget deficit and building a sound economy for future generations of Americans.

Congressional Tracking

[Go Now: BUDGET](#)

Congressional Tracking gives CompuServe members in the U.S. the opportunity to review the spending habits of every member of the Senate and the House of Representatives. The information is compiled by the National Taxpayers Union Foundation (NTUF). NTUF closely monitors legislation on the floors of the House and the Senate and collect data on every recorded vote in both houses of the Congress, as well as cost or savings estimates for each piece of legislation.

Consumer Electronics Audio Forum

[Go Now: **CEAUDIO**](#)

Members interested in amps, preamps, tuners, receivers, speakers, headphones and audio software will find themselves at home in the Consumer Electronics Audio Forum. The Forum area features ongoing conversations and advice. See the other Consumer Electronics Forums for additional information: [Consumer Electronics General Forum](#) and [Consumer Electronics Video Forum](#).

Consumer Electronics Forums Menu

[Go Now: CEVENDOR](#)

This graphical menu is the main access point for all the Forum areas where you can find expert advice and information about audio, video, software, satellite systems, telephone equipment and more. Purchase the best equipment for your dollar by talking with representatives of leading manufacturers.

Consumer Electronics General Forum

[Go Now: CEGENERAL](#)

Members interested in telephone equipment and other miscellaneous electronic products will appreciate the Consumer Electronics General Forum. The Forum area features ongoing conversations and advice. See the other Consumer Electronics Forums for additional information: [Consumer Electronics Audio Forum](#) and [Consumer Electronics Video Forum](#).

Consumer Electronics Video Forum

[Go Now: CEVIDEO](#)

Members interested in VCRs, laserdiscs, TV sets and monitors, home theater, camcorders and satellites will enjoy the Consumer Electronics Video Forum. The Forum area features ongoing conversations and advice. See the other Consumer Electronics Forums for additional information: [Consumer Electronics Audio Forum](#) and [Consumer Electronics General Forum](#).

Consumer Forum

[Go Now: **SAVE**](#)

Access the Consumer Forum to find out how to make and save money, learn about your consumer rights, get honest buying advice, read about the latest scams and rip-offs, and voice your consumer beefs. The library contains money management software, consumer protection advice on dozens of subjects, and lists of agencies to help resolve your complaints.

Cooks Online

[Go Now: **COOKS**](#)

This is a place where people can share their enthusiasm for cooking and gourmet food. Members swap recipes, exchange cooking tips and share menu planning ideas. Fine restaurants are discussed, and members can consult with cooking experts online.

Cycling Forum

[Go Now: CYCLING](#)

Compare notes with other cyclists from around the world in the Cycling Forum. Members can share their cycling experiences and discuss cycling issues with other Forum area members. The libraries contain numerous files, programs and images related to various aspects of cycling.

Democratic Forum

[Go Now: DEMOCRATS](#)

U.S. politics and policies are on the agenda in the Democratic Forum. This Forum area, overseen by the Democratic National Committee, is dedicated to providing information and encouraging conversation about Democratic politics. Forum members discuss the latest happenings and decisions. From the library, download a variety of papers and publications, from press releases, to speeches, to a calendar of events. Information is provided by organizations such as the Democratic Senatorial Campaign Committee and the College Democrats of America.

Deutsches Funk Forum

[Go Now: DEUFUNK](#)

The Deutsches Funk Forum, equivalent to the popular English-speaking HamNet Forum, is the place to be for German speaking radio amateurs. Members will meet other radio enthusiasts and find valuable information about new products, technologies and much more. The libraries are full of interesting files, graphics, tips and other helpful information.

Diabetes Forum

[Go Now: DIABETES](#)

The Diabetes Forum is for anyone interested in diabetes, hypoglycemia or related genetic autoimmune conditions. Meet other diabetics, their families and friends, and medical practitioners. Message sections and libraries cover medications, diet and exercise, technology, treatments and more.

Dinosaur Forum

[Go Now: DINO](#)

Dino lovers, scholars and fans of those prehistoric creatures can expand their knowledge by interacting with some of the world's most notable scientists and paleontologists in the Dinosaur Forum. Devoted to dinosaurs, the Forum area offers learning games, activities and information on recent discoveries and on museum events. The libraries contain exciting graphics, expedition reports and information about such organizations as Dinamation International, Dinosaur Society and Dinosaur Club.

Disabilities Forum

[Go Now: **DISABILITIES**](#)

The Disabilities Forum is a communication facility and support group for anyone interested in disabilities to exchange information. Disabled people share information, ideas and experiences related to their daily living. Parents and families of disabled people and professionals who work with disabled people also share their experiences and information. The Disabilities Forum is open to everyone.

Dogs Forum

[Go Now: DOGS](#)

Want to find out more about the Nova Scotia Duck Trolling Retriever or the Mexican Hairless? Join the Dogs Forum area to find information on any size, color, shape or breed of dog. Discuss and share information on all facets of dogs. Members discover new breeds, learn new training skills and find out about new activities that they can enjoy with their dogs.

Dolls Forum

[Go Now: DOLLS](#)

Lovers of dolls, miniatures, teddy bears, and villages and cottages are invited to be a part of the Dolls Forum. Forum message sections and libraries include Vintage Barbie, Barbies Fan Club, Modern Dolls/1930+, Antique Dolls, House/Miniatures, Lladro/Hummel, Precious Moments and Teddy Bears.

Earth Forum

[Go Now: EARTH](#)

Get involved in your world. The Earth Forum is for people who want to help solve environmental problems. Members hold conferences online with environmental experts and professionals to enhance the members' knowledge and ability to help save the environment.

Election Connection

[Go Now: ELECTION](#)

CompuServes Election Connection area is the premier online source for U.S. election coverage. From the menu, members can access hot web sites, Forum areas, headline and in-depth news, syndicated columns, congressgrams, and CNN Interactive. Members should check the menu often, as CompuServe adds special election-year content as it becomes available.

Electronic Frontier Foundation Forum

[Go Now: EFFSIG](#)

The EFF Forum enables people to share facts and opinions about issues concerning computer-based communication. Popular topics of discussion among the members of this Forum area include policy, social concerns and innovation.

Electronic Word Forum

[Go Now: EWORD](#)

Discuss all aspects of electronic publishing, including audio books, spoken word audio, interactive multimedia and CD ROM books in the Electronic Word Forum. The Forum management team works closely with the Audio Publishers Association, independent audio publishers as well as with electronic and multimedia publishers to bring you fully-authorized sound, video and interactive demo files of new and existing titles. You will be able to read reviews and press releases and see upcoming lists from your favorite publishers before the products hit the stores.

Encounters Forum

[Go Now: ENCOUNTERS](#)

Whether a true believer or a skeptic, visit the Encounters Forum to share UFO sightings, paranormal experiences and other encounters. You can discuss your views with members of the production staff of Fox-TV's Encounters show and other members of CompuServe. The libraries contain previews of the Encounters television show, transcripts from the show, hot spot maps, information about recent sightings, members' encounter stories and more. Members can also exchange messages on abductions, ghosts, UFO/alien contact, psychic phenomena and other related topics.

The Family Handyman Forum

[Go Now: HANDYMAN](#)

Whether you are an avid do-it-yourselfer or simply need to fix a dripping faucet, the Family Handyman Forum has answers to your questions. Sponsored by *The Family Handyman* magazine, this Forum area enables you discuss a variety of topics such as buying tools, building decks and restoring old houses. The libraries contain downloadable step-by-step instructions for common repairs as well as stories from *The Family Handyman*. Schedule conferences provide opportunities to chat with experts in home improvement.

Family Services Forum

[Go Now: MYFAMILY](#)

Share information and feelings important to everyone who has, or hopes to have a close, personal relationship with other family members in the Family Services Forum. The Forum area offers assistance and support for the family in both its day-to-day functions and its traumas. Members will find many helpful friendly people all with the same focus: the family.

Fibercrafts Forum

[Go Now: FIBERCRAFTS](#)

Crafters who enjoy textile crafts such as knitting, crocheting, sewing, quilting, embroidery, weaving, spinning and lacemaking will feel at home in the Fibercrafts Forum. Members can discuss techniques, equipment and resources and download patterns.

Fine Art Forum

[Go Now: FINEART](#)

Paintings and sculpture from artists past and present can be found in the Fine Art Forum. Featured are works from pre-Raphaelite artists like Rubens, contemporary artists such as Van Gogh and Gunni Nilsson-Price, and science-fiction and fantasy artists. Discussions in the Fine Arts Forum range from artists' impressions of others' work to the style of being an artist.

Firearms Forum

[Go Now: FIREARM](#)

Compare notes with other gun owners and gun users, and discuss the issues related to firearms in the Firearms Forum. Members can share their firearms experiences, ask questions and respond to any Forum message that interests them. The libraries contain numerous files, programs and images related to various aspects of firearms use and ownership.

Fishing Forum

[Go Now: FISHING](#)

The Fishing Forum provides an opportunity to compare notes with other anglers and to discuss the issues related to fish, fishing and fisheries conservation. Share your fishing experiences and discuss fishing issues with other Forum members. Feel free to ask questions and respond to any Forum message that interests you. Forum libraries contain numerous files, programs and images related to various aspects of fishing. Sections include such topics as saltwater fishing, tournaments, fly-fishing, boating, fly tying, and charter captains as well as sections on various fish species.

Food/Wine

[Go Now: FOOD](#)

This menu offers direct access to the Forum areas for people who enjoy good food and wine.

Four Wheel Drive Forum

[Go Now: **FOURWD**](#)

Turn-off the paved road and sling up some mud in the Four Wheel Drive Forum area. You will find information on buying, selling, repairing and driving four wheel drive vehicles including 4x4, 2x4, trucks, vans and other heavy duty and offroad vehicles. The message sections contain a wide range of questions, answers, news reports and comments on topics of interest to owners of 4WD vehicles.

Funnies Forum

[Go Now: FUNFOR](#)

Read the comics online, discover new comic strip creators, and discuss comics with others in the Funnies Forum. This Forum area gives members a place to converse with the people who create funnies: artists, writers, industry people and wannabes. The Funnies Forum also houses WitSIG, CompuServes humor area. Message sections and libraries for some well-known comic strips are available. The works of lesser-known creators can be found in the Undiscovered section; some strips were withdrawn from syndication, while others are looking for wider distribution.

Gardening Forum

[Go Now: GARDENING](#)

Before grabbing a spade and your straw hat, join the Gardening Forum. Managed by the National Gardening Association, publishers of the *National Gardening Magazine*, this Forum area contains over a decade's worth of gardening knowledge and experience from green-thumbed experts. Learn to create and properly care for blossoming floral gardens and productive vegetable, herb and fruit gardens. Dig into the weed-free libraries and message sections for information about house plants, pest control, landscaping, garden tools and seed swapping.

Genealogy Forum

[Go Now: ROOTS](#)

Are you related to Pocahontas? Need information from Revolutionary war veterans' land applications? Want a list of Irish genealogy societies, addresses of vital records departments in all the Canadian provinces or a list of organizations that help adoptees locate their natural parents? Maybe you just want to read or photograph faded tombstones. You'll find what you're looking for in the Genealogy Forum, the Forum area for people interested in researching ancestry and using PCs for genealogy databases, word processing and genealogy data communications.

Genealogy Support Forum

[Go Now: GENSUP](#)

Genealogy Support Forum provides access to major genealogy service providers. Each section addresses a particular company or organization's products and services. The following are represented in this Forum area: Brothers Keeper, Comm Soft, Inc., The Family Edge, Leister Productions, The New England Historic Genealogical Society and Wholly Genes Software.

Government Giveaway Forum

[Go Now: INFOUSA](#)

Understand the wealth of information and items free or nearly free from the government in the Government Giveaway Forum. AMIA Medical Forum

[Go Now: MEDSIG](#)

AMIA is sponsored by the American Medical Informatics Association. Members represent all segments of the professional medical community and use this Forum area to exchange ideas and information on medically related topics.

AOPA ONLINE

[Go Now: AOPA](#)

AOPA ONLINE is a wealth of aviation information open to all 335,000+ members of the Aircraft Owners and Pilots Association (AOPA), with some portions available to non-AOPA members. AOPA members can communicate and exchange information in the AOPA members-only Forum. Searchable databases available to AOPA members and non-members alike include flight schools, air taxi operators, air worthiness examiners, repair stations, airframe and power plant schools, parachute riggers, air worthiness representatives, written test examiners, and manufacturer s maintenance facilities.

Association Vendor Forum

[Go Now: AFORUM](#)

The Association Vendor Forum provides a facility for regional and national associations or trade groups to support their memberships and industries in the online world. Each registered association sponsors a message section and file library. The associations represented are listed and described below.

American Home Business Association (AHBA)	professional organization for home-based business entrepreneurs
International Weather Watchers (IWW)	professional association
National Association of Business Economists (NABE)	professional association
Southern Gas Association (SGA)	industry association of natural gas distribution, transmission, and gas supply marketing companies in 17 southern U.S. states
U.S. Ski Association (USSA)	membership and technical services arm of U.S. Skiing, the national governing body for competitive skiing and snowboarding
U.S. Taekwondo Union (USTU)	national governing body for Taekwondo in the U.S. and the sole representative of the World Taekwondo Federation in America

Aviation Forum

[Go Now: AVSIG](#)

The Aviation Special Interest Forum is a group of people interested in computers and airplanes. It covers general flying issues, safety, weather, air traffic control, balloons and soaring, want ads and personal computer programs. AVSIG is open to any and all who care to visit and share their ideas and experience in the field of aviation.

Aviation Services

[Go Now: AVIATION](#)

This menu lists CompuServes numerous aviation services.

Aviation Support Forum

[Go Now: AVSUP](#)

Aviation Support Forum facilitates professional dialog for aviation vendors and users of their products. Members can announce or seek information on new products and services, network for career opportunities, and discuss general aviation topics. Sections within the Forum area include jobs and careers, publications, professional groups, airport development and aviation multimedia.

Aviation Week Group Information Center

[Go Now: AWG](#)

Aviation Week Group (AWG), from the McGraw-Hill Companies, Inc., is the worlds most authoritative source of aviation and aerospace information. The Aviation Week Group Information Center offers:

A weekly compilation of articles from the current editions of AWGs newsletters and magazines.

An archive of previously published articles from AWGs most widely read publications.

Online business and government directories.

Special information from providers of aviation equipment and services.

The Aviation Week Group Forum, a meeting place for aviation and aerospace professionals flight crews, engineers, ATC Specialists, executive managers, government officials, designers, maintenance technicians, aviation information system pros, aeromedical and aerolegal experts and others.

BALPA Online

[Go Now: BALPA](#)

The British Airline Pilots Association (BALPA) represents the interests of flight crew in the UK aviation industry. BALPA Online offers two private Forum areas to BALPA Members: the BALPA-BA Forum area and the BALPA National Forum. The BALPA National Forum provides support and information for flight crew who are either in general aviation or employed by commercial carriers other than British Airways. The BALPA-BA Forum provides similar services to British Airways flight crew. General information about BALPA is available on the BALPA Online main menu, but Forum access is restricted to BALPA members.

BBDO TechSetter Hotline

[Go Now: BBDO](#)

BBDO, a large advertising agency, is interested in the changes digital communication is making in our everyday lives. So they want to poll CompuServe members, individuals who are already on the information superhighway. Every month surveys are posted asking questions on a wide range of subjects, from current events to entertainment and technology. *BBDO Techsetter Magazine*, providing news about media and advertising, is also available online and updated monthly. Other offerings include a monthly quiz of your advertising I.Q., contests and online conferences.

Broadcast Professionals Area

[Go Now: BPF](#)

The Broadcast Professionals Area contains several sections of interest to television and radio broadcast professionals in fields such as engineering, production, programming, promotion and land mobile service. For the latest industry information, access Incue Online for article summaries, reviews, previews and product announcements. Broadcast engineers can learn more about professional groups such as AESNET, the online area for the Audio Engineering Society, and SBENET, the online area for the Society of Broadcast Engineers. For more information, see [Broadcast Professionals Forum](#), which is accessible from BPA.

Broadcast Professional Forum

[Go Now: BPFORUM](#)

The Broadcast Professional Forum covers the major publications, manufacturers and trade associations, conventions, organizations and seminars that relate to the fields of broadcast and audio engineering, production and land mobile communications. Also included is the latest FCC news as it relates to the broadcast and communications professions.

Business Management

[Go Now: MANAGEMENT](#)

This menu lists the CompuServe services that provide the needs of managers of both large and small businesses.

Business Management Forum

[Go Now: **BUSMAN**](#)

Dedicated to the idea of lifelong professional education, the Business Management Forum provides networking and information to the business community worldwide. Message sections and library files cover both theory and practice, extending across the spectrum of business expertise from the college business major through the MBA and other post-graduate courses to the practical aspects of real world business management. Some topics of special interest are business on the Internet, human resources, and marketing.

Canadian Business Forum

[Go Now: CANBUS](#)

The Canadian Business Forum covers the people, companies and issues that drive business in Canada. This electronic home of the editors of *Canadian Business* offers lively discussions and thoughtful articles for people interested in Canadian business. This Forum area offers a way for members to not only discuss business topics, but also build contacts in Canada and internationally and offer feedback to the magazine's editorial staff.

Career Management Forum

[Go Now: CAREERS](#)

The Career Management Forum provides a number of tools that job seekers need to further their career ambitions. This Forum area provides a place to leave resumes, a place to network, and a place to find various reference materials. Questions regarding career management are also addressed.

**Comprehensive Core Medical Library
AIDS Articles**

[Go Now: CCMLAIDS](#)

People interested in AIDS research can use this searchable medical library to find full text AIDS-related articles. Sources include medical reference books, text books and medical journals such as the New England Journal of Medicine, Science and Nature.

Computer Consultant's Forum

[Go Now: **CONSULT**](#)

The Computer Consultant's Forum is the place for computer consultants to exchange ideas and information on networks, product vendors, commercial software and equipment. Independent consultants can share business tips, technical information and solutions to client problems. This Forum area is sponsored by the Independent Computer Consultants Association (ICCA), which represents data processing professionals.

Computer Training Forum

[Go Now: DPTRAIN](#)

The Computer Training Forum is for computer trainers, teachers, information center staff, vendors and anyone else with an interest in the computer learning process. Data libraries contain information on training techniques, office automation, careers and computers in schools. International members contribute reports on computer trends overseas. Members can enroll in free online Professional Seminars taught by leading instructors across the country.

Court Reporters Forum

[Go Now: CRFORUM](#)

Are you the one in the courtroom who captures and preserves every word of testimony on a mysterious shorthand machine? Or, would you like to know more about these highly skilled individuals who use state-of-the-art software programs to produce verbatim transcripts, as well as television and on-site captioning services for the hearing-impaired? If you are a court reporter or are interested in court reporting as a profession, join the Court Reporters Forum to exchange information on topics such as ethics, scopists and notereaders, students, hardware, software and other issues related to this interesting career.

Education Professional

[Go Now: EDPROF](#)

The Education Professional menu connects you to all CompuServe Forum areas of interest to educators, trainers, educational researchers and publishers of educational materials. Forum areas and other services such as the [Attention Deficit Disorder Forum](#), [Computer Training Forum](#), [Education Forum](#), [Educational Research Forum](#), [ERIC-Education Research](#), [IBM Special Needs Forum](#), [IQuest Education InfoCenter](#) and the [Science/Math Education Forum](#) are included.

Ei Compendex Plus

[Go Now: COMPENDEX](#)

Ei Compendex Plus is a searchable database containing abstracts of articles taken from significant engineering and technical literature. Information comes worldwide from journals, publications of engineering professional organizations, conference proceedings, and selected government reports and books. Covering virtually all engineering disciplines, topics include properties and testing of materials, fluid flow, pollution, ocean technology, applied physics, food technology, and measurement.

EMI Aviation Services

[Go Now: EMI](#)

Pilots of any aircraft from giant cargo to single-engine can use EMI Aerocorp's flight planning programs to produce complete cockpit flight logs for trips between any two points in the contiguous 48 states and southern Canada. An optional customized briefing and flight plan filing are provided at no surcharge. Other no-surcharge pilot services offered include an abbreviated summary of local conditions, radar weather maps and a time and distance check that calculates the great circle distance between two points.

**Entrepreneur's Franchise and
Business Opportunities Database**

[Go Now: EBF](#)

Find information about franchising and business opportunities in Entrepreneur Magazine Group's Franchise and Business Opportunities Database. Based on the *Entrepreneur Magazines* annual "Guide to Franchise and Business Opportunities," the database provides a description of franchising and business opportunities throughout the United States. With each description is the company name, address, phone numbers and contact names. The opportunities are searchable by line of business or by the individual company name. Visit Entrepreneur's [Small Business Forum](#) to ask questions of or talk with representatives of Entrepreneur Magazine Group.

Entrepreneur's Small Business Forum

[Go Now: USEN](#)

Entrepreneur's Small Business Forum is an information exchange for entrepreneurs and anyone currently operating or thinking about operating their own business. It is sponsored by Entrepreneur Magazine Group, publishers of *Entrepreneur Magazine* and a wide array of business start-up guides and other reference resources. Topics discussed include business start-up procedures marketing, financial management, writing a business plan, finding a location, and many other issues entrepreneurs face. Members are encouraged to discuss business-related ideas, strategies, problems and techniques.

E-SPAN JobSearch

[Go Now: **ESPAN**](#)

E-SPAN JobSearch provides an online employment resource for job seekers and employers nationwide. Over 1,000 engineering, manufacturing, sales/marketing, finance/accounting, and other advertised positions are searchable by geographic area and job category. Ads run for four weeks and are updated twice a week. Job seekers can browse the opportunities and at no charge submit their resumes to E-SPANs resume bank. The Resume Database can only be accessed by employers who advertise with E-SPAN. These employers can either access the database themselves to search for candidates, or call and request the top resumes be sent to them by E-SPAN. Other E-SPAN features include information on Resume Rules, Successful Interviewing, Placing An Employer Ad and Networking: The Hidden Market.

Fillup Flyer Fuel Finder[Go Now: FFFF](#)

AOPA members can take advantage of Fillup Flyer Fuel Finder to help reduce flying costs. For a small fee, Fillup Flyer Fuel Finder reports the current prices for aviation fuel all along your flight route and highlights the lowest (and the highest) costs, along with additional airport and FBO information.

Floppy Shots

[Go Now: FLOPPY](#)

Floppy Shots provides support for its floppy disk photo copying services and Konica PC PictureShow (a Floppy Shots product). Customers and prospective customers can find out more about Floppy Shots products, view demos, contact the company's customer support staff, or locate the nearest dealer. Dealers can contact support staff directly, and prospective dealers can find out how to become dealers. Floppy Shots also provides a link to the company's Web site.

Home Forum

[Go Now: HOMEFORUM](#)

The Home Forum, sponsored by The California Association Of Realtors, provides an online real estate information service. The Forum area includes libraries and message boards dedicated to improving and enhancing the publics awareness level of the real estate issues, especially those involving buying or selling a home.

ICAA Forum

[Go Now: ICAA](#)

The Institute of Chartered Accountants in Australia (ICAA) sponsors this Forum area to provide professional information relevant to the chartered accountancy profession and to facilitate networking among ICAA members and accountants around the world. Message sections and libraries cover such topics as auditing, information technology, taxation, government regulations, and financial planning.

Ideas & Invention Forum

[Go Now: IDEAS](#)

The Ideas & Inventions Forum devotes itself to people interested in developing new ideas and products. Meet other inventors or receive help and advice about taking the right steps to turn an idea into a new product. Visit the library for excellent newsletters and articles, or use the source locator to find individual organizations to assist you in every stage of the innovation process.

Interactive Week Forum

[Go Now: IA WEEK](#)

Professionals from telephony, cable, broadcast, computer, online and "content" (everything from advertising to publishing) fields gather in the Interactive Week Forum. Members have a direct line to *Interactive Week* magazine's writing staff, people who know each of these industries intimately. Discussions on hot topics, conferences with leading names in the industry and downloadable library files that include full text articles from past issues are all part of this Forum area. Members who do not subscribe to *Interactive Week* magazine can even complete an online subscription qualification form for the magazine.

International Trade Forum

[Go Now: TRADE](#)

If you'd like to join others in the international trade arena, join the International Trade Forum. This Forum area enables you to post messages describing products or services you need or can make available to other traders. Also, join this Forum area to seek out new opportunities and make contacts all over the world. Information about starting out in international trade and tips on travel, business, shipping and customs are found in this Forum area. Also find out about international trade practices and relationships with governments in various areas ranging from the EEC to New Zealand. An SOS sections is also available for urgent questions or comments.

**IQuest Business
Management InfoCenter**

[Go Now: IQBUSINESS](#)

Use the IQuest Business Management InfoCenter as an online reference tool to find information about business including management research, marketing studies and specific companies. InfoCenter databases provide access to business management information extracted from published sources such as journals, books and government publications.

IQuest Engineering InfoCenter

[Go Now: IQENGINEER](#)

Use the IQuest Engineering InfoCenter as an online reference tool to find information such as engineering research, mathematics materials, physics and aerospace. InfoCenter databases provide access to information extracted from published sources such as journals, books and government publications about engineering.

IQuest Medical InfoCenter

[Go Now: IQMEDICINE](#)

Use the IQuest Medical InfoCenter as an online reference tool to find information such as medical practice, research, pharmaceutical news and allied health studies. InfoCenter databases provide access to information extracted from published sources such as journals, books and government publications about health and medicine.

Jeppesen Online

[Go Now: JEPPESEN](#)

Jeppesen, a Times Mirror Company, provides flight information services and pilot training systems covering the entire spectrum of flight operations. Jeppesen Online offers two services to assist pilots in the preflight planning process.

Aviation Weather Graphics are divided into six categories: radar, surface and weather depiction, winds and temps aloft, low level, high level, and stability/convective maps. Even if you are not involved in aviation, you will find the radar and forecast maps to be an informative, up-to-date source for the latest weather conditions.

International Flight Services assist private pilots in obtaining international overflight and landing clearances. IFS can also help with the route and itinerary planning of your international trip.

Jeppesen provides these same services to commercial airlines, corporate flight departments, and government agencies worldwide.

Journalism Forum

[Go Now: JFORUM](#)

The Journalism Forum serves the professional journalist with a variety of services and specialized data libraries. The Journalism Forum offers separate data libraries for radio, TV, print and photo/video journalists. In addition, there are data libraries dedicated to jobs listings, freelance opportunities, equipment exchanges, commentary along with a listing of names and phone numbers of proven resources.

Law Enforcement Forum

[Go Now: POLICE](#)

Law Enforcement Forum members share information on all aspects of law enforcement. Professional law enforcement officers as well as those who have an interest in law enforcement and the many fields related to it are welcome in the Forum area. Sections within the Forum area include Block Watch Programs, Community Policing, Gun Issues, Dispatching, Missing/Wanted Persons, Forensic/Scientific and more.

Legal Forum

[Go Now: LAWSIG](#)

If you are an attorney, police officer, corrections officer, paralegal or lay person interested in the law, the Legal Forum is for you. Topics such as copyrights, bankruptcy, software/hardware for the law office, Lexis vs. Westlaw, pros and cons of polygraph tests, fingerprinting children and other law-related subjects are debated.

Media Newsletters

[Go Now: **MEDIANEWS**](#)

Media Newsletters offers the full text of articles from several of the leading newsletters covering the broadcasting and publishing industries. The articles provide facts, figures, analysis and current information on changing market and company conditions, company activities, new products and technologies, and government policies and trade agreements. The title, newsletter name, publisher and date of publication are provided with each text.

Media Services

[Go Now: MEDIA](#)

This section contains the services for people in media including broadcasting, marketing and engineering.

NL Politiek Forum

[Go Now: NLPOLITIEK](#)

This Forum area covers Dutch politics and Netherlands government agencies and their activities. Most messages and library files are available in English as well as Dutch. If you need to know anything about specific government programs, want to contact a Dutch politician online, or are just curious about the Netherlands, the NL Politiek Forum is a good place to start.

NORD Services/Rare Disease Database[Go Now: NORD](#)

The NORD Services/Rare Disease Database provides members with current and accurate information on rare disorders and diseases. Some topics covered include AIDS research, education for handicapped children and information on digestive disease research centers. Members also have access to biomedical literature through MEDLINE and can communicate with other members on various subjects. In addition, a NORD newsletter is available which explains NORD and presents news on the latest rare disease updates and facts. Through NORD's networking program, people with the same orphan disorder can be linked together for mutual support.

Office Automation Forum

[Go Now: OAFORUM](#)

The Office Automation Forum is the place to find services relating to office automation products, trends and technology. Interact with office business managers to get questions answered and solve problems for other members. Libraries contain product information and files that can be downloaded. Vendors including ANGOSS, Franklin Quest, MicroBiz, Open Systems, Prentice Hall Legal & Financial Services, Vertical Technologies and Zipkey offer support and information for their respective business products.

Office Automation Vendor A Forum

[Go Now: OAVENDOR](#)

Office Automation Vendor Forums provide an electronic, worldwide user's group where members can communicate with prominent vendors in the office automation world. Members can post messages to the vendors or access help files, programs, or patches for vendors' products. Libraries contain files devoted to specific software releases, news releases from vendors, and other useful information. Listed below are the vendors represented in the Office Automation Vendor A Forum, along with the main products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Advanced Support Group	Woody's Office Power Pack (WOPR) extensions for Word for Windows

Thunder Island, Inc	bar code, document imaging, and general

VerTec Solutions, Inc

business productivity software and services

"off-the-shelf" and custom integration software packages built around Adobe Systems, Inc.'s technologies; products include VerZions workflow software, TranZform electronic forms software, and RipZ raster image processing software

Vertical Technologies, Inc

bar-code productsrum area.

Visioneer

PaperMax personal scanner and MaxMate document organization software

Office Automation Vendor B Forum

[Go Now: OAVENB](#)

Office Automation Vendor Forums provide an electronic, worldwide user's group where members can communicate with prominent vendors in the office automation world. Members can post messages to the vendors or access help files, programs, or patches for vendors' products. Libraries contain files devoted to specific software releases, news releases from vendors, and other useful information. Listed below are the vendors represented in the Office Automation Vendor B Forum, along with the main products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Franklin Quest

Day Planner time management products and ASCEND personal information and contact manager for Windows and the Mac

PayPlus, Inc

software for the "employee leasing" (professional employer (PEO)) industry

PaperChase

[Go Now: PAPERCHASE](#)

PaperChase, an online information service, helps you search the National Library of Medicines (MEDLINE), Health Planning and Administration (HEALTH), and AIDSLINE databases and the National Cancer Institutes CANCERLIT database. MEDLINE contains over 7,500,000 biomedical references to articles published in 4,000 international journals, covering topics in medicine, surgery, dentistry, nursing, and health care management from 1966 to the present. HEALTH contains over 675,000 references, dating back to 1975, covering topics in hospital administration, personnel, planning, budget matters, accreditation, organization, and other issues involving health care delivery. AIDSLINE contains over 80,000 references, from about 4,000 journals dating back to 1980, that discuss AIDS and related topics. CANCERLIT contains over 950,000 references and abstracts to published cancer literature. Over 10,000 new references are added to PaperChase every week.

Photo Professionals Forum

[Go Now: PHOTOPRO](#)

Facets of the imaging business are discussed in the Photo Professionals Forum. Although the focus is on professionals, anyone with an interest in imaging and the business is invited to participate. Sections within the Forum area include legal issues, copyrights, stock issues, professionals, classifieds, videos, shutterbugs and photo pros.

PR and Marketing Forum

[Go Now: PRSIG](#)

The Public Relations and Marketing Forum provides a special interest group for professional communicators such as public relations, marketing and communications directors or those holding related jobs in the public and private sector. The data libraries cover a wide variety of topics as they relate to PR including government, education, public affairs, financial institutions, consumer affairs, computers, high tech, health/social services and PRSA. The teleconferences enable a member to hear from recognized communications experts. In addition, members can use this Forum area to hold meetings for specific reasons.

Pro Publishing Forum

[Go Now: PROPUB](#)

Professional Publishing Forum members include people who create documents as well as those who produce them, designers of the systems used for these tasks, representatives of vendor organizations, consultants, analysts, and journalists who cover the industry, and others. There is a nominal per month membership fee for admission to this area.

Project and Cost Management Forum

[Go Now: TCMFORUM](#)

Managing a project often involves a chaotic flurry of plans, schedules, budgets and deadlines. The Project and Cost Management Forum offers a place to share project experiences, as well as find help in turning that chaos into a success. Created by AACE International -- the Association for Total Cost Management -- this Forum area has message and library sections on Project Management, Planning & Scheduling, Cost Estimating, Cost & Schedule Control, Value Analysis, and other topics that will appeal to those in information technology, construction and other industries where projects are a way of life. Also offered are ongoing seminar sessions on selected topics, libraries with reference files from various professional associations and more. Whether you re planning on building a house, an international airport or a multimedia production, this Forum area can help you plan and achieve your goal on time, on spec and on budget.

Rotarians Online Forum

[Go Now: ROTARY](#)

Rotarians across the United States can communicate and exchange ideas in the Rotarians Online Forum. This Forum area, sponsored by the International Computer Users Fellowship of Rotary (ICUFR), provides opportunities to discuss the wide variety of services in which the Rotary is involved. Forum members discuss special projects and various club, vocational, community and international service activities. Non-Rotarians are also welcome to join in the discussions and learn more about Rotary.

Safetynet

[Go Now: SAFETYNET](#)

Safetynet is the gathering place for law enforcement officials, firefighters and emergency medical professionals. Those concerned about safety-related issues in their community should join the Safetynet Forum for discussions on timely issues such as chemical and environmental hazards, consumer products, OSHA and law enforcement. Members of safety forces trade on-the-job stories and provide one another with support and information about seminars and workshops.

Telework Europa Forum

[Go Now: TWEUROPA](#)

The Telework Europa Forum covers the various aspects of teleworking in Europe. Individuals and enterprises discuss the empowering technology, markets, events and social changes enabled by telework. European projects such as RACE, ACTS and EUROCONSULT contribute to this Forum area. A section is also available to discuss telecottages with many expert members.

Trainers and Training Forum

[Go Now: TRAINERS](#)

The Trainers and Training Forum is aimed at those involved in training in any way. Perhaps you offer training, need advice on training or are just interested in the subject. The Trainers and Training Forum facilitates international business and training contacts. Members will find trainers, training companies, support services and many others who make up the training world. Real time chat and conferencing capabilities are also available.

Travel Professionals Forum

[Go Now: TRAVPRO](#)

The Travel Professionals Forum is the online place where travel industry pros can discuss current issues without the distraction of the general public looking in or the restrictive environment of being sponsored by a particular industry group. There's no correct attitude here, and except for three clearly marked public sections, no non-industry people either. Message sections and libraries include Travel Agents, Consolidators, Tour Operators, Legislation, Networking, Independent Contractors and Outside Sales Reps, Technology, Airlines, Cruise Issues, CRS Reservations Systems, Associations, Consortiums, and more. There are also private, member-only areas for industry groups such as GIANTS, TRAMS and O.S.S.N. The public areas invite non-industry people to search for travel sellers and to look through special travel bargains and deals discovered by other members.

UK Professionals Forum

[Go Now: UKPROF](#)

Members of a wide variety of occupations in the UK can exchange ideas and information with other members of their profession in the UK Professionals Forum. This Forum area includes message sections and data libraries for a variety of professions including accountants, engineers, company directors, veterinarians and members of the UK police forces. Professionals of all disciplines, both within the UK and from other nations, are invited to join the Forum area and participate in its debates.

Universal Pilot Application Service

[Go Now: UPAS](#)

The Universal Pilot Application Service, Inc. (UPAS) provides all job-seeking pilots the opportunity to gain exposure to companies that are looking for qualified pilots. Simply fill out a Qualifications Summary form that contains a comprehensive synopsis of your employment history and pilot credentials. The information is entered into the UPAS database, printed out and mailed back to you for approval. Once the information has been reviewed and signed off by you for accuracy, the file is activated and eligible for viewing by companies hiring pilots. If you are a subscriber, you will have the ability to go directly into CompuServe and activate your file and, as your credentials change, update your records. Companies interested in hiring pilots can obtain profiles of the aviators whose credentials meet their specific needs.

Women in Aviation Forum

[Go Now: WIAONLINE](#)

Members interested in promoting women in aviation and space fields are welcome in the Women in Aviation Forum. In this Forum area, members share ideas and experiences crucial to the successful recruitment and development of women in aerospace. Each month a woman who has made significant contributions to the aviation industry is profiled. Forum message sections and libraries offer information on career development, jobs, schools and colleges, scholarships and loans, bibliographies and other topics of interest to the amateur and professional aviatrix.

Working From Home Forum

[Go Now: **WORK**](#)

The Working From Home Forum unites those who work from their homes with others who are in similar circumstances. It allows a member to exchange information, make contacts, share resources and solutions to problems, meet other members and keep up-to-date on the latest home/office management tips, resources, laws, tax benefits and marketing approaches.

Reference & Education

Reference & Education services on CompuServe offer not only an extensive reference library that enables you to gather vast amounts of current and historical information quickly and efficiently, but a great deal of information pertinent to students and educators alike. You'll find demographic information; articles from periodicals; directories of products, manufacturers and households; trademark and legal information; government proceedings, information and statistics; consumer information and newsletters. Searchable databases make research a breeze. Articles and other information are available for downloading. Many special interest Forum areas are also available for researchers, students, and educators to exchange ideas on topics of common interest or just make friends.

American Heritage Dictionary

[Go Now: **DICTIONARY**](#)

The American Heritage Dictionary database contains over 200,000 word definitions, place descriptions and people biographies. Often the definition will contain synonyms, antonyms and usage notes. Search the database by entering the word, and if the spelling is unknown, enter the first five characters.

Attention Deficit Disorder Forum

[Go Now: ADD](#)

If you or your child, spouse, co-worker or friend experiences Attention Deficit Disorder (ADD), join the ADD Forum. This Forum area is dedicated to discussions on ADD such as diagnosis, schools, learning, therapy and ADD in the workplace. You can find out where and when support group meetings are held, and question doctors about ADD and its effects. For questions that require immediate attention, an SOS message section is available.

BertelsmannUniversallexikon

[Go Now: BEPLEXIKON](#)

Time-consuming research has been replaced by comfortable online searching at your PC. The Bertelsmann German language encyclopedia comprises about 120,000 words. Members can search online for entries in the fields of science, technology, politics, law, economy, culture, art, history and world politics. Historical data, bibliographies of celebrities and more can now easily be retrieved online. The encyclopedia is updated regularly.

Biz*File

[Go Now: BIZFILE](#)

Need the number of a florist in Miami, Florida, or a list of seafood stores in Halifax, Nova Scotia? Put away those cumbersome yellow books and use Biz*File for access to over 10 million US and Canadian business establishments. Each business is listed by business name, address, telephone number and length of time it has been listed in the yellow pages. You can search the database by company name and geographical location, by telephone number or by type of business. Available 24 hours a day.

Book Review Digest

[Go Now: BOOKREVIEW](#)

Book Review Digest provides references to fiction and nonfiction English language books. Reviews are drawn from American, Canadian and British periodicals covering general and social sciences, humanities and general reference. The digest maintains a full citation and abstract for each book included and is updated twice weekly.

Books in Print

[Go Now: BOOKS](#)

Books in Print enables you to find books distributed in the U.S. for single- or multiple-copy purchase, books currently in print, books to be published in the next six months, and books which went out of print or out of stock in the last two years. You can search by subject, author and title and find information such as: author, title, publisher, date of publication, edition, binding (such as paperback), list price and subject.

British Trade Marks

[Go Now: UKTRADEMARK](#)

The British Trade Marks database contains information on trademarks in the United Kingdom. Updated weekly, the British Trademarks database contains all registered trademarks and pending applications, as well as lapsed trademarks and applications since 1976. The records include the trademark name, design description (graphical display not available), owner name and address, type of product or service, international class numbers and the date and status of the application.

Business Database Plus

[Go Now: BUSDB](#)

Keep current in your field without trips to the library or subscribing to scores of periodicals. Business Database Plus is a service that lets you search for and retrieve full-text articles from more than 500 regional, national and international business and trade publications. BDP gives you seven methods to locate articles that can provide you with sales and marketing ideas, product news, industry trends and analysis. For additional articles, access [Magazine Database Plus](#), [Computer Database Plus](#) and [Health Database Plus](#).

Business Demographics

[Go Now: BUSDEM](#)

Business Demographics Reports are designed to help businesses analyze their markets. Two types of reports are available by various geographical units (including Zip Code, county, Arbitron TV Markets) and Nielsen TV Markets. The Business to Business Report details all major business categories (as represented by SIC codes) by number of employees and state percentage. The Advertisers Service Reports provide employee counts and number of establishments by employee size for retail trade businesses.

CENDATA The Census Bureau Service[Go Now: CENDATA](#)

Now at your fingertips, the U.S. Census Bureau offers its data on manufacturing, housing starts, population, agriculture and more to CompuServe members. CENDATA lists tabular data and reports from the censuses conducted by the Census Bureau including the 1990 Census of Population. Some of the data have been condensed into reports that are available on CENDATA and answer specific questions such as "How many bookstores are in Franklin County, Ohio?" and "What are the occupations with major employment gains for women?" CENDATA also has the latest press releases from the Census Bureau. It even lists the Census Bureau representative in your state.

College and Adult Student Forum

[Go Now: STUFOB](#)

College, graduate and non-traditional students throughout the world meet to share ideas and interests in the College and Adult Student Forum. Topics in the Forum area include admissions, fraternity/sorority, jobs and various academic areas.

Commerce Business Daily

[Go Now: COMBUS](#)

The Commerce Business Daily is a database that includes the full text of U.S. Commerce Department publications listing all significant

Federal contracts

Requests for proposals

Other data related to government contracts.

It is comprised of listings from the *Commerce Business Daily*, published by the U.S. Commerce Department, and from *DMS Bluetops*, published by the Office of the Assistant Secretary of Defense. The database is updated daily and includes only listings from the most recent 90 days. Listings available include a summary of each contract/procurement, the name of the contracting agency, the "Section Heading" or category of the needed product/service, and the date the text was issued.

Consumer Reports

[Go Now: CONSUMER](#)

Before you buy a new car, camera, VCR or other big-ticket item, check it out in Consumer Reports. Automobiles, appliances, electronics/cameras and products for the home are all covered. Easy-to-use reports provide the features to look for, brand ratings and recommendations from Consumers Union. The Automobiles feature allows you to select cars by size, reliability and other important characteristics. Most reports appeared in *Consumer Reports* magazine within the last two years. Reports are added monthly.

Consumer Reports Complete Drug Reference

[Go Now: DRUGS](#)

Find information about prescription and over-the-counter medicines written in everyday language in the Consumer Reports Complete Drug Reference as compiled by the U.S. Pharmacopeia. The database contains over 700 entries, each covering a generic drug or a drug family. Each entry contains a description of the drug, what you need to know before use, the proper use, precautions and side effects of the medicine. Searches are done by entering the common, generic or brand name of the drug. The database is updated quarterly.

Data-Processing Newsletters

[Go Now: DPNEWS](#)

Data-Processing Newsletters is a searchable database providing the full text of articles taken from several of the leading newsletters covering the computer, electronics and telecommunications industries. It gives facts, figures, analysis, and current information on changing market and company conditions, company activities, new products and technologies, government policies and trade agreements.

Demographics

[Go Now: DEMOGRAPHICS](#)

This section enables you to obtain demographic information for any area of the United States. Information includes the population as well as the income, age and race of the residents. The data is based on the 1990 Census and current year and five-year forecasts.

Dissertation Abstracts

[Go Now: DISSERTATION](#)

Dissertation Abstracts provides information on dissertations for academic doctoral degrees at accredited U.S. institutions since 1861, selected masters theses, and dissertations accepted at Canadian and many other non-U.S. institutions. Information on each database entry includes the author, title, date of publication, and the college and degree for which the dissertation was submitted. Abstracts are available online for dissertations added to the database after July 1980.

Education Forum

[Go Now: EDFORUM](#)

The Education Forum is designed to meet the diverse needs of people involved in the teaching and learning process. This includes teachers, parents, students, faculty members and other professionals in the education field. The increasing use of microcomputers and other high technologies in our schools and homes has been a natural topic of discussion in this Forum area.

Education Product A Forum

[Go Now: EDPROA](#)

Education Product Forums provide members with support from a variety of companies and organizations in educational and education-related fields. Members can access support, information and the friendly kind of help you would expect from the education community. Listed below are the vendors represented in Education Product A Forum, along with the main products and services supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Achievement TV	live interactive teleconferences enabling U. S. students to exchange ideas and discuss real-world events with public figures, scientists, explorers, entrepreneurs, and artists
Heritage Administrative Systems, Inc	Administrator's PowerPack integrated administrative software package for small schools; also (acquired from Shenandoah Software) School Ledger Report System and School Accounts Payable
Humanities Software	English and Spanish Language Arts software and multimedia for grades K-12, adults, and special needs audiences, targeted for bilingual classrooms, writing labs, and word processing and keyboarding skills; products include WRITE ON!, STORY TAILOR, KEY WORDS, READ ON!, and MEDIA WEAVER
Laser Learning	interdisciplinary multimedia language arts materials
Mindplay	educational software programs that each includes a Challenge Upgrade feature which enables you to customize the software to suit the needs of the individual student
Pierian Spring Software	curriculum based "content" products for grades K-12 that help students learn the concepts of geography, math, science, and language arts
Quest International	Lions-Quest series of community-based programs providing adults with effective tools for helping youth aged 5-19 develop positive personal and social skills and character traits that work to prevent substance abuse; products include Skills for Living, Skills for Growing, and Skills for Adolescence
Shenandoah Software	see Heritage Administrative Systems, Inc
Surfside Software, Inc	integrated school administration systems for the PC, including The Surfside Solution III, The Surfside Solution - Elementary Edition, and Surfside Compass (a "lite" version for small schools); also, Surfside Beacon voice-mail homework system and The Enforcer III

discipline records system

Ventura Educational Systems

software for active teaching and active learning in math, science, productivity, and creativity, using Mac, DOS, and Apple II computers; products include Hands-On Math Series, Graph Power, HyperCard Projects for Kids, HandiArt for the Creative Teacher, VisiFrog, and The Earthworm

Education Product B Forum

[Go Now: **EDPROB**](#)

Education Product Forums provide members with support from a variety of companies and organizations in educational and education-related fields. Members can access support, information and the friendly kind of help you would expect from the education community. Listed below are the vendors represented in Education Product B Forum, along with the main products and services supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Computer Assisted Learning Center (CALC)

CALC Online Campus (CALCampus)
international online learning center offering courses and tutoring to students of all ages

EDGE Group

online curricula developed to stimulate higher learning skills and enhance independent thinking for students aged 8-14 (grades 3-8), with special emphasis on home schooling
online edition of *Growing Without Schooling*, a bi-monthly publication filled with stories, news and information about learning outside of school

Holt Association

Oak Meadow

home schooling programs and materials for children, parents, and teachers around the world

Sonlight Curriculum

literature-based programs with an international orientation for home school curricula for preschool through high school

Educational Research Forum

[Go Now: **EDRESEARCH**](#)

The Educational Research Forum is for people who are interested in research about the process and products of education. In this Forum area, the latest research findings are shared and compared, and a dialogue is established between researchers and educators in the schools. The Forum area is sponsored by the American Educational Research Association.

Education Week

[Go Now: EDWEEK](#)

This is the online edition of *Education Week*, a newspaper directed at education professionals. Here you'll find all the stories, articles, and other features from the current edition of the paper, an "online bookshelf" where you can purchase education-related books, a jobs listing, and the opportunity to write electronic letters to the editors of *Education Week*. You also have direct access to the [Education Week Forum](#) and to the latest edition of the bi-monthly *Teacher Magazine*.

Education Week Forum

[Go Now: EDWFOR](#)

Members of all education-related professions can discuss issues, events, technology, and techniques in the Education Week Forum. Operated by the publishers of *Education Week* and *Teacher Magazine*, this Forum area includes message sections and file libraries focused on such topics as home schooling and the teaching profession. In addition, there are files with the contents of back issues of both *Education Week* and *Teacher Magazine*.

ERIC - Education Research

[Go Now: ERIC](#)

The Educational Resources Information Center (ERIC) database contains abstracts of articles covering all aspects of education, including vocational education, counseling, teacher education and testing. Information extends back to 1966 and is updated monthly. There are two subfiles within ERIC: the Resources in Education (RIE) file and the Current Index to Journals in Education (CIJE) file. The RIE subfile contains research/technical reports, conference papers and proceedings, program descriptions, opinion papers, bibliographies, reviews, dissertations, teaching and curriculum materials, lesson plans and guides. The CIJE subfile contains abstracts of articles from 750 education-related professional journals. The information available on each article can include the author, title, source publication, publication year and an abstract of the article. ERIC is published by the U.S. Department of Education.

Government Information

[Go Now: GOVERNMENT](#)

This choice give you a menu of information on government services and publications.

Government Publications

[Go Now: GPO](#)

There are two basic parts to this program. The first is a catalog of U.S. government publications, books and subscription services. In addition to providing ordering information, it enables any CompuServe Member with a valid MasterCard or VISA to order online any publication handled by the U.S. Government Printing Office. The orders are compiled and forwarded directly to the U.S. Government Printing Office at least once a week and more frequently as volume dictates. The second part has online consumer information articles from U.S. government publications including articles on personal finance, health and fitness, automotive topics, food preparation and storage, parent and child, energy conservation and consumer notes. The entire database is updated weekly or as important changes occur.

Grolier Encyclopedia

[Go Now: **ENCYCLOPEDIA**](#)

The online edition of Grolier Encyclopedia is filled with the latest in science, technology, politics, business, law, the arts and social sciences as well as the whole range of historical data associated with a top-ranked encyclopedia. This is a general reference source of over 30,000 articles and ten million words that is updated and revised four times a year.

Health Database Plus

[Go Now: HLTDB](#)

Health Database Plus provides information from consumer and professional health, nutrition, and fitness publications. The database makes available the full text of articles from selected non-professional journals published after January 1989, including *Food and Nutrition, Health* and *Psychology Today*. Many synopses with author abstracts are available for articles published in technical and professional journals after June 1989, including *Patient Care, RN* and the *New England Journal of Medicine*. The full text of health related articles taken from a variety of consumer publications since 1983 is also generally available.

Health Database Plus (CIM)

[Go Now: CHL36](#)

Members can now search Health Database Plus more easily and with greater flexibility by using the menu-driven CIM version. The CIM version offers QuickSearch, a guided search conducted by simply entering a word or phrase; Reference Number retrieval, which is used to retrieve articles by their reference numbers; PowerSearch, the "expert mode" which allows various search methods; and Usage Report, a charge summary showing the current session's connect time and article displays/downloads. This product provides CIS members with a Host Micro Interface (HMI)- compatible front end for the existing Health Database Plus product; however, the product can still be accessed through Terminal Emulation or ASCII. Members must use the following versions, or more recent ones, of CIM to access the CIM version of the product: WinCIM 1.2, DOSCIM 2.2.1, MacCIM 2.3.1.

HealthNet[Go Now: HNT](#)

HealthNet is a comprehensive online medical reference source containing a reference library and section about sports medicine. Included in the Reference Library are sections about disorders and diseases, home health care, prescription drugs and eye care. The Sports Medicine section contains information on nutrition, exercise and the benefits of and injuries incurred from some specific sports.

Hutchinson Encyclopedia

[Go Now: HUTCHINSON](#)

The Hutchinson Encyclopedia, the longest-established encyclopedia in Britain, includes more than 34,000 articles. The encyclopedia provides up-to-date, readable articles in non-technical language, with emphasis on what is most relevant for the modern world. The online version of *The Hutchinson Encyclopedia* combines text with nearly 2,500 graphics. Members can enter a search term, which is then searched against the title of each entry in the Encyclopedia.

IBM Special Needs Forum

[Go Now: IBMSPECIAL](#)

As a teacher, parent or student, do you or someone you know have special learning needs? If so, visit the IBM Special Needs Forum which addresses all aspects of special education -- from education of the handicapped to bilingual and vocational education, from K-12 to adult literacy programs. The Forum area includes information on and support of IBM educational programs such as Write to Read, Listen to Learn and PALS, and emphasizes software and hardware for IBM-compatible machines.

Information Please Almanac

[Go Now: GENALMANAC](#)

The Information Please^(R) Almanac, from InfoSoft International, contains subjects ranging from astronomy, to the environment, from nutrition, to world statistics. You can easily explore this wealth of information by entering a keyword, or by using a list of more than 50 pre-defined categories. A variety of charts and tables are available for downloading. Great for reference or just for discovering fun facts.

Information Please Business Almanac[Go Now: BIZALMANAC](#)

Information Please Business Almanac (IPBA) contains useful and interesting facts, rankings, contracts and advice specifically for the business community. IPBA covers over 500 sources and 700 specific topics, including thousands of addresses, phone and fax numbers, and advice on where to find more in-depth information. IPBA includes articles, tables and GIF graphic images of charts. Articles and images are viewable online or downloadable. Tables are downloadable and viewable via your word or text processor. IPBA enables members to browse articles by category or to search them by keyword.

Information Please Sports Almanac

[Go Now: SPORTALMANAC](#)

The 1995 Information Please(R) Sports Almanac (IPSA) captures the highs and lows of the sporting world of the last 12 months and the last 125 years. You ll find full coverage of the year and complete statistics at your fingertip sport by sport, team by team. The 1995 IPSA covers a wide range of interests, from professional football and basketball to the Iditarod and the soap box derby. Each major sport offers a special Through the Years section, providing nearly 125 years of statistics. Essays by top national sportswriters introduce each major sport. The IPSA includes articles, tables, and GIF graphic images.

Information USA

[Go Now: INFOUSA](#)

Information USA contains three sections which provide access to free or nearly free government publications:

How would you like a birthday greeting from the President? Biking and hiking maps from the National Park Service? Information USA tells you how to use the free or nearly free government publications and services that are available. It explains the art of obtaining information from bureaucrats and gives other helpful information that will come in handy when dealing with the government.

Information USA/International lists American Embassies and consulates, potential health hazards and passport information available from the State Department. Travelers benefit from booklets on cost of living overseas, customs, language materials, schools and hospitals.

Information USA/Travel has information available on favorite pastimes such as diving, hiking, camping or visiting historical sites.

Information USA was extracted from the reference book of the same name written by Matthew Lesko.

IQuest InfoCenter

[Go Now: IQUEST](#)

Iquest InfoCenter, CompuServe's online information retrieval service, provides easy access to over 400 databases from companies such as Dialog Information Services Inc., BRS Information Technologies, NewsNet Inc., Data-Star, ORBIT Search Service, H.W. Wilson Company, FT Information Online, Ltd., G. Cam-L'Europeenne De Donnees, Questel Inc. and VU/TEXT Information Services Inc. All types of information are included. From scholarly to popular press, business-related to the obscure, IQuest is the most comprehensive source of online information anywhere. IQuest contains fully indexed historical data and is updated electronically each day. Both bibliographic and full-text documents are available. Source materials include magazines, newspapers, indexes, conference proceedings, directories, books, newsletters, government documents, dissertations, encyclopedias, patent records and reference guides. All IQuest databases are accessible via the same easy-to-use, menu-driven format. No training is required. IQuest offers three simple ways to retrieve information:

IQuest-I will choose the appropriate database once a member has selected a topic.

IQuest-II allows a member to go directly to a specified database.

Smart-SCAN searches multiple databases.

Online real-time help is available in IQuest by typing SOS.

IQuest Technology InfoCenter

[Go Now: IQTECHNOLOGY](#)

IQuest Technology InfoCenter provides access to key databases containing information on virtually every aspect of computers and technology including research, hardware and software, telecommunications, computer news and more. These databases are comprised of information from journals, books, government publications, special reports and many other published sources. The IQuest Technology InfoCenters Main Menu offers several broad subject categories detailing the technology-related topics that IQuest databases cover. You can also access the full IQuest service for access to databases covering other subject areas. IQuest features three types of information: references, abstracts and full texts. References provide complete bibliographic information for a publication including title, author, publication and date. This information can then be used to locate the full work from a library or other source. Abstracts provide basic bibliographic information as well as a textual summary. Full text databases, on the other hand, provide access to the entire text of the record (excluding graphs, charts and other non-textual items) but are often narrower in scope than bibliographic databases. Please note that these are general categories; the specific information that is available varies from database to database. IQuest is available 24 hours a day, 365 days a year. However, some of the individual databases may not be available at a given time due to scheduled updates on the part of the information providers.

IQuest Education InfoCenter

[Go Now: IQEDUCATION](#)

Use the IQuest Education InfoCenter as an online reference tool to find information such as education theory and research, testing and vocational training. InfoCenter databases provide access to information extracted from published sources such as journals, books and government publications about education.

Kids Student Forum

[Go Now: STUFOC](#)

Kids Student Forum, for kids 12 and younger, offers kids a chance to talk to one another. The forum offers chat rooms designated by age group. Sections in the forum include Let s Be Friends, When I Grow Up, The Silly Place and other topics.

KNOWLEDGE INDEX

[Go Now: KI](#)

KNOWLEDGE INDEX enables you to access over 50,000 journals through more than 100 full text and bibliographic databases available through Dialog. KNOWLEDGE INDEX provides access to three types of databases: bibliographic, full text and directory. Search the databases with commands or through menu options; you need to know only the database names and the search terms. Often you can retrieve the full article; otherwise you can arrange to have the full text sent to you. This service is accessible evenings and weekends only.

Legal Research Center

[Go Now: LEGALRC](#)

The Legal Research Center provides access to seven databases containing:

Indices to articles from more than 750 law journals

Indices to publications, studies, and other sources covering practical and theoretical aspects of criminal justice, criminology, and law enforcement

Summaries of legislative, regulatory, judicial and policy documents covering federal taxation; major legal issues in banking and finance

Indices to child abuse information sources

Databases included are American Banker Full Text, Child Abuse and Neglect (published by the U.S. Department of Health and Human Services), Congressional Information Services, Criminal Justice Periodical Index, Legal Resource Index, National Criminal Justice Reference Service (published by the U.S. Department of Justice), and Tax Notes Today.

Macmillan Computer Publishing

[Go Now: PHCP](#)

Macmillan, publisher of a variety of computer books and software, provides the Macmillan Computer Publishing Forum to answer questions about its products and provide downloadable files for technical support. Macmillan products are published under names such as Que, Brady, Alpha Books, Hayden Books, Sams Publishing and New Riders Publishing (NRP).

Magazine Database Plus

[Go Now: MAGDB](#)

Find full-text magazine articles in more than 90 publications in Magazine Database Plus. This valuable research tool offers many advantages over your local library because the Database gives you six different methods of finding an article, magazines cannot be vandalized, and you don't have to leave the comfort of your own home or office. For additional online magazine articles, see [Business Database Plus](#), [Computer Database Plus](#) and [Health Database Plus](#).

**Marketing/Management
Research Center**

[Go Now: MGMTRC](#)

The Marketing/Management Research Center offers access to nine databases containing:

Indices and full text of major U.S. and international business, management and technical magazines

Indices to market and industry research reports, market studies and statistical reports

U.S. and international company news releases.

Conduct marketing and management research using key word searches in databases such as ABI/INFORM, Findex, FINIS, Industry Data Sources, Infomat International Business, McGraw-Hill Publications Online, PTS MARS, PTS New Product Announcements, and PTS PROMT.

Marquis Who's Who

[Go Now: BIOGRAPHY](#)

The Marquis Who's Who database provides information on key North American professionals, obtained primarily directly from the subject. The information includes the subject's name; occupation; date and location of birth; name of spouse and names of parents and children; education; positions held during career; civic, military and political activities; memberships; awards; and other organizational affiliations.

National Geographic Teachers Forum

[Go Now: TEACH](#)

Geography teachers can bring the world of the National Geographic Society into their classrooms with the lessons and other information available in the National Geographic Teachers Forum. Ideas and information are organized according to grade level, with special emphasis on the National Geography Standards. One special feature of this Forum area is the Maps Library, with up-to-date political maps ready to download and print on 8.5x11 paper.

**NTIS-Government
Sponsored Research**

[Go Now: NTIS](#)

National Technical Information Service offers a database of references to articles from government-sponsored research, development and engineering reports. Information available on each article can include the title, author, corporate source, sponsor, report number, publication year, contract number and abstract. The database is updated every two weeks and includes information from 1970 to the present.

Patent Research Center

[Go Now: PATENT](#)

The Patent Research Center provides access to databases containing:

Summaries of U.S. patents granted in chemical, mechanical, electrical and design categories

Summaries of patents granted internationally.

Conduct research on patents listed in the Claims/U.S. Patent Abstracts (1950 to present) and the World Patents Index (1963 to present).

Peterson's College Database

[Go Now: PETERSON](#)

Peterson's College Database offers members a comprehensive database that contains detailed descriptions of over 4,000 accredited or approved U.S. and Canadian colleges that grant associate and/or bachelor degrees. Members may search colleges by characteristics or college name/location. The guide will also give you in-depth information about specific aspects of any college you choose.

Phone*File

[Go Now: **PHONEFILE**](#)

Want to find your college roommate or a long lost relative? Phone*File contains the names, addresses and phone numbers of more than 75 million US households. Relatives and friends across the nation are easy to find by searching the database by name and address; surname plus state, city and zip code or telephone number. Phone*File can be a cost-effective way of acquiring addresses and phone numbers.

\$

Physicians Data Query

[Go Now: PDQ](#)

Physicians Data Query accesses four databases published by the National Cancer Institute. One database contains material written for the lay person covering more than 80 cancer types, providing information on treatment alternatives, stage expectations and general prognoses. Another is written for health care providers, making current information on most major cancers available, such as prognoses, stage-of-growth classifications with treatment options, and extensive bibliographies for further research. A directory database contains organizational and physician listings, with names, addresses, and other information provided for cancer centers, programs and specialists. A protocol database contains the treatments and medications used for different cancers.

PsycINFO-Psychological Abstracts

[Go Now: PSYCINFO](#)

The PsycINFO database provides abstracts of articles from international literature in psychology and behavioral sciences. The articles cover applied, developmental, general and experimental psychology, communications systems, education, personal and professional issues, psychometrics, treatment and prevention, social processes and issues and more. Information on each article can include the authors, title, journal name, language, date of publication and abstract. The database is published by the American Psychological Association.

Science/Math Education Forum

[Go Now: SCIENCE](#)

This Forum area serves a variety of needs for science educators, students and others with interests in science and science education. It includes a large data library of software that can be downloaded into class and home computers. Plus, this Forum area contains practice problems for science and math college boards.

S-Net Students Network

[Go Now: STUDENT](#)

This menu offers access to all the Forum areas operated by S-Net: [Kids Student Forum](#), [Teen Student Forum](#), [College and Adult Student Forum](#), and MBA Forum (GO MBAFORUM)

SUPERSITE

[Go Now: SUPERSITE](#)

SUPERSITE demographic information from CACI is available for the entire U.S. and every state, county, SMSA, Arbitron TV Market (ADI), Nielsen TV Market (DMA), Place, Census Tract, Minor Civil Division (MCD) and geometric definition by circle and zip code in the United States. Demographic reports are provided covering general demographics, income, housing, education, employment and current and five-year forecasts. In addition, sales potential reports for major types of retail stores can be generated. ACORN (A Classification of Residential Neighborhoods) Target Marketing profiles and potentials are also available. ACORN classifies all households in the U.S. into 44 market segments based on the demographic, socioeconomic and housing characteristics of the neighborhoods. The ACORN Market Potential Reports are created by linking the ACORN clusters to syndicated national surveys. Each report in SUPERSITE is surcharged, and you will be shown the cost of your requested reports before they are run to give you the opportunity to cancel the run before incurring any surcharges. An 80-column printer is needed for printing reports. Sample reports are available at no surcharge. Updated annually.

SYBEX Publishing Forum

[Go Now: SYBEX](#)

To get the most out of your software and hardware, browse the SYBEX Publishing Forum. SYBEX produces books that teach computer users about software and hardware. In this Forum area, discuss SYBEX books, exchange tips and tricks, and offer comments to SYBEX authors. Explore the message sections which include information on word processing, spreadsheets, databases, desktop publishing, programming software, games and more. Access the library and have utilities, learning aids and software at your fingertips.

Teen Student Forum

[Go Now: **STUFOA**](#)

Teens can share their ideas and interests with other students around the world in the Teen Student Forum. Sections in the forum include girl talk, guy talk, homeschool link, teen global village, homework help and more to make your student life complete.

TRADEMARKSCAN

[Go Now: **TRADERC**](#)

Trying to come up with a new trademark? TRADEMARKSCAN enables you to scan for existing and pending trademark registrations in all 50 states, plus Puerto Rico. The service consists of two databases. The U.S. Federal database provides access to over one million records filed with the U.S. Patent and Trademark Office and is updated two times a week. The U.S. State database contains trademark registration information from Secretaries of State offices throughout the country.

**US-State-County Zip Code
Report (Neighborhood)**

[Go Now: USSTCN](#)

The US-State-County-Zip Code Demographic Profiles provide summaries of the demographic makeup of the entire United States, any state, county or zip code. The profile gives population data, race and age breakdowns, household income distribution, types of households and occupations of residents in the defined area. In addition, the status of occupied housing, average home value and rent and the age of housing structures are reported. The US-State-County-Zip Code Profiles carry a surcharge per report. US-State-County-Zip Code Reports are provided by CACI Marketing Systems. An 80-column printer is needed for printing reports. Updated annually.

Media services on CompuServe include products that enable you to communicate with other CompuServe members and view or download articles and photos from the online editions of many popular magazines. For example, you can use CompuServe Mail to send e-mail messages, files, and fax to almost anyone with an electronic mailbox, Forum areas to participate in discussions on specific topics, and Chat (CB) to converse in real-time with other CompuServe members around the world.. Current editions of magazines are often available on CompuServe before they hit the news stands, and many of the magazines operate their own Forum areas. CompuServe's Media services offer unlimited opportunities for you to get answers to your questions, learn what's happening all over the world, keep up with old friends, and make new ones.

Automobile Live

[Go Now: AUTOLIVE](#)

Access Automobile Live to talk about cars, the people who drive them and the people who make them, and to acquire news on everything from new cars to race dates. *Automobile Magazine* features automobiles that are in some way special in performance, appearance or technical specification and the motto is No boring cars. Automobile Live offers many features including stories and photos from the current months issue of *Automobile Magazine*, a Forum area for chatting with *Automobile Magazine* editors and other car enthusiasts (GO AUTOFORUM), celebrity interviews, news from Detroit, a buyers guide, letters to the editor, and coming attractions.

BRW Online[Go Now: BRW](#)

To keep up with business throughout the South Pacific, use the online edition of *Business Review Weekly*. Here you'll find the latest issue of the magazine, along with the opportunity to write e-mail to the editors and participate in regular surveys. You also have direct access to BRW's sister publication, *Personal Investment Magazine* (GO PIM) and to the BRW Publications Forum (GO BRWFORUM), where you can communicate directly with the editors and writers of both magazines.

Business Start-Ups Online

[Go Now: BSUMAGAZINE](#)

Business Start-Ups Online, from *Business Start-Ups Magazine*, offers feature articles online, as well as special options which let you find the articles you want at the click of the button. These special search options include Starting Smart, Sales and Marketing, Home Front, Money Matters and Computer Ease. You can also write letters to the editor and view all pictures present and past.

Calling Card Services

[Go Now: CALLCARD](#)

Travelling CompuServe members don't even need a computer to use the CompuServe Calling Card. At any touchtone telephone, you can listen to your voice mail and to voice copies of your e-mail, forward messages to a fax machine, and participate in conference calls. If you have a pager, you can even receive notification when a new message arrives at your online mailbox. GO CALLCARD to get your calling card right away!

**CCM (Christian Contemporary
Music Magazine) Forum**

[Go Now: CCMUSIC](#)

CCM (Christian Contemporary Music Magazine) Forum members can send messages to the magazine staff or exchange messages with other members. Critics' reviews of the latest Christian contemporary albums can be found in the library.

Chat (CB Simulator)

[Go Now: CHAT](#)

CompuServe's CB Simulator is an electronic conferencing program. You can converse with other people around the world by typing your comments at your keyboard and reading their comments on your screen. Chat offers special "channels" for people with a wide variety of lifestyles and interests.

Chat Adult Bands

[Go Now: CB-2](#)

Access the Adult Bands (in addition to CB-2 listed above, you can also use GO CB-3 to access the second Adult Band) and participate in any of the channels hosting adult-related discussions such as gender alternatives and alternative lifestyles. If you are new to Chat on CompuServe, access the [General Band](#) Channel 2 for help and information. The adult bands are only for members 18 years and older.

Chat Forum

[Go Now: CHATFORUM](#)

Join one of the friendliest communities online -- the Chat Forum. Feel free to prop your feet up, relax and have fun. People from all over the world are waiting to meet you. Check out the Gallery Libraries. You will be surprised at all the color photos and video clips members have sent in.

Chat General Band

[Go Now: CB-1](#)

The General Band hosts 36 channels for communications on general interest subjects such as a welcome to CompuServe Chat, poetry reading, hospitality suite and teen talk. If you are new to the world of Chat, visit the Newcomer channel, Channel 2. There you will find Chat helpers available between 6 p.m. and 2 a.m. Eastern Time (11 p.m. and 7 a.m. GMT).

Chat Profiles

[Go Now: CBPROFILES](#)

Learn more about your friends on Chat by checking the Chat Profiles. Your Chat Profile contains your handle (reserved handle if you are a Chat Club member), User ID, age, city and state, the computer you are using, occupation and interests. Once your Chat Profile is installed in the database, it is available for others to read whenever you are on Chat.

CompuServe Magazine

[Go Now: **COMPUMAG**](#)

CompuServe Magazine gives you an electronic version of our monthly publication. Read the current and past issues, get information from our advertisers, and get important subscriber information. Here you will also find the Online Today daily edition for up-to-date industry news.

CompuServe Mail

[Go Now: MAIL](#)

CompuServe Mail is CompuServe's electronic mail service. It gives you the opportunity to communicate not only with any CompuServe Information Service member, but also with most users of Internet (a group of university and government networks), MCIMail, AT&TMail 400, Western Union 400, Advantis, Uniscource arCom, British Telecom Messaging Services, Nifty-Serve, Deutsche Bundespost, Infonet, Sprint Mail, NetWare MHS Local Area Network, Lotus cc:Mail or Notes. You can also communicate with persons around the world with a postal address, Group 3 fax machine (must be available via direct dial) and any telex machine. When you send faxes or telexes, you'll receive e-mail notification when your message is delivered (or notification of failure to deliver). You can also send all types of files through CompuServe Mail. Besides text messages, you can upload and send binary files, such as spreadsheets, graphics, worksheets and word processor documents in their native format to any CompuServe member. You also have the ability to download any of your mail messages and file them. If you request a receipt when you send a message, you will receive e-mail notification when the message has been retrieved by the recipient. CompuServe Mail has an electronic address book to store the names and mailing addresses of the people to whom you send messages. For detailed information about CompuServe Mail, including instructions and rates, GO MAILHELP.

CompuServe Mail Hub

[Go Now: MHS](#)

The CompuServe Mail Hub is a global message exchange facility which gives NetWare MHS users and cc:Mail users (either on Local Area Networks or on stand-alones) the ability to communicate with each other without having to dial each individual MHS site directly. The hub links people who use MHS e-mail packages such as Beyond, DaVinci, ExpressIt!, MailMAN, Notework, Powercore and Team as well as cc:Mail. The hub also allows the exchange of messages with any CompuServe member and with subscribers to other interconnected mail services such as Advantis (IBM Mail), AT&T Mail 400, Deutsche BundePost, Fax, Internet, MCI Mail, Nifty-Serve, SprintMail, Western Union 400, UniSource arCOM, British Telecom Messaging Services and Infonet. CompuServe is continually reviewing connections and adding new mail services to expand your mailing network. To register your MHS network, access the CompuServe Mail Hub.

CONGRESSgrams

[Go Now: CONGRESS](#)

If you want to send your opinions or views to members of the United States Congress or to the President or Vice President of the United States, use the CONGRESSgram feature of CompuServe Mail. Your letter is printed on paper, placed in an envelope and mailed to the recipient who usually receives it the next day. You can also use the Congressional database to look up information about any United States Congressman. Each listing includes committee assignments, hometown, party affiliation and phone number.

Convention Center

[Go Now: CONVENTION](#)

The CompuServe Convention Center is the online meeting place where live conferences are conducted for thousands of attendees who can listen to the speaker and queue up to ask questions. You can view information on scheduled conferences and decide if you would like to attend. Information about each conference is displayed: general description, conference type, date and time, and expected length.

Cupcake's Chat (CB) Society Column

[Go Now: CUPCAKE](#)

Cupcake is our resident society columnist. Here's where you can get the scoop on the latest party, who's engaged, who's new and what's happening.

DER SPIEGEL Forum

[Go Now: SPIEGEL](#)

Access full-text articles and interact with the editors of Germany's leading weekly news magazine *DER SPIEGEL*. This German language service gives you access to the magazine's articles two days before they hit the newsstand. Articles from past issues and files containing the magazine's graphics and charts are available. Message sections cover such topics as SPIEGEL this week, Germany, economy, culture, foreign countries, media/communication, science/technology, SPIEGEL TV and SPIEGEL special edition. English-speaking members will be able to access English-language articles in the Library 1, "SPIEGEL diese Woche." Check the News Flash for announcements of upcoming conferences.

Document Translation

[Go Now: TRANSLATE](#)

CompuServe's Document Translation Service (CDTS) provides a way to have letters, articles, mail messages, or business documents translated from English into French, German, or Spanish, or translated from French, German, or Spanish into English. CDTS maintains four language versions and offers two levels of translation to meet your needs. The cost for translations varies according to the level of translation quality desired. All translated documents are delivered to your CompuServe mailbox upon completion, usually within 24 hours.

Entrepreneur Magazine Online

[Go Now: ENTMAGAZINE](#)

Entrepreneur Magazine Online offers the content of *Entrepreneur Magazines* current issue to you online. The graphical main menu also offers special search icons which enable you to retrieve the articles which pertain to a particular topic of interest. There are search icons for technology, money management, marketing and government. You can also send a letter to *Entrepreneur Magazines* editors and view current and past photographs.

**Entrepreneur Magazines
Small Business Square**

[Go Now: BIZSQUARE](#)

Entrepreneur Magazines Small Business Square provides a graphical menu of daily business insider information. You can take part in polls, access a resource center, contact *Entrepreneur Magazine*, *Entrepreneur Magazine* or *Business Start-Ups Magazine*, obtain free information about franchises and other business opportunities, and link to The Entrepreneur's Forum (GO SMALLB) or to the magazine's kiosk in the Electronic Mall.

Forbes

[Go Now: FORBES](#)

Forbes Online, published by Forbes Inc., contains the full text and selected photos and charts from *Forbes* magazine. The magazines current issue and the immediate past issues are available. Forbes Online also features searchable versions of the Forbes Lists, including the Forbes 500s, the Forbes 400 Richest Americans List and The Forbes Survey of American Industry. The Forbes Forum offers an opportunity for readers to comment and communicate about issues raised in *Forbes* and other shared interests.

FORTUNE on CompuServe

[Go Now: FORTUNE](#)

FORTUNE on CompuServe makes it easy for members to put *FORTUNE* magazine to work for them. FORTUNE on CompuServe provides members with services such as:

FORTUNE Forum (GO FFORUM) - Members can communicate and trade ideas with other businesspeople from around the world as well as *FORTUNE*'s editors, writers and reporters. Members can also review the latest financial and business software tools.

FORTUNE 500 Lists - Members can access the FORTUNE 500 top industrial companies, the FORTUNE Service 500 and America's Most Admired Corporations. Or, members can download the information and organize the lists to fit individual needs.

Personal Investing - Members can participate in online polls, question the featured portfolio manager and find advice on managing their own investment portfolios.

Current and Back Issues - Members can access each new issue including graphs and photos. Members can also search through eight years of *FORTUNE* back issues.

FORTUNEs Daily Online Report

[Go Now: FDAILY](#)

Each business day FORTUNEs Daily Online Report recaps events on Wall Street and in the economy, looks ahead to business news and brings you commentary on key trends by *FORTUNE* editors.

Forum Areas (SIGs)

[Go Now: FORUMS](#)

Forums are places where people of similar interests can exchange information, participate in discussions in real-time conferences or share software programs. There are three types of forums:

computer Forums where you will find experts to solve problems or exchange technical ideas about computers

professional Forums geared to specific professions like medicine or law

general interest Forums where people with similar interests or hobbies exchange ideas or information

All Forum areas have a similar structure and use the same commands. They are run by one or more Forum Administrators (known as sysops, short for system operators) who are experts in Forum activities and in the particular Forum areas subject matter. Most sysops prefer that you use your full name, and they do not tolerate disruptive behavior. Forum areas have three main parts:

message sections containing hundreds of messages placed there by members

libraries containing text files and software programs, transcripts of conferences and essays

conference rooms where members get together for real-time conversation. Conference rooms are similar to Chat channels.

For more information on forums and how to use Forum commands, stop by the [Practice Forum](#).

IndustryWeek Interactive

[Go Now: INDWEEK](#)

Developing management solutions through interactive discussion of both real and hypothetical business problems is the focus of IndustryWeek Interactive's Virtual Organization Forum (GO IWFOR). Sections in the forum are arranged by job function, offering members the feel of cross-functional communication typified by the virtual corporation. IndustryWeek Interactive also offers all major features from the current issue of the magazine, the opportunity to send letters to the editor, a searchable archive of back issues and a store in the Electronic Mall. The Management Challenge, which features a biweekly hot discussion topic, is also accessible from the main menu.

LExpress Online

[Go Now: LEXPRESS](#)

The French magazine, *LExpress*, offers an electronic weekly edition of all its main features and articles, as well as archives of earlier editions. Members can also access the LExpress Forum to communicate with others worldwide on topics developed by *LExpress* journalists.

Le Monde Archives

[Go Now: LEMONDE](#)

Members can access Le Monde Archives to find a compilation of 200,000 articles written in the French language. The articles date back to 1987. Topics covered include politics, social events, economy, sports and arts.

Macleans Online

[Go Now: MACLEANS](#)

Macleans Online, the interactive service of Canadas national weekly news magazine, offers a mix of Canadian and international news, business coverage, features, entertainment reporting and reviews. In addition to coverage of Canadian issues, youll find articles about everything from backcountry skiing in the Rockies to the latest medical breakthroughs in the fight against cancer. Macleans Online offers articles, photos, charts and graphics from the current issue. You can also share your opinion on the issues of the day in the Macleans Online Forum (GO MCFORUM). The Forum area offers an opportunity to communicate directly with the magazines editorial staff and with other readers. Additional information about stories in the news and a wide range of related public documents are also available.

Membership Directory

[Go Now: DIRECTORY](#)

This directory enables you to search for other CompuServe members by name. All members are included in the Directory of Members, unless they specifically request exclusion. Now you can obtain the User ID numbers of other members and easily communicate with them via CompuServe Mail or through our other online communication services.

Mobile Connection

[Go Now: MOBILE](#)

The Mobile Connection is your single source for everything related to mobile communications on CompuServe. It offers direct access to all the Forum areas that support hardware and software for mobile devices and to CompuServe services that can help you communicate on the road, a link to the latest industry news, links to the hottest mobile-related Web sites, and links to CompuServe's mobile communications partners.

Multimedia World Online

[Go Now: MMW](#)

Ready to get serious with your CD-ROM? Visit the online edition of *Multimedia World* magazine, the online mecca for multimedia news and support. You don't need an appointment to solve performance and upgrade problems at MMW's clinics. And you won't find a printed periodical that keeps you so up-to-the-minute on multimedia technology. MMW takes multimedia as seriously as you do, catering to every facet of the multimedia experience and covering all kinds of multimedia products: PC systems, speakers, printers, CD-ROMs, and digicams.

New York Magazine Online

[Go Now: NYMAG](#)

New York Magazine Online offers access to *New York* magazine articles and so much more. Members can:

access searchable guides to entertainment, movies, restaurants and the arts in New York City.

access and respond to personal ads from men and women.

find information on whats happening in the next 24 hours in New York including not only upcoming events but also the weather and traffic information.

access the New York Magazine Forum (GO NYFORUM). whose members can talk with editors and writers from the magazine and other people interested in New York City.

Pager Services

[Go Now: **PAGER**](#)

You can use your pager to receive e-mail (or notification of e-mail, if it's a numeric pager), pages from all over the world to your CompuServe address, stock price updates and company news, sports scores, and news alerts on competitors and partners. All you have to do is register your pager with CompuServe and set up the Smart Rules that determine what your pager receives and when.

Participate

[Go Now: PARTI](#)

Want to start your own ad hoc group discussion about a particular topic? Then GO PARTI to access Participate, a member-controlled messaging system where you lead the discussion and choose the participants. The way Participate works is unique, so be sure to read the available online help files.

People Forum

[Go Now: PEOFRM](#)

The People Forum includes discussions of hot topics, special quicktime and sound files, popular photos, regular conferences and more. Run by *People Weekly*, this Forum area is the place to meet and discuss the latest in the magazine, or what's being covered in the press at this moment.

People Magazine Daily Edition

[Go Now: PEOTDY](#)

People Magazine Daily Edition includes items of late-breaking interest and special value. The daily edition enables you to find out the latest about a celebrity or what's going on in the news.

People Online

[Go Now: PEOPLE](#)

People Online, sponsored by *People Weekly* magazine, offers members a suite of products including each week's full text of *People Weekly*, a searchable database of past issues, the People Forum, People Daily news items, images from the pages of *People Weekly*, Reporter's Notebook, One Man Show and more. Many of the products include content not available in the print version of the magazine.

People This Week's Issue

[Go Now: NEWPEO](#)

People This Week's Issue contains the full text of *People Weekly*, including all the text articles, letters and your favorite departments, such as Passages, Picks & Pans and Chatter. Plus, read the Reporter's Notebook for stories not in the print version of the magazine.

Personal Investment

[Go Now: PIM](#)

Personal Investment Magazine is the magazine for the serious investor in Australia and New Zealand. This is the online version of the magazine, with articles, charts, and photos from the latest issue available for reading or downloading. You can write e-mail to the editors and participate in regular surveys. You also have direct access to PIM's sister publications service, [Business Review Online](#) and to the BRW Publications Forum (GO BRWFORUM), where you can communicate directly with the editors and writers of both magazines.

Rolling Stone Online

[Go Now: RSONLINE](#)

Rolling Stone Online is not the *Rolling Stone* you re used to reading on the printed page. Rolling Stone Online offers:

an electronic adjunct to the current cover story in *Rolling Stone* magazine, including exclusive photos, sound samples, video, biographical information and more

capsule reviews of todays hottest pop recordings, as well as a searchable archive of past reviews

fresh news stories or photos, every day, five days a week

the table of contents for the current issue of *Rolling Stone* magazine along with its illustrations

the RS Forum (GO RSFORUM) where members can discuss every music genre and topic imaginable, plus equally diverse libraries featuring sound samples, photos, video and multimedia on todays top artists and movies

access to Rolling Stones Concert Connection, where you ll find searchable databases of worldwide concert touring information, artist and tour news and a directory of regular and electronic mailing addresses for your favorite performers

Ñ The Week in Rock & Roll photo gallery created by the RS Photo Department, portfolios by RS Staff Photographers, concert shots, photos from rock & roll history and a weekly quiz with weekly prizes!

Selling Online Forum

[Go Now: **SELLING**](#)

Selling Online Forum offers more than just a chance to read an electronic version of the newsstand magazine. Selling Online Forum members discuss the issues surrounding the modern sales profession. Salespeople from all industries can compare notes on everything from cold calling to compensation. The library contains articles from previous issues of *Selling* as well as software demos.

VocalTec Internet Phone

[Go Now: VOCALTEC](#)

Looking for inexpensive worldwide voice communications through the Internet? If you have a PC with a soundcard, a microphone, and VocalTec's Internet Phone software, all you need to do is arrange a time and you can talk to anyone else who has the same equipment. Just connect your PC to the Internet through CompuServe and run the Internet Phone software.

White House Mail

[Go Now: PRESMAIL](#)

Members can send an electronic message to either the President or Vice-President of the United States. The message will be sent in a format that has been predefined by the White House. Members will be asked for their full name, postal address, subject of the message and their role as the letter writer. An acknowledgement will be sent to the members when the White House has received the message. Any member requesting a file copy of his or her message will incur a nominal charge.

Windows Magazine Showroom

[Go Now: WINSHOW](#)

Windows Magazine Showroom is filled with PC product demos you can download at the click of a button. Want to try before you buy? Hit the Demo button and download a trial version of a hot, new software or hardware product. You can also access the Windows Magazine Forum (GO WINMAG) from the showroom.

[Go Now: UKREST](#)

Visit the AA Restaurants section of [UK Travel](#) for listings and reviews of United Kingdom restaurants. Only restaurants receiving an AA-rating from an independent inspector are included.

AA Roadwatch

[Go Now: AAROADWATCH](#)

AA Roadwatch provides time-sensitive information for the UK motoring public. Real-time reports on traffic hold-ups, road work, and public transportation across the UK are included.

Adventures in Travel

[Go Now: AIT](#)

Adventures in Travel contains travel articles covering all aspects of travel all over the world. Articles are written by travel writer Lee Foster and other professional travel writers. New articles appear every two weeks, and you can also read articles from previous weeks. Updated twice a month.

Air Canada Forum

[Go Now: AIRCANADA](#)

The Air Canada Forum offers a complete description of the wide range of services offered by Air Canada, including the entire flight schedule. You can also find fleet statistics and even download pictures of Air Canada aircraft. Travelers and aviation fans alike will find interesting and useful tips. Whether you are planning a vacation or business trip, searching for the latest Aeroplan promotions or simply want to learn more about Air Canada, you have found the right place.

Air Information/Reservations

[Go Now: **FLIGHTS**](#)

Air Information/Reservations contains EAASY SABRE, EAASY SABRE (CIM), the Official Airline Guide Electronic Edition Travel Service, WORLDSPAN Travelshopper and WORLDSPAN Travelshopper (CIM). Each offers complete schedule and fare information for all commercial flights throughout the world. When using any of these products, you will be asked for your departure and destination cities and your date of travel. All systems offer reservations and ticketing options as well as other travel information.

Belgium Forum

[Go Now: BELFORUM](#)

The Belgium Forum offers a "slice of Belgium" on CompuServe where not only Belgians, but anyone, anywhere can feel at home. The Belgium Forum offers sections in Belgium's two national languages Dutch and French, as well as English. This is the place to get in touch with Belgian CompuServe members or anyone interested in Belgium.

California Forum

[Go Now: CALFORUM](#)

Enjoy online sunshine with the California Forum! Join the daily happy hour or the weekly poolside chat in the Forum's conference sections. Find out the latest happenings in every corner of California, from the redwoods to San Diego. Discuss politics, touring and sports with California natives and California lovers in the California Forum.

Canada Forum

[Go Now: **CDNFOR**](#)

Whether you want to learn more about Canada, discuss issues in Canadian culture and politics, or plan a trip to Canada, the Canada Forum is the place to visit. Canada Forum members discuss business, sports, recreation, travel, the arts, and Canada's role in world politics. There are also message areas for each province and territory.

Caribbean Travel Forum

[Go Now: CARIBFORUM](#)

Visit the Caribbean Travel Forum when you want to talk about this most relaxing corner of the world. Discover helpful tips about the many different island nations and the distinct culture and tourism facilities and activities that each offers. Whether you are interested in Bermuda, The Bahamas, Puerto Rico, Jamaica, Dominican Republic, the United States or British Virgin Islands, or any of countless other destinations, you are sure to find information that will enhance your vacation and save you money. There are even sections for barefooting, boating, yachting, sailing and just talking about Caribbean tourism in general.

Complete Guide to America's National Parks

[Go Now: NPF](#)

If you plan to share in America's natural treasures by visiting a national park, first visit the Complete Guide to America's National Parks. This service, provided by the National Park Foundation, offers a wealth of detail about each of the hundreds of national parks, national trails, national forests, and other sites maintained by the U.S. National Park Service. You can use it to find out what to see and what to do at each site, as well as everything you need to know about camping and lodging, permits and fees, peak travel times and park safety, and much more. There are even national and regional maps to show you how to get to your destination and where you might go for lodgings. No other resource -- online or off -- offers so much in-depth information. You can use NPF as your handy guide for a day trip or as a complete reference for planning the vacation of a lifetime.

Department of State Advisories

[Go Now: STATE](#)

The United States Department of State's Citizen Emergency Center maintains a continuously updated information service for Americans traveling abroad. Advisories and warnings cover conditions such as warfare, political unrest, hotel/motel shortages, currency regulations and other information of interest to the globe-trotting traveler. Updated constantly by the Department of State.

Deutschland Info Forum

[Go Now: INFOGER](#)

Access news and information about Germany in this German Forum area. Information available includes official releases of the State Department, traveling advice, and much more.

Deutschland Online Forum

[Go Now: GERLINE](#)

Are you interested in what's going on in Germany? Check out the latests news about politics, economics, society, sports, law, travel or media. Download interesting shareware programs or upload your contribution to the libraries. Meet people from all over Germany or German-speaking members from all over the world.

easySABRE[Go Now: SABRE](#)

easySABRE, the travel reservation system from American Airlines, provides flight schedules for almost all commercial airlines, information on more than 45 million airfares and access to more than 27,000 hotels and 52 car rental agencies. You can use easySABRE to find the fastest route to a destination, check weather reports and AAdvantage travel awards and take advantage of the lowest airfares with the Bargain Finder feature. After confirming airline, hotel and car reservations online, you can arrange to receive your tickets through a travel agency, city ticket office, corporate travel office, airport or U.S. mail. AA online ticketing provides free overnight delivery. easySABRE also offers a travel club called Travelers Access in which club members enjoy the lowest fares and hotel rates (money-back guaranteed), plus a 5% cash bonus on all bookings made through Travelers Access. Book flights, rent cars and reserve condo vacations, cruises and hotels. Save up to 25% on vacation travel and up to 65% on short-notice travel. Updated continually.

easySABRE (CIM)

[Go Now: SABRECIM](#)

easySABRE has been CIMplified. Use the CompuServe Information Manager (CIM) to access easySABRE and access flights, fares, hotel and car rental information and reservations. With CIM, you can easily scroll through pages of flights and fares. A Travel Profile is stored with your AAdvantage number to make reservations and flight searching easier. Use the powerful Bargain Finder feature to access the lowest fares available.

European Forum

[Go Now: EURFORUM](#)

The European Forum provides general information on PCs, communications, business opportunities and travel of interest to members living and/or traveling in Europe. Additional sections are dedicated to different European languages and regions including Italian, French, Spanish, Nordic, German, Swiss, Austrian, Dutch, Flemish, Eastern European, Hungarian and Irish. Members can post questions and discuss issues important to European members.

European Railway Schedule

[Go Now: BAHN](#)

If you are planning to travel by train in Europe, you will want to consult the electronic timetable information provided by the Deutsche Bahn AG. You'll find information about European-wide train connections and fares, and you can even order your tickets.

Florida Forum

[Go Now: FLORIDA](#)

The Florida Forum allows residents, vacationers, or anyone with an interest in Florida to share information about the Sunshine State. You can talk with the residents to find the best places to stay, eat or visit if you're planning a Florida vacation. Find information on sporting and recreational activities or events/attractions of interest. Access the Disneymania section for topics about Disney World such as cartoon characters, attractions and vacation packages.

Florida Today NewsLink Forum

[Go Now: FLATODAY](#)

Brought to you by Florida Today, a daily newspaper serving East Central Florida, the Florida Today NewsLink Forum is a great place to keep up with area and state news and find out what the area residents think about the topics that interest them. CompuServe members around the world can also use this Forum area to learn more about accommodations, attractions, and community events in East Central Florida.

Florida Travel Services

[Go Now: FLATRAVEL](#)

Bigger and better than a travel guide, Florida Travel Services is the one place that's a must-see before you go to Florida. You can use it not only to get the latest information about Florida's many attractions, activities, and events, but actually view related photos and maps. You can also learn all there is to know about lodging and dining anywhere in the state, and about the available discounts and travel packages. In addition, Florida Travel Services features a "spotlight" on a major destination, a regularly updated review of hot attractions, the latest news clips about the whole state, and links to related Forum areas.

France Forum

[Go Now: FRFORUM](#)

The France Forum invites all French-speaking people to exchange their ideas on such subjects, as telecommunication, sports, and cooking.

FTM Airmax

[Go Now: AIRMAX](#)

FTM AirMax, the only interactive and automated database in the travel industry, is available for downloading. Frequent Travel Management, Inc. developed and owns the FTM AirMax database. The company updates the database daily (updates are also downloadable) and monitors most frequent flyer programs based in North America. To use the database, members need to enter their travel date, city-pairs and indicate whether a hotel or car rental will be needed at each destination. In seconds, FTM AirMax will generate specific program information and calculate the exact reward mileage for all bonus rewards. Frequent Travel Management, Inc. also sponsors a section in the Travel Software Support Forum.

Getting Through Customs

[Go Now: GTC](#)

The Getting Through Customs database provides business people with the data needed to increase sales abroad, eliminate costly cultural mistakes, and get competitive. Search the database by country, and then learn about each location's business practices, including appointments, holidays, entertaining, and negotiating styles. You can also learn protocols such as greetings, titles/forms of address and gestures. Information on getting around using public and private forms of transportation, and an introduction to cultural orientation are also available. Travelers vacationing abroad can make their travel easier and more enjoyable by first visiting Getting Through Customs.

Good Pub Guide

[Go Now: UKPUBS](#)

Looking for a good pint of beer? Consult the Good Pub Guide. Detailed descriptions of more than 1,300 pubs, all of which have been visited and commented upon by the Good Pub Guide's team of anonymous inspectors, are accessible. Descriptions include general information as well as other features such as whether children are welcome and whether the pub has a no-smoking area. Approximately 4000 shorter entries contributed by users are also available, as is an area allowing you to recommend that your own favorite pub be included in the guide.

Hawaii Forum

[Go Now: HAWAII](#)

The Hawaii Forum brings the aloha spirit to CompuServe. The Forum libraries have photos of scenic vistas, articles on history and culture, and essential travel information. Forum members can discuss local issues, ask specific questions about Hawaii, tell about experiences in the Islands, or just chitchat in the Talk Story section.

Hong Kong Forum

[Go Now: HKFORUM](#)

Travel to the heart of one of the world's most fascinating places without ever leaving your keyboard by visiting the Hong Kong Forum. Libraries and message sections cover travel in Asia, eating and drinking, entertainment, the job market, Chinese medicine and what's hot in Hong Kong.

Hotel Information

[Go Now: HOTELS](#)

This choice contains menu options for finding information on accommodations when traveling in the U.S. and around the world.

Hungary Forum

[Go Now: HUNGARY](#)

Contact Hungarian CompuServe members, or have questions about Hungary answered in the Hungary Forum.

Hyatt International

[Go Now: HYATT](#)

The Hyatt International menu helps you find information that will make your next business or pleasure trip more satisfying. The menu offers a place to communicate with many of the guests who regularly stay in Hyatt properties around the world; monthly specials, what's new, and more.

Israel Forum

[Go Now: ISRAEL](#)

Current and important information about Israel and Jewish topics is available in the Israel Forum. Members are provided with an international means of communication on topics relative to Israel and the Jewish faith. Sections in the forum include Jewish Education, Anti-Semitism, Facts about Israel, Travel, Software and Classifieds.

Italian Forum

[Go Now: ITALFOR](#)

Come and smell the Espresso in CompuServe's Italian village the Italian Forum. Both Italian and non-Italian speaking members are invited to join in and discuss any and all things related to Italy.

Japan Forum

[Go Now: JAPAN](#)

Contribute to cross-cultural communications in the Japan Forum. From sushi to sumo, discuss a variety of topics with expatriates or others who are knowledgeable about Japanese culture or history. The message area contains more than 15 sections, including sections devoted to business and industry, NIFTY-Serve, travel, and hardware and software issues.

Lanier's Bed & Breakfast Guide Online

[Go Now: INNS](#)

Lanier Publishing's Bed & Breakfast Guide Online provides information on more than 9,000 inns in the United States and Canada. Based on the bestselling *Complete Guide to Bed and Breakfasts, Inns and Guesthouses in the United States and Canada*, this service has everything you need to get started, or to continue, your exploration of this wonderful form of travel. Bed & Breakfast Guide Online contains such necessary data as location and phone number for inns, as well as listings of amenities, types of meals served, accessibility for the handicapped, accomodation of children and pets and price range. So if you would enjoy a change from the routine of hotel chains, access the Bed & Breakfast Guide Online to learn about the B&Bs in the areas you plan to visit.

Lanier's Inn and Lodging Forum

[Go Now: INNFORUM](#)

Want to start your own Bed and Breakfast? View pictures of inns all over the world? Locate favorite inn recipes? Access Lanier's Inn and Lodging Forum to talk about Bed and Breakfast travel with other inn enthusiasts and hospitality professionals around the world.

Latin America Forum

[Go Now: FORLAT](#)

The Latin America Forum provides general information about commerce, travel, tourism, and La Comunidad in Latin America. There are Forum message sections and libraries for many Latin American countries. Members can view news reports and trade opportunities published daily, as well as post questions and discuss issues important to concerned citizens of South America, North America, and the world.

Lufthansa InfoFlyway

[Go Now: LUFTHANSA](#)

Lufthansa offers an all-purpose European travel service in Lufthansa InfoFlyway. From here you have direct access to Lufthansa's travel assistance and virtual airport Web sites, [European Railway Schedules](#), [Merian Online](#) and complete Meteomedia weather information for Germany, Austria, Switzerland, and Europe as a whole. There is also the [Lufthansa InfoFlyway Forum](#), where you can exchange ideas and information with other travellers and find many valuable files.

Lufthansa InfoFlyway Forum

[Go Now: LHDIALOG](#)

German-speaking members who travel or plan to travel in Europe have a great resource in the Lufthansa InfoFlyway Forum. Here members can find and exchange information about routes, destinations, and travel methods. This Forum area focuses especially on Germany, Austria, and Switzerland, but the rest of Europe is covered as well.

MAGELLAN Geographix Maps

[Go Now: MGMAPS](#)

Whether you need a map for business, education or personal use turn to MAGELLAN Geographix maps online. MAGELLAN Geographix integrates state-of-the-art computer technology with accurate geographic content, exacting cartographic standards and superior graphic design. Three areas target different member needs. Basic Maps offer maps of the seven continents and a frequently updated Specialty Map. Maps of the World offers more than 600 maps that span the globe, including some geared toward current and special events. MGDigitalAtlas, designed for professional graphic use, offers Vector Maps. Also members can discuss cartographic issues in the corresponding Maps Forum.

The Map Connection

[Go Now: CITYSTREETS](#)

Plot your course through a city you plan to visit or across town. ROAD SCHOLAR Software has joined with CompuServe to offer digital street maps through The Map Connection. CITY STREETS For Windows, a map engine, and over 200 electronic maps that provide location data for the engine are available for downloading.

Marriott

[Go Now: MARRIOTT](#)

The Marriott menu offers account information, awards schedules, news, enrollment information, and other travel service information.

Merian Online

[Go Now: MERIAN](#)

The Merian Online travel database contains information on over 20,000 restaurants, hotels, sights, shopping services, and more in Germany. Members have the opportunity to make suggestions and add items of interest to the database through a feedback form. Photographs of some subjects, such as hotels and restaurants, in the bigger cities in Germany (Berlin, Frankfurt, Hamburg and Munich) are also provided.

Mexico Forum

[Go Now: MEXICO](#)

People from any country will find a warm welcome awaiting them in the Mexico Forum. This Forum area shows the opportunities offered by Mexico and Latin America in business, travel and culture. There are discussions of political topics including NAFTA, and sections dedicated to many topics including software and hardware, food and restaurants, business opportunities, arts and culture, sports and fun. The Mexico Forum has information for those who want to discover or enjoy the traditional warmth of the Latin culture.

Mexico Travel Forum

[Go Now: MEXTRAVEL](#)

If you travel to Mexico for business or pleasure, you can enhance your trip with an advance visit to the Mexico Travel Forum. This Forum area is especially designed to provide the reliable information that will make your stay in Mexico easier and happier. Hotels, restaurants, museums, national and regional festivities, and even folklore are covered in depth. Since the Mexico Travel Forum is aimed mainly at visitors from outside the country, most of the information is in English.

National Geographic Online

[Go Now: NATIONAL](#)

Journey to the ends of the earth with the explorers who supply the material for the most reliable and up-to-date sources of knowledge about the faraway and the nearby alike -- *National Geographic*, *Traveler*, and *World* magazines and National Geographic Books. Every week you'll join writers and photographers on assignment to a different exotic location. After your virtual expedition, you'll return to headquarters to find a wealth of travel ideas and tips, maps, information on topics related to locales from the Amazon to the Zuider Zee, and a look behind the scenes at the production of the National Geographic Society's TV programs. And you'll be able to share your experiences, real and virtual, in the [National Geographic Society Forum](#). If you're a teacher, you'll also find many educational ideas and aids in the [National Geographic Teachers Forum](#).

National Geographic Society Forum

[Go Now: NGSFORUM](#)

Explorers, geography enthusiasts, mapmakers, and travel writers and photographers gather in the National Geographic Society Forum to share experiences and ideas. Members of this Forum area gain a truly global perspective by obtaining in-depth local information about places and people all around the world.

Native's Guide to New York

[Go Now: **NATIVE**](#)

GO NATIVE to find a combination guidebook and advice column on things to do and see in New York City. New York natives and visitors alike give their opinions and ideas on every aspect of the city. You'll find reviews and articles by professionals, as well as unsolicited comments from the man (and woman) in the street. There's even a section of essays and artwork that provide unique perspectives and insights on the oddities of the city.

Netherlands Forum

[Go Now: NLFORUM](#)

Contact Dutch CompuServe members or ask questions about the Netherlands in the Netherlands Forum. Sections on politics, culture, media, hobbies, sports, business, travel and other aspects of life in Holland are available. Although most messages and files in this Forum are in Dutch, there is plenty of valuable information for non-Dutch speakers too.

New York Newslink

[Go Now: **NEWYORK**](#)

New Yorkers and visitors can have a link to the current happenings in and around the Big Apple in the New York Newslink Forum. The forum, an electronic extension of the daily Gannett Suburban Newspapers, provides discussion topics ranging from Off (or nearly off) Broadway to the New York Giants. Those in the northern counties of Westchester, Rockland and Putnam can discuss the hottest topics of their rapidly growing areas.

OAG Electronic Edition Travel Service

[Go Now: OAG](#)

Planning a trip? Connect to the source. The OAG ELECTRONIC EDITION Travel Service is your access point to a world of first-hand travel planning information. Access OAG and explore the following databases:

Actual Airport Arrival/Departure/Gate Information - updated every 10 minutes for all airlines

Frequent Flyer Program Information

Cruises and Discount Travel Packages

Travel File

Make your travel reservations online and choose from a number of ticketing options. Updated continually.

Ohio Travel Forum

[Go Now: OHIOFORUM](#)

Get the latest information on what's going on in Ohio in the Ohio Travel Forum. The Ohio Travel Forum features comprehensive, at-your-fingertips information on things to do and see in Ohio. The Forum area includes details on destinations, events, attractions and travel-related businesses.

Ohio Travel Services

[Go Now: OHIO](#)

The Ohio Travel Services provide a comprehensive online guide to all of Ohio's attractions, festivals, and events. Ohioans and non-Ohioans alike can review available accommodations, suggested travel itineraries for different themes and seasons, and special deals. In addition to descriptions of places to go and things to see in Ohio, there are many, many photos. And there are even direct links to the [Ohio Travel Forum](#) and to the Web site maintained by the Ohio Division of Travel and Tourism.

Pacific Forum

[Go Now: PACFORUM](#)

Australia and New Zealand are just a few of the locations you can visit in the Pacific Forum. Come discuss the culture, business, politics and travel destinations in your favorite port-of-call or the place you call home. The Pacific Forum offers library and message sections packed full of hardware/software support, travel details, naturalist information, sporting news and entertainment. So if you want to enjoy the laid back lifestyle of Australia and New Zealand, come visit the Pacific Forum.

Recreational Vehicle Forum

[Go Now: RVFORUM](#)

Find out all about RVs, from weekend campouts to full-time RV living, through the Recreational Vehicle Forum. Share experiences and advice with owners of converted buses, motor homes, trailers, tent trailers and slide-in pickup campers. The Good Sam Club, Family Motorcoach Association, major RV manufacturers, accessory providers and publishers are in the Forum area every day to answer questions and offer customer support. Members can receive answers to just about any question on costs, which RV to buy, how to equip and repair it, insurance, where to go, how to get there, and what to see and do.

Spanish Forum

[Go Now: SPFORUM](#)

Interested in Spain, Spanish issues or the Spanish Language? Join the Spanish Forum. Information on the communities of Spain, its politics and gastronomy, technical issues and tourism is available. Members can converse in English, Spanish or Catalan. The libraries are full of interesting files, including the best of shareware and freeware, files about Spain itself, and general files to help you get the best out of CompuServe.

Travel Forum

[Go Now: TRAVSIG](#)

Since 1983, the Travel Forum has been the place to visit when you want to talk about travel. Discover helpful hints about destinations all over the world. Whether you are traveling to Europe, Asia, Africa, Australia, South America, Latin America or North American destinations like New York, Las Vegas or Hawaii, the Forum message sections and libraries of 6,500 help files is where you are going to learn how to have a better trip and get more for your money. Wherever you are visiting, or want to learn more about, you are bound to find that Travel Forum members have lived or visited there.

Travel Software Forum

[Go Now: TSSFORUM](#)

Vendors of travel-related software support their products in the Travel Software Support Forum, which also serves as an online information exchange for trade and professional organizations. CompuServe members can communicate directly with vendor representatives and with other knowledgeable users in the message sections, and find many valuable files in the various vendor libraries. Listed below are the vendors represented in this Forum area, along with the main products supported by each vendor. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Automap	AutoMap Streets and AutoMap Road Atlas mapping software

UK Forum

[Go Now: UKFORUM](#)

The UK Forum focuses on a variety of UK cultural and social themes such as politics, sports, business, TV/film, hobbies, photography and UK travel. Sections within the Forum area include Wales, Scotland, and Ireleand. The Forum area also includes the ever-popular "Rovers Return Club" where members can participate in the kinds of forthright discussions associated with British pubs.

UK Travel

[Go Now: UKTRAVEL](#)

For local help with planning your business and leisure time in the United Kingdom, visit UK Travel. UK Travel has databases that completely cover all your UK Travel needs: Each of the databases is equivalent to one of their popular printed guides. [AA Accommodations](#) and [AA Restaurants](#) incorporate only those establishments that have been awarded an AA rating by an independent AA inspector. [AA Golf Courses](#) gives you detailed information about more than 2,000 UK golf courses. [AA Days Out](#) provides over 2,000 ideas on places to go and attractions to see for the entire family. [AA Roadwatch](#) provides time-sensitive information for the UK motoring public. [The Good Pub Guide](#) contains over 1,300 detailed descriptions of pubs, all of which have been visited and commented upon by The Good Pub Guide's team of anonymous inspectors. [UK What's On Guide](#) is a complete guide to entertainment and events all over the UK

UK Travel Forum

[Go Now: UKTF](#)

The UK Travel Forum helps members to enjoy their travels within Great Britain and Northern Ireland, whether for business or pleasure. The UK Travel Forum is brought to you in association with the British Tourist Authority. Topics include those of interest to members living in Britain as well as members traveling abroad.

United Connection

[Go Now: UNITED](#)

United Connection lets you take control of your travel planning. With United Connection you get a direct connection to the same extensive and up-to-the-minute fare and schedule information available to travel agencies and airlines. You can look up the latest information on more than 550 airlines. You can also make reservations and purchases; check your United Mileage Plus account balance; get gate, departure and/or arrival information on United and United partner flights; choose how to receive your ticket and more. Best of all, it all takes place in the convenience and privacy of your own home or office. United Connection supplies you with a direct connection toward earning bonus miles. Just use United Connection to make your travel reservations, and when you choose to fly on United, you will receive an extra 500 miles along with the standard flight miles you earn.

U.S. Tourism Forum

[Go Now: USTOUR](#)

Discuss travel and travel-related subjects throughout the United States in the U.S. Tourism Forum. Members can speak directly with state and regional tourism authorities. Information on car rental discounts and upgrades from most of the major car renters, as well as accommodation discounts, are available.

VISA Advisors[Go Now: VISA](#)

VISA Advisors is a passport and visa expediting firm located in Washington D.C. providing visa and passport requirements and documents. The firm will assist you in visa and passport processing and legalization of documents. VISA Advisors charges a service fee per document and will hand-carry your documents to the embassies or consulates involved. Visa and passport requirements updated monthly.

Way To Go CompuServe

[Go Now: WAYTOGO](#)

Way To Go CompuServe provides detailed step-by-step driving directions between any two points in a given geographic area, as well as information about points of interest, such as hotels, restaurants and ATM machines. Way To Go CompuServe calculates driving directions between two points. Routes are generated based on either optimal average travel times or easy-to-follow directions, and come with clear instructions that even out-of-towners can follow. New areas of coverage and traveler-oriented services are frequently added to this exciting product.

West Coast Travel

[Go Now: WESTCOAST](#)

West Coast Travel is a travel guide by Lee Foster which beckons you to the many pleasures of travel destinations in the western United States. For each area, Lee describes the flavor, how to get there, the area's history, the main attractions, and nearby trips, and also tells where to get more information. He also has a section featuring articles on special interest travel. Questions may be left for Lee, which he will answer in future columns. Updated weekly.

World Community Forum

[Go Now: WCOMMUNITY](#)

The World Community Forum provides a special opportunity to meet and chat with other CompuServe members from all over the world. Members can use this communication-oriented service to discuss general topics of common interest, obtain and share diverse opinions on current events and issues (on both local and global levels), and learn more about any region of the world, its people, culture and languages. To facilitate truly global communication, the World Community Forum is offered in English, French, German and Spanish. Computer translation technology software maintains a separate version of the Forum area for each language.

WORLDSPAN Travelshopper (CIM)

[Go Now: **WORLDCIM**](#)

CompuServe and WORLDSPAN Travelshopper provide this new interface to the WORLDSPAN Reservation System for members who use CompuServe Information Manager (CIM). WORLDSPAN Travelshopper (CIM) allows you to navigate easily through flights, fares, fare restrictions and flight details. In addition, store your flight search criteria, passenger information and personal profile data online to save time and money when making a reservation or simply browsing flights.

Zagat Restaurant Survey

[Go Now: ZAGAT](#)

Want to find out about a restaurant before you visit it? Whether you are seeking French cuisine or deep-dish pizza, access the Zagat Restaurant Survey. The survey features thousands of reviews based on annual surveys of restaurant patrons just like you. Search for old and new restaurants in more than 20 cities and regions across the United States by restaurant name, location, type of cuisine or price. While online, find out how to become a Zagat restaurant reviewer. Bon appetit!

Computer Gaming World

[Go Now: ZNT:CGWMAGAZINE](#)

Computer Gaming World lets members participate in online discussions about computer gaming issues, download computer games and programs and exchange mail with the magazine's editors and readers. Topic areas include adventure, role-playing, strategy, war simulation, and sports games. Part of [ZD Net](#)).

eDrive's Movie Forum

[Go Now: EMOVIES](#)

eDrives Movie Forum offers a fun and comprehensive resource for anyone interested in movies. The libraries feature full-motion video and stereo audio of actual motion picture scenes, many never before available to the public. Also available are production notes, biographies of key industry people, photos of stars, studio release schedules and the inside scoop on projects. This Forum area does not offer a message section.

eDrives TV Forum

[Go Now: ETV](#)

eDrives TV Forum provides an opportunity to meet and chat with those who share an interest in all the goings-on in the world of the small screen. Whether you only watch one show with a passion or have six VCRs running full speed, you'll find plenty of files, pictures, and messages to help keep you caught up on all the plots, plans, and private lives of your favorite (and not-so-favorite) television shows, movies and stars.

Electric Soul Forum

[Go Now: SOUL](#)

The Electric Soul Forum enables you to telecommunicate directly with selected Rap and R&B companies. The companies listed below provide access and support to all fans of their music.

Arista Records
Capricorn Records
Geffen Records
PolyGram Records
RCA Records
Underground
Virgin Records
Warner Bros

Enhanced Adventure

[Go Now: ENADVENT](#)

Enhanced Adventure is much like the original Classic Adventure, set in a forest wherein lies the vast, mysterious Colossal Cave. Although most of your adventures happen within the cave, they begin outside a small well house, where you will return from time to time to store your treasures. Once you've investigated the house, you enter the cave to the south and begin to explore it, overcoming its deadly challenges and collecting its numerous treasures as you go. Enhanced Adventure has more challenges and more treasures than Classic Adventure, both inside and outside the cave. A perfect ending garners you 751 points.

entertainment Drive Forum

[Go Now: EDRIVE](#)

entertainment Drive (eDrive) is your backstage pass to the entertainment industry. Entertainment Drive offers sneak previews of Hollywood's hottest new movies and TV shows using QuickTime multimedia. Message boards let viewers and entertainment industry professionals correspond about movies, TV shows, theater, soap operas and more. EDRIVE also has live conference rooms and libraries where members can view and download behind-the-scenes photos and information, software, sound clips and graphic files from numerous media companies, many never before available to the public. Members can interact with famous individuals such as Tom Hanks, Oprah Winfrey, David Letterman, Brandon Tartikoff, Rosie O'Donnell and Faye Dunaway. Hollywood columnists Marily Beck and Stacey Jenel Smith answer member questions about entertainment. From David Letterman Top Ten Lists to a private "Industry Canteen" for over 10,000 industry professionals, Entertainment Drive is one of the world's largest online entertainment magazines and interactive Forum areas.

Epic MegaGames Forum

[Go Now: EPICFORUM](#)

Epic MegaGames, an international publisher of shareware computer games, provides support for its products in the Epic MegaGames Forum. From the libraries, download action-packed shareware games featuring vivid graphics and sound or select from a number of utilities and files to enhance these already challenging shareware games. In the message sections, exchange tips, hints and strategies with other shareware game players from around the world.

Epic Online

[Go Now: EPIC](#)

Epic MegaGames, a leading shareware publisher of computer games, lets you download a shareware "Game of the Month" for a nominal surcharge which is rebated in the form of an online credit. For technical support of Epic games, you can be placed in direct contact with the publisher in the [Epic MegaGames Forum](#). And for your convenience, Epic enables you to immediately download registered versions of its games through the Electronic Mall.

Fan Club Forums

[Go Now: FANCLUB](#)

The Fan Club Forums allow you to communicate directly with selected recording artists. Message sections, libraries and conference rooms are dedicated to some of the top acts in the music industry including the Beatles, Michael Jackson, Chicago, Gary Wright, King s X, KISS, Madonna, U2, Aerosmith, Elvis Presley, Melissa Etheridge, Pearl Jam, Rick Springfield, Peter Cetera, Nirvana, the Bee Gees, Hootie and the Blowfish, Lee Ritenour, Jimmy Buffet, the Rolling Stones and others! Check the libraries for tour schedules, bios, GIFs, screensavers, exclusive sound bytes and other cool files. Visit the Fan Club Forums and choose from a growing menu featuring your favorite recording artists!

Flight Simulation Forum

[Go Now: FSFORUM](#)

The sky is the limit when you join the Flight Simulation Forum. Members who indulge their flights of fancy through the computer share experiences, playing tips and software critiques in this Forum area. Also popular are the forum's "fly-ins" -- coordinated get-togethers where members using custom flight scenery fly their aircraft simulators to a designated airfield. You're cleared to land and join the Forum members in their discussions about civilian, space, combat and air traffic control simulations.

France Cinema Multimedia Forum

[Go Now: FCINEMA](#)

The France Cinema Multimedia Forum offers previews of the hottest new French movies using Quicktime multimedia. Movie viewers and professionals correspond about movies and much more in this Forum area.

Game Developers Forum

[Go Now: GAMDEV](#)

This Forum area is the online meeting place for members of the Computer Game Developers Association and others interested in writing and publishing games. Members can learn more about programming and marketing games from respected professionals in the field.

Game Publisher Beta Forum

[Go Now: GAMBETA](#)

The Game Publisher Beta Forum facilitates the game development process by establishing private sections, libraries and conference rooms through which publishers and players can conduct the beta-testing process.

Game Publishers A Forum

[Go Now: GAMAPUB](#)

CompuServe Game Publishers Forums provide members with support for a variety of games and game-related products for all types of computers. Forum members can post messages to the publishers or other vendors and access help files, programs, or patches for the products. Gamers' Forum

[Go Now: GAMERS](#)

It's a computer-game-player's dream: an Forum area dedicated to the communications, support and entertainment needs of the general computer game-playing community. Here you'll find tips, hints, reviews and instructions for the latest computer games on the market. Ask questions or discuss games and game hints with other game players via this forum.

Games File Finder

[Go Now: GAMEFF](#)

Need to find a game file? The Games File Finder is a keyword searchable database of file descriptions from game related Forum areas. It provides quick and easy reference to some of the best programs and files available. The Games File Finder provides you with seven common search criteria for quickly finding the location of a desired file or files. You can search by topic, file submission date, Forum area name, file type, file extension, file name or submitters User ID. File descriptions, Forum area name, and library location are displayed for the matched files giving instant information on where to find a most wanted file. You can download the files directly from the Games File Finder if you are using at least DOSCIM 2.0, MacCIM 1.6, or WinCIM.

Games Site

[Go Now: GAMESITE](#)

Games and information about games take up billions of bytes in cyberspace. You can keep up with all of it through CompuServe's Games Site, the best single source online for anything and everything about computer games, video games, and modem-to-modem games. Games Site also provides hotlinks to Internet resources and direct access to popular CompuServe Forum areas, as well as an area for downloading the latest "must-have" games, such as Quake and Duke Nukem 3D. You'll also find test versions and shareware for the hottest games, tips and tricks for better play, news about games and gaming, and the opportunity to converse with other gamers around the world.

Gibson Musical Instrument Forum

[Go Now: GIBSON](#)

If the twang's the thang for you, you won't find a better online show than the one at the Gibson Musical Instruments Forum. Here you can not only read about guitars, but also download photos of some of the all time greats, along with the players who strummed their strings to fame and fortune. Though guitars are the main course, you can also get your fill of other instruments -- dobros, drums, and mandolins, to name a few -- and non-instruments -- such as amps, speakers, and even Gibson wear. With a trading post and special sections for beginning players and customer relations, this Forum area really covers the Gibson gamut.

Hands On PRO-formance MIDI

[Go Now: SONGS](#)

Hands On PRO-formance MIDI files are load and go for a majority of sequencers and modules. The files are based around the basic GM specification and some have codes to utilize the special features found in GS and XG devices. Catalogue files, indexed by song title and performing artist, are available for download or viewing online. New songs are added to the download database on a continual basis, so be sure to check the catalogs frequently for updates.

Hollywood Hotline

[Go Now: HOLLYWOOD](#)

Hollywood Hotline is a news and information service of noteworthy events in motion pictures, television programs and music recordings. It also includes a trivia quiz, entertainment features, and an entertainment encyclopedia that includes such things as past Academy and Tony award winners. Hollywood Hotline also offers you reviews of the most recently released movies in the theater. In addition, there is an informative guide to the movies that lists the films by useful categories such as "Must See! Get Right in Line" and "For an Entertaining Night at the Movies."

Hollywood Online Forum

[Go Now: FLICKS](#)

Download interactive multimedia kits, pictures and sound from the years best motion pictures in the Hollywood Online Forum. Members can share their film interests and discuss each film's merits. Sections within the Forum area include classic films, foreign films, documentaries, talks with actors and actresses and more.

HOT Games Download Area

[Go Now: HOTGAMES](#)

Download the very latest computer games, demos, updates and patches as they are released by the publishers using the HOT Games Download Area. An extension of the popular Games and Game Publishers Forums, HOTGAMES delivers fast, error-free transfer of today's most heavily demanded game files. Check it out when looking for new games and information.

Island of Kesmai

[Go Now: ISLAND](#)

Many years ago, a group of magicians wanted to escape persecution. They settled on the Island of Kesmai where they experimented in the black arts. They created many strange creatures through their sorcery, which took place in catacombs deep underground. As their anger and their pride grew over the years, they determined to have revenge on their persecutors by calling up an ancient Dragon of Droon. They produced the dragon, but they were not able to control it. The dragon destroyed the laboratories and killed most of the magicians. It found its way to the temple located in the lowest levels of the catacombs, and it remains there to this day. Many of the creatures created in the laboratories escaped and have been living and multiplying ever since. You'll travel over many "acres" of land and encounter many computer-run characters during your adventure. The game consists of two segments: the Basic Game, which includes the regions of Kesmai, Leng, Oakvael and Axe Glacier; and the Advanced Game, which includes the regions of Torii, Annwn, Rift Glacier and Shukumei. The game is constantly evolving, and more mysterious lands are made available regularly.

Jaspers Filmlexikon

[Go Now: JASPER](#)

Jaspers Filmlexikon, a German language service, offers background information about movies. Members can also join a forum where they can talk about new movies and download graphics and scenes out of different movies.

Jazz Beat Forum

[Go Now: JAZZ](#)

Kesmai Forum

[Go Now: KESFORUM](#)

Join the Kesmai Forum to enhance your experience with Kesmai's online games on CompuServe. Here you'll find hints, help, tactics, and lots of good talk from Kesmai support staff as well as fellow gamers. Starting with message sections and libraries dedicated to Air Warrior and Legends of Kesmai; the Kesmai Forum grows as Kesmai brings new games online.

Magill's Survey of Cinema

[Go Now: MAGILL](#)

Magill's Survey of Cinema provides a database of in-depth articles covering films released since 1902. Database entries can contain the film title, information about its release date, country of release, cast, credits, Motion Picture Association of America rating, running time and production studio. The plots and significant influences are extensively summarized and discussed.

MegaWars III: The New Empire

[Go Now: MEGA3](#)

Imagine yourself in a galaxy filled with strife and destruction. You find that you must have wealth and power in order to survive. But you may not be able to get it by yourself. You may want to join a team of people whose interests are similar to yours, people who want to expand their wealth and protect and manage what they have. So your team forms, but you are cautious because your team members may turn on you. MegaWars III is a multi-player game which consists of two separate phases. The interactive phase is where you fly your ship about the Galaxy exploring for new planets to colonize and fighting with enemies. The second phase is an economic model, where you manipulate the economies and populations of the bases you own. The game's starting point is its main menu. Here you may choose to build, repair or fly your ship, manage your planets and obtain game-related information. Throughout the game you may converse with other players who are playing at the same time. Although many players form teams when they play the game, players can play it alone. With these things in mind, you are ready to enter MegaWars III -- The New Empire.

Mexico Fun Forum

[Go Now: MEXFUN](#)

The Mexico Fun Forum is a great place to find out what's happening in your favorite entertainment arena in Mexico. Here you can keep up with film, sports, theatre, music, and books. In this Forum area, you can not only access all the information provided by the Forum sysops, but also exchange impressions and ideas with others who share your interests.

The Modem Games Forum

[Go Now: **MODEMGAMES**](#)

Owners of modem-capable computer games meet in the Modem Games Forum. Members play in head-to-head tournaments organized by Forum staffers and run in the Modem-To-Modem Gaming Lobby(TM). The Forum area also contains dozens of game programs that offer members a variety of games that can be played one-on-one via modem.

The Modem-To-Modem Gaming Lobby

[Go Now: MTMLOBBY](#)

The MTM Gaming Lobby lets you play PC computer games in head-to-head competition with players from around the world. Check into the Lobby to meet and play against your chosen opponent or visit the Lobby for a quick, pick-up match. The MTM Gaming Lobby staff can assist you in finding modem games and challenging opponents.

MotorWeek Display Area

[Go Now: MOTORWEEK](#)

Access writers and reporters of the MotorWeek TV show through the MotorWeek Display Area. Members can download transcripts of the latest road tests and view GIF photos of the cars tested. A TV schedule is also available

Multi-Players Games Forum

[Go Now: MPGAMES](#)

This specialized Forum area supports the entertainment needs of members who play any of the unique and challenging, multi-player games via the CompuServe online environment. Get hints, plan strategies, and socialize with fellow multi-player gamers and the Forum staff.

Multiple Choice

[Go Now: TMC](#)

The Multiple Choice offers a whole host of online games and tests to challenge, amuse, and even train you. Trivia games are available in versions for kids, teens and all ages. Relaxing and amusing games include jumbled word games, games where you fill in the missing part of a classic quote or an ad slogan, and games where you enter random verbs, nouns and adjectives to generate silly letters. There are two achievement challenges. One tests high school competency similarly to the New York State Board of Regents Tests for grades 9 - 12. The other is a simulation of the "Miller Analogies Test" used as an entrance test to many graduate schools. Use either to test your mettle or practice up for the real thing. Use personality profile tests to see how well you know yourself or how well you know others, IQ tests, intelligence tests, or the Super Brain Teaser.

Music and Performing Arts Forum

[Go Now: MUSICARTS](#)

Join fellow music fans in conversations about music (including classical, jazz/blues, big band, rock, Broadway, new age, ethnic, country/folk and gospel), ballet/dance and drama. An Upcoming Events section provides schedules and previews of notable music arts events, and an Education/Careers section hosts discussions among teachers, parents and aspiring professional musicians.

Music Hall

[Go Now: MUSIC](#)

Whether you compose, play or just enjoy listening to music, visit the Music Hall and gain access to all the music areas on CompuServe. Each area gives you the opportunity to discuss, learn, network and be entertained by others with interests in music. The Music Hall provides an easy way to learn about and directly navigate a wide variety of forum, databases, contests, promotions and Electronic Mall music merchants. Music merchants provide information, sound files, late breaking industry news, prizes, technical support and the ability to order CDs, tapes and musical equipment online.

Music Industry Forum

[Go Now: INMUSIC](#)

This special Forum area will allow you to telecommunicate directly with the vendors, publications, organizations, and conferences listed below. Forum message sections and libraries provide support for vendor products, communication with colleagues, back issues of magazines, photos of instruments and players, information about past and future conferences and other industry events, and more. There is a wealth of knowledge to be gained from other Forum members, both home hobbyists and professional musicians, who are willing to freely share their experiences.

American*Trax	dance music information, software and shareware, new technologies, and related media news
Austin Music Channel	listings and information about Austin area artists
Avalon Entertainment Management	management of new music performers and groups
Cash Box Magazine	magazine covering the music industry
Creative Musicians Coalition (CMC)	international organization dedicated to the advancement of new music and the success of the independent artist
Cutting Edge Music Business Conference	annual conference focussing on business and educational aspects of the music industry in addition to spotlighting new talent
Digital Culture Stream	quarterly magazine on CD-ROM, focussing on the influx of technology into popular culture via music, art, fashion, and games
Guitar Magazine	magazine
Guitar World	online interviews with hot guitar players, interactive guitar lessons, and rare unpublished interviews.
Homespun Tapes	instruction in a wide variety of musical styles, techniques, and instruments
International Songwriters CO-OP	cooperative organization supporting the individual songwriter and the various songwriting associations both nationally and internationally.
Powerhouse Design and Duplication	album cover graphics for recording artists producing independent releases, plus cassette and CD duplication services
South by Southwest	music conference

Music Place[Go Now: THEPLA](#)

The Music Place store specializes in providing the classical and jazz recordings from Deutsche Grammophon, London, Philips Classics and Verve to the CompuServe Electronic Mall shopper. The Music Place offers many features such as a self-guided introduction to classical and jazz including advance notice of new releases. You can also order new releases, featured titles and a great artists' catalog.

Musik Europe Alive

[Go Now: MUSIKFORUM](#)

Musik Europe Alive, a German music forum, covers pop, dance music, soul/funk, rock, heavy metal, reggae, folk music, German and international charts. Although Musik Europe Alive focuses on the German market, the forum is in English and German.

Pamela Anderson Lee

[Go Now: PAMELA](#)

If you count yourself as a Pamelamaniac, you can GO PAMELA to view her beauty from all angles. Here you'll find many photos and QuickTime videos, not only from episodes of the Baywatch TV series, but from her new movie, *Barb Wire*.

PBM/Board/Card Games Forum

[Go Now: PBMGAMES](#)

Join the PBM/Board/Card Games Forum to play and talk about play-by-mail (PBM), play-by-electronic-mail (PBEM), board and card games. Games discussed and/or played in the forum include Adventure Kings, Legends, VGA Planets, Star Fleet Battles, Buss Boss and Star Trek.

Peanuts Download Area

[Go Now: SNOOPY](#)

Hey, it's the Peanuts gang! In this special area, you can download classic and contemporary strips, see amazing versions of the Schulz creations, get full-motion clips from the CDs and TV Specials and see Famous First comic strips.

Photos Online

[Go Now: PHOTOL](#)

Photos Online brings all the rich photos and movie clips available on CompuServe into one vast storehouse of digital imagery. From this one point, you can access not only the related CompuServe services, but also the thousands of files that contain graphic images. In addition, you can get all the information and advice you need to start viewing, and even download the latest multimedia utility software.

Playboy on CompuServe

[Go Now: **PLAYBOY**](#)

Playboy offers a number of features on CompuServe, and they're all only a click away from this control panel. You can download a Playmate of the Year photos, magazine covers from Playboy's entire existence, and QuickTime movies, photos, and production notes from Playboy Television's shows and movies. And you can join the Playboy Forum, which features files from the TV shows, videos and photos from all of Playboy's enterprises, any software you might need for viewing, and even columns from the Playboy Review.

Recording Industry Forums Menu

[Go Now: RECORD](#)

Want to know when your favorite musical artist will be in your hometown? Would you like to learn the latest news in the recording industry or join a fan club or two? Then access the Recording Industry Forums Menu. The menu enables you to access the Electric Soul Forum, Jazz Beat Forum, Rock Online Forum, and Wired on Country Forum. News from artists on commercial labels as well as those on independent labels can be found in these Forum areas. The libraries contain new release information, tour schedules, and artists' biographies.

Rock Online Forum

[Go Now: ROCKONLINE](#)

Rock Online, the virtual home of Rock and Alternative music, enables you to telecommunicate directly with Rock/Alternative record companies listed below, who provide easier access and wider customer support to all fans of their music. Here you'll find a message area, set up for discussions and announcements about label artists, as well as libraries containing information, tour dates, sound clips, graphics and multimedia files about the labels and artists! Conference rooms are available for chatting about music, or with scheduled artists.

The [RockNet Forum](#)

Rock news

A list of top albums and tapes, and

Articles about rock music.

RockNet (Rock Music) Forum

[Go Now: ROCKNET](#)

The RockNet Forum has many members within the record industry, and you may learn news items before they appear in newspapers.

Roger Ebert's Reviews & Features

[Go Now: EBERT](#)

Before spending your hard earned money on movie tickets and popcorn, access Roger Ebert's Reviews and Features for reviews of even the most recent box-office hits and flops. The well-known critic also provides the moviegoer with celebrity interviews, a Movie Lover's Source List, a list of the top ten movies of all time and advice on attending film festivals. A Feedback section is available to communicate directly with Roger.

Role-Playing Games Forum

[Go Now: RPGAMES](#)

The Role-Playing Games Forum invites you to discuss and play all types of board/paper/text role-playing games including AD&D, Rune Quest, Gamma World, Traveller, Champions and Justice, Inc. Role-playing games are conducted in the conference area every evening. For additional game support, access the [Gamers' Forum](#).

Schweizer Fernsehen DRS Forum

[Go Now: SFDRS](#)

Do you want information on the Swiss entertainment industry? Access the Schweizer Fernsehen DRS Forum, where you can find a list of all top events until the year 2000, pictures from Switzerland, the Swiss computer game Minigame, as well as program previews, behind the scenes reports and more. You can discuss programs with the editorial staff as well as with visiting TV celebrities.

Science Trivia Quiz

[Go Now: SCITRIVIA](#)

Is there a budding Einstein in the audience? Even if you missed the Nobel Prize this year, you can challenge the top scorers in the Science Trivia Hall of Fame. Test your knowledge of biology, chemistry and physics through the Science Trivia Quiz. Questions and comments can be discussed in the [Science/Math Education Forum](#).

Sega Forum

[Go Now: SEGA](#)

Sega of America, a recognized leader in the video game industry, supports its products in the Sega Forum. Members can get sneak previews, tips, hints, strategies and information on Sega Sports, Sega Toys, Sega Club, Sega Channel and more directly from Sega. Also members can buy Sega games and hardware, and take advantage of various special offers from the Sega Store online.

SF Fantasy/Literature Forum

[Go Now: SFLIT](#)

Do you love to learn more about hair-raising books? Access the SF/Fantasy Literature Forum and exchange messages on the latest in science fiction, fantasy or horror literature. Topics in the Forum area include fan magazines, artwork, artists, science facts, costuming and writing.

ShowbizMedia Forum

[Go Now: SHOWBIZ](#)

There's no business like show business, and it's everybody's business in the ShowbizMedia Forum. Share information and opinions with other members about your favorite movies, plays, celebrities and television shows. Keep informed of which movies are box-office hits, and, through the message board, you may even meet a future celebrity.

SHOWBIZQUIZ

[Go Now: SBQ](#)

SHOWBIZQUIZ is a trivia game that tests your knowledge of the entertainment world in a variety of categories such as Frank Sinatra, the Twilight Zone or the Rolling Stones.

Sierra Online Forum

[Go Now: SIERRA](#)

Sierra Online creates, produces and distributes entertainment and education products for the home. Sierra supports its products such as Gabriel Knight, Space Quest and Leisure Suit Larry in the Sierra Online Forum. Coktel Vision and Dynamix, a division of Sierra, also provide product support in this Forum area. Message sections and libraries include Adventure/RPG Technology, Sports/Sim Technology, Education/Arcade Technology, Hints, Sports, Sim Leagues, Battledrome Alley and Feedback.

Soap Opera Forum

[Go Now: SOAPFORUM](#)

Day and night time soap opera fans come and enjoy the casual friendly atmosphere of the Soap Opera Forum. The Soap Opera Forum offers files, pictures and messages to keep you caught up on the plots, plans and private lives of your favorite and not-so-favorite characters and stars. Transcripts of Soap Scoop On-Line Magazine are also available. Live conferences enable you to meet other viewers, fans, Soap Opera Weekly editors and the stars.

Soap Opera Summaries

[Go Now: SOAPS](#)

What did Erica do to Brooke? What did Frankie say to the DA? And who was in bed with Phillip? If you care about any of these questions, you should check out Soap Opera Summaries. In addition to daily summaries, you will learn what is happening in real life to your favorite stars, whos in the cast lists of your favorite soaps, where to write to soap stars and fan club news.

Sports Simulation Forum

[Go Now: SPRTSIMS](#)

Sports enthusiasts from around the world can team up and engage in head-to-head competition! In the Sports Simulation Forum you can play sports such as football, basketball, baseball, golf or hockey. You can join a league, tour or circuit, take part in the season's draft or enter a "big-money" tournament. All sports are played using popular sports simulation software programs and games available at your local software dealer or the Electronic Mall.

Stage II - Two Stage Trivia

[Go Now: STAGEII](#)

Stage II is a trivia game wherein you answer three trivia questions and then look for a common theme in the answers. It can be played individually or as a group.

Starpix Forum

[Go Now: STARPIX](#)

This Forum area presents the finest in entertainment and glamour graphics, with thousands of images and video files and new ones added daily. Libraries cover past and present Hollywood stars, showgirls, and even working girls and the "girl next door," all dressed (or undressed) in their best.

Televisa Online

[Go Now: TELEVISA](#)

Those interested in Latin America can find a wealth of information -- from bullfights to soap operas, political news and much more -- on the online home of Latin America's largest media conglomerate, Televisa. Content is divided into two major categories, news and entertainment. Noticias includes world news headlines, political news from throughout Latin America, sports and daily headline updates. Entretenimiento includes celebrity news, information about upcoming shows and concerts, amusement parks and more. The area also provides direct access to Forum areas on radio, television, movies and multimedia. Televisa's all-Spanish-language content spans the world from the Latin America point of view.

THE TV ZONE FORUM

[Go Now: TVZONE](#)

TV viewers, both serious and casual, discuss all aspects of television in THE TV ZONE FORUM. Share your thoughts and ideas on all areas of TV programming and engage in many activities related to television.

TV1

[Go Now: TVONE](#)

TV1 offers an electronic publication of TV listings. The listings cover national network, cable and premium channels. TV1 can be viewed by time, channel and category. The listings may also be searched by any text that appears in the title of a show.

UK Book Reviews

[Go Now: UKBREV](#)

UK Book Reviews contains details of the top ten hardback and paperback books currently available in the UK. In addition, reviews are available for new books published each week. UK Book Reviews is written and compiled by reviewer Leo Zanelli, literary editor at Central Press Features, Ltd.

UK Entertainment Reviews

[Go Now: UKREVIEW](#)

This graphical menu offers direct access to all of the entertainment review services for the UK.

UK Film Reviews

[Go Now: UKFILMS](#)

UK Film Reviews contains reviews of the top ten films currently showing in the UK. Find out what the critics think of the latest releases or search for your favourite film of the year. Each film is given a detailed review by critic Chris Forrester, in association with Central Press Features, Ltd.

UK Theatre Reviews

[Go Now: UKTHEATRE](#)

UK Theatre Reviews contains reviews of the top 20 productions currently being staged in London. In addition, new shows are reviewed each week by reviewer Kay Shelley. If you want a review for a particular show, all of Kay's reviews are searchable to give you just the items you need. UK Theatre Reviews are produced in association with Central Press Features, Ltd.

UK TV Soap Previews

[Go Now: UKSOAPS](#)

Stay one step ahead of the plots of the UK's major TV soap operas with Mo Pearce's previews of events coming in the week ahead in the nation's favourite soaps. Mo's previews are produced in association with Central Press Features, Ltd.

UK Video Reviews

[Go Now: UKVIDEO](#)

UK Video Reviews contains two separate top ten listings for the UK, one for rental videos and one for retail videos. Each entry gives an honest review of the video listed by reviewer Krishna Mathrubutham and is your guide to what's hot and what's not. UK Video Reviews are produced in association with Central Press Features, Ltd.

UK What's On Guide

[Go Now: UKWO](#)

The UK What's On Guide is a comprehensive searchable guide to entertainment and events all over the UK. Events are divided into the following categories: cinema, theatre, classical music, opera, dance, exhibitions, rock/jazz and special/family events. The guide includes entries for thousands of events all over the UK. The guide is completely reloaded every week with new information. Members can search on venue name, event name, location or event type.

Veranstaltungskalender

[Go Now: WOG](#)

This service offers a quick way to find out who's playing where and when in Germany. You can look up major shows and concerts by date, performing artist, or city. No matter which lookup method you use, you also get the phone number, fax number, and e-mail address that you can use to order tickets.

Video Gaming Central Forum

[Go Now: VGCENT](#)

Anyone with an interest in video gaming and game-related products should make it a point to join the Video Gaming Central Forum. Here you'll find message sections and libraries that cover role-playing games, fighting games, and sports games at large, plus support from video game hardware manufacturers and publishers of video, CD-ROM and cartridge-based games. Members can view a wide variety of visuals from all kinds of video games and post messages to vendors or access help files, programs, or patches for their products. Libraries contain files with tips and tricks and other useful information. Listed below are the vendors represented in this Forum area, along with their current major products. To locate all the CompuServe services related to a specific vendor or product, visit the [Support Directory](#).

Accolade	Handball 5, Speed Racer, and Combat Cars

WorldsAway

[Go Now: AWAY](#)

Join WorldsAway, the graphical, virtual world in which your avatar -- your own customized, animated character -- navigates the virtual landscape and interacts with others around the world. This easy-to-use, online world adds a rich visual environment and a new element of expression and interaction to real-time, text-based chat. You control your avatar's movements, deeds and words. A few keystrokes or mouse clicks are all you need to walk, talk, wave, bow, smile or frown, handle objects or make transactions. This thriving cyber-community is accessible, around the clock and around the globe, to both Windows and Mac users. WorldsAway time is the same as CompuServe connect time and you can download the software may be downloaded for free.

WorldsAway is complete with city streets, landscaping, shops and other public gathering places. Public areas include a country-and-western bar, a fountain square, visitors' center and the Temple of Morpheus. There are special activities, games and contests to take part in (or not) every day. You automatically accumulate tokens, the in-World monetary units, and may use them to purchase a wide variety of objects to keep, give as gifts, or in styling and dressing your avatar.

Your identity in the World is created by you and persists from visit to visit. You'll soon find your own special role and set of friends within this online society. To learn more, GO AWAY to reach the WorldsAway menu page. From there, you can access the WorldsAway Community Forum and other information, download the WorldsAway software and enter the World itself. Software may also be ordered from the [CompuServe Store](#) on CD-ROM and diskette, with an automatic connect-time credit for the amount of your purchase. GO AWAY today!

You Gessed It!

[Go Now: YGI](#)

You Gessed It! is a real-time, multi-player game show simulation in which players form teams, answer general information and trivia questions and vie for prizes. There's interaction between players, as well as a cast of "online personalities." There is a lobby for meeting other players and a BIO feature, which lets you learn more about those playing. Will you meet new friends, have fun and discover the True Meaning of Life? You Gessed It!

Youth Entertainment Drive

[Go Now: YDRIVE](#)

Youth Entertainment Drive offers a combination of audio, visual, print and electronic media which allows youth to shape their entertainment. As an area by-kids and for-kids, YDRIVE enables youth to interact directly with the Entertainment industry and with each other. Sections include Smart TV, Movies & Videos, Disney, Sports & Hobbies, Toons, International Beat, Games & Computers and much more. Live conferences are held every Tuesday night at 8:00 PM EST.

ZD Net Action Games Forum

[Go Now: ZDACTION](#)

ZD Net Action Games Forum area, a spin-off of the ZD Net Arcade Forum area, offers shareware action games. ZD Net tests every program in its libraries.

Sports

Sports products and services on CompuServe will keep you on top of the latest sports scores - some game scores are even reported as the game is still in progress! Online interviews with sports personalities and a chance to brag or moan about your favorite team are available in the sports forums. And for those not content with being spectators, try out the sports fantasy leagues where you can create and control your "own" team.

Associated Press Sports Wire

[Go Now: APSPORTS](#)

The Associated Press Sports Wire gives the latest scores, news and league leaders in football, baseball, basketball, soccer, hockey, tennis and golf as well as information on college sports, Olympic competitions and other sports.

Franchise Baseball League

[Go Now: SIFBL](#)

Form your own fantasy baseball league and get the software to maintain it. Franchise Baseball League (FBL) provides you with all the information you need to get started, plus a demo of its FBL Fantasy Baseball software and ordering instructions. If you already have the software, you can also get upgrades.

INTERNATIONALER SPORT

[Go Now: DSPORT](#)

Access International Sportwire Feed, the entire newswire feed from the Sport Informations Dienst (SID). Sport Nachrichten-dienst focuses on soccer, formula 1, tennis and ice hockey. The International Sportwire Feed also covers motorsport, track and field, baseball, basketball, water sports, martial arts and golf.

Laniers Golf Guide Online

[Go Now: GOLFGUIDE](#)

To help plan your next golf getaway, consult Golf Guide Online. Golf Guide Online contains a comprehensive listing of more than 12,000 golf courses across the United States and over 1,200 golf resorts worldwide. It is compiled from three Lanier Publishing guides: *Golf Courses --The Complete Guide*, *Golf Resorts*, and *Golf Resorts International*. For many courses, golf pros describe the par total yardage, challenging aspects of the course and the course rating as determined by the United States Golf Association. The guide also provides information on greens fees, reservations, pro shops and 19th hole restaurants and bars.

Motor Sports Forum

[Go Now: RACING](#)

The Motor Sports Forum provides members with driver biographies, track information, sanctioning organization addresses and contact information, schedules and other information of interest to motor sports fans. In addition, the Forum area includes real-time auto racing reports, filed directly from major events around the world.

Motorcycle Forum

[Go Now: RIDE](#)

The Motorcycle Forum is the online place to be for motorcycling enthusiasts. Sections within the Forum area include beginners, clubs/organizations, cruisers, touring, c, vintage bikes, road racing and motocross, as well as information from *Rider Magazine* and *Motorcycle Shopper Magazine*.

NCAA Collegiate Sports Network

[Go Now: NCAA](#)

Rah Rah! Sis Boom Bah! Keep up to date on your favorite college football, basketball, baseball and softball Division I, II and III teams. The NCAA Network, sponsored by the National Collegiate Athletic Association, provides you with statistics for individual players and teams, news releases and poll results for men's and women's collegiate sports.

Sailing Forum

[Go Now: **SAILING**](#)

The Sailing Forum is an electronic Yacht Club for people interested in discussing and learning about all aspects of sailing. It includes conferences with sailing celebrities and experts. Members enjoy relaxing on deck and soaking up the digital sunshine, diving into the depths of the database libraries and round-robin discussions in the conference area.

**Schweizerische Depeschenagentur
Sportswire**

[Go Now: SDASPORT](#)

The Sportswire of the Schweizerische Depeschenagentur reports international sports events from the Swiss perspective. Members have access to the sport information archive (May 1988 until today) as well as to the latest news. The database contains news on all important sport events in Switzerland and the rest of the world.

Scuba Forum

[Go Now: DIVING](#)

The Scuba Forum is run by experienced scuba divers and diving professionals and has information ranging from seeking scuba instruction to pursuing a career in diving. This Forum area is for experienced divers as well as people with just a casual interest who want to find out more about diving. Browse through the Forum area for dive sites; ask questions of fellow divers; attend scheduled conferences with diving physicians, professional divers, instructors, underwater photography specialists and others. Learn how to care for equipment and take better underwater photographs. Make new diving friends in the Scuba Forum.

Sport Rocketry Forum

[Go Now: **ROCKETRY**](#)

Rocketeers of all kinds can find their online launching pad in the Sport Rocketry Forum. The National Association of Rocketry, the Tripoli Rocketry Society, and the United Kingdom Association of Rocketry each maintain a message section and file library. Among the main topics of discussion are model rockets, high-power rockets, experimental rockets, various types of motors, and even rocket software. You can download many graphic images and communicate directly with various vendors of rocketry products.

SPORTRONIC

[Go Now: FUSSBALL](#)

The German language SPORTRONIC enhanced menu focuses on first and second division soccer. Pictures of soccer players, soccer games and soccer club statistics, articles from sport journalists and game results are available. Highlights, such as the German Cup Final, are supported by conferences in the [Deutsches Sport Forum](#) with well known soccer stars. The Forum area also covers tennis, motorsport, track and field, indoor sports and water sports.

Sports Forum

[Go Now: FANS](#)

The Sports Forum includes discussions on NFL football, major league baseball, NHL hockey and NBA basketball. Topics include trade rumors, performances and injuries of upcoming opponents, and possible franchise moves. Members can get in the spirit of the games by playing Fantasy Football, Basketball, and Baseball within this Forum area.

Sports Illustrated BaseballService: [PLAYBALL](#)

Brought to you by Sports Illustrated (SI) Online, this is the place to go to keep up with baseball news, scores, and statistics as they come over the wire feed. PLAYBALL also includes scouting reports and baseball insights, and offers a direct link to the SI Forum (GO SIFORUM).

Sports Illustrated Online

[Go Now: SPORTS](#)

Sports Illustrated (SI) Online is filled with features for the sports enthusiast:

SI Magazine (GO SIMAGAZINE) offers access to all articles and selected photos from the weekly publication. A new issue is presented online every week. Also included in SI Magazine are They Said It, a list of current and historical quotations, and Send Us A Letter, a feedback vehicle to provide letters to the SI editors.

SI Forum (GO SIFORUM), managed by SI, enables members to discuss sports with other enthusiasts, interact with SI editors and writers, download files and images, and participate in conferences with sports notables.

SI Archives (GO SIARCHIVE), a fully searchable database, contains articles from past issues of the magazine. SI Archives is a premium product.

Sports Clipping Service (GO SPORTCLIPS), an automated sports news clipping service, enables members to follow their favorite team, player or topic.

News, Scores & Stats (GO SISTATS) offers the latest sports news, scores and statistics. Members can get the scores of professional and college games while those games are in progress as well as read the latest stats, rosters, injury reports, game recaps and box scores for any team. The sources for this information include the Associated Press and The Sports Network.

SI Photo Gallery (GO SIIMAGES) offers a gallery of some of the great SI photographs of the past and present for viewing or downloading.

SI Store (GO SISTORE) allows members to view and order merchandise from the SI Insider Authentics catalog, and also provides members with subscription services (order a subscription to the magazine, change the address on a subscription, or send a note to SI's customer service department).

Fantasy Sports (GO SIFANTASY) allows members to be the owner of their own fantasy sports team and to compete with others for prizes. Variations of games include leagues based on a virtual budget for drafting and trading of players, and leagues based on rotisserie-style play.

Tennis Forum

[Go Now: TENNIS](#)

Game -- Set -- Match! Join the Tennis Forum to get news and information on the game, players, products and events. Online conferences will put you in touch with the game's professionals. Topics covered in the Forum area include trivia, equipment, classified ads, players' biographies, instruction, TV coverage schedule, resorts and vacation planning.

World Motoring News Forum

[Go Now: **MOTORING**](#)

World Motoring News Forum brings together fans of the motoring world, and creates a starting point for ideas and discussions on everything connected with motor sports. The World Motoring News Forum was set up by and is run by Promocourse International in Paris, France.
