TRUE-FALSE ADVICE

To make a true-false quiz, you will type a series of statements, each one either true or false.

When you take the quiz, you will see the statement, and answer whether you think it is true or false,

Tips:

- Don't worry about the order of your true and false questions; when you take the test, they will appear randomly

- Write statements that are brief and clear

- When you take the quiz, you will be asked all the questions, so don't write more than you want to take.
