 How and why to Register

Overview

The goal is simple.   After a new game is started.   The play begins when you click on the mouse character on the screen.   Now move through the maze and get to the cheese WITHOUT waking the sleeping cat.

You can change the starting and skill levels before starting each new game.

How to Play

Click the "File" menu choice and then click the "New Game" choice to begin the game.

After the level loads, click the picture of the mouse and begin moving the mouse through the maze towards the cheese.   When you reach the cheese at the end of the maze, it will enlarge and you will have to eat it as fast as you can by clicking on the enlarged picture.

If you choose to eat the bonus cheese after doing so, you will need to click the mouse picture to begin moving down the path again.
If you leave the path, the mouse will return to start.   When you run out of trys, the CAT will get YOU!

Scoring

Score is calculated by:

     ... Time needed to complete the maze
     ... Number of tries need to complete the maze
     ... Skill level selected
     ... Eating the bonus cheese [2000 pts.]

How and why to Register

Hi! This is the first shareware application I have written.   I hope you and your children will enjoy this game as much as my kids do.

This game is more than just fun - it also can be very helpful in learning the hand-eye coordination
needed to operate a PC with a mouse.

Please give a copy of this game to all your friends and co-workers, BUT PLEASE PLEASE REGISTER!

REGISTERING ALLOWS FOR   THESE THINGS TO HAPPEN:

1. I CAN SEND YOU ADDTIONAL LEVELS
2. YOU ARE SUPPORTING THE CONTINUATION OF LOW COST SOFTWARE OPTIONS

PLEASE SEND $5 DOLLARS ALONG WITH ANY SUGGESTIONS TO:

D. Lundquist
909 South 12th Ave.
St. Charles, IL 60174

Enjoy!
