Limited Distribution License

Shareware Distributors, Disk Vendors, Computer Clubs, User Groups and Sysops wishing to add the Jewel Thief package to their disk library may do so in accordance with these Limited Distribution License restrictions.

As the exclusive copyright holder for Jewel Thief, ServantWare authorizes distribution only in

accordance with the following restrictions.

ASP Approved Vendors in good standing are hereby given permission to distribute the Jewel Thief package on its own disk, as part of a disk set, CD-ROM, disk-of-the-month, or subscription package. Non-ASP member vendors must request permission from ServantWare prior to distributing this package in any form.

ASP and non-ASP vendors are asked to not use a Disk-of-the-Month distribution to use up old (out-of-date) inventory. Only the current version (1.4) may be shipped as Disk-of-the-Month disks.

The Jewel Thief package CANNOT be sold as part of some other inclusive package. Nor can it be included in any commercial software packaging offer, without a written agreement from ServantWare.

The Jewel Thief package - as defined above - CANNOT be modified in any way with the exceptions of the addition of a BBS, Vendor, Computer Club, or User Group advertisement as a text file, a comment in the compressed file, or an installation batch file.

No price or other compensation may be charged for the Jewel Thief package unless written permission is obtained from ServantWare. A distribution fee may be charged for the cost of the diskette, shipping and handling, as long as the total (per disk) does not exceed US \$5.00.

The Jewel Thief package cannot be "rented" or "leased" to others.

You may not list any of our products in advertisements, catalogs, or other literature which describes our products as "FREE SOFTWARE". Shareware is "Try-Before-You-Buy" software, it is not free.

ServantWare prohibits the distribution of versions previous to version 1.4. If the version you have obtained is over twelve (12) months old, please contact us at the address in ORDERFRM.WRI to ensure that you have the most current version.

Licensee shall not use, copy, rent, lease, sell, modify, decompile, disassemble, otherwise reverse engineer, or transfer the licensed program except as provided in this agreement. Any such unauthorized use shall result in immediate and automatic termination of this license.
