

Titanium Seal Games and Windows CD-ROM

Welcome to the Titanium Seal Games and Windows CD-ROM. Included on this disk are the finest games and Windows shareware programs selected from among thousands of shareware releases. Titanium Seal is proud to offer you not only the titles you want most, but fully functional shareware programs with features usually found in packages costing much more.

This CD-ROM is divided into a number of subdirectories for the Games and Windows programs. The disk is structured like this:

```
d:\
  subdirs for each Games program
  WINPACK\
    subdirs for each Windows program
```

Installing Games:

1. Log onto your CD-ROM drive. For example, if your CD-ROM drive is D, type **D:** and press ENTER.
2. Type **SETUP** and press ENTER.
3. Select the program you want to install and follow the prompts on your screen.

Installing Windows programs:

1. Launch Windows File Manager and bring up the directory listing of your CD-ROM drive.
2. Open the **WINPACK** subdirectory.
3. Open the subdirectory containing the program of your choice. For example, if you want to install *Above and Beyond*, open the **ABOVBEYO** subdirectory.
4. Look for a file named **INSTALL.EXE** and double-click on that file to launch it. Note that most of the programs are installed with a program named **INSTALL.EXE**, but several use **SETUP.EXE** instead. Always use the INSTALL or SETUP program that you find in the subdirectory containing the program you want to install.
5. Follow the prompts.

NOTES:

1. Always check the shareware author's documentation files for information about how to get the most from these programs. This documentation can be found in files with names like README or in files with extensions of .TXT, .DOC, and .WRI.
2. Some of these programs require specific memory or CONFIG.SYS/

AUTOEXEC.BAT parameters. Be sure to check the documentation for these requirements.

3. At the last minute and after the packaging was printed, we replaced EGA Trek and Oxyd with Goodbye Galaxy and Solitaire Suite.

That's all there is to it!
