BACK ISSUES

INSTALLING TRUETYPE FONTS

Installation of a TrueType font with System 7 is simple. Drag the TrueType suitcase to your System Folder and drop it in. That's it! You may load your application to start using the new font.

You may also *double-click* the suitcase before installing to see a preview of the new font.

NOTE: IF YOU ARE USING SYSTEM 6 YOU WILL NEED TO ACQUIRE THE TRUETYPE INIT FROM APPLE.

INSTALLING TYPE 1 FONTS

System 7 users, copy the Type 1 icons to your System Folder.
System 7 will place all the files in the correct folders.

System 6 users will need to copy the printer icon to the System Folder. To install the suitcase will require Font/DA Mover to copy the screen fonts to your System file.

SYSTEM EXTENSIONS, CONTROL PANEL DEVICES, APPLE MENU ITEMS

To use these with either System 6 or 7, copy the System Extension, CDEV, or Apple Menu Items (Desk Accessory) to your System Folder and reboot.

CDEV's (CONTROL PANEL DEVICES) can be accessed by using the  Apple Menu and selecting the CONTROL PANEL option. This will bring up a list of your currently installed CDEV's. Locate the CDEV you copied to your System Folder and *double-click* it.

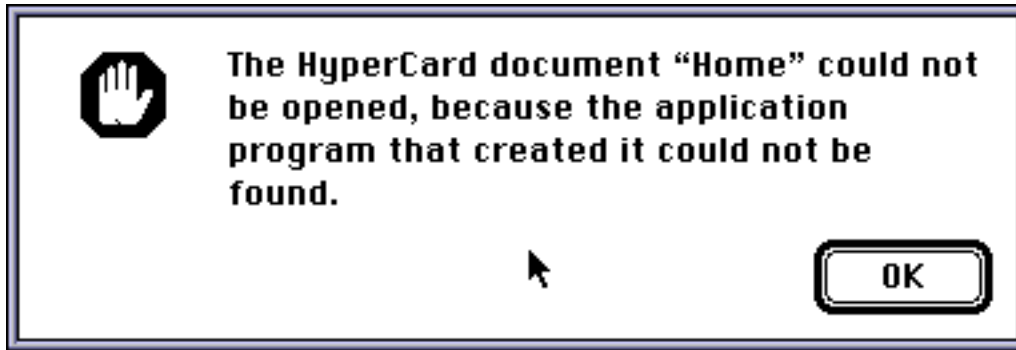

EXTENSIONS work a bit differently. When you restart your Mac, they stay resident in memory to perform a certain function. To obtain instructions on a particular Extension please read through any document file included. **Note:** If you have moved an Extension and it is not loading when you restart your Mac, verify that it is selected, using the Extension Manger Extension.

APPLE MENU ITEMS are accessed by pulling down the Apple Menu and selecting it. System 6 users will have to use Font/DA Mover to add the DA to there System file.

HyperCard Stacks

Using HyperCard stacks is as easy as *double-clicking* . If you receive an error message similar to the following:

you do not have either HyperCard or the HyperCard Player installed on your system.

HyperCard and the HyperCard Player are available through your local software reseller or for a reseller near you call Claris Corporation directly at (800) 334-3535.

GENERAL INTEREST

Balthazar

by Craig Marciniak

Fantastic — a bullet proof method of stealing Windows sounds for your Mac!

Balthazar converts Windows WAV files to double-click System 7 sound files and vice versa. Supports multiple file drag and drop and also allows you to play the sounds before you save them. Show your PC friends that anything they can do you can do ... better!

CD Coyote

by Esa Ristilä

Catalog all of your audio CDs with this handy utility! You can edit CDs without inserting them and merge all of your data files into one so you can share them with friends. And if you've already entered song and title information into AppleCD Audio Player, don't worry — CD Coyote will even import that data!

Chronograph

by John A. Schlack

Automate your Mac! Use Chronograph to automate repetitive tasks and assign times for them to be executed. You can play sounds, open files and run applications or scripts (if you have System 7.5). With Chronograph, your Mac can automate your work for you!

DeskPicture

by Clay Maeckel

Put a picture on your desktop instead of a texture with this easy to use application and Control Panel! If you have a scanner, you can even put pictures of yourself on the desktop.

EL-IXIR

by Isoft

Take over the most territory by surrounding your enemies! EL-IXIR is a two player strategy game similar to Othello and Reversi. This game's appeal is that it is easy to learn, yet the variations are endless. Intriguing!

Hot Tip: Capture the corners and build from there!

Greg Swann's Utilities

by Greg Swann

Here are sixteen handy utilities from master programmer Greg Swann! Included are numerous utilities for working with fonts, sorting, word processing and desktop publishing. For more info, see the "About Greg Swann's Utilities" document inside

each utility's folder.

Killer Desktop v1.0

by Powerpunk

Seventeen great pictures to spice up your desktop! Many of these are fully rendered! Just double-click, copy to the clipboard and paste into the Desktop Patterns Control Panel (System 7.5 only) and voila! 3D desktop!

Personality Test

by White Sands Multimedia and Chris Athanas

What really makes you tick? Find out with this fascinating personality test. This test gives you a remarkably accurate analysis of your personality traits and characteristics, from behavior to aspirations. Set aside about an hour to answer these multiple-choice and matching questions. You'll be glad you did!

QuickPop

by John V. Holder

Supercharge your Mac! Drag this handy Control Panel into the Control Panels Folder and assign "hot keys" for up to five Apple Menu items. You can also configure a menu of your most used items and have it pop up anywhere on the screen with a key/mouse combination. Execute programs or open folders instantly!

QuickSHIP v5.0

by CopperHead Software

QuickSHIP is simply the best UPS shipping program available! Use it to calculate shipping charges quickly — it even interfaces with compatible electronic scales! But that's not all! It functions as a complete shipping manifest system for domestic and international UPS shipping. This version has the latest rates for 1995 and it even saves and prints short form bills of lading!

QuickSLIP

by Robert Chancellor

Navigate your sprite through a world filled with mines and bad guys. It's part puzzle and part arcade game. Great color graphics and truly intriguing levels. Hot Tip: Take it slooow. When in doubt, observe the baddies before making a move.

SoundScape

by SlimyFrog Software Products

Reduce your stress level! SoundScape plays soothing bird calls in the background to calm your jagged nerves. To use, just drag this fully-configurable Control Panel into the Control Panels Folder within your System Folder.

Shareware Utilities

Here's a group of indispensable Shareware Utilities no Mac Power User can do without.

BijouPlay

by MUSI Computer Products

By far the fastest and finest movie player for Macintosh!

Chiron

by Rob Cummings

Stand-alone list of Macintosh error codes. Put it in your Apple Menu items folder and it'll be there when you need it most!

Disinfectant

by Northwestern University

Scan for and remove viruses from all of your disks! You can even install a protection program to prevent future infection!

Graphic Converter

by Thorsten Lemke

Open, edit and convert every picture format from GIFs to TIFFs with this handy utility.

Fontview

by Simon Brown

Display the key map of any font with this Desk Accessory.

HowHearThis

by Glenn Koral

Play just about any kind of sound file or convert sounds to System 7 double-clickable sounds!

PICTuresque

Zoom, copy, paste your favorite PICT, PNTG, or EPS files.

Quill

by Sergio Villone

You can view your documents with Quill.

Software FPU

by John M. Neil

Emulate a Floating Point Unit with this handy system Extension.

Stuffit Lite

by Alladin System, Inc

Compress and extract files, or create self-extracting archives.

The TypeBook

by Jim Lewis

This program aids in the creation and maintenance of a typeface reference book.

DESKTOP PUBLISHING

Bright Ideas EPS

Clip Art

a Software of the Month Club exclusive!

This month's collection includes a pair of boxing gloves, a director's chair, a leopard, medicine bottles, a train in the mountains, a car, a nurse, an orchid and a header with a Southwestern look. This folder contains original clip art from the talented individuals at Bright Ideas. These images are guaranteed to please! For more information about Bright Ideas, call Membership Services.

QuarkXPress II & III

Training on CD sampler

We are happy to present, by special arrangement, this exclusive QuarkXPress tutorial. View these full color movies and find out how to get the most from QuarkXPress! Our third installment includes three QuickTime presentations:

"06 Measurements Palette," "07

Measurements-Type" and "08

Measurements-Pictures."

NOTE: We have included an excellent shareware movie player called "Peter's Player." You can play these movies even if you don't have Apple's

Movie Player. Peter's Player is located in the same folder as the tutorials.

WordListMaker

by Jacek Iwanski

Create sorted lists of words with this simple drag and drop application. These lists are especially useful as custom MS Word dictionaries. You can drag multiple text files and create a text file or an MS Word dictionary.

Fonts

Angelus

by Scriptorium Font Library

Clean and severe, Angelus adds a modern look to your documents. Use this stylish, readable all-caps sans serif font in all sizes. (TrueType and Type 1)

Los Angeles Laser

by M. Riddle

Like the smog paradise for which it's named, Los Angeles Laser is stylish, informal and hip. Use it when you want to impart a modern casual look to documents.

(Type 1)

McFee

by Erik Kosberg

It's big, it's bold and it demands to be noticed! Its sharp corners and thick lines are especially suited to headlines and splashy text banners. (Type 1)

Ogilvie

by Kiwi Media (Eric Oehler)

Modern music fans will recognize this font from the cover art of the "Skinny Puppy" band. It's hip, angular and has a distressed appearance. Ogilvie is well suited to flyers or posters and, of course, it makes great album cover art! (TrueType and Type 1)

Prospero

by Tim Rolands

This clean serif font has pleasing lines — especially the lower case "j" and "g". Ideal in 12 pt. sizes and above. Use it in place of Times or Palatino. (TrueType and Type 1)

Tangram

by Jason Pillon

Tangram is not a sun-bronzed senior citizen! Tangram is a font. Each character is constructed from a perfect square cut into seven geometric pieces. It's based on Tangoes® (by permission of Rex Games, Inc.) and consists of people, animals, s and things. (Type 1)

GAMES

Adventure Simulator

by Scott Henderson

If you love text-based adventure games, then Adventure Simulator is for you! Create your own adventure games with this easy to use application. You'll love its extensive features and the concise, thorough documentation.

Catacombs

by Glenn Seemann

As the eerie music plays and the Catacombs are revealed, you realize you're not in Kansas anymore! This fantastic arcade-style role-playing game features 256 color graphics. The levels are laid out imaginatively. You can even create your own levels with the Dungeon Builder application!

Hot Tip: Learn to move diagonally and make sure you destroy the monster generators. If you don't, you'll be swamped with bad guys!

EL-IXIR™

by Isoft

This is a great two player strategy game similar to Othello and Reversi. This game's appeal is that although it's easy to learn, the variations are endless. Intriguing!

Haunted U.

by Mindworks Software

Save the University from evil spirits and then get out safely! This adventure game requires patience and imagination. There are many, many ways to die — but dying is so fun you won't mind! Excellent black and white graphics create a frightening atmosphere. We dare you to play it in the dark!

Hot Tip: Save everything, look at every-thing and look both ways before crossing the street!

Jigsaw v2.0

by Vincent Tan

Create and solve jigsaw puzzles with this fun rainy day game! You can use the supplied pictures of Victoria Bay, the Golden Gate Bridge and flamingos or you can use your own (JPEG format) pictures! Very realistic! You will swear you are working the puzzles on your coffee table!

Karmel

by Emmanuel Vert

Karmel is a fun dice game for one to nine players. The object is to be the first to reach 10,000 points by rolling doubles, triples, etc. It's simple to learn and the fantastic tutorial will have you playing in no time!

Hot Tip: Never roll less than two dice, and check the rules for more tips!

Mac Video Poker

by Glenn Seemann

A charming incarnation of Video Poker. Place your bet, rub your rabbit's foot for luck and deal the cards! Great colors, simple game play and beautiful cards (especially the face cards!).

Hot Tip: Play the odds — don't go for double or nothing when you win a hand. (Unless, of course, you're feeling lucky!)

NOTE: To change your bet, click on the appropriate pay line.

Onslaught

by Leander Harding

Can you say rapid fire? In Onslaught, you are the sole defense of a comm relay outpost being overrun by marauding robotic vehicles. Here's the fun part — after you shoot choppers or hyper darts, a pod appears. Run over it with your ship and you get a special weapon. Run over several and you get weapons all at once!

Mayhem!

Hot Tip: After losing a ship, a new one appears under the outpost. It's hidden, but you'll see it if you move or shoot.

QuickSLIP

by Robert Chancellor

Navigate your sprite through a world filled with mines and bad guys. It's part puzzle

and part arcade game. Great color graphics and truly intriguing levels.

Hot Tip: Take it slooow. When in doubt, observe the bad guys before making a move.

Feature Program

Realmz

by Fantasoft

In the days of long ago, in a medieval land, intrepid travelers brave the dangers of sorcerers, spells, potions weapons and wizards. It features great graphics, extremely imaginative game play and now it's 32-bit clean! You create your own

party of characters and embark on numerous quests. We've included two scenarios.

Look for more in future volumes!

This is the definitive fantasy adventure game for Mac!

Space Junkie

by Tuan Huynh

Good things do come in small packages! Space Junkie requires a scant 231K of disk space and only 800K of RAM. Put it in your Apple Menu Items folder (within your System Folder) and you'll have instant access! Now let's talk game play. This one packs a punch! Ultra fast animation and great full color graphics make this space shoot-em up game a keeper!

Hot Tip: Your guns overheat if you fire too rapidly. Keep one eye on the temperature gauge and the other on the space mutants!

Spy!

by Stellar Productions

The year is 2003. Two years ago Boris Yeltsin declared himself dictator of Russia and, like a modern day Czar, his goal is to take over the world! As a CIA agent, you must save the world and stay alive! Easy game play — just click on things in the screen to use, go, open, etc.

Hot Tip: Offer something to the homeless man. You should have something he needs and he definitely has something you need!

KIDS

ALEX

by Jennifer L. Sweeney

ALEX is an excellent game for children of ages three to five. Fantastic color graphics enhance the fun while your child learns to identify letters, numbers, shapes and colors. There are also some great games — matching, sequencing and arcade-style. The intuitive layout makes it easy for kids to play.

American Reading

by Galileo Hyperbooks

Our American heritage is the soil in which our future grows. This Hypercard based compendium is a sweeping collection of readings on American history. You'll find everything from Columbus landing in the New World to Martin Luther King's "I have a dream" speech. The maps are fantastic, and there is an extensive indexing system for finding just what you're looking for — quickly and easily!

*Hypercard stack

Big Note Music Speller

by David Bagno

Learn to sight read music using this excellent tutorial! As Big Note Music Speller quizzes you, you'll learn to identify which piano keys correspond to which notes. Great for budding musicians!

Jigsaw v2.0

by Vincent Tan

Create and solve jigsaw puzzles with this fun rainy day game! You can use the supplied pictures of Victoria Bay, the Golden Gate Bridge and flamingos or you can use your own (JPEG format) pictures! Very realistic! You'll swear you are working the puzzles on your

MaciGame

by Takeshi Takahashi

From our international collection comes this fun Japanese matching game. The object is to match adjoining characters of the same type and eliminate them until there are no more characters on the board.

Musical Colors

by Patrick Byrnes

Kid tested and approved! For the three to five year old set, this program teaches

color recognition the fun way! Your child is asked to choose the appropriate color by a friendly voice. Correct choices are awarded with fun sounds! Finish all of the colors in a lesson and you hear a song! Great fun and extremely easy to use.

QuizWhiz!

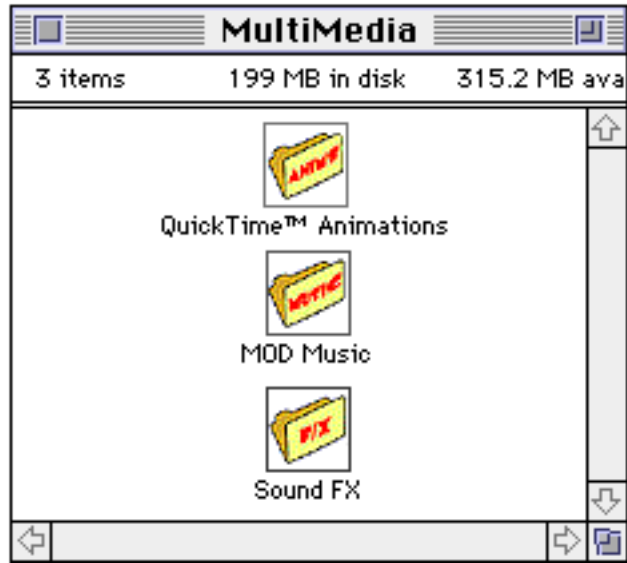

by Tony Martin

This is the perfect study aid! Create your own multiple choice quizzes with this easy to use Hypercard Stack. A sample quiz is included to point you in the right direction. Once created, quizzes make excellent flash cards!

StoryMaker™

by James Kass

Have you ever played the game where you combine nouns, verbs and adjectives to create wacky sentences? This computer version of that game quickly and easily creates silly random sentences from five sets of words, or you can create your own and then let the computer repeat them. Nonsense has never been this much fun!

SIX QUICKTIME™ ANIMATIONS/USE DICK & JANE READER TO VIEW AND LOAD THE QUICKTIME™ EXTENSION (THIS IS NOT PROVIDED)

FIFTEEN MOD MUSIC SOUND-TRACKS/DOUBLE-CLICK THE PLAY LIST TO HEAR THEM.

Each **Software of the Month Club®** CD-ROM will NOW include a selection of program categories from our popular SRI list. In addition to the normal selection of software from our Games, General Interest, Kids and DTP clubs you will now receive programs from the SRI. What this means is that you can be assured that when you use a program from the SRI you know that it is the highest quality. Why? Because the SRI is a list of our most popular software. Below is a list of topics and descriptions in this month's issue.

COMING NEXT MONTH...

GENERAL INTEREST

Business

AH! SCHEDULE

Create your own high-quality charts for project management and tracking.

FINANCE

Keeps track of unlimited accounts and moves smoothly without the necessity of double bookkeeping.

Biplane

Complete spreadsheet package. Includes on-line help. Form It!

Make your own forms.

Curve Fit-Plot

Fit data to straight lines, exponential/logarithmic/power curves, saturation/growth/rate. Histogram
Create bar histograms for business.

LogMaster

Client billing program.

Mariner

Do you need a powerful spreadsheet but lack the bucks to purchase a big commercial product like Excel or Lotus? Mariner is here to fill the gap.

PayWindow

Have you ever wished you had an excellent, full-featured, and well-organized payroll Program? Your wish is PayWindow+s command.

Quikship

Keep track of your shipping records, maintain customer list, and quickly calculate shipping totals.

Tradex

A professional quality stock management application.

Desk Accessories

Area Codes

Find the state/city of any area code.

Icon Maker

Capture icon images.

Little Black Book

Keep track of all your phone numbers and addresses.

ProCalc

Calculator to perform complex calculations.

Servant

Twenty-six chapter tutorial covering the C programming language.

Virus Detective

Scans and protects your system from a virus attack.

Paint Viewer

Display, zoom, copy/paste PICT, PNTG, or EPS graphic file formats.

Quicklook

UPS calculator with the latest rates world wide.

PICTuresque

Displays PICT, EPS, and MacPaint files. Copy and format to the clipboard.

Victoire

A desk accessory to cheat on your favorite games

GAMES

Adventure

Laser Learning

Laser Learning is an adventure where enemy drones are gunning to blast you out of existence. But you can fight back by answering key questions which are sent to you by two friendly drones.

Wolfenstein 3D

While on a reconnaissance mission for allied forces you infiltrate a Nazi fortress.

HyperCard Education

KIDS

HYPERCARD EDUCATION

Alice in Wonderland

Read through Lewis Carroll's wonderful novel. Entertainment for all ages.

Animated Faults

Animated stack showing three main types of faults.

Heather's Notes

Helps children learn the most commonly used piano keys.

Animation Help Stack

Offers excellent help and tips on using various types of animation within HyperCard.

Around The USA

Educational stack which teaches facts about U.S. states.

Hyperbook Report

An easy way for students to pick and write a book report.

HyperTurtle

Brain Stack

A complete guide to the human brain.

SpaceStack

Gives you the details of America+s venture into space. Also includes a variety of other stacks.

Caroline+s Counting

Teach your children to count.

Cosmic Ladder

Measure cosmic distances.

Electricity and Fission

Teaches basic concepts about matter and electricity, and goes into the study of nuclear fission.

Ship Code Blinker

Teaches Morse code by sound and/or blinker.

Europe GameE

Quiz yourself on European countries and capitals.

German Grammar Tutor

Learn essential German Grammar the Hypercard way.

Northern Africa

Learn countries and capitals in Northern Africa.

Southern Africa

Familiarize your self with South African capitals and countries.

Twain

Read quotes from some of Mark Twain+s most famous works.

United States Map

Learn information about our fifty states including state capitals, birds, mottos, and nicknames.

Grademaster

Tracks and averages project tests for any number of

students.

Telephone Teacher

Realistic telephone simulation.

Gravitation

Two-dimensional, graphic orbital simulation.

Great Expectations

A terrific study guide to this Charles Dickens masterpiece.

Music Gym

Use this stack to educate yourself on the rudiments of music and its notation.

Whales Stack

Information on whales.

Periodic Table Stack

Hypercard-based periodic table.

QuizMaster

A program that quizzes the user on various topics.

What is There to Do?

This stack includes over 374 cards with hundreds of creative activities to keep your children busy.

Shakespeare+s Sonnets

Hypercard stack of Shakespeare+s Sonnets.

Word Builder

A drill on synonyms and antonyms.

This section of the CD-ROM is where you will find specialty software. In this months selection we have chosen Icons. Look for more **BONUS** sections in future CD-ROM shipments.
