Each Software of the Month Club® CD-ROM will NOW include a selection of program cateogies from our popular SRI list.   In addition to the normal selection of software from our Games, General Interest, Kids and DTP clubs you will now recieve programs from the SRI.   What this means is that you can be assured that when you use a program from the SRI you know that it is the highest quality.   Why?   Because the SRI is a list of our most popular software.   Below is a list of topics and descriptions in   this months issue.

GENERAL INTEREST

HC Home/Personal

Apartment Finder
Alleviates the stress of finding apartments in the paper.

Cindy's Recipes
Organize your recipes.

Digital Cookbook
Store and organize your recipes with this handy stack.

Drink Recipes
Recipes designed by a professional bartender.

Home Finance II
Track your personal finances with this complete package.

Replace static menu item icons with animated ones.

Programming

C Reference Card
Use this application to provide useful C language reserved words and variable types

J Programming Language
Generate your own programs with this unique programming language.

GAMES

Puzzle/Logic

Achi
Similar to tic-tac-toe, except that you get to move your pieces after you put them all down.

Blit!
Animated puzzle game with 12 levels. Color or black and white.

Bo-Rad
Match a combination of colors and patterns with the master puzzle hidden from view.

Chello
An interesting game that has game play like checkers and othello.

Chesapeake
A way to look at a chess game with the ability to examine each move.

Concentroids
Can you find the matching patterns?   Features a multi-media interface with sound effects never seen before.

Connect Four
A board game for two players. Both players may drop one stone in the box. The one who gets 4 stones of his color connected in a vertical, diagonal or horizontal row, wins the game.

Crossword Puzzler
Generate and print your own crossword puzzles with this application.

Grid
Grid is a two-player game in which the participants attempt to move tiles of various point value into the four center squares.

Kubik
A Rubik's cube simulator.

Literary Plates
A set of "vanity license plates" for classic book authors. The task is to figure out what the shorthand clue means so you can identify the correct author from the four choices presented.

MacTurnover
The object of the game is to capture as many of your opponent's pieces as possible.

Match22

A concentration-style educational memory game with a global theme.

Mazer
Ultimate arcade/strategy maze game.

Mosaic
Take turns building and altering a board of square tiles.

Pentris
Experience hours of fun with this variation of tetris using pentraminoes.

Shogi
A Japanese board game played by two players. The object of the game is to capture the opponent's king. Shogi is played on a nine-by-nine board.

KIDS

Education

Hungry Frog Ion Eaters
Direct your frog's tongue to the appropriate oxidation number for the ion shown.

Mac Gradebook
Track students, assignments, tests, and grades with this complete package for teachers.
