

Classic aircraft color portraits on screen

1705 East Gunn Road

Rochester, MI 48306

1-810-652-0858

Compuserve 74367,3500

Our airplanes are designed for use as wallpaper for the Windows desktop and for "floating bitmap" screen savers. All are roughly 700 pixels in width and are on a black background. All are done in vivid 256 colors. Send \$15.00 check or money order for a 5.25" disk containing all 15 planes in a zip file made with PKZIP 2.0. This is not a self-extracting file (which requires a license from PKWare).

Disk No.1 contains:

- Hall Bulldog	331KB
- Gee Bee R-2	245KB
	- Laird Super Solution 303KB
	-
Supermarine S.6	255KB
	- Boeing P-26A 205KB
	- Curtiss SBC-4
Helldiver	199KB
	- Curtiss BF2C-1 Goshawk
	294KB
	- Grumman F6F-5 Hellcat
	248KB
	- North American P-51D Mustang
	200KB
- North American B-25C Mitchell	194KB
- Douglas A-26B Invader	199KB
- Supermarine Spitfire Mk.Vb	151KB
- Hawker Tempest Mk.V	167KB
- Curtiss Kittyhawk IA (P-40E)	230KB
- North American Mustang Mk.I	172KB

If you don't have PKZIP, we'll make you a custom 3.5" HD disk for \$15.00. List your choices which add up to less than 1423 KB. Or we'll send all 15 on three 3.5" disks for \$25.00.

We also have a disk full of airplane icons. There are more than 80 and are done in 16 colors. They are all .ico files usable in Windows Program Manager. All on one 5.25" disk for \$10.00.

We also have a large collection of 16 color portraits which are roughly 550 pixels in width. They are about as good as our artist can do within the limitations of the 16 color palette. If you are interested, contact us for a listing. Some of these portraits **do not** show well in more than 16 color graphics mode due to color differences between the 16 and 256 color palettes.

COMING SOON in 256 colors: Disk No.2 will contain the Seversky P-35A, B-24 Liberator,

Macchi-Castoldi MC.72, Bell P-39 "Cobra II" racer, Grumman XP-50, P-63 King Cobra, Brewster F2a-1 Buffalo, Spitfire Mk.XXI and Hawker Hurricane 2c and six more TBD.
