Volume 1 - Issue 1.0 (Disk-Version)

Welcome to the inaugural issue of Inside Mac Games (IMG), a monthly electronic magazine devoted to the Macintosh gaming enthusiast. In the past year, the Macintosh gaming market has seen an influx of flight simulators including Hellcats, Red Baron, Falcon MC, Flight Simulator 4.0, and others. In light of this, our first issue focuses primarily on flight simulators. And the future looks bright indeed: in March or April, F/A-18 Hornet is scheduled to be released! And the latest news is that Microprose is working on F117A Stealth Fighter and Dynamix on Aces of the Pacific. You can be sure that IMG will continue to provide the latest breaking news, interviews, hot reviews, and concise tips and information to help you get the most out of your Mac gaming. But of course we can't do it without your help. So if you like what you see, please subscribe using the subscription form on the last page.

We hope you enjoy the magazine as much as we enjoy playing games on the Macintosh. We would like IMG to become the BEST Macintosh Gaming Magazine—bar none. If you have any suggestions, compliments, complaints, etc., please drop us a note.
