Please contact individual vendors for information on availability and ordering.

**The C.H.A.O.S. Continuum.** The C.H.A.O.S. Continuum is the first interactive CD-ROM adventure to incorporate movie quality animation and special effects created on Silicon Graphics workstations.

As the game opens, it's the year 2577. Titan Colony (Titan being the largest moon of Saturn and of our solar system, and the only moon with an atmosphere) is being held captive by an orbiting sentient supercomputer known as C.H.A.O.S. The computer originally was developed to carry out numerous scientific and educational tasks, including dramatically boosting the brain power of the colonists. But now, something has gone wrong. C.H.A.O.S. has begun destroying the colony and has trapped its scientist creators in a parallel continuum. In order to escape that continuum and to try to free the colony on Titan from C.H.A.O.S., the scientists make contact with computer operators (game players) in the 20th Century.

The C.H.A.O.S. Continuum is available from Creative Multimedia and carries a list price of \$79.99. Creative Multimedia, 503/241-4351.

**Rex Nebular.** Join Rex as he pilots the Slippery Pig on a crash course for Terra Androgena, a planet populated entirely by bizarre alien women with agendas of their own! Only you can help Rex complete his mission and escape Terra Androgena alive. A multitude of mind-bending puzzles. Enticing skill levels for players from novice to genius. Rex Nebular lists for \$69.95.

**SimCity Classic.** SimCity dares you to design and build the city of your dreams. With its simple interface and the ability to run on almost any computer, it's the best introduction to both simulation games and city planning on this or any other planet. Features: Design unlimited cities from the ground up. Use the Terrain Editor to sculpt your city's landscape. Guide your decision-making process with real-time graphs and demographic maps. Find out how popular you are with the public opinion poll. Test your leadership abilities with the eight included city scenarios. Fight floods, earthquakes, fires, tornadoes, meltdowns, and

monsters.

SimCity Classic requires 2 MB RAM and hard drive, 2.5 MB RAM under System 7, and carries a suggested retail price of \$39.95. Maxis, 510/254-9700.

**Strip Poker Professional.** Strip Poker Professional offers three opponents who take you on in a challenging game of poker with some very different table stakes. Play against one, two, or three opponents simultaneously, and as before, the more you win, the more they take off! Using a new screen layout, features color graphics and digitized sound. During play all opponents are displayed with one opponent occupying a large play and the others displayed in smaller "windows." These windows can be swapped with the main opponent display at any time. Makes extensive use of digitized speech and each opponent has her own "library" of comments. New features include digitized card graphics, save game, and an easy access control panel to set program parameters. Strip Poker Professional requires a color Macintosh and lists for \$49.95.

New Products and Updates: Please send direct press releases (by mail, electronically, or fax), product announcements, and shrinkwrapped software (by mail or courier) to the addresses on the second page.
