CHILDREN'S

Birds of the Brigantine
by Clare N. Shumway
This HyperCard stack contains pictures of 26 different birds from the Edwin B. Forsythe National Wildlife Refuge in New Jersey. Each picture is in full color and identifies the bird shown. If you're an ornithologist or just like birds, you'll love this stack.

Camping Story
by Granite Christopher
This fun HyperCard stack is not only a story, it's a variety of fun activities. First, enter information about yourself, like your name and favorite food. The story uses the information you entered. Throughout the story you can click on objects and see what happens. For example, click on the bear and hear it growl. You can also go fishing and arrange items in your campsite.

Greatest Paper Airplanes v1.0
by KittyHawk Software, Inc.
Make your own original high performance paper airplanes. This program takes you step-by-step through the making five different paper airplanes. The lessons are animated and you can print out airplane templates complete with decorations.

Hangman Plus v4.0
by Ken Winograd
This great hangman game has a variety of options. There are almost 40 different categories, including animals, islands and vice presidents. You can even add your own words. Customize the game to allow anywhere from six to 12 wrong guesses each game.

Let's Color... v1.3
by TOTO Computer Graphics
Fantastic! This coloring book program gives you a choice of numerous colors and textures. Use the Paint Bucket to fill in entire areas, or choose from three different crayon sizes. If you make a mistake, you can undo your last action, or use the Lightning Bolt tool to zap an area free of color. Print your pictures or save them as PICT files.

Math Stars v3.0.2
by Roger M. Clary
Practice addition, subtraction, multiplication and division. If you answer 10 out of 10 questions correctly within the time limit, you earn a gold star. Earning 10 gold stars puts your name in the Hall of Fame. Set the time limit for each question from three seconds to unlimited. Entertaining sounds and colorful graphics make this program lots of fun.

My Little Kitchen
by Diane Bundy
You'll have a lot of fun in the kitchen with this great HyperCard stack. Open cupboards and drawers and play with the utensils. There are a variety of activities, like making and decorating a cake and coloring eggs. Click on the various appliances and hear them run.

Rock Scissors Paper v1.00
by Argus IG
Play this ancient Babylonian game. You play one-on-one against EyeGuy — a bizarre alien from outer space. First you choose either rock, scissors or paper, and then the EyeGuy picks one. Remember — rock smashes scissors, scissors cut paper, paper covers rock.

Sokoban v2.0
by Scott Lindhurst
Try to push the treasure chests through a maze to their proper locations. The chests are so heavy you can only push one at a time. If you push one into a corner it will be trapped. There are over 150 different levels included in this challenging puzzle game, plus instructions on how to create your own.

Spell Tutor v1.1
by Roger M. Clary
Create and take spelling tests with this educational program. Record spelling words with your microphone and type in the correct spelling. Because you're recording the words, you can use any spelling words you like, from easy to difficult. Includes a sample spelling test to get you started.
