

# GAMES

Buffalo v1.0

by Thornley Jobe

Can you solve this colorful puzzle? Arrange colored tiles so their colored edges match. Once you start sliding the tiles, you'll realize it's more difficult than you think. Consists of 24 tiles arranged in a 5 x 5 grid. Save the game at any time.

Christminster

by Gareth Rees

Explore the town of Christminster and Biblioll College in this intriguing adventure game. You haven't seen your brother since he went there, so when you receive a telegram to come and visit, you jump at the chance. But how do you get into the college? This is only one of the many puzzles you have to solve. There are hints along the way if you need them.

Game Atlas v1.5

by John R Morgan, Jr.

Never get lost in your role-playing or adventure games again. Use this full-featured map creation program to map the worlds of your favorite games. Create everything from a wilderness to a dungeon. Save or print any map you create. Includes sample maps to get you started.

Giza v1.0.2

by B and B Software

Explore a mysterious pyramid in this intriguing 3D puzzle game. You are an explorer whose only weapon is a magic crystal which destroys certain blocks in the pyramid and opens secret passages. Find four tablet pieces on each level and arrange them in the correct order to progress. Includes a level editor for creating your own games.

Maelstrom v1.4.2

by Ambrosia Software

Blast the asteroids in this fast paced arcade game! You are the commander of a space ship patrolling the Maelstrom Asteroid Belt. Destroy all the asteroids, shoot down enemy ships and rescue lost pilots. Astonishing graphics and sounds.

Nine Men's Morris v3.1

by Michael Dickman

Play the newest version of this thousand-year-old game. Place pieces on a game board to get three in a row. When you do, you get to capture one of your opponent's pieces. When you capture them, you win! There are many variations and you can play against the computer or challenge a friend.

RoboWar v4.1.2

by David Harris

Design and program robot gladiators — then pit them against each other in fierce battles. There are more than 50 pre-made robots or you can create your own. Up to five robots can compete at a time. Create tournaments, including team play.

Theatre

by Brendon Wyber

You may just break a leg in this game! You're trapped in an old run-down theatre and you have to get out. You'll have to find something inside the structure to help get you out. Explore the mystery of the theater in this exciting adventure. Save your game at any time.
