GolfMeister v1.3

by Dave Smith

Fore! Keep track of your golf scores with this golf database. Enter information for courses, such as par and yardage for each hole. After a game with your colleagues, enter your scores. The program analyzes your handicap, your average number of strokes, putts and more. This information makes it much easier for you to intentionally lose to your boss!

Little-Icon-People

by David Renelt

Add life to your desktop with this collection of file icons. Choose from 14 different icons, including a person sleeping, a person working and people just standing around. Paste these icons on any folder, file or document.
