

CHILDREN'S

AlphaBoat v1.2

by Jim Allison

Ahoy, mate! Teach your children the alphabet with this nautical program. There are two different sections: matching and recognition. Each time you get a correct answer, a boat sails across the screen. All the letters and words are spoken.

Eternity Inn

by LittleFingers Software

Once you check into the Eternity Inn, you can't check out until you've outwitted the innkeeper. Each room has a different puzzle that you need to solve — in the correct order. What's the correct order? That's part of the puzzle. There are many word games and other challenges to keep your kids coming back for more.

Firefly Frenzy v1.0

by Greg Katsoulis

This fun game lights up your computer. Become a firefly in several different adventures. In one game, play tag with Larry, the Lightning Bug. In another game, navigate through cloud mazes and avoid other fireflies. The graphics are great, including different bugs and incredible backgrounds. Fun for the whole family!

Imagino v1.0

by Doug and Carol Anderson

Expand your imagination! Imagino, a cute light bulb-shaped character, tells imaginative stories and talks about exciting things to do. Activities include music, reading and dressing up. Read this to your kids over and over.

USAPuzzle! v1.1

by Torpedo Software

Learn the states and capitals of the United States with this fun puzzle program. Arrange the states into their appropriate positions to brush up on your geography. Match capitals to their states. Adjust the difficulty level to make the puzzle easier or harder.

What Bird #4

by Clare N. Shumway

Migrate to this HyperCard stack of North American birds. Learn to recognize their differences. Review the bird's name, description, habitat and nicknames. The bird pictures are full color and look great.

Feature Program
