

Chiron is Copyright © 1993-1995, Robert Cummings. Permission is granted to make and distribute copies of this software, provided this copyright notice is preserved on all copies. This software may not, however, be sold or distributed for profit, or included with other software which is sold or distributed for profit, without the written permission of the author.

Chiron is free. There is no shareware fee.

I encourage you to make and distribute as many copies of this program as you wish, for whomever you wish, as long as it is not for profit and the information contained in this program is not modified in any way.

Disclaimer: Some of the methods described in this application for wiping out virus's and/or recovering from a crash are tested methods that do usually work. I cannot be held liable for any damages you may be subjected to because of advice given in this application.

This application was created using DOCMaker™ ©1986-1994, by Mark Wall, Green Mountain Software.

Much of the information used in the Virus Listing chapters came from John Norstad's excellent virus protection program, Disinfectant, ©1988-1995 by Northwestern University.

For more information on distribution of Chiron, please contact me at:
