SRI - Business

DiskSurveyor 1.3
Track documents
Catalog the contents on your hard drive, disks and CD-ROMs with this great organizational program. It makes a graphical display of these drives, showing how much memory each folder, program and file occupies. Move the mouse over any section to display item names.
• Customizable colors
• Drag 'n drop support
• Search features
• Create text files of catalog
(Application by Tom Luhrs; Requires System 7.x)

Easy-Docs 2.0
Electronic files
Create stand-alone text documents with this handy program. Create a topic list on the left side and input text on the right. Just click on the topics, and the corresponding text appears. Great for catalogs, employee manuals, training documents and more.
• Text edit features include color, size, font and style
• Print one page or the entire document
• Create non-editable files
(Application by David Herron)

QwikTEXTBILL 1.28
Accounting system
This is a simple invoicing, bidding and accounts receivable program. Perfect for small service firms, contractors, consultants and independent service providers. Create invoices, record payments, prepare account activity reports and maintain client records.
• Small interface
• Import company logo
• Print features
• Multiple billing options, including service charges, shipping charges and tax
(Application by CopperHead Software)

SRI - Children's

BabyLabyrinth 1.0.5

I scream, you scream …
Try to get the ice cream in this simple children's game. Find your way from one side of the maze to the other. Overcome obstacles and avoid anything bad.
• Play with one of 21 characters, including babies, balls, cars and balloons
• Add sounds and pictures
• Three difficulty levels
• Multiple speed settings, including continuous motion
(Application by Simone Bettini)

numerarium
Ancient numerals
Learn addition, subtraction, multiplication and division of Roman numerals.
• Timed play optional
• Features an abacus
(Application by Edwin Bos, SOS Nijmegen)

The Mathathon 1.2
On your mark. Get set. Count!
Answer addition problems with this math bee game. Choose from four difficulty levels. Select multiple choice answers in the easy level, and fill in the blank in difficult modes.
• One or two players
• Timed games
• Scramble questions
(Application by David Bagno)

SRI - Desktop Publishing

Bright Ideas® Images
a Software of the Month Club® exclusive!
This month's collection contains ten color and black-and-white images, including a nurse, a goat and a magic hat. For information about how to receive even more original Bright Ideas® images, along with fantastic fonts, original backgrounds, 3D models, stock photography and useful desktop publishing tips and tricks, call 1-800-470-2582.
(Images by Bright Ideas®; TIFF)

Photos4us
Personalized screen saver
Create personalized multimedia screen savers, complete with transitions and sound. All you have to do is drag your files into the Photos4us folder.
• Customize the playback settings
• Choose from 10 transition settings and 52 transitions

• Set picture display time
• Randomize settings
(Control Panel by ZoeTek)

Smart Dubbing
Lights. Camera. Action!
Transform QuickTime movies into animated GIFs with this conversion tool. Great for adding action to your Web pages — without having to write HTML scripts.
• Create, open and play QuickTime movies
• Set frame rate, interlacing, disposal, transparency and more
• Balloon help
(Application by Alco Blom; Requires QuickTime 2.0 or later)

SRI - Education

EE/ET Basic Filters
Electrifying
Solve Electronics Engineering (EE) and Electronics Technology problems with this helpful system. The program figures the answers based on your calculation variables. Solve even more problems with EE/ET Assistant, included on this Volume.
* Sixteen different calculations
* Easy-to-use interface
(Application by Lemuel Jordan)

Law Hyper-TextBook 4
Informative reference
This excellent reference covers criminal, common and international law. It also defines legal procedures, including subpoenas, patents and indictments. Includes more than 300 different topics, from Abatement to Writ.
• Great for reports
• Quick and easy navigation
• Linked topics
• Print options
(HyperCard Stack by Iverson Software Co.)

QuickCONGRESS v104F
by Copperhead Software
Find out about Congress and Senate members. This comprehensive database contains complete government information, including mailing addresses, phone numbers and E-mail addresses of every member of the House and Senate. Also, learn which representatives serve on committees and when their terms expire. Search by name, state, district and more. Write a letter to

one or all representatives using the letter editor - even print mailing labels!

SRI - Games

Barrack v1.0.0
by Ambrosia Software
Balance sharp thinking and quick reflexes in this mind-boggling game! Use your shooters to fill the playing field and isolate bouncing balls. Watch out! If a ball breaks your shooter's particle beam before the beam reaches the other side of the playing field, your shooter explodes. Fill 80 percent of the screen to get to the next level.
(Game)

Dark Corona 1.0.2
Galactic adventure
Battle against alien ships in this superb side-scrolling action game. You can buy better weapons, stronger shields and more power after each mission. Can you survive all four missions?
• Raytraced graphics
• Special weapons include lasers, shields, satellites and more
• Customizable interface and play speeds
• Several music options, including playing your own audio CDs
(Application by Algomedia Software; PowerPC recommended)

Maelstrom v1.4.2
by Ambrosia Software
Blast the asteroids in this fast paced arcade game! You are the commander of a space ship patrolling the Maelstrom Asteroid Belt. Destroy all the asteroids, shoot down enemy ships and rescue lost pilots. Astonishing graphics and sounds.
