## Game Pieces:

Usually, you see two colored letters falling from the top of the screen. Sometimes you get a letter and something different. WORDS provides bonus objects to help you as you spell your words. These objects are:

 **Eraser:** Erasers remove the letters they land on. Great for getting rid of your mistakes.

 **Fire Bomb:** Fire Bombs can be a big help getting rid of up to 50 letters on the screen. However, sometimes Fire Bombs take out letters you need. Fire Bombs take letters out at random so don't worry where you place one.

 **Mime Cubes:** What ever letter they land on, they change into!

 **Switch-a-roos:** Very unpredictable, They switch any letter they land on and then change them into a random letter.

 **Laser Beam:** These take out the row of letters in which they are placed in.

 **Empty Cubes:** These cubes vanish on impact so don't worry where you put them.
