

Weather

McHurricane 2.1.5c

This weather program will blow you away! Track hurricanes from the west coast of Africa to the Hawaiian Islands. See up to four storms simultaneously with color-coded files. Print hurricane information or copy maps to the Clipboard.

Education-> Volume 228/August '96

Surge 1.1.2

Stormy weather

Track different storm types with this meteorology program. See how weather systems progress from tropical storms to hurricanes.

- * Enter new storm data
- * Animate storm tracking
- * Maps include Atlantic, Caribbean and Gulf of Mexico
- * Zoom in and out

(Application by Justin Cooke)
