

NeuroDiet Internet Registration

If you have Internet World Wide Web access and a major credit card you can register NeuroDiet using the facilities provided by RegNet. RegNet will inform me by email when you register and I will send you a registered copy of NeuroDiet by post within two days. If you prefer I will send a copy by email. RegNet will charge you US \$39 for the registration. If you are registering from outside the USA the credit card company may add a small amount to the transaction. This fee does not usually exceed 2% but if you have any doubts about this amount please ask your credit card company. I will receive payment in US \$ and I will pay the US to UK currency conversion costs.

Go to <http://www.swregnet.com/382p.htm> and fill in the form.
