<u>BAILOUT</u>

Copyright © 1992 by Open Windows
All Rights Reserved

If you'd like the BailOut icon to reside on the desktop (i.e. outside of Program Manager), copy BAILOUT.EXE to your Windows directory and add BAILOUT to the load= or run= line in WIN.INI.

If you'd prefer to conserve your "icon line" space on the desktop and regularly keep Program Manager and a "favorite applications" group open, install BAILOUT2.EXE as a regular application in this group. Starting it up will immediately initiate the Windows exit sequence.

BailOut is FreeWare and can be freely used and distributed but not changed or sold.

Other programs available from Open Windows:

WinUpD8R - If you use "floppy net" to move files back and forth between computers, you NEED this program!! WinUpD8R can automatically keep your files up-to-date on multiple machines while providing (at least) triple-redundant backup of your data in the process. No cables or modem transfers necessary.   Windows 3.1 required. Look for UPD8R.ZIP in CompuServe's WINSHARE forum or UPD8R_nn.ZIP on local BBSs (where nn is the latest version number - 30 at this writing).

WinFlash - WinFlash is a first-rate flash card program for Windows. Allows Question/Answer (Q&A) pairs of up to 1000 characters each. Color, Font, .BMP, and .WAV support. Priority modes allow asking "tough" questions more often. Q&A files are easily constructed using NotePad or other ASCII text editor. Easy for your children to use - no computer experience needed. Memorize coursework or professional material fast! Windows 3.1 required. Look for FLASH.ZIP in CompuServe's WINSHARE forum or FLASH_nn.ZIP on local BBSs (where nn is the latest version number - 30 at this writing).

WinPrice - WinPrice selects the best pricing between two alternatives. No more struggling with the "Is 1 liter of GummySlurp for $1.29 a better buy than 1 gallon for $4.88 ?" issue!! The program automatically accounts for differences in the units used in the two cases AND will give its results in either metric or English units as desired. Easy to use - educational for children. Windows 3.1 required. Look for PRICE.ZIP in CompuServe's WINSHARE forum or PRICE_nn.ZIP on local BBSs (where nn is the latest version number - 10 at this writing).
