The help is not yet installed.

The AmigaGuide helpfiles are located on the TurboCalc Disk 2.

How to Install the help:

-----

\* Simply start "Install TurboCalc" in the root directory of Disk 1.

Or (if you prefer to do it yourself):

\* Copy the help files (either all or those you need)

to the subdirectory >Help< in the TurboCalc-Drawer.

(With WorkBench: Drag the icons of the help file(s) to the drawer >Help< and release the mouse button there.

Skip the warning "File already exists" with "Replace All!".

(This error occurs due to this file that you are currently reading - it has been added to inform you about the fact that the help is not yet installed.)
