Tracks&Fields demo version ©1996 Anders Larsson

Welcome to the world of Tracks&Fields, you have now in your hands a stripped version of this program (no sysex editor, commandlist editor etc.)

To receive a full version of this program send (email) me your name, address, email address, 300 swedish crowns (USD 46 ) and additional SEK 30 (USD 5), if you want to receive it by snail mail.

For further updates, which also will be announced at the Tracks&Fields homepage, send me SEK 150 (USD 23 ) and additional SEK 30 (USD 5), if you want to receive it by snail mail.

This is meant to be the full documentation of Tracks&Fields, but since I have recently started updating this wonderful program, I haven't had the time nor the motivation to write a full documentation. However is something unclear you can always get in touch with me at: d3dick@dtek.chalmers.se  
spirou@cd.chalmers.se  
or write me at the adress below.

As soon as I have made a full documentation it will be available at the Tracks&Fields homepage at:
