MUI

E-Mail-Ware:

If you use this program, please write me a
mail

.

1.2 Overview

Overview:

This program is like Mega/Note (found in Aminet). My program uses MUI.
You can enter some text and it saves it to a file.

1.3 Installation

Installation:

Copy the binary wherever you want.

A data file will be created in the same path.

1.4 Usage

Usage:

Enter text. Quit program.

If you load the program next time, text is still there.

Clipboard functions (cut/copy/paste) are working. You can also print the text.

1.5 Author

Author:

Daniel Hirscher
Müllerstraße 18
88045 Friedrichshafen

1.6 Warranty

No warranties are made for this program.
Use it at your own risk!

1.7 reqs

System requirements

- Amiga, Kickstart 3.0 or higher (maybe it works with 2.0)
 - MagicUserInterface
 - MUI
 - by Stefan Stuntz
 - TextField.gadget (can be found in Aminet)
-

1.8 mui

MUI is Copyright by Stefan Stunz

A free demo version of MUI can be found in Aminet.
