```

1.19 Directory selection help

You are looking at the directory sorted version of the copmlete ←
contents
listing of Aminet. Every top level directory is one AmigaGuide page. Just
click the directory you would like to see. Help on viewing and extracting
the files is available
here
.

You can also do a search from this page. Matches will be sorted by
directory.

1.20 File view help

Whenever you see an Aminet file list, you can click the archive name to
unpack that archive to RAM:, where a new directory will be created for
it so you can clean up easily.

The only exception is the top level 'Index' file where clicking the
archive name will:

    - View the graphics inside an archive (directory pix/ and gfx/anim/)
    - Play the sounds inside an archive   (directory mods/ and mus/smpl/)
    - Display the texts inside an archive (directory docs/)
    - Extract the archive to RAM: (all other directories)

Also, you can click the description of the archive to view the .readme of
the same archive. Note that the readme files without a + in front of
their description are usually short, with no more info than you see
in the list anyway.

1.21   File is not available

Sorry, but the file you just selected is not on your Aminet CD. You can
tell that from the asterisk * in front of the description. It was
unavoidable to leave out a majority of the Aminet files since Aminet
is 1.5G currently, and only 660M fit on one CD.

1.22   File is not available

Sorry, but the file you just selected is not on your Aminet CD. You can
tell that from the asterisk * in front of the description. It was
unavoidable to leave out a majority of the Aminet files since Aminet
is 1.5G currently, and only 660M fit on one CD.

However, you can find this file on the Aminet CD 1 from Walnut Creek.

1.23   File is not available

Sorry, but the file you just selected is not on your Aminet CD. You can
tell that from the asterisk * in front of the description. It was
unavoidable to leave out a majority of the Aminet files since Aminet
is 1.5G currently, and only 660M fit on one CD.

However, you can find this file on the Aminet CD 2, which you can get
from from Walnut Creek and many other places. Walnut Creek's address:

    Walnut Creek CDROM
    Suite 260
    1547 Palos Verdes Mall
    Walnut Creek CA 94596
    USA
