1.29 Letter selection help

You are looking at the alphabetically sorted version of the ↔
conents listing
of Aminet. Pick a letter by clicking on it, or click 012 for the files that

don't begin with a letter. Help on viewing and extracting the files is available

here

.

You can also do a global search from this page. The matches will be sorted by name.

1.30 File view help

Whenever you see an Aminet file list, you can click the archive name to unpack that archive to RAM:, where a new directory will be created for it so you can clean up easily.

The only exception is the top level 'Index' file where clicking the archive name will:

- View the graphics inside an archive (directory pix/ and gfx/anim/)
- Play the sounds inside an archive (directory mods/ and mus/smpl/)
- Display the texts inside an archive (directory docs/)
- Extract the archive to RAM: (all other directories)

Also, you can click the description of the archive to view the .readme of the same archive. Note that the readme files without a + in front of their description are usually short, with no more info than you see in the list anyway.

1.31 File is not available

Sorry, but the file you just selected is not on your Aminet CD. You can tell that from the asterisk * in front of the description. It was unavoidable to leave out a majority of the Aminet files since Aminet is 1.5G currently, and only 660M fit on one CD.

1.32 File is not available

Sorry, but the file you just selected is not on your Aminet CD. You can tell that from the asterisk * in front of the description. It was unavoidable to leave out a majority of the Aminet files since Aminet is 1.5G currently, and only 660M fit on one CD.

However, you can find this file on the Aminet CD 1 from Walnut Creek.

1.33 File is not available

Sorry, but the file you just selected is not on your Aminet CD. You can tell that from the asterisk * in front of the description. It was unavoidable to leave out a majority of the Aminet files since Aminet is 1.5G currently, and only 660M fit on one CD.

However, you can find this file on the Aminet CD 2, which you can get from from Walnut Creek and many other places. Walnut Creek's address:

Walnut Creek CDROM
Suite 260
1547 Palos Verdes Mall
Walnut Creek CA 94596
