# Chapter 1

## Demodex

### 1.1 The demos on Aminet

The demos on Aminet CD 46

```
Best demos
The top demos on this CD, ready to run

Good demos
The good demos on this CD, ready to run

Compatible demos
The remaining demos that work on an A4000/040

Other demos
The demos that cannot be run directly
```

Make sure you have no unsaved work in memory when starting demos, they may crash or alter your system configuration. Also, many demos force you to reboot.

And here's the complete list of demos. Some don't work on accelerated Amigas, others need to be installed, and some are just data files for other demos.

```
demo/aga    Demos requiring AGA chipset
demo/euro   Euro demos in file form
demo/intro  Intros
demo/mag    Demo coder magazines
demo/slide  Image oriented demos
demo/sound  Sound oriented demos

### 1.2 The Boot Tool

The Boot Tool

---

Don't you hate demos that have no exit, thereby forcing you to reboot after every demo viewed? Well, I can't change those demos, but I can make the rebooting as painless as possible.

If you drag the program 'BootTool' from the Tools drawer to your WBStartup drawer (OS 2.0 and up), you'll be seeing the list of no-exit demos at every startup. You can click any of those demos to run it. After the reboot, that demo and all that were above it will be removed from the list automatically.

If you want to show all demos again, click 'Show All' at the bottom of the list and reboot. If you want to stop viewing demos, click 'Uninstall' at the bottom of the list. You can, however, drag the BootTool to the WBStartup drawer again and continue from where you left off.

```

Install      BootTool in your WBStartup drawer
Run BootTool for a first go

```

### 1.3 Best demos on this CD

## 1.6 Non startable demos on this CD

These are the demos that cannot be run directly on an Amiga 4000.  
 Check the readmes to see why, 'Action: NoA4000' means this crashes,  
 'NoStart' means that it needs to be installed first.
