Thankx
    A Active Production from Active Development Team ←
    (2:200/210.0)
```

### 1.2 Introduction

This program is CopyRight, But you may include it on MEBBSNet Support Sites.

### 1.3 What You Need

---

You Need:

Arexx v1.15 (c) William Hayes  
 MEBBSArexx.Library v1.7 or above  
 MEBBSNet Bulletin Board System v0.155 or above.

As Off MEBBSNet v0.156 you must have RX in your Sys:Rexxc to.

(Bowling if your are reading this i hate that thing with)  
 (RX in just that dir!)

(as you don't know by now this prg is made in Arexx)

If you use the WBStartup Drawer to start arexx.  
 Please consider this insted as a StartUp to Arexx.  
 It's The REAL Working one that follows with the Orginal Arexx Disk:  
 And you never get any big problems with Rexx Scripts that  
 not loads the library you need. (like my scripts. I NEVER put)  
 (a loading sequence to the rexxsyslib and rexxsupport lib in)  
 (any of my scripts)

```
-->CUT
sys:c/loadlib sys:libs/rexxsyslib.library
if error
  echo "Couldn't load rexxsyslib.lbrary"
  quit 20
endif
sys:c/loadlib sys:libs/rexxsupport.library
sys:c/waitforport -i REXX
if warn
  sys:c/rexxmast
  sys:c/waitforport REXX
endif
sys:c/rxlib rexxsupport.library 0 -30 0
-->CUT
```

## 1.4 Installation

Put HangUp.rexx, logon.rexx and logoff.rexx in MEBBSNet:Rexx

And edit you menu<menynr>.menu and add:

```
Option 'Z':                                ; mebbs fast logoff
  Function arexx MEBBSNet:Rexx/HangUp
  end
```

and Your Doors directory MUST be Assign to Doors:  
 and after all this you are ready to go.

PS.

NewUser (Access Level 0) won't see the LastCaller List

DS.

PS2.

You don't have to do any directory or like that  
The prg does it for you when you use it the first time.

DS2.

## 1.5 History

version 0.1 - 4.11

Only To StarNet and Mebbsnet up to version 0.140

version 4.12 Realese date : 1994-08-11

Code HangUp.rexx: 1183 Bytes large.

Code LogOn.rexx : 7444 Bytes large.

Code LogOff.rexx: 1707 Bytes large.

## 1.6 Buggs And Comments

Don't said i don't told you so after you have read this.

DISCLAIMER

This software is provided "as-is" and the  
author

accepts no responsibility for damage and/or loss of data/equipment  
software resulting from the use of this.

BUGS

If you find any BUGs PLEASE let me know so i can fixed them  
ASAP.

COMMENTS

If you have any suggestions or comment about this prg.  
please contact the  
author

.

## 1.7 How to contact the author

Snail Mail:

Mikael Johansson  
Barnstensgatan 5a  
253 61 Helsingborg

FidoNet: 2:200/210.0

AmigaNet: 39:163/105.0

InterNet: Mikael.Johansson@AnkeBorg.se.ct

InterNet: Active@AnkeBorg.ct.se

BBS: AnkeBorg +46-42-293775

## 1.8 Thankx

Thankx

=====

Thankx goes to:

William Hayes        For ARexx , The best language yet.

William Bowling     For MEBBSNet

Stefan Von Starten For just being a Support BBS to MEBBSNet  
(Stefan you area doing a great JOBB!)
