1.2 Introduction

Introduction

The idea for this editor all came about,because after playing about twelve
season of Championship Manager, my save game became corrupted. Lots of the
players had strange values for passing and so on, and my club were suddenly
one thousand two hundred million pounds in debt. I decided to try and hack
into the program, and try and fix the problem. After finding out what a few
values represented in the savegame file, the project sort of snowballed, and
I ended up joining forces with
Ronnie
, to write a full editor for the game.

1.3 Distribution

Distribution and Copyright

Championship Manager Editor is SHAREWARE. It is NOT Public Domain. The
authors give permission for CmEd to be freely distributed, providing that no
commercial gain is made from its distribution, and no modification is made
to the original distribution.

Organisations or people wishing to include CmEd on a coverdisk or CD-ROM,
should contact me first to sort out the details. This EXCLUDES the AMINET
CD-ROM or FRED FISH CD-ROM collections.

Disclaimer

This software is provided "as-is" and the authors accept no responsibility
for damage and/or loss of data/equipment resulting from the use of this
software.

Registering

The unregistered version of CmEd has some options disabled, but most of the
main editing options are functional. If you keep CmEd for more than an
evaluation period, please send the shareware fee to the authors. Please
sendinternational money orders or, if your willing to risk it, cash. Cheques
are only acceptable from within the UK. Please make cheques/orders payable
to "Paul Whelan".

Shareware Fee

UK Pounds   10.00
US Dollars   20.00
DM   25.00

(or equivalent in currency)

If you have an e-mail address, please enclose it, so updates can be
e-mailled to you, or otherwise, if you prefer to recieve CmEd via Snail
Mail, please enclose one 3.5" disk.

Please pay the fee: CmEd has taken up a LOT of our valuable time both in
decoding the save game file and writing the editor.

Consider, how you can improve Championship Manager by using it! Paying the
fee will encourage us to continue to develop CmEd, and add more features to
it.

1.4 Requirements

Requirements to run CmEd

Unfortunately at the moment CmEd will only run on machines with a 68020+ or
better processor. This is hopefully only a temporary problem, but due to
the fact that CmEd handles a number of complex internal strings, it make
take a while before a suitable version for a 68000 processor is fast enough
to run.
