

The Devil's Doorknob Newsletter

This is a sampling of a monthly newsletter you could subscribe to. The cost to subscribe to this newsletter for one year would be \$7.00, that's only about .58 a month. The newsletter contains many useful things, BBS listings, classified ads, question & answer help column, listings of current events, updates and in depth descriptions of new functions and features added to the BBS, and more.

If you are a sysop and wish to list your BBS you can either e-mail me a text ad, call me to enter a text ad, or create an ad in Windows .WRI (Write) format and upload it to the sysop directory of the BBS, with a description such as : .WRI BBS advertisement. The BBS listings printed will be checked before each issue is sent out in order to confirm they are still functioning.

If you wish to have a classified ad printed, you can e-mail a text ad, call in a text ad, or upload a .WRI ad. Your classified ad can be for anything you wish, items being sold or wanted, employment opportunities, etc...

The same goes for any current event you wish to have listed.

While I am here, I will give you a listing of classified ads for items & services I have available or want.

*****New things in store for The Devil's Doorknob*****

I am currently working on setting up the new version of WWIV, v4.24. In this version there is message and transfer directory conferencing, which will allow greater ease in locating the messages or files that you want. I will be installing multiple full screen editors for use when posting. I will be installing many more games (hopefully registered with your donations). I am creating more specialized transfer directories to make it easier to locate what you wish to download.

I plan on putting in many modifications to the new version of the board, as each mod is added a brief description will be posted on the board and a more lengthy description will be printed in the newsletter. Right now, the two most recent modifications have been the addition of

a personal tag, and ass points. The personal tag is a simple note that you can edit from the Defaults section, the note will appear at the bottom of every post and e-mail as long as you enter yes when saving your messages. The ass points are automatically given to a user if they hang up on the board, they are manually given if they board has been locked (thus disabling the automatic feature.), they are also manually given if you post an off topic crap post just to increase your ratio. Once 10 ass points are accumulated you will no longer be able to access the transfer section until they are removed.

As support for the board inscreases, so will support for the users, there will be more services, parties, events, etc... Any corospondence to me by mail should be addressed to:
