

Thank you for downloading this software from Double Oak Software. I wrote these games to entertain my kids when they became bored with minesweeper. The first time I uploaded them I had over 1000 downloads in less than a month and 5 months later only one person has registered; therefore, this time around there is a limited number of plays allowed before the games will no longer load. If you enjoy the games and wish to continue using them after the trial period just register by sending \$18.00 to

Double Oak Software
125 Double Oaks Drive
Lewisville, TX 75067

To load the games onto your desktop simply start file manager and program manager and arrange the windows so you can see both. Drag the *.exe files from file manager to the group in program manager in which you want the program icon to appear. Make sure all the files listed in FILES.TXT are located in the same directory to ensure the programs work correctly.

Good luck and I hope to hear from you.
