MSG1,C,30	MSG2,C,30	MSG3,C,30	AC
Make note of the error # and	report problem to BES. Free up	more memory and try again.	2
Report problem with error # to	BES. Exit and restart program.	If it fails, reinstall program	2
Report problem with error # to	BES. Exit and restart program.	If it fails, reinstall program	2
Try to continue; if it fails	then exit and restart program.	If unsuccessfull, reinstall.	3
File is missing. Exit and try	restarting program. If it	fails, reinstall the program.	2
Report problem with error # to	BES. Exit and restart program.	If it fails, reinstall program	2
File is missing. Exit and try	restarting program. If it	fails, reinstall the program.	2
Out of memory space. Free up	memory, unload TSRs and device	drivers and restart program.	2
Out of memory space. Free up	memory, unload TSRs and device	drivers and restart program.	2
File does not exist. Try a	reconstruction. If it still	fails try a reinstallation.	2
Report problem with error # to	BES. Exit and restart program.	If it fails, reinstall program	2
Report problem with error # to	BES. Exit and restart program.	If it fails, reinstall program	2
Report problem with error # to	BES. Exit and restart program.	If it fails, reinstall program	2
Report problem with error # to	BES. Exit and restart program.	If it fails, reinstall program	2
Report problem with error # to	BES. Exit and restart program.	If it fails, reinstall program	2
Out of memory space. Free up	memory, unload TSRs and device	drivers and restart program.	2
Report problem with error # to	BES. Exit and restart program.	If it fails, reinstall program	2
File is missing. Exit and try	restarting program. If it	fails, reinstall the program.	2
Out of memory space. Free up	memory, unload TSRs and device	drivers and restart program.	2
Report problem with error # to	BES. Exit and restart program.	If it fails, reinstall program	2
Out of memory space. Free up	memory, unload TSRs and device	drivers and restart program.	2
Out of memory space. Free up	memory, unload TSRs and device	drivers and restart program.	2
Error opening file. Check the	CONFIG.SYS file for BUFFER an	FILES parameter settings.	2
Error closing file. Check for	sufficient disk space. Try	exiting and restarting progr	2
File is missing. Exit and try	restarting program. If it	fails, reinstall the program.	2
Error writing file. Check the	amount of disk space available	or disk area integrity.	2
File is missing. Exit and try	restarting program. If it	fails, reinstall the program.	2
Report problem with error # to	BES. Exit and restart program.	If it fails, reinstall program	2
Report problem with error # to	BES. Exit and restart program.	If it fails, reinstall program	2
File is missing. Exit and try	restarting program. If it	fails, reinstall the program.	2
File is missing. Exit and try	restarting program. If it	fails, reinstall the program.	2
Index file error. Try the	reconstruct procedure. If it	fails reinstall program.	2
File is missing. Exit and try	restarting program. If it	fails, reinstall the program.	2
File is missing. Exit and try	restarting program. If it	fails, reinstall the program.	2
File is missing. Exit and try	restarting program. If it	fails, reinstall the program.	2
Report problem with error # to	BES. Exit and restart program.	If it fails, reinstall program	2
File is missing. Exit and try	restarting program. If it	fails, reinstall the program.	2
Index Sync Error. Try the	reconstruct procedure. If it	fails then reinstall program.	2
Out of memory space. Free up	memory, unload TSRs and device	drivers and restart program.	2
Report problem with error # to	BES. Exit and restart program.	If it fails, reinstall program	2
Out of memory space. Free up	memory, unload TSRs and device	drivers and restart program.	2
Printer is either disconnected	or offline. Check the system	setup with Config Utility.	1
Not Enough Memory. Free men	by unloading TSRs and check	Config.sys for Buffers > 25.	2
File is missing. Exit and try	restarting program. If it	fails, reinstall the program.	2
Report problem with error # to	BES. Exit and restart program.	If it fails, reinstall program	2
Out of memory space. Free up	memory, unload TSRs and device	drivers and restart program.	2
Out of memory space. Free up	memory, unload TSRs and device	drivers and restart program.	2
File is missing. Exit and try	restarting program. If it	fails, reinstall the program.	2
Report problem with error # to	BES. Exit and restart program.	If it fails, reinstall program	2
Out of memory space. Free up	memory, unload TSRs and device	drivers and restart program.	2
Out of memory space. Free up	memory, unload TSRs and device	drivers and restart program.	3
Report problem with error # to	BES. Exit and restart program.	If it fails, reinstall program	2

Out of memory space. Free up	memory, unload TSRs and devic	drivers and restart program.	2
Report problem with error # to	BES. Exit and restart program.	If it fails, reinstall program	2
File is missing. Exit and try	restarting program. If it	fails, reinstall the program.	2
Report problem with error # to	BES. Exit and restart program.	If it fails, reinstall program	2
File is missing. Exit and try	restarting program. If it	fails, reinstall the program.	2
Out of memory space. Free up	memory, unload TSRs and devic	drivers and restart program.	2
Out of memory space. Free up	memory, unload TSRs and devic	drivers and restart program.	2
Out of memory space. Free up	memory, unload TSRs and devic	drivers and restart program.	2
Out of memory space. Free up	memory, unload TSRs and devic	drivers and restart program.	2
Report problem with error # to	BES. Exit and restart program.	If it fails, reinstall program	2
File is missing. Exit and try	restarting program. If it	fails, reinstall the program.	2
Out of memory space. Free up	memory, unload TSRs and devic	drivers and restart program.	2
Report problem with error # to	BES. Exit and restart program.	If it fails, reinstall program	2
Report problem with error # to	BES. Exit and restart program.	If it fails, reinstall program	2
Report problem with error # to	BES. Exit and restart program.	If it fails, reinstall program	2
