AddNews Newsgroup conversion tool

This is a simple utility that will import a list of newsgroups in a plain text file into Wildcat.

Usage: ADDNEWS <name of text file> <starting conference number>

Example:

ADDNEWS newsgroups.txt 101

The text file must be formatted with one newsgroup name per line. ADDNEWS will ignore anything after the first space in the line. Here is an example of a properly-formatted text file:

```
alt.1d                  One-dimensional imaging, & the thinking behind it.
alt.2600                The magazine or the game system.  You decide.
alt.2600hz              Like alt.mag.2600, only different.
alt.266                 The fauna of 266 Flora.
alt.3d                  Three-dimensional imaging.
alt.abortion.inequity   Paternal obligations of failing to abort unwanted child.
