### **Next**

Click the **Next** button to save the information in this screen, and go to the next screen.

### **Cancel**

Click the **Cancel** button to close the program and discard the data you entered.

## **BBS information**

The information on this screen will be used to create your Customer Information record at Mustang Software. This information helps Mustang Software determine the direction of future development of Wildcat! BBS.

### **Registration Number**

Your registration number uniquely identifies your copy of Wildcat! BBS. This number is filled in automatically by the program, and is shown here for your reference only.

### **# Lines**

Type the total number of lines (modem, Internet and local) on your BBS that are actually available to callers.

### **Version**

The version number is filled in automatically by the program, and is shown here for your reference only.

### **BBS Name**

Type the name of your BBS here.

### **BBS Phone**

Type the phone number of your BBS here. If you have more than one phone number, use the number you actually publish, or the first number in your hunt group or rotary.

### **BBS URL**

If your BBS is connected to the Internet, enter your URL (Uniform Resource Locator) or IP (Internet Protocol) address here.

### **Type of BBS**

Association  
Business  
Education  
Government  
Hobby System  
Internet Service Provider  
Subscription

### **OK to publish BBS Name, Phone number and URL?**

Check this box if you would like to add the contact information on this page to Mustang Software's Wildcat! 5 BBS list. This information is available to the public on Mustang Software's World Wide Web page (<http://bbs.mustang.com>)  
Clear this box if you prefer not to list your BBS information publicly.

### **Back**

Click the **Back** button to return to the previous screen.

### **Next**

Click the **Next** button to save the information in this screen, and go to the next screen.

### **Cancel**

Click the **Cancel** button to close the program and discard the data you entered.

## **Purchase information**

The information on this screen will be used to create your Customer Information record at Mustang Software. This information helps Mustang Software determine the direction of future marketing of Wildcat! BBS.

### **Where was the product purchased?**

If you purchased Wildcat! BBS from a software store, mail order outlet, value-added reseller or other distributor, type the seller's company name here. If you bought Wildcat! directly from Mustang Software, type "MSI" in this field.

### **Date this product was purchased?**

Your date of purchase helps to establish your eligibility for the initial free update period.

### **Which communications package do you use?**

Type the name of the communications software package (for instance *QmodemPro* or *HyperTerminal* ) you use most often to make outgoing calls.

### **Which BBS software are you switching from?**

If you are upgrading from an earlier version of Wildcat! BBS, or from another BBS software program, please type the program name and version number here.

If you have never run a BBS before, leave this field blank.

### **Back**

Click the **Back** button to return to the previous screen.

### **Next**

### **Log of files received**

This screen contains a list of the files you received, and notes any errors that may have occurred during the update.

#### **Finish**

Click the **Finish** button to complete the update and close the program.

#### **Back**

Click the **Back** button to return to the previous screen.

#### **Next**

Click the **Next** button to save the information in this screen, and go to the next screen.

#### **Cancel**

Click the **Cancel** button to close the program and discard the data you entered.

## Dialing information

This screen allows you to select dialing options that allow your modem to connect with the Registration Server.

### To access an outside line, dial \_\_\_\_

If you are calling from a PBX or other phone system that requires you to dial a special number to get an outside line, check this box, and enter the number here.

### My current area code is \_\_\_\_

If you are calling from within North America, enter the three digit area code for the phone number you're using to place the outgoing call.

### I'm dialing from outside North America. The dialing prefix for United States is \_\_\_\_

If you are calling from outside North America, check this box, and enter the number to place an international call to the United States. If you are not sure what number to enter, call your local phone company or the Operator.

### To dial long distance, dial \_\_\_\_

If you are calling from within North America and must enter a special number to place a long distance call, enter that number here.

### Dial using credit card

If you want to charge the call to a telephone credit card, check this box and enter the calling card number in the field.

### Back

Click the **Back** button to return to the previous screen.

### Next

Click the **Next** button to save the information in this screen, and go to the next screen.

### Cancel

Click the **Cancel** button to close the program and discard the data you entered.
