

Batch Converter Plug-In DEMO for Sound Forge 4.0

August 15, 1996

Copyright © 1991-1996 Sonic Foundry, Inc. All rights reserved.

The Batch Converter Plug-In for Sound Forge 4.0 DEMO is intended to demonstrate the features and use of the Batch Converter Plug-In available from Sonic Foundry. This DEMO installs with a *small subset* of the Sound Forge 4.0 DEMO. Many features are missing from the Sound Forge package. However, you can install the Sound Forge 4.0 DEMO and the Batch Converter Plug-In DEMO together to get a more complete demonstration package.

If you have never worked with Sound Forge, it is recommended that you do so before evaluating the Batch Converter Plug-In. A complete DEMO of Sound Forge is available from Sonic Foundry.

To really get a feel for the usability and features of the Batch Converter Plug-In for Sound Forge, we highly recommend you take the time to browse the Help file. The Help file contains the entire text from the manual. If you have any questions, feel free to contact Sonic Foundry's technical support between the hours of 10 AM and 5 PM CST.

Contents

This document contains information on the following topics:

- 1.0 Welcome
- 2.0 More Troubleshooting
- 3.0 Sonic Foundry, Inc.

1.0 Welcome

Thank you for purchasing the Batch Converter Plug-In for Sound Forge 4.0. If you have not registered the Batch Converter Plug-In with Sonic Foundry, be sure to do so either by filling out the registration card included with your manual or by opting to register online after the installation process. Only after you have registered will we be able to provide you with technical support and inform you of new products and updates.

For the latest information on updates, plug-ins, technical notes, and new products, be sure to visit Sonic Foundry's Home Page:

<http://www.sfoundry.com>

If you have comments or suggestions on any of Sonic Foundry's products, we would love to hear from you. Send email to develop@sfoundry.com or contact us using any method described in the last section of this document.

Enjoy the program,
The Sonic Foundry Team
