

LIABILITY DISCLAIMER -- READ BEFORE INSTALLING

Make It PLAY ver 1.0

The Make It PLAY software and documentation is provided for your personal use and may be distributed freely.

The entire risk arising out of the use or performance of such product and documentation remains with you.

In no event shall the author or its suppliers be liable for any damages whatsoever (including, without limitation, damages for loss of business profits, business interruption, loss of business information, or other pecuniary loss) arising out of the use of or inability to use the products or documentation, even if suppliers has been advised of the possibility of such damages.

Because some states/jurisdictions do not allow the exclusion or limitation of liability for consequential or incidental damages, the above limitation may not apply to you.

Remember use at your own risk.

Description

From applet Sound in Control Panel of Windows 95, You can only assign a wave file to events of some default program.

Make It PLAY lets You add any 32Bit program to this list,letting you assign a Wav file for each of 8 most common events (Open program, exit, maximize, minimize, restore down, restore up, menu command and menu popup).

Setup

To install Make It PLAY run setup.

Uninstall

- 1) Ensure that Make It PLAY is not running.
- 2) Go to Start menu -> Settings -> Control Panel, click Control Panel
- 3) Double click on "Add/Remove Programs" icon.

- 4) Select "Make It PLAY" from the list of programs.
- 5) Click on the "Add/Remove" button to uninstall, confirm by clicking the "Yes" button.

Please Note: The uninstall feature only deletes files installed by Make It PLAY, and not events created by the program. To delete them you have to do so with Make It PLAY

Instruction

Press Add Button to open a window to specify the program you wish to add.

After that you have to choose wich event will be added to your program.

Press OK to Confirm or Cancel To Abort.

Once you have added your program you can go to Sound Applet in Control Panel and specify a file WAV for each event added.If you want you can save your scheme.

Clicking on the combo Box a list of program added by Make it PLAY will be displayed. Clicking on a program and then on Remove button you will delete that program and his events from sound applet.
