

## **SnagIt Update List - Current version 2.00.07**

- 1) Hiding the Start Up window when specified from the command line or the "win.ini" file. (01)
- 2) The command line has priority over settings in the "win.ini" file. (01)
- 3) Fixed bug with Windows 3.0 printer driver (Windows version 3.0a was ok) (02)
- 4) Automatically clear the StartUp window after the display bitmap is loaded. (02)
- 5) Added the display bitmap. (03)
- 6) Added support for "new" version of Windows. (03)
- 7) Fixed support for 32768 color VGA boards (04)
- 8) Added info about screen and printer color (04)
- 9) Added ability to disable the printer aspect ratio correction. I.E. set it 1 to 1. (04)
- 10) Fixed 8514/A clipboard Error #20 problems (05)
- 11) Fixed Bug in the Clipboard Chain process (05)
- 12) Created the shareware version of SnagIt (06)
- 13) Fixed TIFF file output for new version of Word for Windows (07)
- 14) Fixed the TIFF setting in WIN.INI. Now able to restart SnagIt with TIFF file format selected. (07)

Thanks for all of the calls and encouragement. We continue to strive for the easiest and most usable utilities available.
