1.2   Introduction...

```
            Introduction
~~~~~~~~~~~~~
  This package contains 13 new Hight-Quality Magic-Backgrounds for
  use with Martin  Huttenloher's MagicWB. I created 40 backgrounds
  before - this is the fourth release.

  I always tried to create patterns wish have no visible borders and
  can be repeated without looking trivial. I didn't want to be one of
  the authors wo put a dozen copies of the same pattern into an
  archive - just with different colors or with serveral figures drawn
  on it. I think thats not worth downloading...
```

This time all backgrounds were taken from several photos. I
processed the raw-material with ADPro 2.5.0 and finished it with
DPaint 4.5, pixel by pixel - serveral days of work.

Result: the best backgrounds available (IMHO)!
Additionally I have included two classic Boot-Pictures and two
older backgrounds which fit very well into this package ;-)

As you can see this package is
              SHAREWARE
                .
My previous releases were freeware - I just asked to send me comments
by e-mail. So far, only a few nice guys (around 12) send me mail.
BUT: I know that very much people use my backgrounds everywhere:
on their Workbench, with MUI, inside DEMOS, on WWW-pages,...

Therfore I decided to publish seven of 13 backdrops crippled:
they are marked with a cross. You will receive a peronalised
package if you
              register
                .

1.3 COPYRIGHT...

              COPYRIGHT
~~~~~~~~~

  This package is SHAREWARE! It can be freely distributed and
  copied, as long as the following conditions are fulfilled:

  * The sales price must not be higher than the cost of an (empty)
    disk plus a nominal copying fee plus costs for shipping. The total
    price must not be higher than 5 US$ or 7 DM or the equivalent in
    any other currency (on CD-ROM: 25US$ or 35DM).

  * All parts of the archive and the documentation must be complete.
    The distribution of single parts or incomplete subsets of the
    original distribution is not allowed.

  * These backgrounds or parts of it may not be sold in combination
    with or as part of commercial software. However, I may allow
    exceptions to that restriction in individual cases. If you want to
    spread this package as a supplement to a commercial program,
    please contact me. Until you receive a written permission from
    me, do not assume you may distribute Magic-Backgrounds with or as
    part of your commercial program.

  * The pictures and documentation may not be changed in any way.
    Exception (this means: acceptable) is the use of archivers such as
    'LHA' and 'LZX', as long as it remains possible to retrieve the
    original data.

  Magic-Backgrounds-5 is SHAREWARE, this means I request those users,
  who regularly use my backdrops (longer than one week), to send me

```
the shareware fee of 7 US$ or 10 DM.

REGISTERED USERS will receive the full package without crippled
pictures via e-mail! If you live in germany it will be possible
to receive the package via snail-mail (just
              ask me!
              ).

BTW: There is NO WARRANTY of any kind and I won't feel responsible
