IMPORTANT !

I'm looking for any information about a certain algorithm developed about this game by J. Murphy. I would appreciate if you get in contact with me if you know it.

1.4 The game

The aim of this game is to get four stones of your colour (white) in a row. Rows can be horizontal, vertical, or diagonal.

The player and the computer alternately put a stone on the board. There is gravity, so when you enter a stone into a certain column, it will 'fall down' onto the lowest free place.

1.5 4

Match between P4 and other Four In A Row game

Rule : The first who wins 10 games, win the match.

1st opponent :

Four In A Row 1.1

CAM 729

1993, Richard G.J. Odekerken, Hollande

| Four In A Row

-----+-----

P4 level 1 | 10-5

P4 level 2 | 10-2

2nd opponent :

Connex-4

Fish 511

1991, A. Millet, Royaume Uni

| Connex IQ=1 | Connex IQ=2

-----+-----+-----

P4 level 1 | 10-8 | 3-10

P4 level 2 | not played | 11-9

1.6 Installation

This game only needs Kickstart 2.0
